Chairman's Letter

Dear Shareholder

As a valued shareholder of Envirosuite Limited (**EVS**), I am pleased to invite you to participate in EVS' recently announced 1 for 14.5 pro rata accelerated non-renounceable entitlement offer of new EVS ordinary shares (**New Shares**) at an offer price of A\$0.085 (**Offer Price**) per New Share to raise approximately A\$6 million (**Entitlement Offer**).

Entitlement Offer and Use of Proceeds to Accelerate Investments in Omnis and Water products

On Monday, 24 May 2021, EVS announced an institutional placement of New Shares (**Placement**) at the Offer Price to raise approximately A\$8 million and the Entitlement Offer (together, the **Offer**), to raise an aggregate of approximately A\$14 million.

The Offer is not underwritten. Proceeds raised will be used to fund investments into the growing underlying sales in the EVS Omnis and Water products and to prioritise global expansion. If the proceeds raised are less than is required to meet EVS' proposed use of funds, EVS may consider both its intended use of funds (including whether to defer investment) as well as consider alternative funding options.

The Entitlement Offer comprises both an institutional component (**Institutional Entitlement Offer**) and a retail component (**Retail Entitlement Offer**) to raise approximately A\$6 million.

This information booklet (**Retail Offer Booklet**) relates to the Retail Entitlement Offer. I encourage you to consider the Entitlement Offer carefully.

Retail Entitlement Offer

Under the Retail Entitlement Offer, Eligible Retail Shareholders have the opportunity to invest at the same Offer Price as the Eligible Institutional Shareholders who participated in the Institutional Entitlement Offer. The number of New Shares for which you are entitled to subscribe under the Retail Entitlement Offer (**Entitlement**) is set out in your personalised Entitlement and Acceptance Form that will accompany this Retail Offer Booklet when it is dispatched to Eligible Retail Shareholders on 31 May 2021.

The Offer Price of A\$0.085 per New Share represents a 16.9% discount to Theoretical Ex-Rights Price (**TERP**)² and an 19% discount to the closing price of EVS of A\$0.105 per share on 21 May 2021.

If you take up your full Entitlement, Eligible Retail Shareholders may also apply for additional New Shares up to a maximum of 150% in excess of your Entitlement, at the Offer Price. In the event that applications for oversubscriptions exceed the supply of Retail Shortfall, the allocation of Additional New Shares will be determined by the directors of EVS at their discretion, and subject to scale back by agreement between EVS and the Joint Lead Managers. The Entitlement Offer is non-renounceable and therefore your Entitlement will not be tradable on the ASX, cannot be sold and is not otherwise transferable. The directors of EVS also reserve the right to issue to new investors or existing Shareholders any Shares not subscribed for by Eligible Retail Shareholders or under the Entitlement Offer.

Other information

This Retail Offer Booklet contains important information, including:

- ASX announcements relating to the Entitlement Offer, including the Investor Presentation released to the ASX on Monday, 24 May 2021, which provide information on EVS, the Entitlement Offer and key risks for you to consider;
- instructions on how to participate in the Retail Entitlement Offer if you choose to do so, and a timetable of key dates;

² The Theoretical Ex-Rights Price (**TERP**) is calculated by reference to EVS' closing price of A\$0.105 per share on Friday, 21 May 2021, being the last trading day prior to the announcement of the Offer. TERP is a theoretical calculation only and the actual price at which EVS' shares trade immediately after the ex-date of the Offer will depend on many factors and may not approximate TERP.

What should you do?

1. Read this Retail Offer Booklet and the accompanying Entitlement and Acceptance Form

This Retail Offer Booklet and the personalised Entitlement and Acceptance Form that accompanies it contain important information about the Retail Entitlement Offer. You should read both documents carefully and in their entirety before deciding whether or not to participate in the Retail Entitlement Offer. The Retail Offer Booklet and Entitlement and Acceptance Form can also be viewed at www.investorserve.com.au.

This Retail Entitlement Offer is not being made under a prospectus or product disclosure statement. This Retail Offer Booklet does not contain all of the information which would be required to be disclosed in a prospectus or product disclosure statement. As a result, it is important for you to read and understand this Retail Offer Booklet in its entirety, along with the publicly available information on EVS and the Retail Entitlement Offer (for example, the information available on EVS' website www.envirosuite.com or on ASX's website www.asx.com.au) prior to deciding whether to participate in the Retail Entitlement Offer and apply for New Shares.

If you are in doubt as to the course you should follow, you should seek professional advice from a licensed advisor.

2. Consider the Retail Entitlement Offer in light of your particular investment objectives and circumstances

Please consult with a licensed advisor if you have any queries or are uncertain about any aspects of the Retail Entitlement Offer.

An investment in New Shares is subject to both known and unknown risks, some of which are beyond the control of EVS. These risks include the possible loss of income and principal invested. EVS does not guarantee any particular rate of return or the performance of the New Shares offered under the Retail Entitlement Offer or the performance of EVS, nor does it guarantee the repayment of capital from EVS. In considering an investment in New Shares, investors should have regard to (amongst other things) the "Key Risks" section of the Investor Presentation and the disclaimers outlined in this Retail Offer Booklet.

3. Decide what you want to do

If you are an Eligible Retail Shareholder, you have four options available to you in relation to the Retail Entitlement Offer:

- A. take up all of your Retail Entitlement (**Option 1**);
- B. take up all of your Retail Entitlement in full, and also apply for Additional New Shares in excess of your Retail Entitlement (up to a maximum of 150% of your Retail Entitlement) (**Option 2**);
- C. take up part of your Retail Entitlement and allow the balance to lapse, in which case you will receive no value for those lapsed Retail Entitlements (**Option 3**); or
- D. do nothing, in which case your Retail Entitlements will lapse and you will receive no value for those lapsed Retail Entitlements (**Option 4**).

If you are a retail Shareholder that is not an Eligible Retail Shareholder, you are an Ineligible Retail Shareholder. Ineligible Retail Shareholders are not entitled to participate in the Retail Entitlement Offer. If you are an Eligible Retail Shareholder who participates in the Retail Entitlement Offer, your percentage holding in EVS will increase, reduce, or stay the same depending on the proportion of your Retail Entitlement you subscribe for and whether you also apply for, and are issued with, Additional New Shares.

The Retail Entitlement Offer is non-renounceable, which means that your Entitlements cannot be traded or otherwise transferred on ASX or any other exchange or privately. If you do not participate in the Retail Entitlement Offer, you will not receive any value for your Entitlement.

What should you do?

4. Apply for New Shares

To participate in the Retail Entitlement Offer, please complete and return your personalised Entitlement and Acceptance Form with the requisite Application Monies or pay your Application Monies via BPAY® so that it is received by no later than 5.00pm (Sydney time) on Friday, 11 June 2021. **Payment via BPAY® is highly recommended in light of delays to postal services caused by the COVID-19 pandemic.**

If you are an Eligible Shareholder in New Zealand and you do not have an Australian bank account or do not wish to pay via BPAY®, see Section 4.6.

If you take no action, your Entitlement under the Retail Entitlement Offer will lapse.

5. Questions

If you have any questions about the Retail Entitlement Offer, please do not hesitate to contact the Envirosuite Limited Entitlement Offer Information Line on 1300 737 760 (within Australia) or on +61 2 9290 9600 (outside Australia) or via email: corporateactions@boardroomlimited.com.au at any time from 8.30am to 5.30pm (Sydney time) Monday to Friday during the Retail Entitlement Offer Period.

Section 1: Details on the Entitlement Offer

1.1 Overview

EVS is seeking to raise a total of approximately A\$6 million by way of a pro rata accelerated non-renounceable entitlement offer of New Shares at an Offer Price of A\$0.085 (**Entitlement Offer**). The Entitlement Offer comprises:

- the Institutional Entitlement Offer; and
- the Retail Entitlement Offer (to which this Retail Offer Booklet relates).

EVS is seeking to raise total proceeds of approximately A\$14 million under the Placement and Entitlement Offer.

EVS intends to use the proceeds of the capital raised under the Entitlement Offer and Placement to fund investments into growing underlying sales in the EVS Omnis and Water products and prioritise global expansion, as well as for general corporate and working capital purposes.

The Entitlement Offer is being managed by Wilsons Corporate Finance Limited (ACN 057 547 323) and Bell Potter Securities Limited (ACN 006 390 772) (each a **Joint Lead Manager**). The Entitlement Offer is not underwritten. There is therefore no guarantee that the total proceeds of A\$14 million will be raised. If the proceeds raised are less than is required to meet EVS's proposed use of funds, EVS may consider both its intended use of funds (including whether to defer investment) as well as consider alternative funding options.

1.2 Explanation of the Entitlement Offer

The Entitlement Offer comprises two components: the Institutional Entitlement Offer and the Retail Entitlement Offer (to which this Retail Offer Booklet relates).

1.2.1 Institutional Entitlement Offer

On Monday, 24 May 2021 and Tuesday, 25 May 2021, EVS and the Joint Lead Managers conducted an Institutional Entitlement Offer in which Eligible Institutional Shareholders were invited to take up all or part of their Entitlement and were also invited to apply for additional New Shares under the Institutional Entitlement Offer.

