# WOOMERA MINING LIMITED AND CONTROLLED ENTITIES REPORT FOR THE HALF-YEAR ENDED 31 DECEMBER 2020

## DIRECTORS' REPORT

The Board of Woomera Mining Limited (Woomera) submit herewith the interim financial report of the consolidated entity (Woomera Mining and its controlled entities) for the half-year ended 31 December 2020.

## DIRECTORS

The Directors of the Company in office during or since the end of the financial year are;

Ian Gordon	-	Non Executive Chairman (Appointed 14 October 2020)
David Richards	-	Non Executive Director (Appointed 14 October 2020)
David Lindh	-	Non Executive Director
Neville Martin	-	Non Executive Chairman (Resigned 26 November 2020)
Don Triggs	-	Executive Director (Resigned 14 October 2020)
Gerard Anderson	-	Executive Director (Resigned 14 October 2020)
Joe Fekete	-	Non Executive Director (Resigned 14 October 2020)
Kevin Seymour	-	Managing Director (Appointed 1 February 2021)

All directors held office from the start of the financial year to the date of this report unless otherwise stated.

## PRINCIPAL ACTIVITIES

The principal activity of the Group is exploration for mineral resources.

Woomera Mining Limited is an ASX listed exploration company based in Adelaide, South Australia with an extensive mineral tenement portfolio prospective for gold, copper, nickel-copper-cobalt and lithium.

During the Financial Half-Year the principal and ongoing activities of the Group consisted of:

- Board restructure and appointment of new Managing Director.
- Woomera's fully underwritten, pro-rata, non-renounceable 2 for 3 rights offer to Eligible Shareholders (announced 8 July 2020) closed on 10 August 2020 heavily oversubscribed. A total sum of \$1.632m was raised under the rights offer. This followed the completion of a share placement that raised \$252,000 from institutional, sophisticated, and professional investors.
- Aircore drilling program completed at Three Bears extending the zone of mineralisation a further one kilometre to the south for a total strike length of seven kilometres.
- Limited aircore drilling program and rock chip sampling completed at Lang's Find - best results of 9.15 g/t, 7.54 g/t and 6.63 g/t gold in quartz veins within mafic rocks.
- First pass Reverse Circulation drilling program completed at Chapman's Reward with a best intersection of 5m @ 1g/t gold (refer WML ASX Announcement 12 February 2021)
- Supplementary aboriginal clearance completed in the Musgrave Alcurra-Tieyon project

## OPERATING RESULTS

The consolidated loss after tax for the reporting period was \$903,056, (half-year ended 31 December 2019: loss of \$429,298).

## DIVIDENDS

No dividends have been declared in relation to the half year ended 31 December 2020. (31 December 2019: \$NIL).

