Directors' Report

The Directors of Southern Cross Media Group Limited ("the Company") submit the following report for Southern Cross Austereo, being Southern Cross Media Group Limited and its subsidiaries ("the Group"), for the half year ended 31 December 2020. In order to comply with the provisions of the *Corporations Act 2001*, the Directors report as follows:

Directors

The following persons were Directors of the Company during the whole of the financial half year, unless otherwise stated, and up to the date of this report:

- Rob Murray (appointed Chairman 19 August 2020)
- Peter Bush (Chairman until 19 August 2020; resigned 30 October 2020)
- Grant Blackley (Managing Director)
- Glen Boreham
- Carole Campbell (appointed 1 September 2020)
- Ido Leffler (appointed 30 October 2020)
- Heith Mackay-Cruise (appointed 30 October 2020)
- Helen Nash
- Leon Pasternak (resigned 30 October 2020)
- Melanie Willis

Principal Activities

The principal activities of the Group during the course of the financial half year were the creation of audio content for distribution on broadcast (AM, FM and DAB radio) and digital networks. The group also broadcasts free to air television content in regional markets. These media assets are monetised via revenue generated from the development and sale of advertising solutions for clients.

There were no changes in the nature of the Group during the half year.

Review and Results of Operations

The Group reported revenue of \$258.5 million for the 6 month period ended 31 December 2020, a decrease of 16.1% from \$308.1 million for the same period in the prior year. EBITDA for the 6 months was \$75.3 million increasing 11.6% from \$67.5 million for the same period in the prior year. EBITDA for the period included government grants, for JobKeeper and Public Interest News Gathering, totalling \$35.4 million as described in Note 5 "Government Grants" to the Financial Statements. Net profit after tax was \$32.5 million for the 6 months ended 31 December 2020, from a net profit after tax of \$20.4 million in the same period in the prior year.

EBITDA is a measure that, in the opinion of the directors, is a useful supplement to net profit in understanding the cash flow generated from operations and available for payment of income taxes, debt service and capital expenditure. EBITDA is useful to investors because analysts and other members of the investment community largely view EBITDA as a widely recognised measure of operating performance. EBITDA disclosed within the Directors' Report is equivalent to "Profit before depreciation, amortisation, interest, fair value movements on financial derivatives and income tax expense for the half year" included within the Statement of Comprehensive Income.

Significant Items

In the 6 months to 31 December 2020 there were no significant items to report.

Dividends

On 6 April 2020, the Group confirmed there would be no final dividend paid for the year ended 30 June 2020. Further, there has been no interim dividend declared for the half year ended 31 December 2020. Subject to there being no material adverse change in advertising markets, the Directors intend to recommence dividends by paying a final dividend for the 2021 financial year. Any decision to pay a final dividend will be announced upon release of the full year results in August 2021.

Significant Changes in State of Affairs

In the opinion of the Directors, there were no significant changes in the state of affairs of the Group that occurred during the half year under review.

Events Occurring After Balance Sheet Date

Events occurring after balance date are outlined in Note 12 "Events Occurring after Balance Sheet Date" to the Financial Statements.

Directors' Holdings of Shares

The aggregate number of Company fully paid shares held directly, indirectly or beneficially by directors of the Company at the date of this report is 486,513 (30 June 2020: 6,888,514). A one for ten share consolidation occurred on 6th November 2020).

Auditor's Independence Declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 3.

Signed in accordance with resolutions of the directors of Southern Cross Media Group Limited.

Notes to the Financial Statements

1. Summary of Significant Accounting Policies

This condensed consolidated interim financial report for the half year reporting period ended 31 December 2020 has been prepared in accordance with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

This interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report of the Company for the year ended 30 June 2020 and any public announcements made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period.

Basis of Preparation

i) *Compliance with IFRS*

Compliance with Australian Accounting Standard AASB 134 *Interim Financial Reporting* ensures that the interim financial report complies with IAS 34 *Interim Financial Reporting* as issued by the International Accounting Standards Board (IASB). Consequently, this interim financial report has also been prepared in accordance with and complies with IAS 34 *Interim Financial Reporting* as issued by the IASB.

ii) *Historical cost convention*

These financial statements have been prepared under the historical cost convention, as modified by the revaluation of certain financial assets and liabilities (including derivative instruments) at fair value through profit or loss. All amounts are presented in Australian dollars, unless otherwise noted.

iii) *Comparative figures*

Where necessary, comparative figures have been adjusted to conform to changes in presentation in the current period.

Rounding of Amounts

The Company is of a kind referred to in ASIC Legislative Instrument 2016/191, relating to the 'rounding off' of amounts in the Directors' Report and Financial Report. Amounts have been rounded off in accordance with the Instrument to the nearest thousand dollars, unless otherwise indicated.

Critical Accounting Estimates and Judgement

The preparation of the interim financial report in accordance with Australian Accounting Standards requires the use of certain critical accounting estimates. It also requires the Group to exercise judgement in the process of applying the accounting policies. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances. The Group believes the estimates used in the preparation of the interim financial report are reasonable. Actual results in the future may differ from those reported.