New Shares equivalent to the number not taken up by Eligible Institutional Shareholders under the Institutional Entitlement Offer, together with any New Shares which would have been offered to Ineligible Institutional Shareholders if they had been eligible to participate in the Institutional Entitlement Offer, were offered to institutional investors, including Eligible Institutional Shareholders who applied for New Shares in excess of their Entitlement.

Allotment of the New Shares under the Placement and Institutional Entitlement Offer is expected to occur on Wednesday, 2 June 2021. Those New Shares are expected to commence trading on ASX on that date (on a normal settlement basis).

1.2.2 Retail Entitlement Offer

All Eligible Retail Shareholders (refer to Section 1.3) are invited to subscribe for 1 New Share for every 14.5 existing EVS Shares held on the Record Date (7.00pm (Sydney time) on Wednesday, 26 May 2021). The Offer Price of A\$0.085 per New Share represents:

- A 16.9% discount to TERP.³ TERP is calculated by reference to EVS' closing price on Friday, 21 May 2021.
- A 19% discount to the last traded price of A\$0.105 on Friday, 21 May 2021.

Eligible Retail Shareholders who have been sent this Retail Offer Booklet together with a personalised Entitlement and Acceptance Form are required to decide whether to take up all, part, or none of their Retail Entitlement.

Eligible Retail Shareholders who take up their full Retail Entitlement may also apply for Additional New Shares in excess of their Retail Entitlement (to the extent available and up to a maximum of 150% of

their Retail Entitlement).

The Retail Entitlement Offer closes at 5.00pm (Sydney time) on Friday, 11 June 2021 (unless extended).

The Retail Entitlement Offer is non-renounceable, which means that the Entitlements are non-transferable and cannot be sold or traded.

1.2.3 No offer under the Retail Entitlement Offer to Eligible Institutional Shareholders or Ineligible Institutional Shareholders

The Retail Entitlement Offer does not constitute an offer to:

- any Eligible Institutional Shareholder (whether or not it participated in the Institutional Entitlement Offer);
- any person allocated New Shares under the Institutional Entitlement Offer;
- any Ineligible Institutional Shareholder;
- a nominee or custodian for such Eligible Institutional Shareholder, in respect of Shares held for it;
- any person in the United States; or
- any person acting for the account or benefit of a person in the United States (to the extent they hold EVS Shares and are acting for the account or benefit of a person in the United States).

1.3 Who can participate in the Retail Entitlement Offer

An Eligible Retail Shareholder is a person who meets all of the following requirements:

- was a registered holder of EVS Shares as at the Record Date, being 7.00pm (Sydney time) on Wednesday, 26 May 2021; and
- has a registered address on the EVS share register in Australia or New Zealand (or is a shareholder that EVS has otherwise determined is eligible to participate); and
- is not in the United States and is not a person (including a nominee or custodian) acting for the account or benefit of a person in the United States (to the extent they hold EVS Shares for the account or benefit of such a person in the United States); and
- did not receive an offer to participate (other than as a nominee or custodian in respect of other underlying holdings) or was otherwise ineligible to participate under the Institutional Entitlement Offer; and
- is eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer.

A retail Shareholder that is **not** an Eligible Retail Shareholder is referred to as an **"Ineligible Retail Shareholder"** in this Retail Offer Booklet.

In this Retail Offer Booklet:

- references to 'you' are references to Eligible Retail Shareholders; and
- references to 'your Retail Entitlement' are references to the Retail Entitlements of Eligible Retail Shareholders; and
- references to 'your Entitlement and Acceptance Form' are references to the form of that name accompanying this Retail Offer Booklet that you can use to take up your Retail Entitlement.

Section 2: Summary of your options

If you are an Eligible Retail Shareholder, you may take one of the following actions:

- take up all of your Retail Entitlement (**Option 1**);
- take up all of your Retail Entitlement in full, and also apply for Additional New Shares in excess of your Retail Entitlement (up to a maximum of 150% of your Retail Entitlement) (**Option 2**);
- take up part of your Retail Entitlement and allow the balance to lapse, in which case you will receive no value for those lapsed Retail Entitlements (**Option 3**); or
- do nothing, in which case your Retail Entitlements will lapse and you will receive no value for those lapsed Retail Entitlements (**Option 4**).

If you are a retail Shareholder that is not an Eligible Retail Shareholder, you are an Ineligible Retail Shareholder. Ineligible Retail Shareholders are not entitled to participate in the Retail Entitlement Offer.

Section 3: Further information about the Retail Entitlement Offer

3.1 Your Retail Entitlement

Your Retail Entitlement is set out on the accompanying personalised Entitlement and Acceptance Form. It has been calculated as 1 New Share for every 14.5 EVS Shares you held as at the Record Date, being 7.00pm (Sydney time) on Wednesday, 26 May 2021, at the Offer Price of \$0.085 per New Share.⁴

If you have more than one holding of EVS Shares, you will be sent more than one personalised Entitlement and Acceptance Form and you will have separate Retail Entitlements for each separate holding. Note that the Retail Entitlement stated on your personalised Entitlement and Acceptance Form may be in excess of the actual Retail Entitlement you may be permitted to take up where, for example, you are holding EVS Shares on behalf of a person in the United States (see the definition of “**Eligible Retail Shareholder**” in Section 1).

3.2 Closing date

If you take up and pay for all or part of your Retail Entitlement before the Retail Closing Date, you will be issued your New Shares including your Additional New Shares (if applicable) on Monday, 21 June 2021 (**Issue Date**).

New Shares including Additional New Shares issued under the Entitlement Offer will be fully paid and rank equally with EVS Shares from issue.

3.3 Consequences of not accepting all or part of your Retail Entitlement

If you do not accept all or part of your Retail Entitlement in accordance with the instructions set out in this Retail Offer Booklet, those New Shares that you would have otherwise been entitled to under the Retail Entitlement Offer (including New Shares that relate to the portion of your Retail Entitlement that has not been accepted) may be acquired by Eligible Retail Shareholders as Additional New Shares.

The directors of EVS also reserve the right to issue to new investors or existing Shareholders any shares not subscribed for by Eligible Retail Shareholders within three months of the Retail Closing Date, and otherwise not subscribed for under the Entitlement Offer at their discretion within three months of the closing date of the Entitlement Offer, in each case at a price no less than the Offer Price. The allocation of shares will be within the complete discretion of EVS.

By allowing your Retail Entitlement to lapse, you will forgo any exposure to increases or decreases in the value of the New Shares had you taken up your Retail Entitlement and you will not receive any value for your Retail Entitlement. Your proportionate interest in EVS will also be diluted.

3.4 Nominees

The Retail Entitlement Offer is being made to all Eligible Retail Shareholders. Nominees and custodians which hold EVS Shares as nominees or custodians will have received, or will shortly receive, a letter from EVS. Nominees and custodians should consider carefully the contents of that letter and note in particular that the Retail Entitlement Offer is not available to:

- beneficiaries on whose behalf they hold EVS Shares who would not satisfy the criteria for an Eligible Retail Shareholder;
- Eligible Institutional Shareholders who received an offer to participate in the Institutional Entitlement Offer (whether they accepted their Entitlement or not); or
- Ineligible Institutional Shareholders who were ineligible to participate in the Institutional Entitlement Offer.

Due to legal restrictions, nominees and custodians may not send copies of this Retail Offer Booklet to, or accept the Retail Entitlement Offer on behalf of, any person in the United States or any person acting for the account or benefit of a person in the United States (to the extent such person holds EVS Shares and is

acting for the account or benefit of a person in the United States) or other jurisdiction outside Australia and New Zealand, except with the consent of EVS and as permitted in compliance with applicable law.

Nominees and custodians may not distribute this Retail Offer Booklet, and may not permit any beneficial shareholder to participate in the Entitlement Offer, in any country outside Australia and New Zealand, except that nominees and custodians may distribute this Retail Offer Booklet and may permit beneficial shareholders to participate in the Entitlement Offer with the consent of EVS who will determine if the number of beneficial shareholders that the nominee or custodian proposes to participate in the Entitlement Offer will be permitted in compliance with applicable law.

EVS is not required to determine whether or not any registered Shareholder is acting as a nominee or the identity or residence of any beneficial owners of EVS Shares.

Section 4: Options available to you

4.1 Option 1 – Take up all of your Retail Entitlement

To take up all of your Retail Entitlement, you must:

To take up all of your Retail Entitlement and also apply for Additional New Shares in excess of your Retail Entitlement, you must:

- pay by BPAY® (see Section 4.5); or
- complete your personalised Entitlement and Acceptance Form and return it by mail with your Application Monies in the form of a cheque, bank draft or money order (see Section 4.6),

in each case, so that it is received by no later than 5.00pm (Sydney time) on the Retail Closing Date.

Payment via BPAY® is highly recommended in light of delays to postal services caused by the COVID-19 pandemic.

4.3 Option 3 – Take up part of your Retail Entitlement

To take up part of your Retail Entitlement, you must:

- pay by BPAY® (see Section 4.5); or
- complete your personalised Entitlement and Acceptance Form (indicating the number of New Shares you wish to take up) and return it by mail with your Application Monies, in the form of a cheque, bank draft or money order (see Section 4.6),

in each case, so that it is received by no later than 5.00pm (Sydney time) on the Retail Closing Date.

The part of your Retail Entitlement not taken up will lapse and the New Shares not subscribed for will form part of the Retail Shortfall.

