Business Update

Building the portfolio to support long term growth and earnings

- Strong recovery in Managed Services with H1 FY21 showing 51% revenue growth vs COVID impacted H2 FY20. Technology revenues and capital projects delayed by the pandemic.
- New business wins leading to 85 new ANPR sites installed in the UK and on track to achieve the 1,000 site target by June 2023.
- Positive Group adjusted operating cashflow of \$2.2m despite government lockdown restrictions in many areas of the UK.
- New Technology business wins in H1 FY21 delivering 2,400 sensors.
- New IP development and products delivered to market.
- Resolved long running VAT dispute resulting in a refund of \$2.9m expected in H2 FY21, and total write back of \$6.9m.
- Strong pipeline of new sites, rate of installations depends on access and pandemic related restrictions.
- NZ Managed Services business established and pipeline growing.
- Expecting a strong Q4 performance as the UK vaccination progress continues, additional sites contribute new revenues and seasonality boosts activity.

Smart Parking Group

- The business experienced a strong recovery in H1 FY21 with Parking Breach Notices increasing 40% compared to H2 FY20.
- Overheads were down 29% with personnel costs down 29% as a result of the cost saving initiatives implemented in FY20.
- \$3m annualised savings achieved in FY20 with additional 6 months contribution in FY21.
- The Group recognised a one-off benefit of \$6.9m in H1 FY21 related to the resolution of the VAT dispute. The VAT settlement will result in increased profitability in future periods. The pre-tax profit would have been approximately \$1.7m higher in FY20 had the agreed method applied in FY20.

Multiple growth drivers

Recovery to pre COVID-19 levels with increased sites under management will significantly enhance SPZ's earning potential

Parking Breach Notices Issued

Revenue growth potential

- Recovery of PBNs per site as restrictions ease.
- Reinstatement of suspended sites as restrictions ease.
- Revenue from new site installations will benefit future periods.
- Leveraging existing customer base.
- Q3 impacted by COVID lockdown, expected PBNs of 28-35k.
- Q4 subject to lockdown easing, expected PBNs of 75-90k.

Global technology update

Summary

- Smart City and IoT market opportunity is growing with further adoption across all market verticals.
- Significant business development activity in H1 with a marked increase in public tenders being submitted across all SPZ territories.

Outlook

• By capitalising on the Smart Cities movement, which is now branching out from traditional Council clients into the likes of infrastructure development and large multi-use retail centres, the company expects continued adoption of parking technology both in our key markets and new territories.

TESSER#

TESSERA

- The Company has \$3.4m of work in progress
 - and new orders to deliver which includes a delayed order from Gatwick Airport for \$1.3m, and Queen Victoria Market in Melbourne
- The timing of installation and revenue recognition remains uncertain due to the ongoing impact of the COVID-19 global pandemic.

Smart City Product Launch

Enforcement App & Compliance Management System

Smart Parking's mobile app and back office management system designed to enable councils and other businesses to efficiently manage parking compliance and enforcement.

- Tessera enforcement app specifically designed for parking compliance officers to electronically gather and submit detailed parking breach information and notes.
- SmartCloud management platform provides visibility of the complete work flow process and enables full, end-to-end case management.
- Complementary addition to the rest of our parking management system.
- Extensible compliance management reporting and notifications.
- Allows for configurable site management.
- Live web dashboards and monitoring tools.

Smart Parking outlook

Strong recovery expected as the Pandemic restrictions ease

UK Management Services recovery underway as vaccine rollout accelerates - all adults to be vaccinated by July 2021.

• 85 new ANPR sites installed in H1 with over 200 new sites in the pipe for H2 FY21.

• UK market opportunity intact – growth target of 1,000 sites by June 2023.

• UK PBN issuance well placed to recover in line with lockdown easing, new site contribution and positive impact of seasonality into Q4.

• Technology order book intact with \$3.4m of booked orders.

• Smart Parking Technology products are well placed to take advantage of global addressable IoT market place.

 Well capitalised to fund growth strategy – \$9.3m cash with an additional \$2.9m of cash from VAT settlement to be received in H2 FY21.

* All forward-looking statements can be subject to change depending on COVID-19 restrictions easing or increasing.

