We are Zip

Our Purpose

The freedom to
own it

Our Mission

To be the first
payment choice,
everywhere and
every day

We have five key differentiators that set us apart

Product

We deliver a flexible product set that services all purchase values, across all verticals. We provide **short and long term interest-free instalments** globally.

Unit economics

Our unique model derives **revenue from both customers and merchants**, supporting healthy and sustainable unit economics. Our customer fees are always simple, fair and transparent.

Business model

We operate on both a closed and open loop payments network which enables customers to buy now, pay later everywhere, **deepening customer engagement and driving traffic to our merchant partners.**

Global

Zip is one of the few truly global BNPL players with operations and interests across 9 geographies. With a single integration, merchants can instantly open up multiple markets. Our scalable technology platform enables new market entry at speed, while managing all the financial, regulatory and inherent risk complexities.

Risk management

Financial responsibility is at our core, we have built **superior credit decisioning and portfolio management capabilities** that enable us to balance risk and growth.

- ✓ **Customer acquisition and engagement** growing, team in place

HY21 Highlights

Solid growth

Zip cements its position as one of the fastest growing BNPL players in the US, and as a true global BNPL leader, with over 5.7m customers, annualised TTV of c.\$7.5bn and annualised revenue of c\$480m – **delivered 100%+ YoY growth** across key metrics in HY21.

Quadpay (US)

Completed the acquisition of Quadpay in August 2020 to accelerate growth in the US. The business has grown TTV >130% in 4 months since completion and has strong momentum in the largest global market opportunity.

Board appointments

Bolstered the Board with 2 key non-executive director appointments – Diane Smith-Gander as Chair (AGL, ex. WES, BRS) and **Pippa Downes** as Chair Audit and Risk (ALE, Infotrack, Ingenia Communities, Australian Super IC).

Capital Raise

Raised \$176.7m via an **oversubscribed placement and share purchase plan (SPP)** to retail and institutional investors **to fuel global growth**, with outstanding support from our loyal retail base, accepting all SPP oversubscriptions.

Product innovation

Launched Tap & Zip in Australia reimagining BNPL in-store and became a Visa principal issuer. **Enabled Quadpay Chrome extension** in the US enabling customers to pay later on any website.

Key partnerships

Secured **key partnerships with eBay and Facebook** (Zip Business) and continued to secure iconic brands such as Harvey Norman, Boohoo, JD Sports and Fanatics to drive global growth.

Financial highlights

We continue to deliver exceptional growth and sustainable financial performance

- Cash EBTDA positive as a group while investing significantly for global growth
- Transaction Volume and Revenue 100%+ YoY
- Healthy unit economics per transaction (3.71% of TTV on a Cash GP basis)

Operational highlights

We have proven our ability to execute across the globe

- Our core business in ANZ has continued to perform very strongly
- Our US business (Quadpay) has been a growth engine, with outstanding performance across all key metrics
- The US is contributing an increasing share of group performance (>40% of TTV in December) with a strong outlook ahead

Capital efficiency

The addition of Quadpay delivers a step change in yield and capital efficiency.

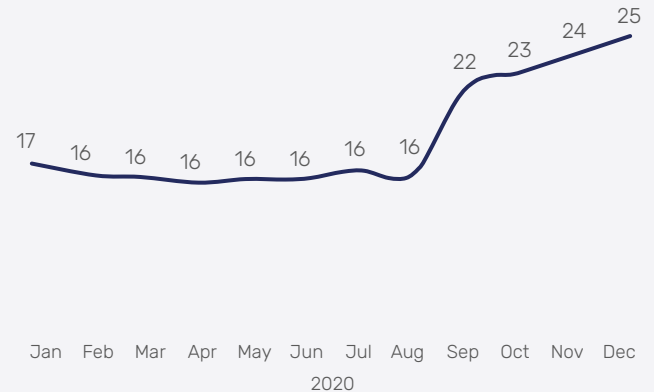

From Sep yield improved from 16% to 25%, with the receivables now turning every 3 months on average.

- The US acquisition with its weighting to short-term instalments was a major driver to this changes
- In addition customer repayment rates in ANZ improved positively impacting yield and repayment profile

Quadpay acquisition adjustment

- No cash or business impact. Accounting only.
- Acquisition announced on 2 June 2020 (15 day VWAP to 29 May \$3.39).
- The number of Zip shares to be issued to acquire Quadpay was equivalent to up to 23.3% of the issued share capital of Zip at completion.
- Shareholders approved the acquisition of Quadpay on 31 August 2020.
- The closing share price on the day was \$9.16.
- Accounting standards require that:
 - Zip revalues its existing holding in Quadpay based on the \$9.16 share price (fair value gain of \$109.7m).
 - Zip records the cost of the investment in Quadpay based on the \$9.16 share price.
- In conjunction with its independent valuers the Company determined that a spot price was not a fair reflection of the market value of Zip's shares for the purposes of calculating the fair value of the investment in Quadpay.
- Based on a review of the VWAP of Zip's shares, a fair market value equivalent to a share price of \$6.50 was determined, and a Day 1 adjustment of \$415.9m made to goodwill.

