Explanatory Memorandum

Resolution:

Ratification of the issue of Stapled Units pursuant to a Placement

1.1 Placement of Stapled Units

On 27 November 2020, the Fund announced a placement to raise approximately \$15.1 million (**Placement**). Pursuant to the Placement, on 3 December 2020 the Fund issued 8,558,845 new Stapled Units at a price of \$1.77 per Stapled Unit (**Placement Units**).

The proceeds from the Placement are being used to fund follow-on capital across current investments and other strategic M&A opportunities.

Placement Units were issued to 'Wholesale Clients' and sophisticated investors identified by Moelis Australia Advisory Pty Ltd, Shaw and Partners Limited and Aitken Murray Capital Partners Limited (the **JLMs**). The Placement was also fully underwritten by the JLMs.

1.2 What is now proposed?

Members are asked to ratify the Placement which is described in section 1.1 to refresh the Fund's placement capacity for the purposes of ASX Listing Rule 7.4 and for all other purposes.

1.3 Why is this Resolution being proposed?

Under ASX Listing Rule 7.1, and subject to the exceptions set out in ASX Listing Rule 7.2, an entity may not, without approval, issue by way of placement in any 12-month period, more than 15% of the number of securities it has on issue 12 months before the date of the placement.

The Placement described in section 1.1 above did not fit within any of the exceptions set out in Listing Rule 7.2 and so was made in accordance with the Fund's placement capacity under ASX Listing Rule 7.1. Accordingly, the Fund has used up all of its 15% placement capacity under Listing Rule 7.1.

This reduces the Fund's capacity to issue further Stapled Units without Member approval under ASX Listing Rule 7.1 for the 12-month period following the Placement. ASX Listing Rule 7.4 allows the Member to approve an issue of Stapled Units after it has been made. If they do so, the issue is taken to have been approved under Listing Rule 7.1 and does not reduce the Responsible Entities' capacity to issue further Stapled Units without Member approval under that rule.

Accordingly, if the proposed Resolution is passed, the issue of the Placement Units will be ratified, and the Fund's placement capacity will be refreshed which will allow the Responsible Entity to undertake further placements of up to 15% of the number of Stapled Units on issue within the following 12-month period.

If the Resolution is not passed, the Responsible Entity cannot undertake any further placements for 12 months.

1.4 What does a refresh of the Fund's placement capacity mean for Members?

Advantages

The effect of an approval of the Resolution would be that the Placement Units issued under the Placement would not reduce the number of Stapled Units that could be issued by the Fund without Member approval under Listing Rule 7.1. This will refresh the Fund's capacity to issue under Listing Rule 7.1.

Approval of the Resolution will also have the effect of increasing the base number of Stapled Units from which a further 15% calculation will be made.

The issue of the Placement Units provided funding flexibility in respect of follow-on investment opportunities and strategic M&A acquisition opportunities. The Fund continues to actively seek acquisition opportunities which complement its investment strategy and existing portfolio. Refreshing its placement capacity gives the Responsible Entity the flexibility to raise additional funds to meet such opportunities by issuing up to a further 15% Stapled Units.

If an opportunity arises to acquire an attractive asset or assets that are within the Fund's investment strategy, then an ASX announcement will be made if required.

Disadvantages/risks

The key potential disadvantage and risk associated with approving the Resolution is that if the Fund issues further equity by way of another placement of up to 15% then the percentage holdings in the Fund of Members who do not participate in that future placement will be diluted. Furthermore, the value of Members' Stapled Units may be impacted by the price at which any new Stapled Units are placed.

The Directors are of the opinion that this potential disadvantage and risk is substantially outweighed by the potential advantages and benefits associated with the Fund refreshing its placement capacity to enable it to continue making investments and acquisitions in accordance with its strategy.

Accordingly, the Directors consider that the Resolution is in the best interests of all Members. However, Members should consider their individual circumstances and make their own determination as to how to vote on the Resolution.

1.5 Specific information required by Listing Rule 7.5

Pursuant to and in accordance with Listing Rule 7.5, the following information is provided in relation to the ratification of the issue of the Placement Units under the Placement:

a) the Placement Units were issued to certain new Wholesale Clients and sophisticated investors, none of whom were related parties of the Responsible Entity or the Fund. The Placement was fully underwritten by Moelis Australia Advisory Pty Ltd, Shaw and Partners Limited and Aitken Murray Capital Partners Limited who also acted as joint lead managers and assisted in identifying investors for the Placement;

- b) a total of 8,558,845 Placement Units were issued on 3 December 2020 all of which were issued within the 15% annual limit permitted under Listing Rule 7.1, without the need for Member approval;
- c) the Placement Units were issued at \$1.77 per Placement Unit;
- d) the Placement Units issued were fully paid Stapled Units in the Fund and rank equally in all respects with the Fund's existing Stapled Units on issue;
- e) the proceeds from the issue of the Placement Units will be used towards funding follow-on capital across current investments and exploring other strategic M&A opportunities; and
- f) a voting exclusion statement is included in the Notice.

1.6 What happens if the Resolution is not approved?

If Members do not approve the Resolution, the Fund's ability to raise further funds and participate in any suitable investment opportunity in a timely manner, or at all, is likely to be constrained.

1.7 What does the Responsible Entity recommend?

The Directors consider that ratifying the Placement outlined in section 1.1 and refreshing the Fund's capacity to issue new Stapled Units under ASX Listing Rule 7.1 by way of placement will be in the best interests of the Members of the Fund as it provides funding flexibility in respect of further potential acquisitions, investment opportunities, and general capital management initiatives that may arise from time to time.

The Responsible Entity recommends that Members vote in **FAVOUR** of the Resolution.
