DISCLAIMER

This presentation (the "Presentation") contains information about Champion Iron Limited, current as at the date hereof or as at such earlier date as may be specified herein. This Presentation does not constitute or form part of and should not be construed as, an offer to sell or issue or the solicitation of an offer to buy or acquire securities of Champion Iron Limited or any of its subsidiaries or affiliates or any other person in any jurisdiction or an inducement to enter into investment activity, does not constitute marketing material in connection with any such securities and there is no current offering or soliciting for the sale of securities in any jurisdiction.

This Presentation and the information contained herein may not be reproduced or distributed to others, at any time, in whole or in part, for any purpose, and may not be used for any other purpose, without the prior written consent of Champion Iron Limited, and all recipients agree that they will use this Presentation solely for information purposes. Acceptance of this Presentation by any person constitutes an agreement to be bound by the foregoing terms.

In making any future investment decision, you must rely on your own examination of Champion Iron Limited, including the merits and risks involved. This Presentation should not be construed as financial, legal, tax, accounting, investment or other advice or a recommendation with respect to any potential investment. You should consult your own advisors as needed to make an investment decision and determine whether it is legally permitted to make an investment under applicable legal investment, securities or similar laws or regulations.

This presentation contains certain forward-looking information and statements within the meaning of applicable securities laws, which include all statements other than statements of historical facts, including, without limitation, the use of any of the words "expect", "anticipate", "continue", "estimate", "may", "will", "project", "predict", "can", "could", "would", "aim", "should", "believe", "plan", "intend", "forecast", "contemplate", "schedule", "target", "seek to", "try to", "propose to", "future", "objective", "goal", or variations thereof, and similar expressions, or the negative thereof, that are intended to identify forward-looking information or statements. In particular, but without limiting the foregoing, this Presentation contains forward-looking information and statements pertaining to Champion Iron Limited and management's expectations, including, without limitation, with respect to the effectiveness of measures implemented to mitigate the risks of COVID-19, the ability to screen employees and contractors for the COVID-19, the achievement of sustainability objectives, social matters and governance and the implementation of related initiatives; the biodiversity initiatives and their impact; the impact of fluctuations in iron ore prices and freight pricing, the product pricing and related focus to reduce emissions; the industry supply and demand; the ability to benefit from premium pricing and Champion's cost rank within the industry; the project lead time; the impact of timing of sales, waste mining activities; the stability of operations and impact on ore recovery and ability to improve recovery circuit; work related to optimizing operations; the operational productivity and impact on operating costs; the impact of contracted volume pricing based on previous months and ability to benefit from lagging price mechanism in future periods; the provisional price impact on future realized price; provision for taxes payable; Champion Iron Limited's ability to advance the Phase II expansion project and its funding, completion timeline, impact on nameplate capacity, expected capital expenditures and project economics; the Company's growth generally; the work and timeline to complete an updated feasibility study and review the scope of the Kami Project; the work and results of product testing and development and their impact on securing new customers and expanding product offering; and the emission reduction potential of the Company's products. Statements relating to "reserves" or "resources" are deemed to be forward-looking statements, as they involve the implied assessment, based on certain estimates and assumptions, that the reserves and resources described exist in the quantities predicted or estimated and that the reserves can be profitably mined in the future. Actual reserves and resources may be greater or less than the estimates provided herein. In this Presentation, reference is made to the Company's Bloom Lake Iron Mine economic analysis. All information derived therefrom are not estimates or forecasts of metrics and may not actually be achieved. Such information reflects internal projections used by management for the purposes of making capital investment decisions and for internal long range planning and budget preparation. Accordingly, undue reliance should not be placed on same. In addition, forward-looking statements or information are based on a number of factors, expectations or assumptions of Champion Iron Limited which have been used to develop such statements and information but which may prove to be incorrect. Although Champion Iron Limited believes that the expectations reflected in such forward-looking statements or information are reasonable, undue reliance should not be placed on such statements or information because Champion Iron Limited can give no assurance that such expectations will prove to be correct. In addition to other factors and assumptions which may be identified herein, assumptions have been made regarding, among other things: general economic, competitive, political and social uncertainties; the general stability of the economic and political environment in which Champion Iron Limited operates; the impact of catastrophes and public health crises, including the impact of COVID-19 on the global economy, the iron ore market and Champion Iron Limited's operations; the timely receipt of any required regulatory and governmental approvals, necessary permitting and timely completion of development and construction activities; the ability of Champion Iron Limited to obtain qualified staff, equipment and services in a timely and cost efficient manner; drilling and other exploration results; the results of feasibility studies; changes in the assumptions used to prepare feasibility studies; project delays; the ability of operators of the projects in which Champion Iron Limited has an interest to operate the field in a safe, efficient and effective manner; the ability of Champion Iron Limited to obtain capital and financing on acceptable terms; general economic, market or business conditions; future commodity prices; future prices of iron ore; currency exchange and interest rates; and the regulatory framework regarding taxes and environmental matters in the jurisdictions in which Champion Iron Limited operates; as well as those factors discussed in the section entitled "Risk Factors" of the Company's 2021 Annual Information Form and the risks and uncertainties discussed in the Company's quarterly activities report for the fiscal year ended March 31, 2021 and the management's discussion and analysis for the fiscal year ended March 31, 2021, all of which are available on SEDAR at www.sedar.com, the ASX at www.asx.com.au and the Company's website at www.championiron.com. The forward-looking information and statements included in this Presentation are not guarantees of future performance and should not be unduly relied upon. The forward-looking information and statements contained in this Presentation speak only as of the date of this Presentation, and Champion Iron Limited does not assume any obligation to publicly update or revise any of the included forward-looking statements or information, whether as a result of new information, future events or otherwise, except as may be required by applicable securities laws. If Champion Iron Limited does update certain forward-looking information or statements, no inference should be drawn that it will make additional updates with respect to those or other forward-looking statements or information.