Payment via BPAY® is highly recommended in light of delays to postal services caused by the COVID-19 pandemic.

4.4 Option 4 – Take no action

If you take no action, you will not be issued New Shares, your Retail Entitlement will lapse and the New Shares not subscribed for will form part of the Retail Shortfall.

Your Retail Entitlement is non-renounceable and is not tradeable or otherwise transferable. Eligible Retail Shareholders who do not take up their Retail Entitlements in full will not receive any value for those Retail Entitlements they do not take up.

Eligible Retail Shareholders who do not participate fully in the Retail Entitlement Offer will have their proportionate interests in EVS diluted.

Section 4: Options available to you

4.5 Payment by BPAY®

To pay by BPAY®, please follow the instructions on your personalised Entitlement and Acceptance Form (which includes the Biller Code and your unique Customer Reference Number). You can only make a payment via BPAY® if you are the holder of an account with an Australian branch of a financial institution that supports BPAY® transactions.

You should instruct payment well before 5.00pm (Sydney time) on the Retail Closing Date to enable its receipt before the Retail Entitlement Offer closes.

If you pay by BPAY®, your Entitlement and Acceptance Form is **not** required to be lodged with the Registry and you will be deemed to have made the declarations set out in this Retail Offer Booklet and on the Entitlement and Acceptance Form.

EVS will treat you as applying for as many New Shares, including Additional New Shares, as your payment will pay for in full up to your Retail Entitlement, and where applicable above your Retail Entitlement up to a maximum of 150% of your Retail Entitlement.

Any Application Monies received for more than your final allocation of New Shares including Additional New Shares will be refunded to you as soon as practicable after the close of the Retail Entitlement Offer. No interest will be paid to applicants on any Application Monies received or refunded.

Please make sure to use the specific Biller Code and unique Customer Reference Number on your personalised Entitlement and Acceptance Form or accessed online at www.investorserve.com.au. If you receive more than one personalised Entitlement and Acceptance Form, you will need to complete individual BPAY® transactions using the Customer Reference Number specific to each individual personalised Entitlement and Acceptance Form that you receive.

You should be aware that your financial institution may implement earlier cut-off times with regards to electronic payment and you should therefore take this into consideration when making payment. You may also have your own limit on the amount that you can pay via BPAY®. It is your responsibility to check that the amount you wish to pay via BPAY® does not exceed your limit.

4.6 Payment by post with cheque, bank draft or money order

To pay by cheque, bank draft or money order, you must complete your personalised Entitlement and Acceptance Form in accordance with the instructions on the form, indicating the number of New Shares including Additional New Shares you wish to apply for and return it by mail to the address set out below, accompanied by a cheque, bank draft or money order in Australian currency for the amount of the Application Monies, payable to “Envirosuite Limited” and crossed “Not Negotiable”. Any agreement to issue New Shares, including Additional New Shares, to you following receipt of your personalised Entitlement and Acceptance Form is conditional on your cheque, bank draft or money order in payment of the Application Monies for those New Shares including Additional New Shares being honoured on first presentation.

Your cheque, bank draft or money order must be:

- for an amount equal to the Offer Price multiplied by the number of New Shares including, if applicable, the number of Additional New Shares that you are applying for; and
- in Australian currency, drawn on an Australian branch of a financial institution. Payment cannot be made in New Zealand dollars. Eligible Shareholders who are resident in New Zealand must arrange for payment to be made in Australian dollars.

You should ensure that sufficient funds are held in the relevant account(s) to cover the Application Monies. If the amount of your cheque, bank draft or money order for Application Monies (or the amount for which the cheque clears in time for issue) is insufficient to pay in full for the number of New Shares including Additional New Shares you have applied for in your personalised Entitlement and Acceptance Form, you will be taken to have applied for such lower number of whole New Shares including Additional New Shares as your cleared Application Monies will pay for (and to have specified that number of New Shares including Additional New Shares on your personalised Entitlement and Acceptance Form). Alternatively, your Application will not be accepted.

Any Application Monies received for more than your final allocation of New Shares will be refunded. No interest will be paid to applicants on any Application Monies received or refunded (wholly or partially).

Section 4: Options available to you

Cash payments will not be accepted. Receipts for payment will not be issued.

It is important to note that the Retail Entitlement Offer closes at 5.00pm (Sydney time) on Friday, 11 June 2021 (unless extended). To participate in the Retail Entitlement Offer, your payment must be received no later than this date. ASX Release

Envirosuite announces equity raising to raise approximately A\$14 million to accelerate its investment into growing underlying sales in the EVS Omnis and EVS Water product suites, and prioritising global expansion in the short term to maximise shareholder value in the long term.

24 May 2021

Highlights:

- > 1 for 14.5 pro-rata accelerated non-renounceable entitlement offer and institutional placement to raise approximately A\$14 million
- > New shares to be issued at A\$0.085 per share, representing a 19% discount to last close and a 16.9% discount to TERP¹
- > Proceeds from the equity raising will be used to accelerate Envirosuite's investment into growing underlying sales in the EVS Omnis and EVS Water product suites, and prioritising global expansion in the short term to maximise shareholder value in the long term
- > Equitable opportunity for all eligible existing Envirosuite shareholders to participate in the entitlement offer on a pro-rata basis while eligible new investors have an opportunity to gain exposure to Envirosuite's growth vision

Envirosuite Limited (ASX:EVS) ("Envirosuite" or the "Company") is pleased to announce that the Company is undertaking an equity raising comprising a pro-rata accelerated non-renounceable entitlement offer and institutional placement to raise approximately A\$14 million (the "Offer").

Envirosuite plans to accelerate investment into growing underlying sales in the EVS Omnis and EVS Water product suites, and prioritising global expansion in the short term to maximise shareholder value in the long term:

- Strategically accelerating the development and distribution of EVS Water to take advantage of the market and increase sales velocity;
- Expediting Envirosuite's product roadmap to increase the Company's capability on a global scale and meet the needs of the Company's customers;
- Investing into the North American region to grow the Company's market position;
- Improving the operating model through investment into transformation projects to improve the delivery and support cost structure, thereby improving the gross margin; and
- Strengthening the balance sheet to support the growth in underlying sales.

1- The theoretical ex-rights price is the theoretical price at which Envirosuite shares should trade immediately after the ex-date for the Entitlement Offer. The TERP is a theoretical calculation only and the actual price at which Envirosuite's shares trade immediately after the ex-date for the Entitlement Offer will depend on many factors and may not equal the TERP. TERP is calculated by reference to Envirosuite's closing price of A\$0.105 on 21 May 2021. The TERP also includes New Shares to be issued under the Placement.

Section 5: Announcements

The Offer structure provides an opportunity for all eligible existing Envirosuite shareholders to participate in the entitlement offer on a pro-rata basis. Eligible new institutional investors also have the opportunity to join by subscribing for new shares through the placement.

Envirosuite Chief Executive Officer, Jason Cooper, commented:

With a record 3rd quarter of new ARR orders of A\$2.1m, the strong customer feedback around the EVS Water product, the increasing interest driven by Environmental, Social and Governance (ESG) criteria, and the US administration's US\$2 trillion proposed investment into infrastructure, we believe now is the opportunity to further invest into the growth potential for the EVS Water product suite, to accelerate our product roadmap, and drive growth in the North American market. As part of the Offer, we will look to also provide greater balance sheet flexibility as the Company continues to grow and invest into transformation initiatives to improve the operating margins of the business. I would like to thank our existing shareholders and welcome any potential new shareholders as we continue on the journey of making Envirosuite a global leader in environmental intelligence, harnessing technology to allow industry to grow and communities to thrive.

Offer Details

The ~A\$14 million Offer comprises the following:

- An institutional placement of approximately 94.1 million new fully paid ordinary shares in Envirosuite ("**New Shares**") to raise up to approximately A\$8 million ("**Placement**"); and
- A 1-for-14.5 pro-rata accelerated non-renounceable entitlement offer of approximately 70.9 million New Shares to raise up to approximately A\$6 million ("**Entitlement Offer**").

All New Shares offered under the Offer will be issued at a price of A\$0.085 per New Share, which represents a:

- 19% discount to the last traded price of A\$0.105 on 21 May 2021; and
- 16.9% discount to the Theoretical Ex-Rights Price ("**TERP**").

The Entitlement Offer provides eligible shareholders the opportunity to subscribe for 1 New Share for every 14.5 existing shares held as at 7.00pm Sydney Time on Wednesday, 26 May 2021 ("**Record Date**"). Furthermore, it is intended that eligible institutional shareholders that bid for up to their pro-rata allocation of New Shares under the Placement will be allotted their full bid, on a best endeavours basis.

Eligible institutional shareholders will be invited to participate in the accelerated institutional component of the Entitlement Offer ("**Institutional Entitlement Offer**"), which is being conducted today, Monday, 24 May 2021, along with the Placement. Entitlements not taken up by institutional shareholders cannot be traded on market or transferred. Eligible institutional shareholders can choose to take up all, part or none of their entitlements under the Institutional Entitlement Offer. Entitlements not taken up by eligible institutional shareholders, and institutional entitlements that would otherwise have been offered to ineligible institutional shareholders, will be offered to new and existing institutional shareholders concurrently with the Institutional Entitlement Offer.