 - Convertible Notes issued with an initial conversion price of \$5.53, a 50% premium to the 1 day VWAP.
 - Warrants issued at a 40% premium to the 1 day VWAP.
- Ensured funding in place to support the growth of Quadpay post acquisition.
- Issue approved by shareholders on 31 August 2020.
- Zip received \$100.0m cash, \$96.8m net of costs.
- Valuation of Convertible Note split between debt host and embedded derivative.
- Debt host amortised over 5 years to expected cash outflow.
- Embedded derivative and warrants fair valued at each reporting date.
- Fair valued at HY21 using a \$5.29 share price.
- Fair value sensitive to share price movements. 100% increase in share price will result in a fair value adjustment of approximately \$160m.

Funding update

- The Company is well placed with regards to available debt financing to support its global growth plans.
- Zip completed its second rated note issuance within the Master Trust. Rating of senior notes improved two notches due to performance of the receivables portfolio.
- This rating improvement delivered a 10bps reduction in AU interest costs, with further reductions expected over time.
- The weighted average interest rate on loans outstanding at 31 December 2020 was 3.9% compared to 3.7% at 30 June 2020 (includes Quadpay and SME receivables facilities currently at higher rates).
- Undrawn facilities of \$308.1m at 31 December 2020. Facility increased by \$204.4m in January 2021.
- US debt facility with Goldmans / Oaktree US\$150m. US\$25m repaid in Jan following seasonal peak.
- Established a \$100m facility with US firm Victory Park Capital to support the growth of SME receivables under Zip Business.

Outlook

nal use only

HY21 has provided strong momentum for us to build upon in H2

H1 was transformational

H1 was our biggest result yet across all key metrics.

The US-based, **Quadpay acquisition has been transformational for Zip** with growth set to continue.

Remain focused on key priorities

We remain focused on our **4 strategic priorities set at the beginning of FY21**: (i) Payments acceptance, (ii) App engagement, (iii) Global expansion, and (iv) Zip Business.

We have global momentum

We have set the foundations to accelerate growth across the globe in FY21, with **particular focus on US**.

We continue to look for new opportunities and strategic partnerships to expand our footprint.

Our pipeline is strong

We have a **strong pipeline of global retail partnerships** as iconic merchants seek to take advantage of our increasing global presence.

Relentless focus on unit economics

Our growth ambitions will be delivered with a **continued focus on healthy and sustainable unit economics**.

This presentation may contain certain "forward looking statements". Forward risks, uncertainties and other factors, many of which are outside the control of the Company can cause actual results to differ materially from such statements. The Company makes no undertaking to update or revise such statements. Investors are cautioned that any forward-looking statements are not guarantees of future performance and that actual results or developments may differ materially from those projected in any forward-looking statements made.

An investment in the Company's shares is subject to investment and other known and unknown risks, some of which are beyond the control of the Company. Such risks and uncertainties include, but are not limited to: the acquisition and retention of customers, third party service provider reliance, competition, reliance on key personnel, additional requirements for capital, the ability to raise sufficient funds to meet the needs of the Company in the future, potential acquisitions, platform disruption, commercialisation, changes in technology, reliance on new products, development timeframes, product distribution, insurance, security breaches, maintenance of key business partner relationships, management of growth, brand establishment and maintenance, as well as political and operational risks, and governmental regulation and change in laws. Additional risks and uncertainties that the Company is unaware of, or that it currently considers to be immaterial, may also become important factors that adversely affect the Company's operating and financial performance.

Usability of the Company's products depend upon various factors outside the control of the Company including, but not limited to: device operating systems, mobile device design and operation and platform provider standards and reliance on access to internet. A number of the Company's products and possible future products contain or will contain open source software, and the Company may license some of its software through open source projects, which may pose particular risks to its proprietary software and products in a manner that could have a negative effect on its business. The Company's intellectual property rights are valuable, and any inability to protect them could reduce the value of its products and brand. The Company's products may contain programming errors, which could harm its brand and operating results. The Company will rely on third party providers and internet search engines (amongst other facilities) to direct customers to the Company's products.

The Company does not guarantee any particular rate of return or the performance of the Company, nor does it guarantee the repayment of capital from the Company or any particular tax treatment. Before investing in the Company, you should consider whether this investment is suitable for you. Potential investors should consider publicly available information on the Company, carefully consider their personal circumstances and consult their professional advisers before making an investment decision.
