

MMA Offshore – FY2021 Half Year Results

- EBITDA tracking in line with expectations
 - Reported EBITDA \$38.3m
 - Underlying EBITDA \$22.6m
- \$92.9m Cash at Bank, positive operating cashflow
- Progressing strategy with strong focus on building new revenue streams
- Ongoing operational impacts and uncertainty related to COVID-19
- On track to meet full year earnings guidance

Financial Result

Reported EBITDA was \$38.3 million which included a one-off debt forgiveness benefit of \$14.8 million, doubtful debts recovered of \$1.3 million, debt restructuring costs of \$(0.4) million and excludes profit on the sale of assets of \$2.6m. Underlying EBITDA was \$22.6 million, including the benefit from \$6.2 million of net government subsidies which are non-repeatable in the 2nd half and which were higher than forecast. Revenue was \$119.9 million, down 8.4% on the previous corresponding half. Cash at bank increased to \$92.9m up \$6.3m over the half year.

MMA's activities continue to be impacted by COVID-19 with reduced demand for our assets and services particularly in the oil and gas sector. The reduction in oil and gas activity has been offset to a degree by a ramp up in offshore wind developments in Taiwan which is a major focus of our diversification and growth strategy.

FY2021 Half Year Results	31 Dec 2020	31 Dec 2019	Variance
Revenue	\$119.9M	\$130.9M	↓ 8.4%
Reported EBITDA	\$38.3M	\$18.9M	↑ 102.6%
NPAT	\$15.5M	\$(9.7)M	↑ 259.8%

Commenting on the result, MMA's Managing Director, Mr David Ross said:

"MMA's operating result for the first half was in line with expectations having regard to the impact of COVID-19 on our industry and directly on the business.

"Our vessel business performed relatively well with our AHT, PSV and MPSV fleet all generating over 70% utilisation for the half. Utilisation of the AHTS fleet which is more commoditised and generally operates in the construction and exploration sectors was significantly lower. We are continuing to progress our strategy to largely exit the AHTS segment.

"The subsea service business has been significantly impacted by COVID-19; however, we have made progress on building our integrated service offering and our entry into renewables and government services.

"Our project logistics division continues to win business in its key target markets of Mozambique and

Taiwan and has solid prospects to support upcoming offshore projects in Australia.

“Our Balance Sheet is in a stronger position following the completion of the equity raising and debt restructuring in December 2020. Our leverage metrics have significantly improved with Net Debt to EBITDA reduced to 2.2x¹ as at 31 December 2020 and the debt maturity now extended to 2025. The non-core vessel sales program is progressing with one vessel recently sold in January 2021 and three further vessels in advance negotiations with funds from the asset sale program to further reduce leverage.

“We are making good progress with our diversification strategy with over 20% of our revenue for the half derived from non-oil and gas related activities. Our key focus is on building our renewables division and we were successful in securing a number of offshore wind projects during the first half and we are progressing the establishment of a local operating platform in Taiwan. We are also building our government services business and undertook our first hydrographic survey project with the Australian Navy as part of the HIPPs scheme.

“Our operating performance in the first half was in line with expectations, however, uncertainty around COVID-19 continues to impact markets. Oil and gas production support activities remain steady, smaller project scopes are beginning to return to market, whilst exploration remains subdued. Previously deferred key oil and gas projects in Australia are now being rescheduled for final investment decision this year. Tendering activity for renewables in Taiwan continues to strengthen with further support building for offshore wind developments in our regions.

“Based on our current forward projections, we remain on track to meet our earnings guidance of \$30-\$35 million Underlying EBITDA for the full year FY2021.”

Half Year Results Teleconference

A teleconference providing an overview of the FY2021 Half Year Results and a question and answer session will be held at **10:00am AWST (1:00pm AEST)** on **Monday, 22nd February 2021**.