² Please refer to Footnote 1

Section 5: Announcements

The retail component of the Entitlement Offer ("**Retail Entitlement Offer**") will be conducted at the same offer price and offer ratio as the Institutional Entitlement Offer. The Retail Entitlement Offer will be open from Monday, 31 May 2021 to eligible retail shareholders with a registered address in Australia or New Zealand, as at the Record Date and is expected to close at 5.00pm (Sydney time) on Friday, 11 June 2021. Eligible retail shareholders who take up their full retail entitlement will also be invited to subscribe for shares over and above their entitlement, up to a maximum of 150% above their entitlement, subject to the overall level of participation in the Entitlement Offer and at the discretion of Envirosuite's Board of Directors.

The Entitlement Offer is non-renounceable and entitlements will not be tradeable or otherwise transferable. Eligible shareholders who do not take up their entitlement under the Entitlement Offer in full or in part, will not receive any value with respect to those entitlements not taken up.

Each New Share issued under the Offer will rank equally with existing fully paid ordinary shares on issue in Envirosuite. The Company will, upon issue of the New Shares under the Offer, seek quotation of the New Shares on the ASX.

Wilsons Corporate Finance Limited and Bell Potter Securities Limited are acting as joint lead managers to the Offer.

Outlook

FY21 Outlook

Adjusted EBITDA loss of \$5-6m with H2 being improved over H1 and expected to be positive in Q4 from increase in non-recurring revenue. Non-recurring revenue of approximately \$8m with H2 forecasted to be improved on H1.

Recurring revenue for H2 slightly up on H1 as positive impact of growth in ARR and discounts granted to Airport customers in prior periods being partially unwound are offset with negative impact of the continued appreciation of AUD on the translation of EVS's foreign currency revenue and timing of new deals won (most new ARR wins came in at the end of the quarter).

FY21F

Recurring revenue	\$40-41m
Non-recurring revenue	~\$8m
Total revenue	\$48-49m
Adjusted EBITDA (loss)	(\$5-6m)

New ARR Sales Orders

- Q3 ARR sales orders of \$2.1m was in-line with previous half-year outlook.
- Management reconfirms forecast for Q4 though reliant on timing of closing small number of larger ARR deals.

Risk Factors on Outlook

- Timing of orders and delivery on non-recurring project work.
- The impact of foreign exchange including the negative impact of strengthening AUD on the translation of foreign currency revenue.
- The duration and severity of the COVID-19 pandemic in particular on the Airports sector. As the period of reduced flight traffic including international flights continues, the Group's recurring revenue base remains exposed to potential additional discounts or lengthening of the period over which discounts are offered.

Challenges faced by mining operations

evs omnis

Dust management

There are constant challenges keeping site-generated dust - from haul roads, material handling activities, blasting and wind action - within regulations, especially in variable weather conditions. Breaches can result in significant fines, and repeated breaches can bring more serious repercussions from regulators and communities.

Noise impacts

Forecasting the impact of noisy operations is very difficult and errors can lead to community complaints and investigation by regulators. The same operations performed in different weather conditions will have different impacts, making on-the-run management difficult. Curtailing operations unnecessarily could cost a mine many thousands of dollars a day.

Data management

Mines collect real-time dust, water, noise and other data 24 hours a day, 7 days a week. To satisfy regulators, the data needs to be accessible, reliable and reportable at a moment's notice for up to 5 years in the past.

Impact mitigation strategies

Dust mitigation can be a very costly exercise. Cost-effective deployment of resources for effective mitigation demands that operators have an accurate view of site-wide dust levels in real-time, short-term operational plans, and accurate weather and dust forecasts.

Blast safety

Miscalculated blasts have resulted in workers being hospitalised due to blast fume inhalation or damage to buildings and reputation within the community, eroding the mine's social licence to operate. Weather conditions are critical to predicting blast effects.

Operational efficiency

Planning mine operations for optimal efficiency while avoiding regulatory breaches can be very costly if weather forecasts are not accurate. Any drop in efficiency and therefore output can have a huge effect on revenue. Accurate hyper-local weather forecasting minimises the chance of expensive weather-related errors.

Challenges faced by Airports

evs aviation

Procedure Compliance

Sophisticated monitoring of how and where aircraft operate is required for regulatory compliance, to work with airlines to improve compliance rates and to reduce community exposure to aircraft noise.

Optimisation

Improve runway capacity and operational resilience to disruptions to reduce flight cancellations and the associated costs to airlines. Ensure infrastructure investments deliver on envisaged capacity by having the right information during design. Minimise disruption from development by understanding how the airfield is used. Monitor compliance with contractual commitments for aircraft handling.

Net Zero

Europe's aviation sector has unveiled a plan to decarbonise by 2050⁷⁹ and must show real progress via operational improvements before technology solutions are available. Airports need to work with stakeholders to reduce impacts and communicate what is being done.

Airspace Redesign

Airspace redesign will reduce greenhouse gas emissions, deliver more capacity and enable options to balance noise exposures. Airports need the right tools to communicate and broker the conversation between the community and industry to ensure informed consent and correct expectations.

Environmental Capacity

To build a social license to grow, Airports need to develop community trust through transparent, accurate and understandable communication. Incorrect expectations or misunderstood data can result in operational restrictions on hundreds of millions of asset investments.

Reputational Loss

If Airports fail to manage compliance, they can be hit with fines, further restrictions and reputational loss.

Events

Weather, takeoffs, landings, non-airports noise activities are all critically important for airports, both operationally and to the community as each can impact runway direction, where aircraft fly, and how noise is perceived on the ground.

Data

Data for Airports is the combination of flight tracks of all aircraft, flight information, aircraft information, weather and real-time noise data points.

Information

Airports need to be flexible to meet the demands of the airlines and ultimately the consumer and therefore need to increase movements to increase productivity.

- Noise and flight track monitoring
- Data grooming, reporting and noise contour studies
- Runway occupancy, dwell time and bottlenecks
- Web-based visualisation of airport noise and flight tracks for the community

Knowledge

Workflows enabling the core airport noise office activities.

Identify opportunities to increase runway throughput, identify bottlenecks, reduce taxi times.

Improving capacity, operational stability and resilience.

Enabling better scheduling of pavement maintenance activities to reduce disruption and cost, to ensure effective pavement management.

Decisions

Our solutions allow Airports to track, analyse and optimise the use of these routes to ensure the current asset is optimally utilised, whilst also providing comparative what-if style analysis to compare potential changes.

Challenges faced by the Water industry

evs water

Complex Treatment Processes

Treatment plant technologies are selected and sized on assumptions and information around water quality and capacity that may change over time. As facilities age, operating conditions required to maintain regulatory compliance may also change and some treatment processes become more difficult to manage. Day-to-day variations in feed water quality can impact plant performance and may lead to significant reactive maintenance costs and downtime at the plant if the potential issues are not identified and proactively mitigated.

Optimising an operation or responding to a water quality incident is a reactive process by engineers or operators who rely on their domain expertise and the information collected from a variety of sources, usually after the event has occurred.

Odour Management

The operation of treatment plants may involve the release of malodorous substances into the atmosphere with the potential to reduce the quality of life of people living nearby, including hydrogen sulphide (H₂S) and/or ammonia (NH₃), chlorine (Cl₂), ammonia, hydrocarbons and a variety of volatile organic compounds. Local weather conditions can intensify the impacts of odours and how far they travel. Depending on the level of impact and the response by the community, these emissions can lead to community complaints, disruptions to operations and/or financial penalties.

Operational Efficiency

Utilities are under increasing pressure to operate more efficiently. Various capital-intensive and disruptive approaches are available, but the benefits of more efficient day-to-day operation are difficult to identify and evaluate.

Social Reputation

As water becomes increasingly scarce and valued, community and regulatory expectations surrounding environmental management become more stringent. Environmental incidents are often high profile and expensive in terms of managing reputation and the penalties for non-compliance.

Odour Impact Control

As communities grow, ageing infrastructure built on the outskirts of communities has gradually moved within buffer distances designed for odour control. Facing regulations that continue to increase in stringency and communities that continually demand more from industry and regulators, businesses have increased expenditure on control and tracking of odour impacts.

Plant Design Processes

The design process is repetitive and slow, particularly in water treatment and industrial treatment, where spreadsheets are often still used for process design.

While process design tools are available, they are not designed for collaborative or rapid design, or may be expensive mathematical simulation tools that are re-purposed for process engineering design purposes.

Engineers are facing a highly competitive market, with fixed price contracts and aggressive timelines for the design phase and are seeking ways to deliver their process designs more efficiently.

Key Risks

Key Business Risks

Customer contract risk

Envirosuite's revenue is dependent on the arrangements it enters into with its customers. Envirosuite cannot be assured that a customer will re-engage Envirosuite on future projects or services once the project is completed or that the customer will not unilaterally reduce the scope of, or terminate, existing contracts on short-term notice (generally 30 days, but sometimes less). The duration of customer agreements and ability for customers to terminate arrangements in certain circumstances may expose the Company to greater risk in respect of the continued retention of customers and ability to maintain a sustained customer base and associated revenue.

Some customer contracts may be limited in nature and may not contain adequate protections for the services and products which Envirosuite provides. This may result in an increased risk to Envirosuite, for example, if a counterparty or third-party claims against it.