The non-IFRS financial performance measures included in this Presentation include: total cash cost or C1 cash cost, all-in sustaining costs ("AISC"), average realized selling price, cash operating margin and cash profit margin, earnings before interest, tax, depreciation and amortization ("EBITDA"), EBITDA margin, adjusted net income, adjusted net income attributable to Champion Iron Limited shareholders, adjusted earnings per share ("adjusted EPS"), operating cash flow per share and operating cash flows before working capital. These measures are intended to provide additional information and should not be considered in isolation, or as a substitute of, measures of performance prepared in accordance with IFRS. These measures do not have any standardized meaning prescribed under IFRS and therefore may not be comparable to other issuers.

On June 20, 2019, Champion Iron Limited released the results of the Feasibility Study for the Bloom Lake Phase II expansion project reported in the National Instrument 43-101 - Standards of Disclosure for Mineral Projects ("National Instrument 43-101") technical report entitled "Bloom Lake Mine - Feasibility Study Phase 2" by BBA Inc., Soutex and WSP Canada Inc., having an effective date of June 20, 2019 and filed on August 2, 2019 (the "Phase II Feasibility Study"). Champion Iron Limited is not aware of any new information or data that materially affects the information included in the Phase II Feasibility Study and confirms that all material assumptions and technical parameters underpinning the estimates in the Phase II Feasibility Study continue to apply and have not materially changed. The Phase II Feasibility Study dated August 2, 2019 is available at www.sedar.com.

Certain mineral resource and reserve estimates mentioned in this Presentation are strictly historical in nature and are non-compliant with National Instrument 43-101 and the JORC Code (2012 edition) and should therefore not be relied upon. A qualified person has not done sufficient work to upgrade or classify the historical estimates as current mineral resources or mineral reserves and Champion Iron Limited is not treating the historical estimates as current mineral resources or mineral reserves. See Appendix for more details on historical estimates.