## REVIEW OF OPERATIONS

### Mt Venn Gold Project

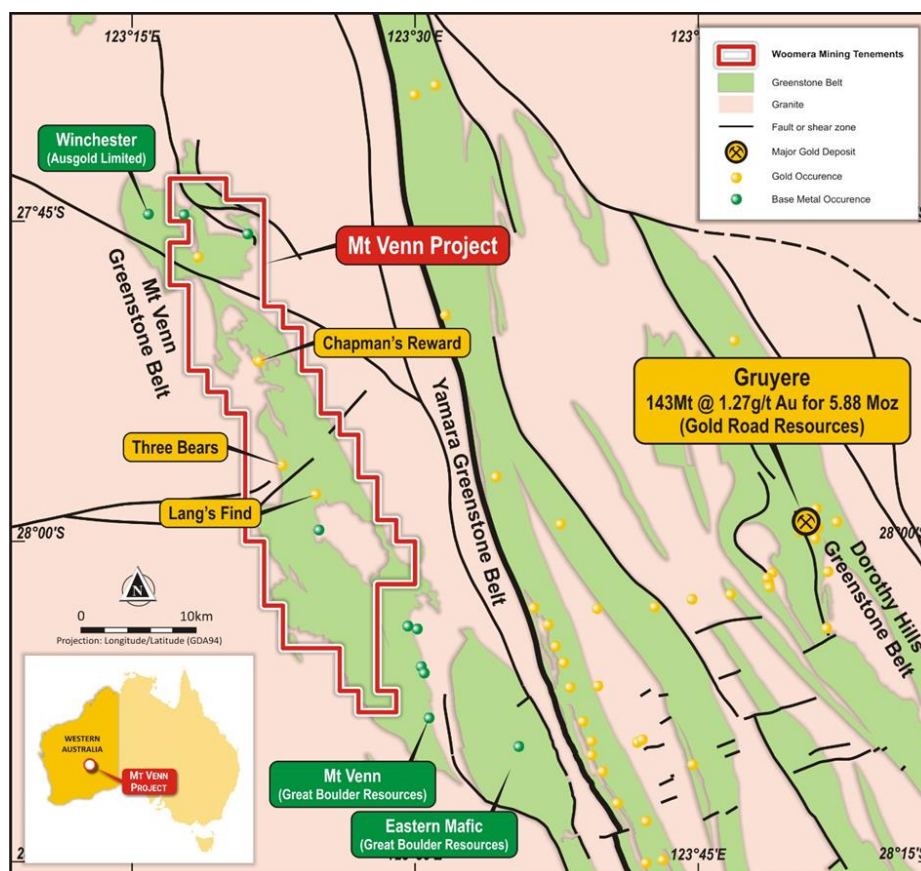

Figure 1– Mount Venn Project area and prospect locations

### Three Bears Aircore Drilling

Aircore drilling at The Three Bears prospect was extended to the south by drilling a further 44 holes for 1,678 metres with an average depth of 38 metres (refer WML ASX Announcement 18 December 2020). Figure 2 shows a 3D layout of all drilling completed at Three Bears with the holes of the most recent program outlined. Drilling at Three Bears now covers a north-south extent of approximately seven kilometres with anomalous gold values recorded over the entire zone.

**Figure 2– Three Bears drill holes and gold distribution**

Figure 3 shows gridded sections for the four lines completed in the November 2020 program at Three Bears which illustrates the coherent nature of the gold anomalism.

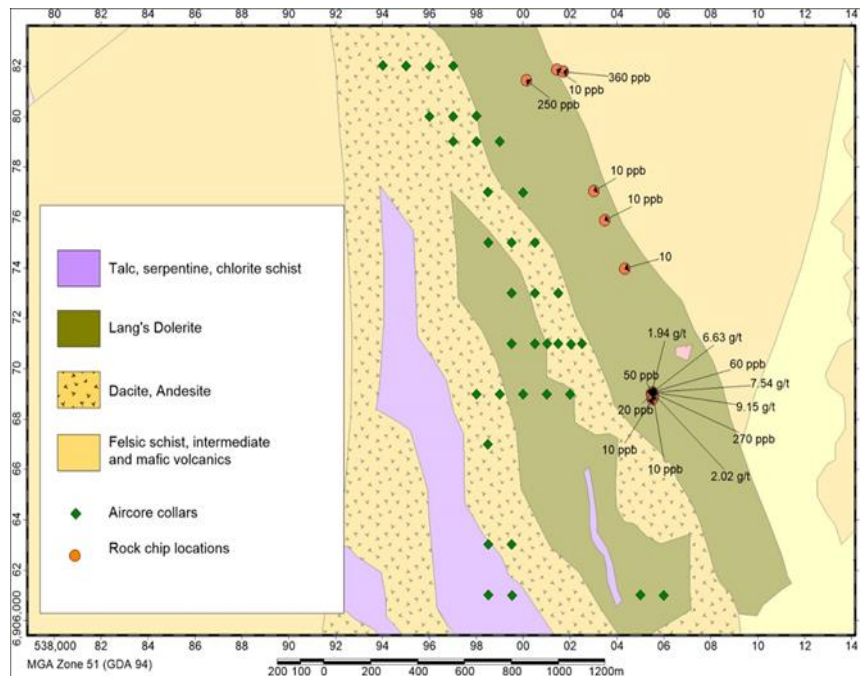

**Figure 3 - Gridded sections at Three Bears showing recent drill lines and gold anomalism**

## Lang's Find

A maiden aircore drilling program of 42 holes for 790 metres averaging a depth of 17 metres was completed at Lang's Find. Access was severely impacted by rougher than expected ground conditions meaning the full program designed to comprise 50 holes for 2000m could not be completed.

Contemporaneously 17 rock chip samples were collected with best results of 9.15 g/t, 7.54 g/t and 6.63 g/t gold in quartz veins within mafic rocks (Figure 4) (refer WML ASX Announcement 18 December 2020).

