BlueScope to hold climate-focussed investor briefing in September

BlueScope advises that it plans to hold an investor briefing event on 20 and 21 September 2021, following the planned release of its Climate Action Report and Sustainability Reporting suite earlier that month.

The event will provide a deep dive on BlueScope's approach to addressing climate change and other material sustainability topics, together with an update on business unit strategy.

The investor day will be webcast and a recording will be posted online following the event. Both will be available at www.bluescope.com/investors.

Authorised for release by: Mark Vassella, Managing Director and Chief Executive Officer
