Appendix 4C: Third Quarter FY 2021 Activities Report

PERTH, AUSTRALIA – 27 April 2021: SUDA Pharmaceuticals Ltd (ASX: SUD), a leader in oro-mucosal drug delivery, today released its Appendix 4C for the consolidated group for the third quarter of FY 2021.

Highlights

- End of period cash balance of \$4.28m.
- Following a review of operations, the Company created efficiencies for ongoing formulation development work.
- SUDA has contracted the services of MedPharm to assist with formulation development for anagrelide, which is being developed as an adjunct therapy for metastatic disease.
- SUDA added two world renowned experts to its Scientific Advisory Board.
- Management continued to source and evaluate new technologies to strengthen the Company's pipeline.

During the quarter ended 31 March 2021, the Company was pleased with the following developments:

- SUDA has contracted the services of MedPharm, who will perform formulation development work and provide valuable expertise, assisting to stabilise and optimise the oral spray formulation for anagrelide. MedPharm is a world-leading Contract Development and Manufacturing Organisation (CDMO) that focus on topical and transdermal product design and development services and they have played a role in the development of 55 approved pharmaceutical products.
- SUDA made two important appointments to its Scientific Advisory Board; Professor Anil K. Sood, MD and Professor Gunnar Birgegård, MD, PhD.

Professor Sood is a Professor and Vice Chair for Translational Research in the Departments of Gynecologic Oncology and Cancer Biology and co-director of the Center for RNA Interference and Non-Coding RNA at The University of Texas MD Anderson Cancer Center. He is also Director of the multi-disciplinary Blanton-Davis Ovarian Cancer Research Program. Professor Sood co-leads the Ovarian Cancer Moon Shot Program. Pioneering studies performed by Professor Sood's research team highlighted the role that platelets play in the progression of ovarian cancer and their impact on patient survival. That research was published in the prestigious journal, the New England Journal of Medicine.

Professor Birgegård is a Professor of Haematology at Uppsala University, Uppsala, Sweden. He was Chairman of the Nordic Study Group for Myeloproliferative disorders and is currently involved with studies assessing platelet reduction therapy with anagrelide and interferon. He is also a member of Leukemia Network Work Package 9 on Myeloproliferative disorders. Professor Birgegård has been involved in studies analysing the clinical use of anagrelide for the treatment of Essential Thrombocythemia and other Myeloproliferative Neoplasms.

- SUDA management continued to identify and evaluate technologies that it believes align with its core areas of focus, oncology and the central nervous system. The Company continues to work on strengthening the pipeline by adding technologies that it believes best suit the Company's short- and long-term strategic objectives and will create value for shareholders.

Dr Baker commented "We see the use of anagrelide as a unique but important strategy to treat cancer patients. We look forward to progressing the formulation development for anagrelide utilising the expertise within MedPharm. In addition, we are delighted that we have received strong support from such esteemed researchers in the field of platelet biology and cancer."

In addition, he commented "We are encouraged by the new technologies that the team have uncovered and are currently under review. We will continue to diligently assess the technologies that we believe align with our focus areas and will create value for shareholders."