**Figure 4 - Lang's Find aircore and rock chip sample locations over local geology**

## Chapman's Reward

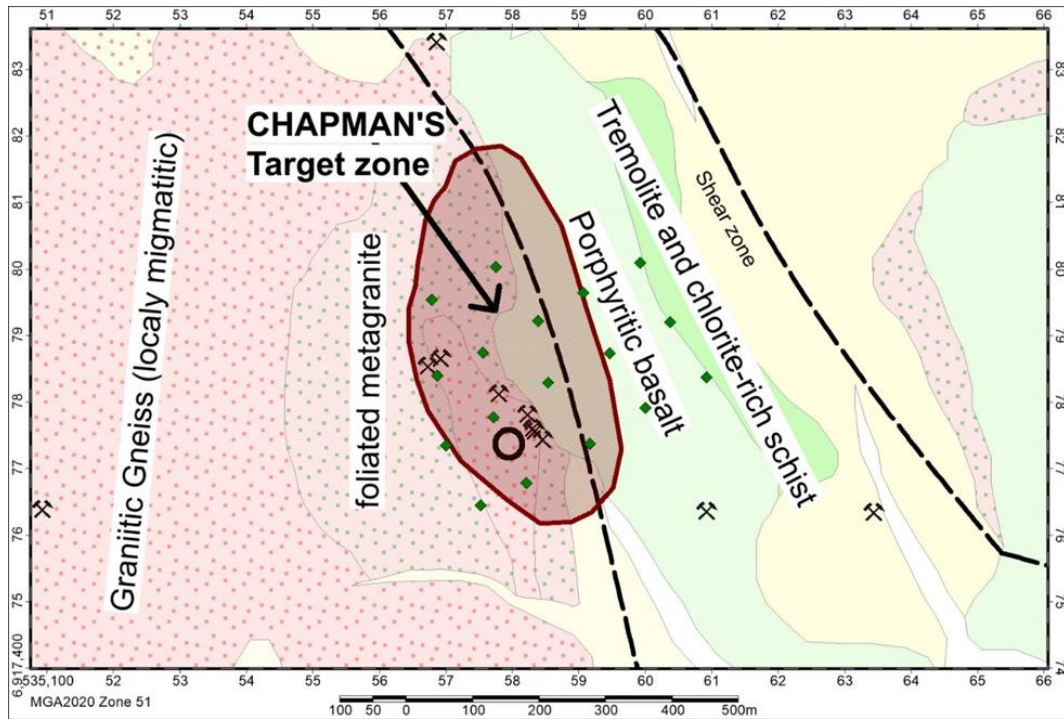

A maiden RC drilling program of 17 holes for 1,673 metres averaging a depth of 98.4 metres was completed at Chapman's Reward (refer WML ASX Announcement 18 December 2020). Hole locations are shown as green diamonds in Figure 5. The drilling was designed to test beneath historic gold workings which are coincident with a contact zone between mafic schist and granitic rocks.

Encouraging, intersections from the drilling include:

- 10m at 0.34 g/t Au from 10m, including 1m at 2.44 g/t Au
- 9m at 0.60 g/t Au from 65m, including 5m at 1.00 g/t Au
- 4m at 0.47 g/t Au from 14m

(refer WML ASX Announcement 12 February 2021)

**Figure 5 – RC collars (green diamonds) and target zone at Chapman's**

#### **Musgrave Alcurra-Tieyon project**

In accordance with the conditions of the Native Title Mining Agreement for the Alcurra-Tieyon project, a site visit was conducted with members of the Tjauwara-Unmuru Aboriginal Corporation (TUAC) to assess rehabilitation activities and to consider some minor changes to proposed drill hole locations at the Cavanagh prospect. Rehabilitation has been completed to the satisfaction of TUAC and the proposed changes to drill hole locations were approved.