Uncertainty of COVID remains

BALANCE SHEET AND LIQUIDITY

\$92.9m

Cash at Bank

↑ 25% on H1 FY20

▪ Restructured Balance Sheet

- > \$80m Equity Raising
- > \$91.9m Debt Reduction
- > Net Debt / EBITDA 2.2x

▪ H1 Cash ↑ \$6.3m:

- > Operating Cash Flow \$18.4m
- > Maintenance Capex \$(3.7)m
- > Asset sale proceeds \$2.7m
- > Lease payments \$(3.1)m
- > FX translation \$(6.1)m

Restructured Balance Sheet
Positive operating cash flow

PROGRESSING STRATEGY

▪ Maximising Core Business

- > Over 70% utilisation across strategic fleet. Total fleet 55%
- > Progressing AHTS vessel sales
- > Subsea integration completed
- > Increasing integrated work scopes

▪ Diversification

- > Offshore Wind – establishing Taiwan operating platform
- > Tendering further Defence and Infrastructure work

▪ Extend Service

- > Established dedicated Strategy & Innovation team to drive progress

Maximising core business
Focus on building new revenue streams

COVID-19

▪ Strong protocols in place to manage operational impact

- > Crew changes, personnel movements
- > Offices and facilities
- > Increased operating costs to mitigate risk

▪ Ongoing impact on activity

- > Second and third wave continue to constrain offshore activity
- > Roll out of vaccine globally should build confidence

Managing the complexities with COVID-19

BALANCE SHEET

Balance sheet restructured with continuing deleveraging from asset sales

Balance Sheet Restructure

- \$80m Equity Raising
- \$14.8m Debt Concession
- \$91.9m Debt Reduction
- Term extended to Jan 2025
- Syndicate reduced from seven to four banks

Asset Sales

- c.\$40m Vessel sales program underway
 - MMA Almighty sold Jan-20 (\$2m)
 - 3 under advanced negotiations
 - Sales values in line with book value
- Divested Asset Integrity business during H1(\$2.5m)
- Remainder of non-core vessels targeted to be sold over coming 12-18 months with proceeds to further reduce leverage

Debt Metrics

Gross and Net Debt

Leverage / LVR

- Ongoing capital management
- Flexibility to pay dividends and undertake share buy backs once gross leverage (Gross Debt / EBITDA) is below 3.5x (pre-AASB16)
- Potential to unlock franking credits \$47.6m

Note: Jun-20 Net Debt of \$186.6m / Underlying EBITDA \$48.9m (pre-AASB16); Dec-20 Net Debt of \$72.6m / EBITDA Guidance Mid-Point of \$32.5m

STRATEGY AND OUTLOOK

MMA
OFFSHORE

REFINED STRATEGY

Our goal is to be the leading diversified marine services provider in the Asia Pacific region

LEVERAGING OUR ASSETS AND SKILLS

STRATEGY UPDATE

Despite the COVID-19 pandemic we continue to progress our strategy

MAXIMISE CORE BUSINESS

- Multiple integrated service scopes completed and under tender using combined services
- Project logistics business gaining traction
 - East Africa fleet now 5 vessels creating a base load for further expansion
 - Positioning for large scale LNG projects
- Subsea business awarded a number of survey and inspection/maintenance scopes
- Extended and entered new contracts
 - two vessels with Woodside to Mar-22
 - new contracts for MMA Privilege
- Divestment of non-core assets

DIVERSIFYING INTO NEW MARKETS

- Offshore renewables - 3 vessels contracted in Taiwan for various periods in the last 12 months
- New Taiwan based General Manager appointed to drive Taiwan renewables business
- Survey scopes completed on third party vessels
- First contract for Australian Navy HIPPS program underway
- Tendering infrastructure maintenance scopes – secured port maintenance contract in Victoria

EXTEND SERVICE

- Building focus on innovation - established dedicated Strategy & Innovation team to drive

