## ASX Announcement

### PolyNovo enters Denmark, Norway and Iceland

PolyNovo (PNV) has expanded into the Danish, Norwegian and Icelandic medical device markets with the appointment of MedinaMedical to distribute NovoSorb® BTM.

MedinaMedical specialises in reconstruction, complex wounds and burns with over 13 years' experience in these fields across the Nordic region. NovoSorb BTM is a perfect fit in their product offering and the surgeons they serve. Based in Copenhagen Denmark, Medinamedical will support throughout the region where there is already great interest in NovoSorb BTM. [www.medinamedical.dk](http://www.medinamedical.dk)

Managing Director of PolyNovo, Paul Brennan said, *"Our partnership with MedinaMedical completes PolyNovo's coverage of the Nordic region which consist of some of the highest quality healthcare systems in the world. As a percentage of GDP, Nordic countries also have some of the highest healthcare expenditures in the world, and therefore, this is an exciting incremental step in expanding our sales across Europe."*

This announcement has been authorised by PolyNovo Company Secretary Jan-Marcel Gielen.

#### About NovoSorb®

NovoSorb® is a novel range of bio-resorbable polymers that can be produced in many formats including, film, fibre, foam, and coatings. NovoSorb's unique properties provide excellent biocompatibility, control over physical properties, and programmable bio-resorption profile. NovoSorb® BTM is a dermal scaffold for the regeneration of the dermis when lost through extensive surgery or burn.