#### **Broomehill (new WA project)**

An application for a new tenement near Broomehill in Western Australia was lodged in December 2020. The tenement application sits over a coincident gravity and magnetic anomaly analogous to the Julimar PGE-nickel-copper-

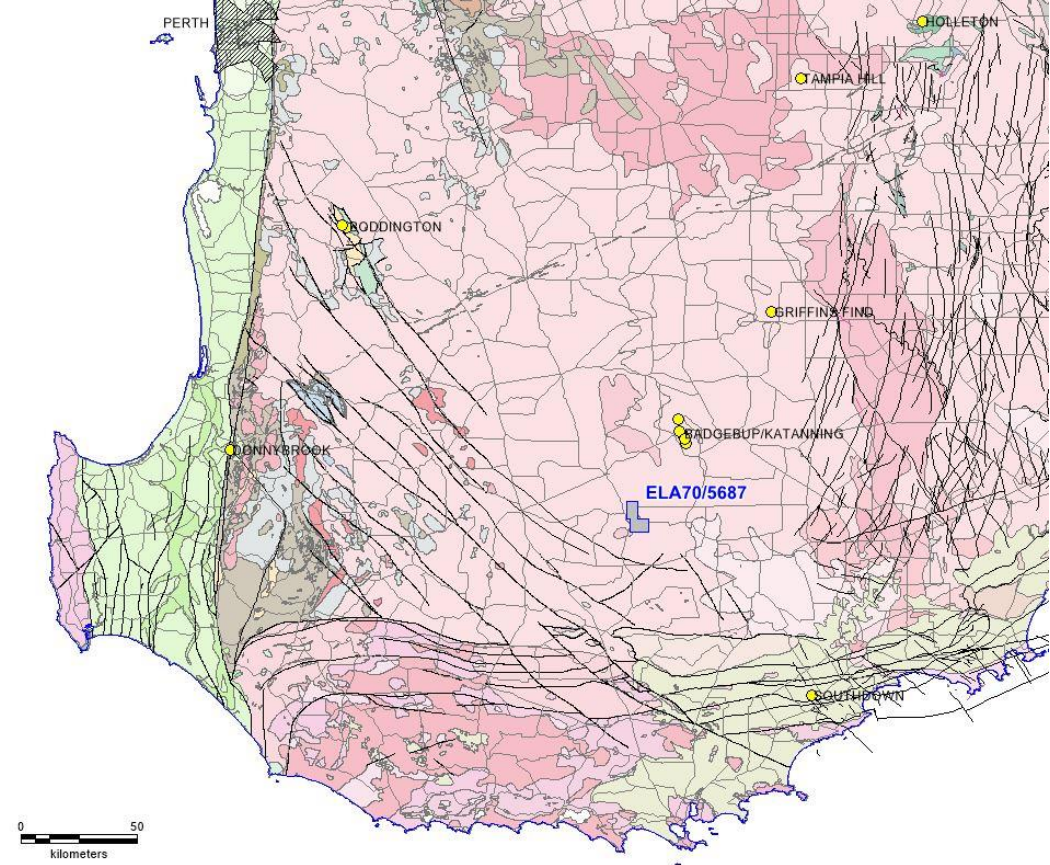

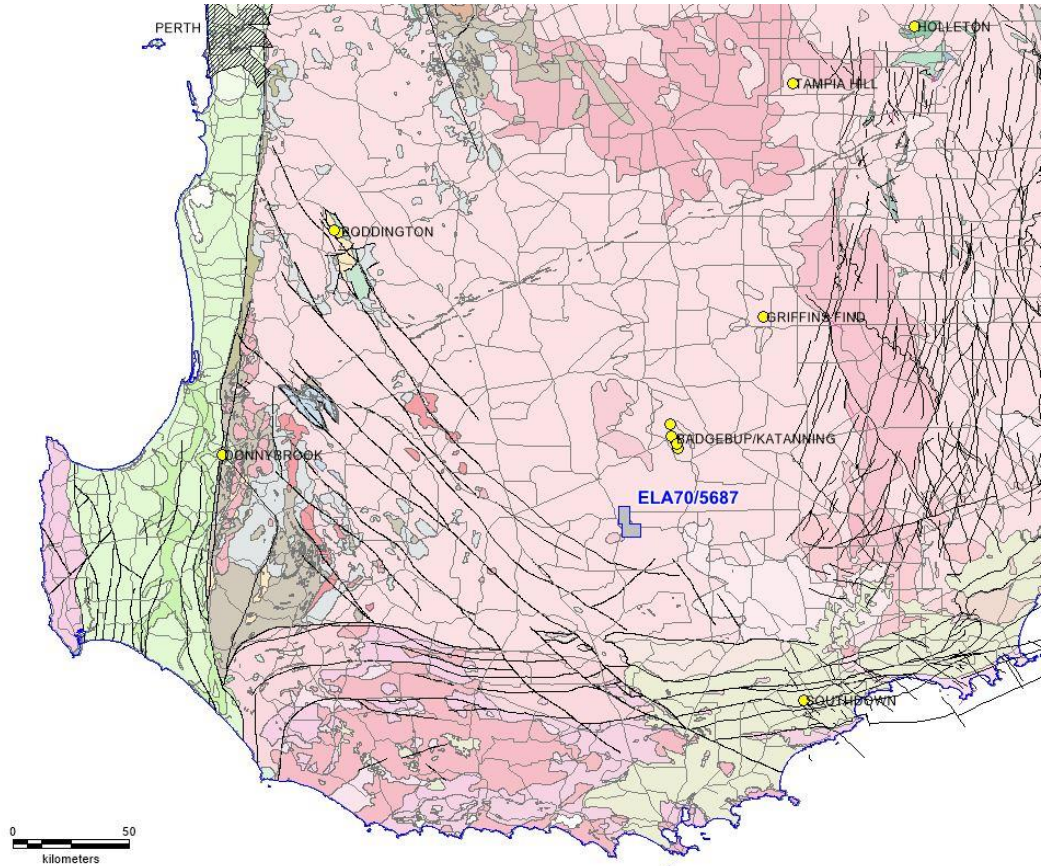

Figure 6). The tenement is 20 kms south of Katanning and 250 km south east of Perth.

### Board Restructure

Woomera has appointed Mr Ian Gordon as Chairman and Mr David Richards as Non-Executive Director. Mr Kevin Seymour joined the Board as Managing Director on 1 February 2021.

Mr Gordon is a mining executive with extensive experience in transaction generation, project acquisition, mine development and the management of public companies. Mr Gordon is a non-executive director with ASX-listed Dreadnought Resources Limited (ASX:DRE) and was formerly Managing Director of Ramelius Resources Limited (ASX:RMS) and Flinders Mines Limited (ASX:FMS). Mr Gordon holds a Bachelor of Commerce from Curtin University in Western Australia.

Mr Richards is a qualified professional geologist with a successful track record and over 35 years' experience in the mineral exploration and development industry in Australia and overseas. He has been responsible for the planning and implementation of corporate strategies and exploration/development programs in a variety of geological environments and is closely associated with the discovery and delineation of multiple economic mineral deposits. Mr Richards has held senior positions with Battle Mountain Australia Inc, Delta Gold Limited and AurionGold Limited, was formerly Managing Director of Glengarry Resources Limited and is currently Technical Director of ASX-listed Liontown Resources Limited (ASX:LTR). Mr Richards holds a Bachelor of Science (Geology Honours) from University of Western Australia.

