8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: Yes. Expenditure in the current quarter reported is representative of the Company's current and expected level of net operating cash flows. The figure was higher in the current quarter (compared to the prior quarter) because of a significant drilling campaign completed at the Dassa deposit in Burkina Faso. The Company's planned exploration work for the next quarter will be adjusted based on the quantum of existing funds and new funds arising via a raising.	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: Yes. The Company is reviewing funding options including the raising of additional capital through an equity raising or through the sale of listed shares held by the Company (if required).

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes. The Directors believe that it is reasonably foreseeable that the Company will continue as a going concern based on the following factors:

- Raising additional funds (as outlined above)
- Realisation of value of the Company's financial assets through the sale of its listed shares (if required)

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
