- Performance has been strongest in Australia and New Zealand as the markets that have been trading longest post re-opening and with the least restrictions in place

- Strong store network platform in place to drive growth into the future

TRADING PERFORMANCE - SALES

Sales growth driven by Southern Hemisphere

- Australia/New Zealand region delivered strong growth with positive comp sales for these markets
- Europe and USA sales reflect continued new store growth with an increase of 4 stores in France and 14 in the USA for the half, offset by the closure of Spain in 2H20 and the impact of COVID disruption in these markets
- Asia sales continued to be heavily impacted by COVID with slow recovery as a result of lower tourism and continued local restrictions
- South Africa recovered well with positive comparable store sales in Q2 despite ongoing challenges in that market

COST OF DOING BUSINESS¹

Strong cost control continued