In addition, a customer's inability to pay its accounts when they fall due, or inability to continue purchasing services or products from Envirosuite due to financial distress, may expose Envirosuite to adverse financial outcomes arising from the customer credit risks.

Customer projects

Some of Envirosuite's revenue model is driven by project demands of customers and can be unpredictable throughout any financial year due to the timing of projects, length of sales cycles and the product-release cycles of Envirosuite's clients. Revenues may be impacted from quarter to quarter, and year to year depending on customer demand or on the completion rate of projects. Recently, Covid-19 has impacted the ability of some customers to commission projects in the timeframe originally committed, a consequence of which may be the delay by Envirosuite in receipt of the revenue for such projects.

Foreign exchange

Envirosuite's financial reports are prepared in Australian dollars. However, a substantial proportion of Envirosuite's sales revenue, expenditures and cash flows are generated in, and assets and liabilities are denominated in, foreign currencies. Any adverse movements of these currencies against the Australian dollar as well as other adverse exchange rate fluctuations or volatility, particularly during the period between when an invoice is issued and when payment is made, can have an adverse effect on Envirosuite's future financial performance and position.

Impact of changing technology on Envirosuite's competitive position

Envirosuite's businesses are significantly influenced by changing technology,

evolving industry standards and the emergence of new technologies. These changes can impact the ways in which the Envirosuite offers its services. In order to remain competitive and relevant, Envirosuite needs to enhance and expand its offering to meet their customers' needs. If Envirosuite is unable to do so, it may impact on its competitive position.

Trade secrets

Envirosuite relies upon its staff protecting Envirosuite's trade secrets. The protective measures Envirosuite employs may not always be sufficient to protect its trade secrets. If Envirosuite's trade secrets become public, this could erode its competitive advantage. Envirosuite also cannot be certain that others will not independently develop similar technologies on their own, or gain access to trade secrets, or have disclosed to them such technology, or that Envirosuite will otherwise be able to meaningfully protect its trade secrets and unpatented know-how and keep them secret. This could allow competitors to commercialise products and services that compete with Envirosuite. Although Envirosuite implements reasonable endeavours to protect its intellectual property, these measures may not always be sufficient.

Key person risk

The successful operation of Envirosuite's business relies on its ability to retain experienced and high performing key management and operating personnel with Envirosuite. Envirosuite may not successfully retain existing, and / or attract, new, key management personnel. The unexpected loss of any key members of management or operating personnel may have a material adverse effect on the financial performance of Envirosuite.

Brand and reputational risk

The reputation and branding of Envirosuite is an important factor for its success. Anything that diminishes Envirosuite's reputation or brand would likely be adverse to Envirosuite and may diminish the demand for Envirosuite's services thereby detrimentally affecting Envirosuite's profitability and prospects for growth.

Competition and future business performance

Envirosuite operates in a competitive industry. Envirosuite competes on the basis of a number of factors, including the quality of its services and products, reputation and price. However, there is no assurance that competitors will not succeed in offering services or products that are more economic or otherwise more than those being offered by Envirosuite.

An increase in competition could result in Envirosuite experiencing a decline in its ability to attract or retain customers and a loss of market share – which in turn may impact the growth of Envirosuite or expose it to lower than anticipated

revenue and earnings. More broadly, there is no guarantee as to the future performance of Envirosuite and there is a risk that Envirosuite will not execute or deliver on its sales strategy in the future. Failure to successfully implement this strategy could result in adverse consequences for Envirosuite's financial performance, condition and prospects.

Intellectual property

The ability of Envirosuite to leverage its innovation and expertise depends on its ability to protect its intellectual property and any improvements to it as well as Envirosuite's confidential information. Intellectual property that is important to Envirosuite includes, but is not limited to, copyright in its software, know how, trademarks, domain names, its website and webpages, business names and logos. Envirosuite relies on contractual arrangements and laws regulating intellectual property to assist in protecting its intellectual property. However, such intellectual property may not always be capable of being legally protected. It may be the subject of unauthorised disclosure or unlawfully infringed, or Envirosuite may incur substantial costs in asserting or defending its intellectual property rights or protecting its confidential information.

Data management, privacy and cyber security risks

Information technology, and the continued and efficient operation of that technology, is essential to Envirosuite's business. Threats to information security are constantly evolving and techniques used to perpetrate cyber-attacks are increasingly sophisticated. As such, Envirosuite may be subject to network and systems interference from a number of sources, such as cyber-attacks, security breaches or system defects, which could result in commercial, financial, health and safety, environmental or reputational impacts. The potential consequences of such interference include operational downtime, delays, destruction or corruption of data, disclosure of commercially sensitive information, data and privacy breaches or a breach of regulatory compliance obligations.

While Envirosuite has disaster recovery and business continuity plans in place, such interference could have a material impact on Envirosuite's business, operations or financial condition and performance. The protection of customer, employee, third-party and company data is also critical of Envirosuite's operations and failure to protect such data could damage its reputation.

New product development risk

Envirosuite may from time to time seek to develop new products to enhance its business and operations. This may require a material amount of capital, time, resources and various approvals – the combination of which could materially delay or deny a successful product development. There is also no guarantee as to the success and performance of a new developed product (into which such time, money and resources have been invested).

38 Not for distribution or release in the United States

Section 5: Announcements

Key Risks

Customer Concentration Risk

Envirosuite generates approximately 1/3 of its revenue from its top 5 customers and approximately 20% of its revenue from the Australian government and companies controlled by the Australian government (based on results for the 6 months ending 31 December 2020). A loss of or reduced scope within a key customer contract could have a material negative impact to the Group's revenue and cashflow.

Research and development activities

Envirosuite also engages in a range of research and development initiatives. Research requires expenditure of materials, services, labour and time as well as potential opportunity costs. These initiatives are inherently speculative in nature and there is no guarantee that Envirosuite's investment in these initiatives will be able to be commercialised or generate any future benefits for Envirosuite. In addition, Envirosuite's eligibility for tax incentives associated with research and development activities is subject to changes in regulation (and interpretation of regulation).

Recent and future acquisitions & integration

In undertaking its business, from time to time Envirosuite may pursue strategic acquisitions and other growth initiatives. To finance such future acquisitions, Envirosuite may incur additional indebtedness and may seek to raise capital. Such actions and the terms on which such funding could be obtained may have a material adverse impact on Envirosuite's financial position.

To the extent Envirosuite grows through acquisition, it will face operational and financial risks commonly encountered with such a strategy, including but not limited to continuity or assimilation of the operations and personnel of the acquired business, dissipation of Envirosuite's management resources and impairment of relationships with employees and customers of the acquired business as a result of changes in ownership and management. In addition, depending on the type of transaction, it may take a substantial period of time to completely realise an acquisition's full benefit, or it may never be realised.

It may also be possible that any due diligence enquiries conducted by Envirosuite may not identify one or more material issues or liabilities or they may be more than expected, and that the standard protections negotiated by Envirosuite prior to the relevant acquisition are inadequate in the circumstances. Such issues or liabilities could adversely affect Envirosuite's financial performance and position and future prospects.

Risk management strategy

Envirosuite has risk management strategies and internal controls in place to identify, monitor and mitigate risks to which it is subject, including market risk, strategic risk and operational risk. However there are inherent limitations with

any risk management framework as the nature and scope of risks continue to evolve (and in some cases, in an unpredictable way). If Envirosuite's risk management processes and procedures are ineffective or not appropriately implemented, Envirosuite could suffer unexpected losses and reputation damage which could impact its financial performance and condition.

COVID-19

Envirosuite generates approximately 65% of its revenue from customers in the Airports sector (based on results for the 6 months ending 31 December 2020). The COVID-19 pandemic has resulted in a material reduction in airline traffic which has impacted the revenue generated by Airports. Envirosuite has offered certain larger customers discounts and reduced the scope of services, of which some have started to unwind. However, as the reduction in airline traffic continues, there is a risk that additional discounts and/or reduced scope of services could further impact Envirosuite's revenue.

Changes to regulatory framework

Envirosuite must comply with a range of Commonwealth, State and Territory laws and regulations in its operations, many of which are complex and subject to change. There is a risk that when regulatory restrictions change, they become more burdensome. If this occurs, Envirosuite may be required to dedicate more time and resources to ensuring that it complies with these regulations, which could adversely affect its financial performance and future prospects. Failure to comply with these regulations may result in compliance orders being issued against Envirosuite and associated reputational damage.

Foreign operations

Envirosuite also conducts business in a number of jurisdictions and is subject to the risks specific to those jurisdictions. Envirosuite's financial performance may be negatively impacted by changes in general business and operating conditions, laws, regulations or policies associated with a jurisdiction in which it operates from time to time.

Insurance

Envirosuite holds insurance policies for material risks faced by the business at levels at which it considers are commensurate with industry standards and are necessary having regard to its business activities. There can be no assurance that any insurance currently maintained will be available in the future on a commercially reasonable basis. If Envirosuite incurs uninsured losses or liabilities, its assets, profits and prospects may be adversely affected.

General risks

General economic conditions

Envirosuite's operating performance and financial performance is influenced by a variety of general economic and business conditions including the level of

inflation, interest rates, exchange rates and government fiscal, monetary and regulatory policies. Prolonged deterioration in general economic conditions, including an increase in interest rates or decrease in consumer and business demand, could be expected to have an adverse impact on Envirosuite's business, results of operations or financial condition and performance. In particular, this may impact on Envirosuite's ability to develop products and establish business operations in the expected time frame or at its current levels.