PRIORITIES AND OUTLOOK

On track to meet full year earnings guidance

Key Priorities

- Increase utilisation and contracted backlog for core business
- Continue to develop integrated service offering and maximise profitability of subsea business
- Diversification via increasing percentage of revenue from renewables, government and infrastructure services
- Continue to build our Taiwan renewables platform and look to new regional developments
- Strengthen Target 365 Safety culture across our global operations
- Focus on creating value through innovation and sustainability
- Strategic organic and inorganic opportunities
- Drive vessel divestment program
- Ongoing Balance Sheet management to preserve cash position

Outlook

- Oil and gas production support activities remain steady, smaller project scopes are beginning to return to market, whilst exploration remains subdued
- Previously deferred key Oil & Gas projects in Australia are now being rescheduled for final investment decision this year
- Tendering activity for renewables in Taiwan continues to strengthen with further support for offshore wind building in our regions
- Ongoing impact from COVID-19 on activity remains whilst vaccines are rolled out

On track to meet earnings guidance of \$30-35m Underlying EBITDA for full year FY21

IMPORTANT NOTICES & DISCLAIMER

This document contains general information about the activities of MMA Offshore Limited (**MMA**) current at the date of this presentation. It is information in a summary form only and does not contain all the information necessary to fully evaluate any transaction or investment. It should be considered in conjunction with MMA's other periodic and continuous disclosure announcements to the Australian Securities Exchange available at www.asx.com.au.

MMA makes no representation or warranty (express or implied) as to the accuracy, reliability or completeness of this document. MMA and its directors, officers, employees, advisors, agents and associates will have no liability for any statements, opinions, information or matters (express or implied) arising out of, or contained in or derived from, or for any omissions from this document, except liability under statute that cannot be excluded.

Not a prospectus: This document is not a prospectus or a product disclosure statement under the Corporations Act 2001 (Cth) and has not been lodged with the Australian Securities & Investments Commission.

Not investment advice: The information provided in this document is not intended to be relied upon as advice to investors or potential investors and has been prepared without taking into account the recipient's investment objectives, financial circumstances or particular needs. Any investment decision should be made based solely upon appropriate due diligence. Recipients of this document are advised to consult their own professional advisers. An investment in any listed company, including MMA, is subject to significant risks of loss of income and capital.

Future performance: This document contains certain forward-looking statements. The words 'anticipate', 'believe', 'expect', 'project', 'forecast', 'estimate', 'likely', 'intend', 'should', 'could', 'may', 'target', 'plan' and other similar expressions are intended to identify forward-looking statements. Indications of, and guidance on, future earnings and financial position and performance are also forward-looking statements. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors, many of which are beyond the control of MMA, and its officers, employees, agents and associates, that may cause actual results to differ materially from those expressed or implied in such statements. Actual results, performance or outcomes may differ materially from any projections and forward-looking statements and the assumptions on which those assumptions are based. You should not place undue reliance on forward-looking statements and neither MMA nor any of its directors, officers, employees, advisors, agents or associates assumes any obligation to update such information.

Risks: An investment in MMA securities is subject to investment and other known and unknown risks, some of which are beyond the control of MMA and MMA's directors, officers, employees, advisors, agents or associates. MMA does not guarantee any particular rate of return or the performance of MMA nor does it guarantee the repayment of capital from MMA or any particular tax treatment.

AASB 16 Leases: MMA has applied the new accounting standard for Leases, AASB 16 from 1 July 2019. AASB 16 provides a new model for the accounting for leases which requires lessees to recognise assets and liabilities for all leases with a lease term of more than 12 months unless the underlying asset is of low value. The impact on initial adoption of the AASB16 for the financial year ended 30 June 2020 was to reduce lease expenses by \$6.0 million, increase depreciation expense by \$6.4 million and increase finance costs by \$0.6 million. Prior period comparative financial statements have not been restated and therefore EBITDA for prior periods disclosed in this document does not include the impact of AASB 16.
