

**ASX Release | ClearVue Technologies Limited (ASX: CPV)****ClearVue completes US listing onto OTCQB®**

**26 April 2021:** Smart building materials company ClearVue Technologies Limited (ASX:CPV) (**ClearVue** or the **Company**) is pleased to confirm that the Company is now dual listed in the US trading on the OTCQB® under the stock ticker CVUEF.

Further to the Company's Market Update of 30 March 2021 the Company is pleased to confirm that its secondary listing onto the OTCQB® market in the US has completed all compliance steps and will now go live after ASX market close today.

Trading will commence on the OTCQB® market from Monday 26<sup>th</sup> April at 9.30am Eastern Daylight Time (GMT-04:00).

As announced earlier, ClearVue has sought the OTCQB® listing to provide its current and potential new North American investors with appropriate accessibility and liquidity to invest in the Company and with the ability for North American investors to trade and settle during US trading hours in US dollars.

The OTCQB® market has rigorous financial reporting and corporate governance requirements, both of which will be satisfied through the Company's ongoing ASX compliance. In completing the OTC listing process the Company has had to provide the last two years of its announcements and financial disclosures made to the ASX such that North American investors can readily investigate and complete their due diligence on the company directly from the OTC Markets platform at: <https://www.otcmarkets.com/stock/CVUEF/overview>

The Company's listing has been assisted with the support of the team at Viriathus Capital. B. Riley Securities acted as the Company's OTCQB® sponsor.

The Company's primary listing will continue to be the Australian Securities Exchange (ASX), with its shares having secondary listings on the German exchanges in Frankfurt and Stuttgart and more recently the Börse Berlin (<https://www.boerse-berlin.de/index.php/Aktien?isin=AU0000003816>) and now the OTCQB® Market in New York in the United States.

Commenting on the US OTCQB® listing, Executive Chairman Victor Rosenberg has said:

*"ClearVue is very pleased to have now listed onto the OTC. The Company has a large commercial focus on the key market of the US where we see significantly increased interest in potential sales enquiry activity following the new focus on infrastructure renewal, climate change and renewable solutions under the new administration in Washington. We expect the ClearVue story will resonate with US based investors interested in technologies that are climate responsible and offer strong ESG end-user outcomes with long term significant growth potential."*

**About ClearVue Technologies Limited**

ClearVue Technologies Limited (ASX: CPV) is an Australian technology company that operates in the Building Integrated Photovoltaic (BPIV) sector which involves the integration of solar technology into building surfaces, specifically glass and building façades, to provide renewable energy. ClearVue has developed advanced glass technology that aims to preserve glass transparency to maintain building aesthetics whilst generating electricity.

ClearVue's electricity generating glazing technology is strategically positioned to compliment and make more compelling, the increased use of energy-efficient windows now being regulated in response to global climate change and energy efficiency goals.

Solar PV cells are incorporated around the edges of an Insulated Glass Unit (IGU) used in windows and the lamination interlayer between the glass in the IGU incorporates ClearVue's patented proprietary nano and micro particles, as well as its spectrally selective coating on the rear external surface of the IGU.

ClearVue's window technology has application for use in the building and construction and agricultural industries (amongst others).

ClearVue has worked closely with leading experts from the Electron Science Research Institute, Edith Cowan University (ECU) in Perth, Western Australia to develop the technology.