There also continues to be considerable uncertainty as to the duration and further impact of COVID-19, including but not limited to in relation to government, regulatory or health authority actions, work stoppages, lockdowns, quarantines and travel restrictions. The impacts of COVID-19 are beyond Envirosuite's control, and may affect Envirosuite's ability to operate and manage its business effectively. Increased economic uncertainty resulting from the impacts of COVID-19 may also result in a reduction in sales inflows, which may in turn impact on Envirosuite's financial condition and operations.

General investment risks

There are general risks associated with investments in equity securities. No assurances can be given that any new shares will trade at or above the price at which they are issued. None of Envirosuite, its directors or any other person guarantees the market performance of any new shares issued by Envirosuite. The trading price of shares in Envirosuite may fluctuate with movements in equity capital markets in Australia and internationally. This may result in the market price for the any new shares being less or more than the price at which they are issued.

Generally applicable factors which may affect the market price of Envirosuite shares (and over which Envirosuite and its directors have limited or no control) include:

- the impact of COVID-19 (or other pandemics or epidemics), and the measures taken to control their spread, including on the health of the workforce, and customers and impact on supply chains;
- general movements in Australian and international stock markets;
- investor sentiment and the demand for ASX-listed securities generally, and the risk of contagion;
- Australian and international economic conditions and outlook, including aggregate investment and economic output, employment levels and labour costs, commodity prices, inflation, interest rates, and exchange rates;
- changes in interest rates and the rate of inflation;
- changes in exchange rates, employment levels and consumer demand;
- changes in government legislation, regulation and policies, including fiscal,

Key Risks

regulatory, trade and monetary policies and tax laws;

- announcement of new technologies and displacement of existing technologies;
- natural disasters, extreme weather events and catastrophes;
- geo-political instability, including international hostilities and acts of terrorism;
- demand for and supply of Envirosuite shares;
- announcements and results of competitors; and
- the expectations of securities analysts and analysts' reports.

Volatility and liquidity risk

While Envirosuite shares are currently listed on ASX, there is no guarantee that there will at all times be sufficient buyers of shares to enable shareholders to dispose of Envirosuite shares in a timely manner at a price that the shareholder may have expected to achieve. The price of shares may go up and down by a material amount, even over a short period of time. No assurance can be given that the shares issued under the placement will trade at or above the price they are offered or that there will be an active market in Envirosuite shares. None of Envirosuite, its directors nor any other person guarantees the performance of any new shares issued under the placement.

Litigation risk

Legal proceedings and claims may arise from time to time in the ordinary course of Envirosuite's business and may result in high legal costs, adverse monetary judgments and damage to Envirosuite's reputation which could have an adverse impact on Envirosuite's financial position and financial performance and the price of its shares.

Risk of dilution

Shareholders' interests in Envirosuite will be diluted as result of the capital raising currently contemplated. Shareholders may have their investment diluted by future capital raisings by Envirosuite. Envirosuite may issue new

securities to finance future acquisitions or pay down debt which may, under certain circumstances, dilute the value of an investor's interest.

Dividends

Envirosuite has not previously declared a dividend. The payment of any dividends in respect of Envirosuite's shares is affected by several factors, including Envirosuite's profitability, retained earnings, ability to frank dividends, capital requirements and free cash flow. Any future dividends will be determined by Envirosuite's Board having regard to these factors, among others. There is no guarantee that any dividends will be paid by Envirosuite.

Offer not renounceable

Entitlements are non-renounceable and will not be tradeable on ASX or otherwise transferable. Accordingly, shareholders who do not take up their entitlements will not receive any value for those entitlements.

Adverse changes to tax laws

Existing tax law and future changes in taxation laws, including changes in interpretation or application of the law by the courts or taxation authorities in Australia and any other jurisdiction in which Envirosuite operates now or in the future, may affect the taxation treatment of an investment in Envirosuite shares, or the holding or disposal of Envirosuite shares. Further changes in tax laws in Australia or in any jurisdictions in which Envirosuite operates now or in the future, may impact the future tax liabilities of Envirosuite.

Accounting standards

EVS Aviation
1. The ARPS for Aviation product is driven by a number of factors including the airport size (based on annual passenger movements), number of environmental sensors utilised in the solution, and whether the airport owns or leases the sensors from Envirosuite. Envirosuite's aviation portfolio currently consists of primarily larger airports such that any growth in smaller airports would be expected to provide a lower ARPS than the average shown for the portfolio.

Key offer details
1. The Theoretical Ex-Rights Price (TERP) is the theoretical price at which Envirosuite shares should trade immediately after the ex-date for the Entitlement Offer. The TERP is a theoretical calculation only and the actual price at which Envirosuite's shares trade immediately after the ex-date for the Entitlement Offer will depend on many factors and may not equal the TERP. TERP is calculated by reference to Envirosuite's closing price of A\$0.105 on 21 May 2021. The TERP also includes New Shares to be issued under the Placement.

Section 5: Announcements

Definition of terms

ARPS	Average Revenue Per Site which is calculated by taking the ARR divided by the number of sites.	Adjusted EBITDA	Earnings Before Interest, Depreciation and Amortisation adjusted to (a) exclude share-based compensation, which is a non-cash expense; (b) exclude foreign exchange gains/losses, and transition expenses (redundancy payments and integration costs connected with acquisitions) which are deemed to be non-recurring in nature, and (c) add back depreciation and interest connected with leases recognised under IFRS 16 Leases as these are deemed to be recurring operating cash expenses.
ARR	Annual Recurring Revenue represents the monthly recurring revenue at the reporting date that the company expects to receive from customers based on sales orders received net of any churn.	Software as a Service	Refers to a method of software delivery and licensing in which a cloud-based software solution is accessed via a recurring subscription fee.
Churn %	The decrease in ARR as a result of contract cancellations as a percentage of ARR at the beginning of the period. The churn rate is an annualized percentage of the most recent quarter.	Solution as a Service	Refers to delivery model where the software, environmental sensors, and maintenance of the software and sensors are provided as an integrated solution and accessed via a recurring subscription fee. As part of the solution, customers can either purchase or lease the sensors from Envirosuite. Envirosuite typically provides maintenance for the sensors as part of the subscription fee, regardless of whether they are owned by the customer or Envirosuite.
CLTV	Customer Lifetime Value which is calculated by taking the ARPS divided by the churn rate and multiplied by the gross margin percentage for the customer segment. In this presentation, a gross margin rate of 41% has been applied to calculate the CLTV.	Service Addressable Market (SAM)	The service addressable market is the portion of the Total Addressable Market (TAM) that can be meaningfully reached by Envirosuite's software and solutions. It is calculated by taking the applicable global Sites (mines, wastewater treatment plants etc.) where Envirosuite's software and solutions could meaningfully apply and multiplied by the current market Annual Recurring Revenue (ARR) price for that software/solution.
Site	A separate and distinguishable site (e.g., airport, mine site, waste and wastewater facility, construction site, etc.) at which Envirosuite's environmental monitoring software and/or solutions are deployed. A single customer may have multiple sites which can be through separate contracts or under one master contract with Envirosuite. A site is only counted once it is included within the calculation of ARR.	Total Addressable Market	The Total Addressable Market (TAM) refers to the total market demand for EVS products if 100% of the available market is addressed. It is calculated by multiplying the total number of global Sites (mines, waste water treatment plants etc.) by the theoretical market ARR for that Site type.
Recurring revenue	Revenue that the company expects to continue for more than 12 months based on term of the contract entered into with the customer or experience with the customer on other similar sites. Once revenue is treated as recurring revenue, it will continue to be accounted for as recurring revenue until the contract is terminated.		
Environmental Intelligence	Environmental Intelligence harnesses the power of environmental data through proprietary technology to provide analytics, real-time visualisations, predictive modelling and actionable insights so that industry and government can make fast, confident decisions that optimise operational outcomes and improve the liveability of their communities.

Section 6: Taxation

6.1 Introduction

Set out below is a summary of the Australian income tax, GST and stamp duty implications of the Retail Entitlement Offer for Eligible Retail Shareholders who:

- are residents of Australia for Australian income tax purposes; and
- hold their EVS Shares (and will hold their New Shares, including any Additional New Shares) on capital account.

The summary below does not apply to Eligible Retail Shareholders who:

- are non-residents of Australia for Australian income tax purposes;
- hold their EVS Shares (or will hold their New Shares, including any Additional New Shares) as revenue assets (which will generally be the case for Eligible Retail Shareholders who use their EVS Shares in carrying on a business of share trading, banking or insurance) or as trading stock, or have acquired EVS Shares for the purpose of on-sale at a profit;
- acquired their EVS Shares in respect of which their Retail Entitlements are issued under any employee share scheme or where New Shares (including any Additional New Shares) are acquired pursuant to any employee share scheme; or
- may be subject to special tax rules, such as insurance companies, partnerships, tax exempt organisations, trusts (except where expressly stated), superannuation funds (except where expressly stated) or temporary residents.

This taxation summary is based on the Australian tax law and administrative practice as it applies as at 9.00am on the date of this Retail Offer Booklet. Other than as expressly discussed or specified, the comments do not take into account or anticipate changes in Australian tax law, administrative practice or future judicial interpretations of Australian tax law after this time.

