## Directors Report

Your Directors submit the consolidated interim financial statements of Constellation Technologies Limited (“CT1” or the “Company”) and its controlled entities (the “Group”) for the half year ended 31 December 2020. In order to comply with the provisions of the *Corporations Act 2001*, the Directors report as follows:

### *Directors and officers*

The names and particulars of the Directors and Company Secretaries of the Company in office at any time during or since the end of the period are as follows:

Mr Leath Nicholson	Chairman and Non-Executive Director
Mr Adam Gallagher	Executive Director
Mr Anoosh Manzoori	Non-Executive Director
Ms Terri Bakos	CFO and Company Secretary

### *Review and results of operations*

#### *Overview*

The first half of the financial year has seen sales activities and contract wins in our current primary focus markets of China and Australia. USA, India and other markets are also prospective with current trials, existing clients and business development activities in those regions being coordinated from Australia.

The Company continues to focus on supporting the strategic partners (announced 11 December 2019) to achieve their revenue hurdles as a means to reaching a strong commercial and financial foundation from which to grow in future years.

Through these efforts the technical team is rapidly building out the Company’s core IoT platform – MeridianCT (MCT) Platform – to deploy and support a wide range of industrial IoT solutions.

COVID-19 has impacted on the movement and number of opportunities in the project pipeline in all regions. To offset this however the team has focused on geographies and specific opportunities that have been able to proceed during the pandemic. CT1 is fortunate to now cover a broader number of industry sectors and geographies with its platform and digital solutions that assists in spreading the risk profile in the event of the major macro disruptions caused by the COVID-19 pandemic.

Deployments of our original cold chain solution to a number of existing customers are steadily increasing as well as the prospect of larger new opportunities across the food and healthcare industries.

#### *China*

Since the formal opening of the Beijing office and the announcement of the first contract win in that market in June 2020, the Company has so far secured a further six contracts in China. The initial projects involve various industrial IoT applications in the Water utilities space including asset monitoring and maintenance, and operational integration of IoT data with existing plant and personnel systems.

The projects have provided the company with an opportunity to develop new industrial applications in the world’s largest technology market at a time when there is a major national push across government and industry towards the digital economy, that is in essence driven by IoT innovation. Through the developing commercial relationships in China, the Company is seeking to deploy its IoT technology in the emerging Smart Cities sector.

## ***Directors Report continued ...***

### ***Australia***

Consistent with the Company's strategy, the applications and platform functionality developed and launched in China has already been leveraged to showcase the new solutions to the Australian market. The Company has recently deployed the MeridianCT (MCT) platform to support a network of over 160 cameras applied to surface water monitoring for a client that services councils and water utilities across Queensland. In turn, this has led to pilot discussions with several councils that are pursuing Smart Cities projects with a view to developing their applications on the MCT Platform.

### ***Team***

To service our current and near-term pipeline projects the team has increased significantly mostly in India though also in Australia and China. The team has grown in number from around 40 people at the end of 2019 to over 70 today. While the team is expanding, cost control remains an ongoing focus for the Group. The necessary move to remote working in the last twelve months has positively contributed to direct cost control as well as overall productivity improvements in India and Australia. The China team continues to work most effectively in an office environment.

A dedicated sales resource was added in Australia in September 2020, which has helped to build the pipeline in both scale and diversity of projects. Additionally, project management and other resources have been added to improve workflows between China based projects and our Australian and India teams.

### ***Cold Chain application***

The global roll-out of 'temperature and handling' sensitive vaccine doses has significantly elevated the general public awareness of the importance of maintaining the integrity of the Cold Chain. The World Health Organisation estimates that as much as half of vaccines globally are lost to wastage, sometimes due to heat exposure or vials breaking while in transit.

The Company is working with its existing health sector clients, that includes facilities involved in the first round of Australian vaccine shipments, to help ensure cold chain integrity through application of its Cold Chain IoT solution.

### ***Corporate***

As noted in the quarterly activities report released on 29 January 2021, the Company continues to assess acquisition opportunities that are consistent with the Company's existing strategy to expand the IoT and digital solutions offerings and accelerate commercial objectives in the Smart Cities sector. The Company has been active on a specific opportunity in the first half that remains incomplete at this time.

### ***Financial***

During the half year ended 31 December 2020, the Group reported a loss of \$1,525,196 compared to \$757,400 in the comparative period in 2019. However, revenue increased by 161.58% to \$780,506 (31 December 2019: \$298,381).

The increased comparative loss over the prior period is due to the Company expanding its operations into China and building support services in India and Australia.

The Group's net asset position decreased to \$3,243,136 at 31 December 2020 (30 June 2020: \$4,426,941). This decrease was due to the Company holding \$1,436,293 of shareholder funds on trust pending their conversion to equity.

### ***Significant changes in state of affairs***

There have been no significant changes in the state of affairs of the Group during the period.

