ResMed Inc. Announces Results for the Third Quarter of Fiscal Year 2021

Year-over-year operating profit up 3%, non-GAAP operating profit up 2%

Note: A webcast of ResMed's conference call will be available at 4:30 p.m. ET today at http://investor.resmed.com
SAN DIEGO, April 29, 2021 – ResMed Inc. (NYSE: RMD, ASX: RMD), a world-leading digital health company, today announced results for its guarter ended March 31, 2021.

Third Quarter 2021 Highlights

All comparisons are to the prior year period

- Revenue was comparable at \$768.8 million; down 3% on a constant currency basis
- GAAP gross margin of 58.2%; non-GAAP gross margin contracted 40 bps to 59.6%
- Net operating profit increased 3%; non-GAAP operating profit up 2%
- GAAP diluted earnings (loss) per share of \$(0.54); non-GAAP diluted earnings per share of \$1.30

"Our March 2021 quarter results reflect the ongoing recovery of core patient flow across our business, while we anniversary the \$35 million of incremental COVID-19 revenue in the same quarter last year. Excluding the COVID-19 revenue from the March 2020 quarter, we achieved positive revenue growth on both a headline and constant currency basis," said Mick Farrell, ResMed CEO. "Our global team is supporting patients and all of our customers as the most recent waves of COVID-19 cases impact parts of Europe, Asia, and South America. I am extremely proud of our ResMed team as they innovate with new digital pathways for patients to be diagnosed and treated for their sleep apnea, COPD, asthma, and out-of-hospital needs.

"During the quarter we also made substantial progress toward resolving our long-running dispute with the Australian Tax Office. Although we do not have a final agreement, we have taken a reserve of \$255 million, reflecting our estimate of the net impact of a potential settlement. Our next steps are to agree on the final terms of a resolution giving us clarity for the future.

"Going forward, we see accelerated awareness of the importance of respiratory health, growing adoption of digital health, and an increased focus on the importance of healthcare delivered at home. We are confident in accelerated growth in patient flow, and ongoing progress toward our goal of improving 250 million lives in out-of-hospital healthcare in 2025."

- (A) In order to provide a framework for assessing how our underlying businesses performed excluding the effect of foreign currency fluctuations, we provide certain financial information on a "constant currency" basis, which is in addition to the actual financial information presented. In order to calculate our constant currency information, we translate the current period financial information using the foreign currency exchange rates that were in effect during the previous comparable period. However, constant currency measures should not be considered in isolation or as an alternative to U.S. dollar measures that reflect current period exchange rates, or to other financial measures calculated and presented in accordance with U.S. GAAP.
- (B) See the reconciliation of non-GAAP financial measures in the table at the end of the press release.

Discussion of Third Quarter Results

All comparisons are to the prior year period unless otherwise noted

- During the March quarter, we derived no incremental revenue from COVID-19 related demand whereas our prior year quarter included incremental revenue in the order of \$35 million. Excluding the impact of the incremental COVID-19 related revenue from the prior year quarter, revenue increased by 1 percent on a constant currency basis.
- Revenue in the U.S., Canada, and Latin America, excluding Software as a Service, grew by 2 percent, driven by strong sales across our mask product portfolio, partially offset by lower device sales, including decreased demand for our ventilators due to COVID-19.