Certain estimates are foreign estimates from an Australian perspective. These reserves and resources are not material mining projects and are for properties adjacent to or near the Corporation's existing mining tenements and therefore the reports on these mineralisations have not been prepared in accordance with the JORC Code and the ASX Listing Rules.

Mr. Vincent Blanchet, Senior Geologist at Quebec Iron Ore Inc., a wholly-owned subsidiary of the Company (P.Geo.) is a "qualified person" as defined by National Instrument 43-101 and has reviewed and approved the disclosure of the scientific and technical information contained in this Presentation. Mr. Blanchet's review and approval does not include statements as to the Company's knowledge or awareness of new information or data or any material changes to the material assumptions and technical parameters underpinning the Phase II Feasibility Study. Mr. Blanchet is a member of the Ordre des Ingénieurs du Québec.

Certain information contained in this Presentation has been obtained from published sources prepared by third parties and has not been independently verified and no representation or warranty, expressed or implied, is made with respect to, and no undue reliance shall be placed on, the information or opinions contained herein or in any verbal or written communication made in connection with this Presentation.

PHASE II ADVANCING AS PER EXPECTATIONS

CHAMPION IRON 

- Project progressing as planned with completion expected by mid-2022
- Deployed an additional \$55.2M in the quarter with cumulative work programs to date of \$170.3M, including \$15.2M in advanced payments
- Progress on key milestones, including:

- ✓ Agreement to expand the existing rail contract with QNS&L
- ✓ Stacker reclaimer ordered by SFPPN
- ✓ Receipt and installation of most spirals
- ✓ Purchase of major equipment
- ✓ Modifications completed to the loading tower

PHASE II - CAPEX (C\$M)

TSX: CIA | ASX: CIA | OTCQX: CIAFF 22

* Previous owner estimated CAPEX US\$1.2B based on 1.33 C\$ exchange rate; Estimated capex based on Phase II Feasibility Study released on June 20, 2019, Contingencies of \$75.5M and CAPEX is pre-deposits of \$44.0M.

KAMI PROJECT ACQUIRED FEASIBILITY STUDY WORK INITIATED

✓ On April 1, 2021, Champion completed the acquisition of the Kami project, a high-grade iron ore project near available infrastructure, strategically located only a few kilometres south east of Bloom Lake

- Initiated work to revise the project scope and advanced work towards an updated Feasibility Study
- Previous owner disclosed historical resources estimated at 1,274.5 Mt of measured and indicated resources (536.9 Mt measured and 737.6 Mt indicated) and proven and probable reserves of 517.2 Mt (392.7 Mt proven and 124.5 Mt probable)

* The historical mineral resources and reserves are historical estimates and should not be relied upon. A qualified person has not done sufficient work to upgrade or classify the historical estimates as current mineral resources or mineral reserves and Champion Iron is not treating the historical estimates as current mineral resources or mineral reserves. See Appendix note 1 for Kami Project and Appendix note 2 for Moiré Lake.

** Bloom Lake Phase II proven and probable reserves are based on the Phase II Feasibility Study. Bloom Lake Phase II mineral reserves include Bloom Lake Phase I mineral reserves as of the effective date of the mineral reserve estimate reported in the Phase II Feasibility Study. See disclaimer page for statement regarding Phase II Feasibility Study.

*** Certain reserves and resources mentioned are foreign estimates from an Australian perspective. See Appendix for additional details.

CONTINUOUS PRODUCT IMPROVEMENT

CHAMPION IRON 

- Advanced laboratory testing to produce a 69%+ Fe iron ore concentrate
- Preliminary results indicate an ability to upgrade the material using mild regrinding and a silica flotation stage
- Product would further allow the Company to engage with DR based iron and steel producers

TRADITIONAL PELLETS

COLD PELLETS

- Ongoing laboratory testing and development of Cold Pelletizing Technologies, following a financing contribution with a European based company
- Product could allow the Company to deal directly with DR and Electric Arc Furnace (DR-EAF) and Blast Furnace and Basic Oxygen Furnace (BF-BOF) customers
- Promising results to reduce emissions related to agglomeration by more than 95%

