## Operations Update: COVID-19

---

Northern Star Resources Ltd (ASX: NST) advises that it does not expect production and exploration at its West Australian operations to be impacted by the five-day lockdown measures announced yesterday by WA Premier Mark McGowan.

All the Company's operations are located outside the lockdown boundaries set by the Government.

The Company will advise the market should these circumstances change.

Northern Star's top priority at all times is the health and safety of its staff, business partners and the communities in which we operate and this is the basis of all its strategies for managing COVID-19.

Authorised for release to ASX by Bill Beament, Executive Chair.