## ***Directors Report continued ...***

### ***Subsequent events***

On 29<sup>th</sup> January 2021, the Company announced the signing of several new sales contracts based in China for wetlands monitoring and waste water applications.

No other matter or circumstance has occurred subsequent to period end that has significantly affected, or may significantly affect, the operations of the Group, the results of those operations or the state of affairs of the Group or economic entity in subsequent financial periods.

### ***Likely developments and expected results of operations***

There is no information or likely developments in the operations of the Group and the expected results of operations that have not been included in this interim financial report because the directors believe it would be likely to result in unreasonable prejudice to the Group.

### ***Auditor's independence declaration***

A copy of the auditor's independence declaration, as required under Section 307C of the *Corporations Act 2001*, in relation to the review for the half year ended 31 December 2020, is provided with this report.

Signed in accordance with a resolution of the Board of Directors.

# Notes to the Financial Statements

for the half year ended 31 December 2020

## Note 1 – Significant Accounting Policies

### Basis of preparation of the half year financial report and changes to the Group's accounting policies

#### (a) Basis of preparation

These general purpose interim financial statements for half-year reporting period ended 31 December 2020 have been prepared in accordance with requirements of the *Corporations Act 2001* and Australian Accounting Standard AASB 134 *Interim Financial Reporting*. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

This interim financial report is intended to provide users with an update on the latest annual financial statements of Constellation Technologies Limited and its controlled entities (referred to as "the Group"). As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2020, together with any public announcements made during the following half-year.

These interim financial statements were authorised for issue on the same date as the Directors' declaration.

#### (b) Going concern

The interim financial statements have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the normal course of business.

As disclosed in the interim financial statements, the Group is in a net asset position of \$3,243,136 (30 June 2020: \$4,426,942), net current asset position of \$3,056,705 (30 June 2020: \$4,339,204) and has net operating cash outflows of \$1,486,041 (31 December 2019: \$302,307). The Group generated a loss after tax for the half year of \$ 1,525,196 (31 December 2019: \$757,400). The Group held a cash position of \$4,104,029 at 31 December 2020 (30 June 2020: \$ 4,405,173).

Notwithstanding the historical losses to date the directors believe that the going concern basis of preparation is appropriate due to the following reasons:

- Sales have increased 161.58% over the corresponding period.
- During the past 6 months, 15,092,384 CT1 options have been exercised, generating \$226,386. There remains outstanding 492,534,822 CT1 options considered 'in the money' and expire up to June 2022. If exercised, this would generate up to \$7.3m for the Company.
- The Company has successfully raised \$5.9m over the past 18 months from capital raising activities and believes it has the ability to raise additional funds from shareholders should the Company require additional funds.
- The group is incurring a rate of expenditure designed to enhance its prospects in generating growth in sales locally and in China. In the event that the group encounters any difficulties in raising capital, the board is comfortable that the current levels of expenditure can be scaled back to preserve cash, and
- The group continues to apply different measures to control its expenditure to preserve cash and working capital. The Company having the ability to negotiate payment in equity in lieu of cash with its consultants and suppliers, also improves the group's cash coverage.

**Note 1 – Significant Accounting Policies (continued)****(c) New Standards, interpretations and amendments adopted by the Group**

The interim financial statements have been prepared in accordance with the same accounting policies adopted in the Group's last annual financial statements for the year ended 30 June 2020. No new accounting policies have been adopted for the current period.

**Note 2 – Segment Information**

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker ('CODM'). The CODM who is responsible for allocation of resources and assessing performance of the operating segments has been identified as the Chief Executive Officer (CEO) of Constellation Technologies Limited. The Group has identified one reportable segment: that is, the development, commercialisation and sale of Internet of Things (IoT) technology solutions. The segment details are therefore fully reflected in the body of the financial statements.

# Auditor's Report

PKF Brisbane Audit

## INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF CONSTELLATION TECHNOLOGIES LIMITED

### Conclusion

We have reviewed the accompanying half-year financial report of Constellation Technologies Limited ("the company"), which comprises the consolidated statement of financial position as at 31 December 2020, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, a statement of accounting policies, other selected explanatory notes, and the directors' declaration of the consolidated entity, comprising the company and the entities it controlled at the half-year's end or from time to time during the financial half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Constellation Technologies Limited is not in accordance with the *Corporations Act 2001* including:-

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2020, and of its financial performance for the half-year ended on that date; and
- (b) complying with the Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

### Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

### Independence

In conducting our review, we have complied with the auditor independence requirements of the *Corporations Act 2001*. In accordance with the *Corporations Act 2001*, we have given the directors of the company a written Auditor's Independence Declaration.

### Responsibility of the Directors for the Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with the Australian Accounting Standards and the *Corporations Regulations 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibilities for the Review of the Financial Report

Our responsibility is to express a conclusion on the half year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the consolidated entity's financial position as at 31 December 2020 and its performance for the half year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
