Review of operations

In Lotteries Retailing, the random jackpot cycle was not kind to the Australian lottery market with only 15 large jackpots compared with 23 in the previous corresponding period, a decline of 35%. Despite this significant headwind, Jumbo achieved a 25% increase in Group TTV and a 9% increase in Group Revenue, bolstered by our evolving SaaS and Managed Services businesses.

Underlying EBITDA grew 3.7% to \$24.1 million, slower than TTV and revenue, mainly owing to several one-off factors, including most notably the dampening impact on Lotteries Retailing for this half of the Service Fee Jumbo pays under the new Tabcorp Agreement, in exchange for a 10-year licence to resell its product.

In our SaaS business, a new partnership was entered into with our first government customer, LotteryWest, while in Managed Services, Gatherwell made a material and pleasing contribution to our result. We have also now leveraged the superior Gatherwell model in Australia, announcing just this week two new domestic charity partners for our Managed Services segment.

Dividend

In response to the pleasing result and continued positive cash generation, the Board has declared a fully franked dividend of 18 cents per share. The record date for the dividend is 5 March 2021 and it will be paid on 19 March 2021.

This announcement is authorised for release by the Jumbo Interactive Limited Board.
