Review of operations

The first half results of FY21 shows a significant increase in profitability with profit attributable to ordinary equity holders of the company of \$4.8 million for the six months ending 31 December 2020 compared to \$1.6 million for the prior comparative period of six months ending 31 December 2019.

Both the KWB and Bedshed divisions performed above prior year comparatives and also above forecast levels of earnings for the period. The Group's continuing revenue to 31 December 2020 grew to \$52.9 million, up 16% from the comparative period (\$45.5 million). This was despite significant macro-economic challenges causing supply chain disruption and lockdowns in parts of the country. In line with the increase in revenue, the Group's earnings before tax and interest (EBIT) increased from \$5.2 million to \$11.4 million.

An Earnings Per Share (EPS) of 17.1 cents was achieved in the 6-month period ended 31 December 2020 which is an increase of 208% from the comparative 2019 period of 5.6 cents.

The Group's consolidated closing gross cash balance stood at \$18.2 million as at 31 December 2020, \$7.6 million more than 30 June 2020 and \$16.3 million more than 31 December 2019. As at the end of the period, net cash stood at \$12.7 million.

The Company's distinct operating units at 31 December 2020 were:

KWB Group Pty Ltd	(51% owned)
Bedshed Franchising	(100% owned)
Bedshed Company Owned Stores	(100% owned)

KWB's revenue and profit grew during the reporting period to 31 December 2020 by 12% and 48% respectively. Three new showrooms were opened in the half year period and it is planned to open further showrooms in the 2021 calendar year with a focus on expansion in NSW.

Both the Bedshed Franchising and Owned Store businesses performed strongly in the reporting period. The Franchising operation improved earnings to \$1.6 million (from \$0.7 million in the half year ending 31 December 2019) and Bedshed Owned Store operations increased to \$2.7 million (from \$0.6 million in the half year ending 31 December 2019). In December 2020, the Helensvale Bedshed Store was successfully transferred from a Company Owned Store to a franchisee. There are now 4 Company owned stores and 32 Franchised stores across West Australia, Queensland and Victoria.

Events after reporting date

The Company determined to pay a fully franked interim dividend of 7.0 cents per share. The record date is 12 March 2021 and payment date 9 April 2021.

In early February 2021, the Western Australian and Victorian Bedshed networks were closed for a short period due to the restrictions enacted by the Local State Governments associated with the COVID-19 pandemic. It is not envisaged that this will have a material impact on annual earnings.

DIRECTORS' REPORT

The Group has decided to voluntarily return funds to the ATO from the JobKeeper payments it received from the Australian Government during the period.

Other than that disclosed above, no event has occurred since the reporting date to the date of this report that has significantly affected, or may significantly affect the Group's operations, or the results of those operations, or the Group's state of affairs.

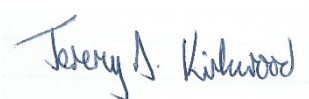

Rounding of amounts

The Group has applied the relief available to it in ASIC Corporate Legislative Instrument 2016/191 and accordingly, certain amounts in the financial report and the Directors' Report have been rounded off to the nearest \$1,000.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE HALF-YEAR ENDED 31 DECEMBER 2020**

1. BASIS OF PREPARATION

These general-purpose financial statements for the interim half-year reporting period ended 31 December 2020 have been prepared in accordance with requirements of the *Corporations Act 2001* and Australian Accounting Standards, including *AASB 134: Interim Financial Reporting*. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards.

This interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this financial report is to be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2020, together with any public announcements made during the half-year ended 31 December 2020.

Comparatives

Where required by accounting standards comparative figures have been adjusted to conform with classification and presentation for the current financial half-year.

The comparatives have been restated to report discontinued operations separately from continuing operations.

2. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and methods of computation adopted in the preparation of the half-year report are consistent with those adopted and disclosed in the Company's annual report for the financial year ended 30 June 2020.

Adoption of new and amended standards and interpretations

No new accounting standards were adopted in the period.