NOTES ON HISTORICAL ESTIMATES USED IN THE PRESENTATION

1. The historical Kami Project resource estimates are based on the NI 43-101 technical report entitled "Feasibility Study of the Rose Deposit and Resource Estimate for the Mills Lake Deposit of the Kamistiasusset (Kami) Iron Ore Property, Labrador" prepared for Alderon Iron Ore Corp. by BBA Inc., Stantec and Watts, Griffis and McQuat Ltd. dated January 9, 2013 and having an effective date of December 17, 2012. The historical Kami Project reserve estimates are based on the NI 43-101 technical report entitled "Updated Feasibility Study of the Kamistiasusset (Kami) Iron Ore Property, Labrador" prepared for Alderon Iron Ore Corp. by BBA Inc., Gemtec Ltd., Watts, Griffis and McQuat Ltd. and Golder Associates Ltd. dated October 31, 2018 and having an effective date of September 26, 2018. Kami Project mineral resources include Kami Project mineral reserves. The historical mineral resources and reserves mentioned are strictly historical in nature, are non-compliant with NI 43-101 and the JORC Code (2012 edition) and should therefore not be relied upon. A qualified person or competent person has not done sufficient work to upgrade or classify the historical estimates as current "mineral resources", "mineral reserves" or "ore reserves", as such terms are defined in NI 43-101 and the JORC Code (2012 edition), and it is uncertain whether, following evaluation and/or further exploration work, the historical estimates will be able to be reported as mineral resources, mineral reserves or ore reserves in accordance with NI 43-101 or the JORC Code (2012 edition). Champion is not treating the historical estimates as current mineral resources, mineral reserves or ore reserves. These reserves and resources are not material mining projects and are for properties adjacent to or near the Company's existing mining tenements and therefore the reports on these mineralisations have not been prepared in accordance with the JORC Code (2012 edition) and the ASX Listing Rules. As stated above, the Company has initiated work to revise the Kami Project's scope and update the feasibility study.
2. The historical Moiré Lake resource estimates are based on the NI 43-101 technical report entitled "Technical Report and Mineral Resource Estimate on the Moire Lake Property" by P6E Mining Consultants Inc. dated May 11, 2012 and having an effective date of March 28, 2012. The historical mineral resources mentioned are strictly historical in nature, are non-compliant with NI 43-101 and the JORC Code (2012 edition) and should therefore not be relied upon. A qualified person or competent person has not done sufficient work to upgrade or classify the historical estimates as current "mineral resources", "mineral reserves" or "ore reserves", as such terms are defined in NI 43-101 and the JORC Code (2012 edition), and it is uncertain whether, following evaluation and/or further exploration work, the historical estimates will be able to be reported as mineral resources, mineral reserves or ore reserves in accordance with NI 43-101 or the JORC Code (2012 edition). Champion is not treating the historical estimates as current mineral resources, mineral reserves or ore reserves. These reserves and resources are not material mining projects and are for properties adjacent to or near the Company's existing mining tenements and therefore the reports on these mineralisations have not been prepared in accordance with the JORC Code (2012 edition) and the ASX Listing Rules.
3. Bloom Lake Phase II reserves are based on the technical report entitled "Bloom Lake Mine – Feasibility Study Phase", prepared pursuant to NI 43-101 and JORC Code (2012 edition) by BBA Inc., Soutex and WSP Canada Inc., having an effective date of June 20, 2019 and filed on August 2, 2019 (the "Feasibility Study"). Bloom Lake Phase II mineral reserves include Bloom Lake Phase I mineral reserves as of the effective date of the mineral reserve estimate reported in the Feasibility Study. The Company is not aware of any new information or data that materially affects the information included in the Feasibility Study and confirms that all material assumptions and technical parameters underpinning the estimates in the Feasibility Study continue to apply and have not materially changed. The Feasibility Study is available under the Company's filings at www.sedar.com, on the ASX at www.asx.com.au or the Company's website www.championiron.com.