Enters the carpark at the defined entrance

Validation & payment

Machines facilitate pay & walk or validate parking

ANPR Recognition

Camera identifies the number plate of cars entering and leaving the premises

SmartCloud

Automates information and provides detailed reporting

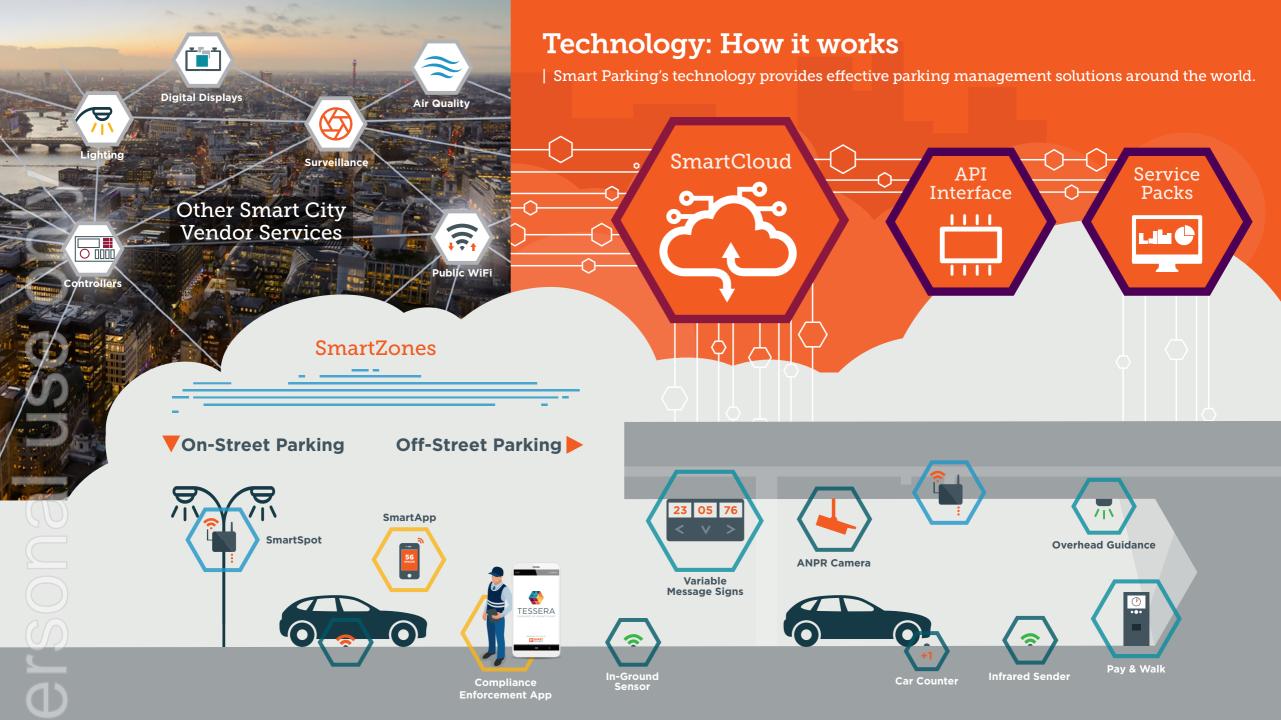

ANPR: How it works

Automatic number / license plate recognition (ANPR) is a reliable, cost effective off-street parking management solution.

It is proven to serve a wide range of industries including supermarkets, retail, hotels, hospitals and leisure centres. Smart Parking's ANPR solution ensures greater compliance and increased parking revenue.

- Ticketless, barrier-free system, parking areas that are managed 24/7
- Automatically generated and issued parking charge notices
- Increased security, comprehensive reporting and account management

Smart Parking app

The Smart Parking app and its customised Miami, Cardiff, Adelaide, Moreton Bay, Moonee Valley, Livingstone Shire and Les Mills apps delivered.

Features and benefits:

- Available for both Android and iOS.
- Provides detailed information around hours, tariffs and bay types.
- Shows real-time availability of car park bays.
- Harnesses the power of Google Maps to provide distance and directions to suitable bays.
- Payment function allows cashless payment and remote top-ups.

Glossary

Adjusted EBITDA - The Board assesses the underlying performance of the Group based on a measure of Adjusted EBITDA which takes into account costs incurred in the current period but which are non-operating and/or are not expected to occur in the future.

EBITDA - represents Earnings before interest, taxation, depreciation and amortisation, and profit/loss on disposal of plant and equipment.