Use of estimates and judgements

There have been no significant estimates and judgements used in the process of applying the Group's accounting policies.

Impact of accounting standards to be applied in future periods

There are a number of standards and interpretations which have been issued by the International Accounting Standards Board that are effective for periods beginning subsequent to 30 June 2021 (the date on which the Company's next annual financial statements will be prepared up to). The Group does not believe the standards and interpretations that will be relevant to the Group, will have a material impact on the financial statements once adopted.

These Standards and Interpretations are:

AASB 2020-1: Amendments to Australian Accounting Standards - Classification of Liabilities as Current or Non-current. This applies to periods beginning on or after 1 January 2023; and

AASB 2020-3: Amendments to Australian Accounting Standards - Annual Improvements 2018-2020 and Other Amendments. This applies to periods beginning on or after 1 July 2021.

The Group does not intend to take advantage of section 334(5) of the Corporations Act 2001 (Cwlth) and early adopt any of the above standards and interpretations.

¹ The payment of the FY2020 final dividend of 5.0 cents was delayed to September 2020 resulting in a higher dividend cash outflow for the current period.

4. OPERATING SEGMENTS

Operating segments

Operating Segments are identified based on internal reports about components of the Group that are regularly reviewed by the chief operating decision makers (The Board of Directors and the CEO) in order to allocate resources to the segments and to assess their performance.

The operating businesses are organised and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

The Group has the following operating segments:

- Operation of retail kitchen and wardrobe showrooms;
- Bedshed retail bedding franchise operation; and
- Company-owned retail bedding stores.

Transfer prices between operating segments are set on an arms-length basis and in a manner consistent with transactions with third parties.

Previous operations of valuation, online and physical auction sites were divested on 17 June 2020 and are reported under Discontinued Operations.

Geographic segments

The Group operates in one principal geographical area namely that of Australia (country of domicile). Each Segment is managed on a national basis and Management consider that geographic areas are not a consideration in Segment performance.

Information about major customers

No single customer of the Group generated more than 10% of the Group's revenue during the period ended 31 December 2020.

In the retail operations of the Group, namely KWB and Bedshed company-owned Stores, no single customer represents a material amount of revenue.

There are no unfulfilled conditions or other contingencies attaching to these grants. The Group did not benefit directly from any other forms of government assistance.

Subsequent to the period end, the Group has decided to voluntarily return funds to the ATO from the JobKeeper payments it received from the Australian Government during the period.

Gain or loss on leasehold modifications

During the period, the Bedshed company-owned store in Helensvale QLD was taken over by a Franchisee and at 31 December 2020 it is operated as a part of the Bedshed Franchising network. As a part of the sale arrangements the lease for the property was assigned to the franchisee. As a result of this assignment both the lease liability and the right of use asset are no longer accounted for in the Bedshed records. The impact to other revenue resulting from the transfer of the Helensvale lease is a gain of \$480k.

Disaggregation of revenue

The Executive review the business at the level of disaggregation shown in the Operating Segments note. The disaggregation of revenue follows the operating segments identified, being revenue from the following activities and arrangements:

- Similar timing of customer payment arrangements. At KWB there are a series of deposit stages prior to the delivery of the kitchen.
- Similar types of revenue. At Bedshed Franchising the majority of revenue is earned through payments made by the Franchisees for the services Bedshed provide in connection with the Franchise.

In understanding the segments, the organisation rarely considers the geographic location of the customer to understand the commercial drivers of the business.

The location of KWB's 23 showrooms is not considered a primary driver of the entity's commercial outcomes. KWB considers fluctuations in overall consumer renovation spend and confidence to have a greater influence on its revenue. In the Bedshed company-owned-stores entity, there are two trading locations in Queensland and two in Western Australia. Their location is also not a primary driver of understanding the business, greater insight comes from consideration of the broader macro-economic factors in play that would influence demand, and in the case of the company-owned stores this would include changes in consumer spend on household goods, housing price movements and consumer confidence.