This summary also does not take account of any individual circumstances of any particular Eligible Retail Shareholder and does not constitute tax advice. It does not purport to be a complete analysis of the potential tax consequences of the Retail Entitlement Offer and is intended as a general guide to the Australian tax implications. Eligible Retail Shareholders should seek and rely upon specific advice applicable to their own particular circumstances from their own financial or tax advisors.

6.2 Issue of Retail Entitlements

The issue to you of your Retail Entitlements should not, of itself, result in any amount being included in your assessable income.

6.3 Exercise of Retail Entitlements

You will acquire New Shares where you take up all or part of your Retail Entitlements under the Retail Entitlement Offer.

You may acquire Additional New Shares where you take up all of your Retail Entitlements and also apply for Additional New Shares in excess of your Retail Entitlement under the Retail Entitlement Offer (up to a maximum of 150% of your Retail Entitlement).

No Australian income tax liability should arise for you at the time of exercising (i.e. taking up) your Retail Entitlement.

For CGT purposes, you will be taken to have acquired the New Shares, including any Additional New Shares, you acquire on the day that you exercise your Retail Entitlement. Each New Share, including each Additional New Share, will constitute a separate CGT asset.

If you take up all or part of your Retail Entitlement, the cost base of the New Shares, including any Additional New Shares, you acquire will, for CGT purposes, be equal to the Offer Price payable by you for those New Shares (including Additional New Shares) plus certain non-deductible incidental costs you incur in acquiring them.

Section 6: Taxation

6.4 Lapse of Retail Entitlement

If you do not take up all or part of your Retail Entitlement in accordance with the instructions set out above, then your Retail Entitlement will lapse and you will not receive any consideration for your Retail Entitlement that is not taken up. There should be no tax implications for you from the lapse of your Retail Entitlement.

6.5 Dividends on New Shares (including Additional New Shares)

Any future dividends or other distributions made in respect of New Shares, including any Additional New Shares, will be subject to the same income taxation treatment as dividends or other distributions made on EVS Shares held in the same circumstances.

6.6 Disposal of New Shares (including Additional New Shares)

The disposal of a New Share or an Additional New Share will constitute a disposal for CGT purposes.

On disposal of a New Share or an Additional New Share, you will make a capital gain if the capital proceeds on disposal exceed the cost base of the New Share or Additional New Share. You will make a capital loss if the capital proceeds are less than the reduced cost base of the New Share or Additional New Share. The cost base of New Shares, including any Additional New Shares, is described above in Section 6.3.

If you are an individual, trustee or complying superannuation entity that has held New Shares (including any Additional New Shares) for 12 months or more at the time of disposal (not including the date of acquisition and disposal) you should be entitled to apply the applicable CGT discount factor to reduce the capital gain (after offsetting capital losses). The CGT discount factor is 50% for individuals and trustees and 33⅓% for complying superannuation entities.

You will be taken to have acquired New Shares, including any Additional New Shares, for the purposes of the CGT discount on the day you exercise your Retail Entitlements. Accordingly, to be eligible for the CGT discount, you must have held New Shares, including any Additional New Shares, for at least 12 months after the date that you exercised your Retail Entitlement (not including the date of acquisition and disposal).

If you make a capital loss, you can only use that loss to offset other capital gains (i.e. the capital loss cannot be offset against taxable income on revenue account). However, if the capital loss cannot be used in a particular income year, you can carry it forward to use in future income years, providing certain loss utilisation tests are satisfied.

6.7 Taxation of Financial Arrangements (TOFA)

The TOFA provisions operate to make assessable or deductible, gains or losses arising from certain 'financial arrangements' (importantly, the CGT discount is not available for any gain that is subject to the TOFA provisions). The application of the TOFA provisions depend on your specific facts and circumstances. You should seek advice from an appropriate professional advisor in relation to the implications of the TOFA provisions to you.

6.8 Provision of TFN and/or ABN

EVS may be required to withhold tax from you on payments of dividends that are not fully franked, at the specified rate, and remit such amounts to the ATO, unless you have provided a TFN, ABN or you have informed us that you are exempt from quoting your TFN or ABN.

You are not required to provide your TFN or ABN to EVS, however you may choose to do so. If you have previously quoted your TFN, ABN, or have notified us that an exemption from quoting your TFN or ABN exists, that quotation or exemption will also apply in respect of any New Shares, including Additional New Shares, acquired by you.

6.9 Other Australian taxes

No GST or stamp duty should be payable by you in respect of the issue or taking up of your Retail Entitlements, or the acquisition of New Shares (including any Additional New Shares), pursuant to the Retail Entitlement Offer.

Section 7: Additional information

This Retail Offer Booklet (including the enclosed Announcements) and attached personalised Entitlement and Acceptance Form have been prepared by EVS.

This Retail Offer Booklet (other than the Announcements) is dated 31 May 2021. The Announcements are current as at the date on which they were released. This Retail Offer Booklet remains subject to change without notice, and EVS is not responsible for updating this Retail Offer Booklet.

There may be additional announcements that have been made by EVS (including after the date of this Retail Offer Booklet) that are made throughout the Retail Entitlement Offer Period that may be relevant to your consideration of whether to take part in the Retail Entitlement Offer. Therefore, it is prudent that you check whether any further announcements have been made by EVS before submitting an Application.

No party other than EVS has authorised or caused the issue of this Retail Offer Booklet, or takes any responsibility for, or makes, any statements, representations or undertakings in this Retail Offer Booklet.

For the avoidance of doubt, to the maximum extent permitted by law, each Joint Lead Manager and its affiliates, related bodies corporate, officers, employees, agents and advisors disclaim all liability, including (without limitation) liability arising from fault, negligence or otherwise, for any loss howsoever and whenever arising from the use of any of the information contained in this Retail Offer Booklet, and each Joint Lead Manager does not act as a fiduciary or agent of any other person.

This information is important and requires your immediate attention.

You should read this Retail Offer Booklet in full before deciding how to deal with your Retail Entitlement. In particular, you should consider the risk factors outlined in the “Key Risks” section of the enclosed Investor Presentation, which could affect the operating and financial performance of EVS or the value of an investment in EVS.

You should consider these risk factors in light of your personal circumstances, including financial and taxation issues, before making a decision in relation to your Retail Entitlement. It is recommended that you seek professional advice from a licensed advisor before deciding whether or not to participate in the Retail Entitlement Offer.

7.1 Trading of New Shares

EVS has applied to the ASX for official quotation of the New Shares. If ASX does not grant quotation of the New Shares, EVS will repay all Application Monies (without interest). Subject to approval being granted, it is expected that trading of New Shares on ASX will commence on Tuesday, 22 June 2021 on a normal settlement basis.

EVS, the Joint Lead Managers and their advisors will have no responsibility and disclaim all liability (to the maximum extent permitted by law) to persons who trade New Shares they believe have, but have not yet, been issued to them, whether on the basis of a confirmation of issue provided by EVS or the Registry or otherwise or who otherwise trade or purport to trade New Shares in error or which they do not hold or are not entitled to hold.

If you are in any doubt as to these matters, you should seek professional advice.

7.2 Eligible Retail Shareholders

This Retail Offer Booklet contains an offer of New Shares to Eligible Retail Shareholders in Australia and New Zealand, and has been prepared in accordance with section 708AA of the Corporations Act (as notionally modified by ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84 and ASIC Corporations (Disregarding Technical Relief) Instrument 2016/73).

EVS may (in its absolute discretion) extend the Retail Entitlement Offer to any institutional investors in foreign jurisdictions which did not participate in the Institutional Entitlement Offer (excluding the United States and subject to compliance with applicable laws).

7.3 Ranking of New Shares

New Shares issued under the Retail Entitlement Offer will be fully paid and rank equally with EVS Shares. The rights attaching to the New Shares are set out in EVS' Constitution and are regulated by the Corporations Act, ASX Listing Rules and general law.

Section 7: Additional information

7.4 Rounding of New Shares

Where fractions arise in the calculation of Retail Entitlements, they will be rounded up to the next whole number of New Shares.

7.5 Reconciliation and the rights of EVS and the Joint Lead Managers

As with any entitlement offer, investors may believe that they own more EVS Shares on the Record Date than they ultimately do, or are otherwise entitled to more New Shares than initially offered to them. These matters may result in a need for reconciliation to ensure all Eligible Retail Shareholders have the opportunity to receive their full Retail Entitlement.

If reconciliation is required, it is possible that EVS may need to issue a small quantity of additional New Shares (**Top-Up Shares**) to ensure that all Eligible Retail Shareholders have the opportunity to receive their full Retail Entitlements on a pro rata basis. The price at which these Top-Up Shares will be issued will be the same as the Offer Price.

EVS also reserves the right to reduce the number of New Shares issued to Eligible Retail Shareholders or persons claiming to be Eligible Retail Shareholders, if their Retail Entitlement claims prove to be overstated, if they or their nominees fail to provide information requested to substantiate their Retail Entitlement claims, or if they are not Eligible Retail Shareholders. In this case, the relevant Shareholder may need to transfer EVS Shares held by them or purchase additional EVS Shares on-market (if necessary). The relevant Shareholder will bear any and all losses caused by subscribing for New Shares in excess of their Retail Entitlement, and any actions they are required to take in this regard.