- Revenue in Europe, Asia, and other markets declined by 13 percent on a constant currency basis, primarily
 driven by lower device sales, including decreased demand for our ventilators due to COVID-19, and flat sales in
 our mask product portfolio.
- Software as a Service revenue increased by 5 percent, due to continued growth in resupply service offerings and stabilizing patient flow in out-of-hospital care settings.
- Gross margin decreased by 20 basis points and non-GAAP gross margin decreased by 40 basis points, mainly due to additional manufacturing costs associated with the transition to our new Singapore site during the quarter, higher freight costs and geographic mix changes.
- Selling, general, and administrative expenses decreased by 11 percent on a constant currency basis. SG&A
 expenses improved to 20.9 percent of revenue in the quarter, compared with 22.4 percent in the same period of
 the prior year. These changes in SG&A expenses were mainly due to savings in travel and other cost
 management as a result of the COVID-19 pandemic.
- Income from operations increased by 3 percent and non-GAAP income from operations increased by 2 percent.
- Our income tax expense was impacted by the recognition of a \$254.8 million reserve in relation to our ongoing dispute with the Australian Tax Office covering tax years 2009-2018.
- Net loss for the quarter was \$78.5 million and diluted loss per share was \$0.54, predominantly due to the
 additional income tax reserve of \$254.8 million. Non-GAAP net income grew by 1 percent to \$190.4 million and
 non-GAAP diluted earnings per share grew by 1 percent to \$1.30.
- Cash flow from operations for the quarter was \$196.3 million, compared to net loss in the current quarter of \$78.5 million and non-GAAP net income of \$190.4 million. During the quarter we paid \$56.8 million in dividends.

Dividend program

The ResMed board of directors today declared a quarterly cash dividend of \$0.39 per share. The dividend will have a record date of May 13, 2021, payable on June 17, 2021. The dividend will be paid in U.S. currency to holders of ResMed's common stock trading on the New York Stock Exchange. Holders of CHESS Depositary Interests ("CDIs") trading on the Australian Securities Exchange will receive an equivalent amount in Australian currency, based on the exchange rate on the record date, and reflecting the 10:1 ratio between CDIs and NYSE shares. The ex-dividend date will be May 12, 2021, for common stockholders and for CDI holders. ResMed has received a waiver from the ASX's settlement operating rules, which will allow ResMed to defer processing conversions between its common stock and CDI registers from May 12, 2021, through May 13, 2021, inclusive.

Webcast details

ResMed will discuss its third quarter fiscal year 2021 results on its webcast at 1:30 p.m. U.S. Pacific Time today. The live webcast of the call can be accessed on ResMed's Investor Relations website at investor.resmed.com. Please go to this section of the website and click on the icon for the "Q3 2021 Earnings Webcast" to register and listen to the live webcast. A replay of the earnings webcast will be accessible on the website and available approximately two hours after the live webcast. In addition, a telephone replay of the conference call will be available approximately two hours after the webcast by dialing +1 800-585-8367 (U.S.) or +1 416-621-4642 (outside U.S.) and entering the passcode 7757454. The telephone replay will be available until May 13, 2021.

About ResMed

At ResMed (NYSE: RMD, ASX: RMD) we pioneer innovative solutions that treat and keep people out of the hospital, empowering them to live healthier, higher-quality lives. Our digital health technologies and cloudconnected medical devices transform care for people with sleep apnea, COPD, and other chronic diseases. Our comprehensive out-of-hospital software platforms support the professionals and caregivers who help people stay healthy in the home or care setting of their choice. By enabling better care, we improve quality of life, reduce the impact of chronic disease, and lower costs for consumers and healthcare systems in more than 140 countries. To learn more, visit ResMed.com and follow @ResMed.

Safe harbor statement

Statements contained in this release that are not historical facts are "forward-looking" statements as contemplated by the Private Securities Litigation Reform Act of 1995. These forward-looking statements – including statements regarding ResMed's projections of future revenue or earnings, expenses, new product development, new product launches, new markets for its products, the integration of acquisitions, litigation, and tax outlook - are subject to risks and uncertainties, which could cause actual results to materially differ from those projected or implied in the forward-looking statements. Additional risks and uncertainties are discussed in ResMed's periodic reports on file with state of the with the U.S. Securities & Exchange Commission. ResMed does not undertake to update its forward-looking statements.

In order to provide a framework for assessing how our underlying businesses performed excluding the effect of foreign currency fluctuations, we provide certain financial information on a "constant currency basis," which is in addition to the actual financial information presented. In order to calculate our constant currency information, we translate the current period financial information using the foreign currency exchange rates that were in effect during the previous comparable period. However, constant currency measures should not be considered in isolation or as an alternative to U.S. dollar measures that reflect current period exchange rates, or to other financial measures calculated and presented in accordance with U.S. GAAP.