The Group divested of its valuation, online and physical auction site operations on 17 June 2020 and has reported the operation's revenue as a net earnings number in the comparative period under "(Loss) from discontinued operations". There were no new revenue streams during the half year ended 31 December 2020.

12. SHARE-BASED PAYMENTS

(i) Keith Smith share-based payment

In the contractual arrangements finalised and signed on 9 October 2020 it was agreed to issue Joyce Corporation Ordinary Shares to Keith Smith. The market price of Joyce Corporation at the close of business on 9 October 2020 was \$1.50 and 63,731 shares were issued giving an accounting value for the issue of \$95,596.

The shares rank equally with the ordinary shares already on issue by the Company. No funds were received or applied in the issue, as the shares were issued in recognition of Keith Smith's contribution to the Company.

Recognition and measurement

The cost of the share-based payment is recognised, together with a corresponding increase in equity, in the period in which the shares were issued (December 2020). An expense of \$95,596 was recognised in the Consolidated Statement of Profit or Loss.

(ii) Key Management Personnel performance rights

The performance rights offered are designed to provide long-term incentives for Key Management Personnel to deliver long-term shareholder returns. Under the agreement, participants are granted options which only vest if certain performance standards are met.

Details of the performance rights issued are summarised below:

Beneficiary	Gavin Culmsee
Number of Rights Granted	76,387
Fair Value per right (JYC share price on grant date)	\$1.55
Total fair value	\$118,400

No. of rights expected to vest	63,501 - 127,002	70,242 - 140,484

*The expense recognised in respect of the performance rights is based on the Board's assessment of the probability that certain milestone earnings will be achieved, measured cumulatively over the three-year period commencing 1 July 2020 and ending 30 June 2023. There are three milestones: "threshold"; "target"; and "stretch and above". Meeting these milestones results in, respectively, 25%, an additional 25%, and the final 50% of the rights vesting into ordinary shares.

**Dan Madden's contract of employment commenced on 1 December 2020 and as a result for the year 30 June 2021 only a prorated expense will be recognised.

For the above Long-Term Incentive schemes \$51,800 was charged in the six-month period to 31 December 2020. Since the schemes were inception \$71,533 has been charged (as at 30 June 2020 \$19,733 had been charged in relation to the Long-Term Incentive schemes).

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE HALF-YEAR ENDED 31 DECEMBER 2020**

Recognition and Measurement

The schemes in place can only be equity-settled and are accounted for accordingly. The cost of equity-settled transactions with employees is measured using their fair value at the date which they were granted. In determining the fair value, no account is taken of any performance conditions.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which any performance conditions are met, ending on the date on which the employee becomes fully entitled to the award (vesting date). The cumulative expense recognised for these transactions at each reporting date reflects the extent to which the vesting period has expired and the proportion of the awards that are expected to ultimately vest.

No expense is recognised for awards that do not ultimately vest due to a performance condition not being met.

13. EVENTS AFTER REPORTING DATE

The Company determined to pay a fully franked interim dividend of 7.0 cents per share. Record date is 12 March 2021 and payment date 9 April 2021.

In early February 2021, the Western Australian and Victorian Bedshed networks were closed for a short period due to the restrictions enacted by the Local State Governments associated with the pandemic. It is not envisaged that this will have a material impact on annual earnings.

The Group has decided to voluntarily return funds to the ATO from the JobKeeper payments it received from the Australian Government during the period.

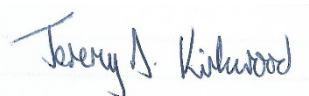

Other than that disclosed above, no event has occurred since the reporting date to the date of this report that has significantly affected, or may significantly affect the Group's operations, or the results of those operations, or the Group's state of affairs.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Joyce Corporation Ltd

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Joyce Corporation Ltd (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2020, the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, a summary of statement of accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- (i) Giving a true and fair view of the Group's financial position as at 31 December 2020 and of its financial performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Responsibility of the directors for the financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2020 and its financial performance for the half-year ended on that date and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
