Financial performance dashboard

(underlying continuing and post AASB16)

- NPAT excluding amortisation of customer contracts
- The underlying financial results are on a non IFRS basis and are not audited or reviewed
- The underlying results are on a continuing operations basis and exclude non-operating items (refer Appendix B)
- The underlying results include net JobKeeper receipts of \$14.9m

Summary

Solid financial performance

- > A solid financial performance for the half year despite the challenging conditions. The flexibility of our cost base and capacity to respond to the impacts of COVID-19 led to further lowering of our net debt level and declaration of a first half dividend. Previous guidance for the full year is reaffirmed

COVID-19

- > We estimate a revenue reduction of circa \$50m to pcp as a result of COVID-19, particularly in the retail catalogue and travel sectors
- > We continued through the period to flex and streamline our cost base in response to COVID-19 to mitigate short term revenue impacts and to further strengthen the business on an ongoing basis

Coles catalogue

- > Coles ceased to produce the letterbox version of their weekly catalogue from 9 September, 2020 with a resulting revenue reduction to pcp of circa \$12m

Divestment of Telefundraising

- > The divestment of our outbound call centre business IVE Telefundraising (formerly Pareto Phone) was completed on 30 October, 2020
- > Consideration received was \$16.5m which resulted in a profit on divestment of \$4.2m
- > The proceeds of the sale were used to further strengthen the balance sheet

involve launch

- > Following the successful pivot into PPE during FY20, our involve brand and extensive range of PPE was successfully launched in October 2020
- > The involve business leverages our existing onshore and offshore sourcing capabilities, and our significant warehouse and logistics capability in Sydney and Melbourne

[Go to the involve website](#)

Share buyback

- > The Company announced a share buyback on 12 November, 2020
- > As at 25 February 2021 the Company had acquired 990,477 shares at an average price of \$1.31 per share

Long-term contract with Australian Community Media (ACM)

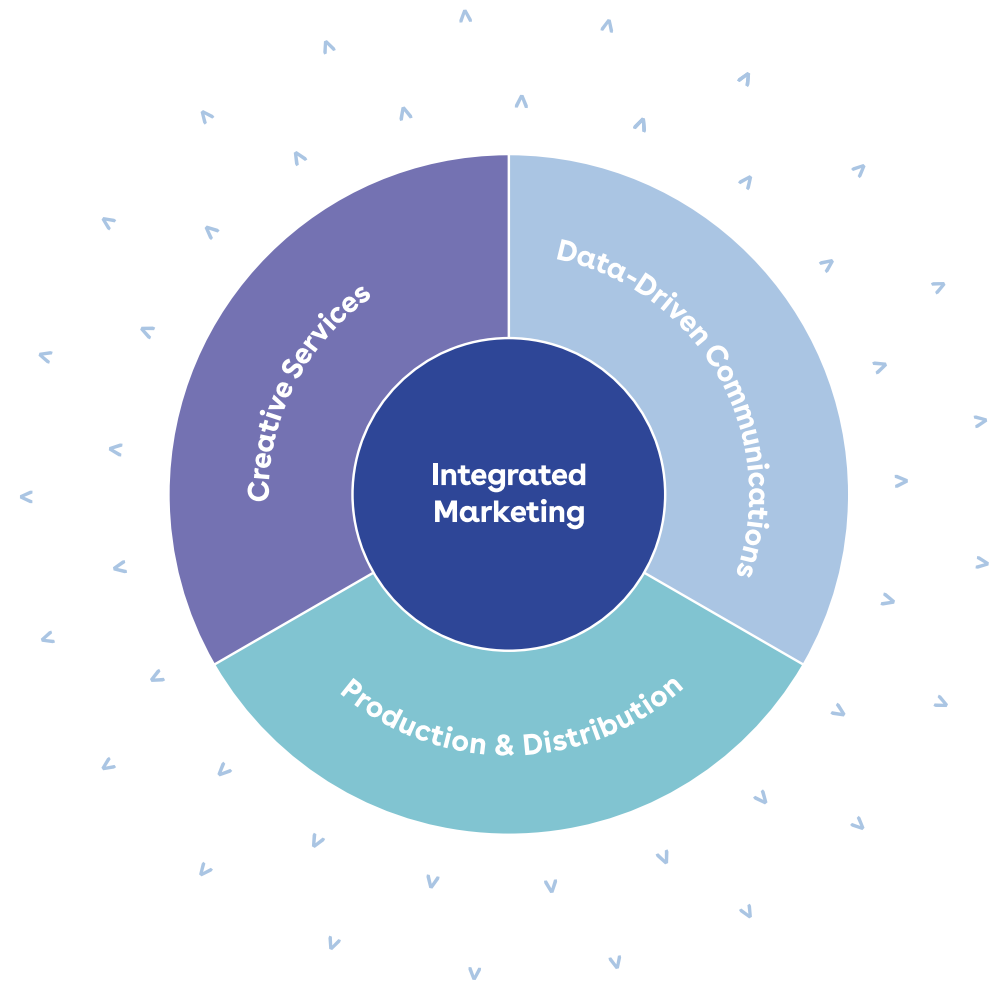

- > We entered into a long term contract with ACM at the end of October 2020
- > Expected revenues of circa \$100m over the five-year term, with revenue transitioning mainly during H2 of FY21
- > To support ACM's requirements, and further enhance service to our clients, IVE acquired selected assets of ACM's web offset operation in WA for a purchase consideration of \$2.0m

Our integrated service offering

ive

Specialising in creative, data-driven communications, integrated marketing, production and distribution, we bring together the capabilities, specialists and technology needed to make customer connection seamless.