By applying under the Entitlement Offer, those doing so irrevocably acknowledge and agree to do the above as required by EVS in its absolute discretion. Those applying acknowledge that there is no time limit on the ability for EVS or the Joint Lead Managers to require any of the actions set out above.

7.6 No cooling off rights

Cooling off rights do not apply to an investment in New Shares. You cannot withdraw your Application once it has been accepted.

7.7 No entitlements trading

Retail Entitlements are non-renounceable and cannot be traded on ASX or any other exchange, nor can they be privately transferred.

7.8 Not financial product advice

This Retail Offer Booklet is not a prospectus, product disclosure statement or other offering document under Australian law or any other law (and will not be lodged with ASIC or any foreign regulator). Each recipient of this Retail Offer Booklet should make their own enquiries and investigations regarding all information in this Retail Offer Booklet, including but not limited to the assumptions, uncertainties and contingencies which may affect future operations of EVS and the impact that different future outcomes may have on EVS. EVS is required to notify ASX of information about specific events and matters as they arise for the purposes of ASX making that information available to the stock markets conducted by ASX. In particular, EVS has an obligation under the Listing Rules (subject to certain exceptions) to notify ASX immediately of any information of which it is or becomes aware which a reasonable person would expect to have a material effect on the price or value of EVS Shares. That information is available to the public from ASX.

No action has been taken to register or qualify the Retail Entitlement Offer or the New Shares, or otherwise permit the offering of the New Shares, in any jurisdiction other than Australia and New Zealand. Return of the personalised Entitlement and Acceptance Form will be taken by EVS to constitute a representation by you that there has been no breach of any such laws. Eligible Retail Shareholders who are nominees or custodians should see Section 3.4.

The distribution of this Retail Offer Booklet (including in electronic format) outside Australia and New Zealand may be restricted by law. If you come into possession of this Retail Offer Booklet, you must observe such restrictions. In particular, this document or any copy of it must not be distributed in the United States. Dear Shareholder,

Pro Rata Accelerated Non-Renounceable Entitlement Offer – Notification to Ineligible Retail Shareholders

On Monday, 24 May 2021, Envirosuite Limited (ABN 42 122 919 948) (ASX: EVS,) (**Envirosuite**) announced that it was conducting a ~\$A14 million equity capital raising, comprising a ~\$A8 million institutional placement ("**Placement**") and a pro rata accelerated non-renounceable entitlement offer ("**Entitlement Offer**", together with the Placement the "**Offer**") of up to ~A\$6 million in new fully paid ordinary shares in Envirosuite (**New Shares**) on a 1 for 14.5 basis to eligible shareholders, at an offer price of A\$0.085 per New Share ("**Offer Price**").

Proceeds of the Offer will be used by Envirosuite to to fund investments into the growing underlying sales in the EVS Omnis and Water products and to prioritise global expansion.

This is a letter to inform you about the Entitlement Offer and to explain why you will not be able to subscribe for New Shares under the Entitlement Offer. This letter is not an offer to issue new entitlements or New Shares to you, nor an invitation to apply for entitlements or New Shares. **You are not required to do anything in response to this letter but there may be financial implications for you as a result of the Entitlement Offer and Placement that you should be aware of.**

What is the Entitlement Offer?

The Entitlement Offer comprises an institutional component ("**Institutional Entitlement Offer**") and a retail

offer to Eligible Retail Shareholders (as defined below) to participate on the same terms ("**Retail Entitlement Offer**"). The Entitlement Offer is being made by Envirosuite by way of an offer document in accordance with section 708AA of the Corporations Act 2001 (Cth) (the "**Corporations Act**") as modified by ASIC Corporations (Non-Traditional Rights Issues) Instrument 2016/84 and ASIC Corporations (Disregarding Technical Relief) Instrument 2016/73), meaning that no prospectus or other disclosure document needs to be prepared.

The Institutional Entitlement Offer has already closed and the results were announced to ASX on Wednesday, 26 May 2021. An offer booklet in relation to the Retail Entitlement Offer will be lodged with the ASX and mailed to Eligible Retail Shareholders on or around Monday, 31 May 2021 ("**Retail Offer Booklet**").

The Entitlement Offer is lead managed by Wilsons Corporate Finance Limited (ABN 65 057 547 323) and Bell Potter Securities Limited (ABN 25 006 390 772) (together, the "**Joint Lead Managers**").

What is the Retail Entitlement Offer?

The Retail Entitlement offer involves an offer to Eligible Retail Shareholders of an entitlement to subscribe for 1 New Share for every 14.5 existing Envirosuite share ("**Existing Shares**") held at 7.00pm (Sydney time) on Wednesday, 26 May 2021 ("**Record Date**"), at a price of A\$0.085 ("**Offer Price**") for each New Share ("**Retail Entitlement**").

As with the Institutional Entitlement Offer, the Retail Entitlement Offer is non-renounceable. A number of New Shares equal to the number that you would otherwise be entitled to subscribe for under the Retail Entitlement Offer will be subscribed for by Eligible Retail Shareholders who subscribe for additional New Shares in excess of their Retail Entitlement, third parties at the Offer Price (as defined above). As a result, no amount will be payable by you and you will not otherwise receive any value for Retail Entitlements in respect of any New Shares that would have been offered to you if you were an Eligible Retail Shareholder.

Who is eligible?

Shareholders who are eligible to participate in the Retail Entitlement Offer ("**Eligible Retail Shareholders**") are those shareholders of Envirosuite on the Record Date who:

- (a) are registered as a holder of Shares;
- (b) have a registered address in Australia or New Zealand as noted on Envirosuite's share register or persons that Envirosuite has determined in its discretion are Eligible Retail Shareholders;
- (c) are not in the United States and are not a person (including nominees and custodians) acting for the account or benefit of a person in the United States (to the extent that such shareholders hold Shares for the account or benefit of such person in the United States);
- (d) were not invited to participate in the Institutional Entitlement Offer and were not treated as an ineligible institutional shareholder under the Institutional Entitlement Offer (other than as a nominee or custodian, in each case in respect of other underlying holdings); and
- (e) are eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer without any requirement for a prospectus or offer document to be lodged or registered.

Shareholders who are not Eligible Retail Shareholders are ineligible retail shareholders and are consequently unable to participate in the Retail Entitlement Offer. Envirosuite may (in its absolute discretion) extend the

Retail Entitlement Offer to certain institutional shareholders in foreign jurisdictions who did not participate in the Institutional Entitlement Offer (subject to compliance with applicable laws).

Eligibility of investors for the purposes of the Placement and the Entitlement Offer is determined by reference to a number of matters, including legal and regulatory requirements, logistical and registry constraints and the discretion of Envirosuite and the Joint Lead Managers.

Envirosuite, the Joint Lead Managers, their affiliates and related bodies corporate, and each of their respective directors, officers, employees, advisers and agents, disclaim any duty or liability (including in negligence) in respect of any determination of eligibility, to the maximum extent permitted by law.

Why am I not eligible to participate in the Retail Entitlement Offer?

Unfortunately, according to our records, you do not satisfy the criteria for an Eligible Retail Shareholder. Accordingly, in compliance with section 9A(3) of the Corporations Act and ASX Listing Rule 7.7.1(b), we wish to inform you that the Retail Entitlement Offer will not be extended to you and you will not be able to subscribe for New Shares under the Retail Entitlement Offer.

This is due to a number of factors, including the small number of Envirosuite shareholders in countries outside Australia and New Zealand, the number and value of Shares those Envirosuite shareholders hold and the cost of complying with the applicable regulations in jurisdictions outside Australia and New Zealand.

After consideration of these factors, Envirosuite has determined, pursuant to section 9A(3) of the Corporations Act and Listing Rule 7.7.1(a) of the ASX Listing Rules, that it would be unreasonable to make offers to Envirosuite shareholders outside Australia and New Zealand in connection with the Retail Entitlement Offer.

Non-renounceable offer

As the Retail Entitlement Offer is non-renounceable, entitlements in respect of the New Shares you would have been entitled to if you were an Eligible Retail Shareholder will lapse and you will not receive any payment or value for your entitlements in respect of any New Shares that would have been offered to you if you had been eligible.

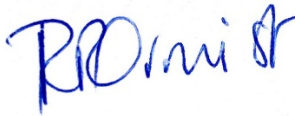

New Shares equivalent to the number of New Shares you would have been entitled to if you were an Eligible Retail Shareholder will be allocated to the Joint Lead Managers (in their capacity as Joint Underwriters) or to persons from whom the Joint Lead Managers have procured subscriptions for New Shares, pursuant to the underwriting arrangements between Envirosuite and the Joint Lead Managers.

Further information

If you have any questions in relation to any of the above matters, please contact the Envirosuite Shareholder Information Line on 1300 737 760 (within Australia) or +61 2 9290 9600 (outside Australia) from 8.30am to 5.30pm (Sydney time), Monday to Friday, up to the closing date of the Retail Entitlement Offer on Friday, 11 June 2021. For other questions, you should consult your broker, solicitor, accountant, financial adviser or other professional adviser.

On behalf of the Board and management of Envirosuite, we thank you for your continued support of Envirosuite.

Yours sincerely,

Rachel Ormiston
General Counsel and Company Secretary
Envirosuite Limited