Mr Seymour is an experienced, highly credentialed exploration geologist with broad experience in a variety of commodities and geological terrains. Prior to joining Woomera, he was the General Manager of Exploration at Ramelius Resources Ltd and has previously held senior exploration roles with Glengarry Resources Ltd, Sons of Gwalia Ltd and Delta Gold Ltd.

Mr Neville Martin, Mr Gerard Anderson, Mr Donald Triggs and Mr Joe Fekete retired from their positions of Chairman, Managing Director, Exploration Director and Non-Executive Director, respectively.

Mr David Lindh has retained his role of Non-Executive Director to provide continuity through the restructuring process. Mr Donald Triggs and Mr Joe Fekete continue as Exploration Manager and Chief Financial Officer respectively, on a consulting basis.

### Tenement Status

During the reporting period the company has applied for one new tenement in Western Australia, surrendered three tenements in South Australia, withdrawn two tenement applications in South Australia and withdrawn one tenement application in Western Australia.

# CONDENSED NOTES TO THE FINANCIAL STATEMENTS

For the HALF-YEAR ended 31 DECEMBER 2020

## 1. Basis of Preparation and Statement of Compliance

The Financial Report is a general purpose Financial Report for half-year reporting period 31 December 2020, which has been prepared in accordance with the requirements of the Corporations Act 2001 and Australian Accounting Standard 134 *Interim Financial Reporting*. This interim financial report is intended to provide users with an update on the latest annual financial statements of Woomera Mining Limited and its controlled entities (referred to as the "consolidated group" or "group"). As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2020, together with any public announcements made during the following half-year.

