8.6 If Item 8.5 is less than 2 quarters, please provide answers to the following questions:

1. Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

After the recent share placement completed in January 2021, IODM is comfortable with the current cash at bank balances versus cash flow budgets which take in to account the following:

- the increase in Revenue and Cash Receipts which is forecast to continue
- the launch and roll out of its product into overseas referral markets
- the company qualifies for the government support programs

2. Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

The IOD Board will continue to manage capital in a prudent manner that benefits shareholders. The company completed a share placement on 5 January 2021 for \$1,750,000.

The directors will continue to run low cash liquidity levels for the next 12 months to ensure that shareholder value is protected.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

IOD expects to continue its operations and meet its business objectives as pursuant to the answers provided in Questions 1 and 2 of Section 8.6
