# OVERVIEW

## FINANCIAL INFORMATION AS AT 31 DECEMBER 2020<sup>1</sup>

(ALL COMPARISONS TO 2H20 QUARTERLY AVERAGE UNLESS OTHERWISE STATED)

### 1Q Profit and Performance (see page 2 for Financial table)

- Unaudited Statutory profit of \$1.62b. Unaudited Cash Profit Continuing Operations excluding Large / Notable items \$1.84b
- Costs were flat, continued to be well managed
- Revenue, excluding Markets, increased 4%. All our major businesses performed well through the quarter with market share gains in our key home loan market in Australia as well as record volumes in our target segments in New Zealand
- Global Markets income, while strong, was down relative to 2H20 outperformance (\$515m relative to 2H20 quarterly average of \$754m). Franchise Sales and Trading comprised two thirds of total Global Markets income in the quarter
- Group net interest margin increased 5 basis points to 1.62% compared with 2H20 (see page 4). Margins benefited from improved mix, both on assets and liabilities, lower funding costs and higher institutional asset margins. This was partially offset by the ongoing headwinds of low rates, excess liquidity and competition, which are expected to continue

### Capital

- Group CET1 ratio (APRA Level 2) 11.7%, Pro forma 11.8%<sup>2</sup> (see page 3)

### Provision Charge and Credit Quality

- 1Q21 total provision outcome was a release of \$150m. Individual provision charge \$23m, collective provision ('CP') release of \$173m. Annualised 1Q21 individual provision loss rate 1 basis point (see page 5)
- The release of CP is equivalent to ~10% of the \$1.7b ANZ accumulated during FY20
- Group provision balance at Dec-20 \$5.6b, including collective provision balance \$4.8b. Total coverage ratio 1.60%, CP coverage ratio 1.37% (see page 6)
- Whilst the underlying economic outlook has improved, particularly in Australia and New Zealand, significant levels of volatility and uncertainty continue to exist and we believe our current provision levels are appropriate given this uncertainty

### COVID-19 Assistance (at 31 January 2021)

- At the end of January, 84% of Australian Home Loan deferrals, 88% of Australian Business Loan deferrals and 92% of NZ Home loan deferrals have completed (see pages 10-13)

1. On a cash profit continuing operations basis excluding Large / Notable items unless otherwise stated

2. Including mandatory conversion of NZD500m Capital Note in 2022
