- ClearVue appoints Dieter Moor as its European CEO commencing 1 May 2021 as part of the establishment of European sales office
- Mr Moor brings 16+ years of experience in the renewables sector and is current CEO of ertex solar GmbH in Austria
- Mr Moor to support ClearVue in the establishment of its key sales territory - Europe
- ClearVue establishing European sales office through subsidiary being established in the Netherlands
- Mr Moor to support the board and management of ClearVue more generally

**20 January 2021:** Smart building materials company ClearVue Technologies Limited (ASX:CPV) (**ClearVue** or the **Company**) is pleased to announce the appointment of Mr Dieter Moor as its European CEO effective 1 May 2021.

Mr Moor is the co-founder and current CEO of ertex solar GmbH ([www.ertex-solar.at](http://www.ertex-solar.at)), a specialist building integrated photovoltaics manufacturer and supplier based in Austria. Mr Moor was a significant shareholder in ertex solar GmbH which was acquired by Solétanche Freyssinet ([www.soletanchefreyssinet.com](http://www.soletanchefreyssinet.com)) in November of 2018. Together with ActivSkeen ([www.activskeen.com](http://www.activskeen.com)), they worked on smart building materials. Both are subsidiaries of Vinci Construction ([www.vinci.com](http://www.vinci.com)). Mr Moor has continued to work with ertex solar as CEO since that time to integrate the company into the Vinci group.

In his time with ertex solar he has been responsible for and overseen over 2000 building integrated photovoltaic installations throughout the world with the focus being projects within Europe.

Mr Moor will head up ClearVue's European sales and marketing office and will be the Chief Executive Officer of a new wholly owned subsidiary of the Company currently being established in the Netherlands.

Mr Moor also lectures in high performance building in sustainable energy systems and building optimisation using eco-energy solutions at the FH Technikum Wien and FH Oberösterreich – both University's of applied sciences in Austria.

Commenting on Mr Moor's appointment Executive Chairman Victor Rosenberg has said:

*"The appointment of Mr Moor is a vital step in our plans to enter the European market.*

*Mr Moor's extensive experience and networks in the solar and BIPV markets throughout Europe and the rest of the world will be an invaluable addition to the management team bringing a strong industry background that to date has been lacking within the current Board and management.*

*The Board welcomes Mr Moor to the team and looks forward to working with him to grow ClearVue's sales assault into Europe."*

**Authorised by the Board of ClearVue.**

**About ClearVue Technologies Limited**

ClearVue Technologies Limited (ASX: CPV) is an Australian technology company that operates in the Building Integrated Photovoltaic (BIPV) sector which involves the integration of solar technology into building surfaces, specifically glass and building façades, to provide renewable energy. ClearVue has developed advanced glass technology that aims to preserve glass transparency to maintain building aesthetics whilst generating electricity.

ClearVue's electricity generating glazing technology is strategically positioned to compliment and make more compelling, the increased use of energy-efficient windows now being regulated in response to global climate change and energy efficiency goals.

Solar PV cells are incorporated around the edges of an Insulated Glass Unit (IGU) used in windows and the lamination interlayer between the glass in the IGU incorporates ClearVue's patented proprietary nano and micro particles, as well as its spectrally selective coating on the rear external surface of the IGU.

ClearVue's window technology has application for use in the building and construction and agricultural industries (amongst others).

ClearVue has worked closely with leading experts from the Electron Science Research Institute, Edith Cowan University (ECU) in Perth, Western Australia to develop the technology.