The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards. The presentation currency of the Group is Australian dollars.

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements with the exception of those outlined in note 3.

## 2. Going concern

The financial statements have been compiled on a going concern basis, which contemplates the continuation of normal business activities and the realisation of assets and the settlement of liabilities in the normal course of business. This includes the realisation of capitalised expenditure of \$4,632,348.

The Group incurred a net loss after income tax of \$903,056 for the half-year ended 31 December 2020 (2019: net loss after income tax of \$429,298) and net operating cash outflows of \$487,354 (2019: \$229,233).

The Group's ability to continue as a going concern is contingent on raising additional capital and/or the successful exploration and subsequent exploitation of its areas of interest through sale or development. The matters set out above indicate the existence of a material uncertainty that may cast significant doubt about the entity's ability to continue as a going concern and therefore the entity may be unable to realise its assets and discharge its liabilities in the normal course of business. The financial statements do not include any adjustments that may be necessary if the consolidated entity is unable to continue as a going concern.

The company is currently undertaking activities to increase its current cash position. These include the applying for a R&D Claim on the 2020 ITR (the amount yet to be determined), and the Company has the capacity to raise up to 25% of its current shares on issue if required through a share placement.

Accordingly, the Directors believe there are sufficient funds to meet the Group's working capital requirements at the date of this report.

## 3. New, Revised or amending Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. The adoption of these accounting standards and interpretations did not have any significant impact on the financial performance or position of the company.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted. The Group does not expect these new standards and interpretations to have a material impact on initial adoption.

# CONDENSED NOTES TO THE FINANCIAL STATEMENTS

For the HALF-YEAR ended 31 DECEMBER 2020

## 4. Dividends

There have been no dividends paid or declared in the period or in the previous reporting period.

Management has determined that the Group is organised in one operating segment, being exploration in Australia. This is based on the internal reports that are being reviewed by the Board of Directors (who are identified as the Chief Operating Decisions Makers) in assessing performance and determining the allocation of resources.

As a result, the operating segment information is disclosed in the statements and notes to the financial statements throughout the report.

## 5. Operating Segments

# CONDENSED NOTES TO THE FINANCIAL STATEMENTS

For the HALF-YEAR ended 31 DECEMBER 2020

## 9. Share-based payments

On 2 December 2020, the Board issued incentive sign on options to Mr Ian Gordon and Mr David Richards comprising 10,000,000 unlisted options each, with an exercise price of \$0.05 and expiring on 31 December 2022. The options were issued for nil consideration and with no vesting conditions, but were issued to the executives (or their nominees) to increase goal congruence between executives and shareholders.

The fair value of options at grant date were measured using the Black Scholes option valuation methodology. The inputs used in the valuation are as follows:

Grant Date	Expiry Date	Share Price at Grant Date	Exercise Price	Expected Volatility	Risk-free Interest Rate	Fair Value at Grant Date
02-Dec-20	31-Dec-22	\$0.027	\$0.05	115%	1.00%	\$0.0127

Historical volatility of a group of comparable companies has been the basis of determining expected share price volatility, as it is assumed that this is indicative of future movements. No adjustment has been made to the life of the option based on no past history regarding expected exercise or any variation of the expiry date. Accordingly, the expected life of the options has been taken to the full period of time from grant date to expiry date, which may fail to eventuate in the future.

## 10. Events after Balance Date

On 11 February 2021, the Board advised of a Strategic Review of its Lithium Projects.

## INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF WOOMERA MINING LIMITED

### Report on the Half-Year Financial Report

#### Conclusion

We have reviewed the half-year financial report of Woomera Mining Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2020, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- (i) Giving a true and fair view of the Group's financial position as at 31 December 2020 and of its financial performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

#### Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

#### Material uncertainty relating to going concern

We draw attention to Note 2 in the financial report which describes the events and/or conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern and therefore the Group may be unable to realise its assets and discharge its liabilities in the normal course of business. Our conclusion is not modified in respect of this matter.

### **Responsibility of the directors for the financial report**

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

### **Auditor's responsibility for the review of the financial report**

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2020 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 Interim Financial Reporting and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