The critical estimates and judgements adopted are consistent with those of the previous financial year and corresponding interim reporting period.

Notes to the Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

Notes to the financial statements

Notes relating to individual line items in the financial statements now include accounting policy information where it is considered relevant to an understanding of these items, as well as information about critical accounting estimates and judgements. Details of the impact of new accounting policies and all other accounting policy information are disclosed at the end of the financial report in note 13.

2. Segment Information

AASB 8 *Operating Segments* requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segments and to assess their performance.

The Group has determined operating segments are based on the information reported to the Group CEO and the Company Board of Directors. In line with AASB 8 *Operating Segments* the Group then determines its reporting segments and has determined that it has two reporting segments being:

- Audio, comprising metro and regional radio, podcasting and other related businesses
- Television, comprising the regional television business

5. Government Grants

As part of its response to COVID-19, in March 2020 the Australian Government announced various stimulus measures resulting from the economic fallout due to the coronavirus lockdown.

JobKeeper

The Group determined it was eligible to receive the initial Jobkeeper Payment Scheme ("JobKeeper") for the period April to September 2020.

The initial JobKeeper payments were a wage subsidy whereby employers who qualify for the stimulus receive \$1,500 per fortnight for each eligible employee who was employed by the company during the period April 2020 to September 2020. Further to the initial Jobkeeper wage subsidy, the scheme was extended for two further quarters, albeit at lower rates. The Group has determined that it is eligible to receive the first period of the extension from 28 September 2020 to 3 January 2021.

The JobKeeper extension is a two-tier wage subsidy. In the first extension quarter, employers who qualify for the stimulus receive \$1,200 per fortnight for each eligible employee, who worked for 80 hours or more in the reference period; and \$750 per fortnight for eligible employees who worked less than 80 hours in the reference period.

INTERIM FINANCIAL REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2020

The Group has determined it is not eligible for the second extension period from January 2021 to March 2021.

PING

The Group applied and was found eligible for funding of approximately \$10 million under the Commonwealth Government's Public Interest News Gathering (PING) program.

In September, the Group received \$9.2 million, or approximately 90% of the PING funding for the period from September 2020 to August 2021. The PING program is a Government incentive to support commercial television, radio and newspaper businesses in regional Australia during COVID-19.

JobKeeper and PING payments are government grants and are accounted for under AASB 120 *Accounting for Government Grants and Disclosure of Government Assistance*.

Government Grants are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions. The impact on the Statement of Comprehensive Income is shown below.

Impairment of goodwill and intangible assets with indefinite useful lives

The value of licences, trademarks, brands and goodwill is allocated to the Group's cash generating units ("CGUs") identified as Audio, being the regional and metro free-to-air commercial radio broadcasting and related operations and Television, being the regional television broadcasting operations.

The Group tests at least annually whether goodwill and intangible assets with indefinite useful lives have suffered any impairment and when there is an indication of impairment. The tests incorporate assumptions regarding future events which may or may not occur, resulting in the need for future revisions of estimates.

Interest rate swap contracts – current liability	101	2,353
Interest rate swap contracts – non current liability	4,077	4,629
Total derivative financial instruments	4,178	6,982

Hedge accounting

The Group designated interest rate swaps held as cash flow hedges and has applied hedge accounting.

The Group documents the relationship between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking the hedge transactions. The Group also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions have been and will continue to be highly effective in offsetting changes in cash flows of hedged items.

The fair values of derivative financial instruments used for hedging purposes are presented within the balance sheet. Movements in the hedging reserve are shown within the Statement of Changes in Equity. The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is more than 12 months; it is classified as a current asset or liability when the remaining maturity of the hedged item is less than 12 months.

In 2017 the Group entered into \$200 million of interest rate swap contracts under which it is obliged to receive interest at variable rates and pay interest at fixed rates starting in January 2018 at an average fixed rate of 2.43%. These interest rate swap contracts expired on 8 January 2021. In 2018 the Group entered into \$100 million of interest rate swap contracts under which it is obliged to receive interest at variable rates and pay interest at fixed rates starting in January 2018 at an average fixed rate of 2.25%. These interest rate swap contracts will expire in January 2022. In the 2020 financial year the Group entered into \$100 million of interest rate swap contracts under which it is obliged to receive interest at variable rates and pay interest at fixed rates starting in January 2021 at an average fixed rate of 1.04%. These interest rate swap contracts will expire in January 2023.

Cash flow hedge

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income and accumulated in reserves in equity. The gain or loss relating to the ineffective portion is recognised immediately in the Statement of Comprehensive Income.

Amounts accumulated in equity are reclassified to profit or loss in the periods when the hedged item affects profit or loss (for instance when the forecast sale that is hedged takes place). The gain or loss relating to the effective portion of interest rate swaps hedging variable rate borrowings is recognised in profit or loss within “interest expense and other borrowing costs”. When a hedging instrument expires or is sold or terminated, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in equity is immediately reclassified to profit or loss.

half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
