## Holista Colltech Appendix 4C and Quarterly Update

### ASX Announcement

27 January 2021

### Highlights

- End of quarter cash holdings of \$2.73m as net operating cashflow continued to improve
- Receipts from customers increased 76.2% over the previous quarter to >\$1.9m
- Further improvements in net operating cash position expected in coming quarters as Holista is well placed for revenue growth.
- Adequately funded to execute on current growth plans with sufficient cash to operate beyond the next 12 months
- Key accomplishments during the December quarter included:
  - Receiving Costanzo's first order for world's lowest GI clean label white bread ingredients as per their binding ~US\$2m/year agreement with Holista
  - Launching US EPA's "List N" solution to disinfect buildings of coronavirus and for fogging
  - Commissioning TGA application to list Holista's sanitiser products as "Therapeutic Goods" that is effective against COVID-19
  - Validation that Path-Away® kills 99.9% of SARS-CoV-2 (virus that causes COVID-19) via independent TGA-approved testing

**Holista Colltech Limited** (ASX: HCT, "Holista" or "the Company") wishes to provide the following quarterly update and commentary on its Appendix 4C for the three months to 31 December 2020.

### Summary of cash position

The Company's cash and cash equivalent holdings at the end of the quarter was \$2.73 million as net operating cash outflow improved to \$514,000 versus \$759,000 outflow in the previous quarter. Holista's net operating cash position is expected to improve further over the coming quarters.

Based on the current operations, Holista's cash holdings is sufficient to last close to six quarters.

This means the Company is adequately funded to execute on its immediate global growth plans for its collagen business, its NatShield™ and Protectene™ range of disinfectant products using the all-natural and organic Path-Away® technology, its low glycaemic index (GI) food ingredients and the water-soluble supplements range.

As detailed in Item 6.1 of the accompanying Appendix 4C, the Company paid \$132,000 in relation to overhead reimbursement costs, consulting fees and directors remuneration to related parties and associates.

### **Operating activities**

The Dietary Supplements business remained Holista's primary income contributor with receipts from customers increasing to \$1.92 million in the December quarter compared with \$1.09 million in the previous quarter.

Product Manufacturing and Operating Costs of \$1.18 million and Staff Costs of \$608,000 were the largest expenses during the period.

The improvement in Holista's net operating cash position was achieved despite the ongoing impact of COVID-19 and associated social restrictions and lockdowns in countries that Holista operates in.

While conditions around the world remain highly volatile, the medium- to longer-term outlook for Holista remains positive, particularly in light of the Company's achievements during the latest quarter.

This included Holista securing a circa US\$2 million a year binding contract and receiving its first order from Costanzo's for Holista's low GI white bread ingredient. Holista's technology allows the North American bread supplier to produce the world's lowest GI "clean label" white bread using only natural ingredients.

Holista also announced in the December quarter that it has launched a "List-N" solution to disinfect buildings of coronavirus through the central air conditioning/heating system. The solution can also be used for fogging.

Products that are listed on the U.S. Environmental Protection Agency's (EPA's) "List-N" are deemed by the EPA to kill SARS-CoV-2 the novel coronavirus that causes COVID-19.

Other significant events during the quarter included Holista commissioning a TGA application to classify its sanitisers as "Therapeutic Goods" and for labelling rights to claim their effectiveness against COVID-19, successfully demonstrating that Path-Away® can kill 99.9% of SARS-CoV-2 in an independent lab, and commencing testing of NatShield™ Nasal Sanitising Balm ahead of its potential launch in three markets in the current quarter.

### **Investing and financing activities**

The \$30,000 expense listed under cash flows for investing activities relates to purchase of fixed assets (\$7,000), down payment for intellectual property applications (\$4,000) and deposits paid for raw materials (\$19,000).

The net cash change in the cash flows for financing activities reflects the refinancing of the Company's debt to lower interest rate facilities. Holista's term loan currently attracts a rate of 3.5% per annum compared to 5.77% in 2019 and its credit standby arrangements bear an interest rate of 4% a year versus 5.23% in 2019.

This announcement has been approved by the Board of Directors.