Our offering is supported by robust integrated technology platforms that make complex marketing simpler for our clients.

Customers and revenue

Customers and revenue

Core to the ongoing sustainability of the business is the value proposition we take to market remaining relevant by closely aligning to our clients evolving requirements. The diversity of IVE's offer and capability to bundle solutions places us in a strong position relative to a number of competitors across the sector. IVE does not have one headline competitor that has an equivalent breadth of offering, and we continue to hold dominant market positions across the sub sectors in which we operate

- Notwithstanding Coles ceasing the production of their letterbox catalogue, they remain an important client with IVE continuing to produce weekly in store catalogues, publications for their liquor brands and the monthly Coles magazine
- Strong new business momentum achieved in H1 with \$30m annualised in new client revenue secured. This revenue growth is across the entire Group and in addition to the ACM contract
 - **Spotlight Retail Group** was secured as a significant letterbox distribution client in both Australia and New Zealand
 - IVE has been appointed to manage all point of sale marketing, kitting and fulfilment for **Greencross Vets** and **Pet Barn**. Further opportunities have already presented for PPE and Hygiene products, uniforms and apparel.
- Our long term track record of client retention is excellent and there were a number of contract extensions over the period

Some examples of our diverse offer

- We have moved deeper into the retail and FMCG vertical by obtaining HACCP (Hazard Analysis Critical Control Points) certification. This has enabled IVE to move beyond just point of sale production, and now through utilisation of our large Integrated logistics capability we are managing the product co-packing requirements for major clients and household consumer brands, including a major tinned food producer, batteries, coffee pods, confectionery, toys and dental products to name a few.
- IVE has continued to bring new retailers onto its Lasoo aggregated digital catalogue platform, deploying product enhancements and growing revenue and audiences ahead of a meaningful Lasoo investment and enhancement program over the year ahead.
- A few examples of IVE's diverse value proposition continuing to deliver deeper client relationships
 - Maccas Experience – 21 engaging and dynamic training videos created (concept development, illustration, animation and video production) for **McDonald's** as part of their \$40m per annum commitment to employee training
 - McDelivery Car Wraps – creating eye-catching car wraps for their delivery fleet with great buy-in from franchisees and even better feedback from local communities

- IVE continues to grow and strengthen its partnership with **Woolworths** providing a wide range of services, whether that is through their 980+ store network or directly to their customers (consumers). IVE partners Woolworths in managing customer communication requirements for their Everyday Rewards Program, managing catalogue distribution to millions of letterboxes, providing staff uniforms and producing in-store marketing campaigns on an ongoing basis.

- As a retail specialist, IVE continues to support leading retail brands, such as **Diageo** by creating and producing exceptional point of purchase collateral, that help's turn shoppers into buyers. Despite food and beverage sectors experiencing significant disruption since the outset of the pandemic, Diageo continues to successfully grow market share and capture the attention of shoppers by promoting its stable of brands though increased investment with IVE. Every campaign activation is unique and consists of a diverse range of integrated point of sale, displays, premiums and merchandise solutions – manufactured locally and offshore, incorporating everything from creative development, right through to distribution.

- A range of digital and social media creative work for clients like **Blackmores**
- IVE's Data Driven Communications business has been managing **Nufarm's** Salesforce Marketing Cloud integration globally – this project is core to Nufarm's digital transformation, and a desire for their business to be better connected with their customer base. IVE has completed the North American integration (USA and Canada) and is now focused on deployment across Australia and New Zealand ahead of planning the rollout for Europe.

Outlook

- FY21 full year underlying EBITDA expected to be consistent with FY20 (\$100m underlying EBITDA continuing operations)
- Gross profit margin expected to remain stable over the remainder of FY21
- Full year capital expenditure expected to be approximately \$10m including MIS/ERP upgrades
- Full year restructure and acquisition costs expected to be approximately \$4m
- Forecast net debt at 30 June 2021 expected to be \$90-100m

> Non-IFRS financial information

In this Results Presentation, certain non-IFRS financial information has also been included to allow investors to understand the underlying performance of IVE.

The Directors believe that the results before restructuring and acquisitions costs, and Pro Forma comparisons, better reflect the underlying operating performance and is consistent with full year guidance, which differs from the Statutory presentation.

The non-IFRS Pro Forma financial information for the half year ended 31 December 2020 have not been audited or reviewed.

Financial information in this results presentation is expressed in millions and has been rounded to one decimal place. This differs from the interim financial report where numbers are expressed in thousands. As a result, some minor rounding discrepancies occur.
