Dubber Investor Update

Dubber Corporation Limited (ASX: DUB) (Dubber), today provided an updated presentation to investors and announced the expansion of its business relationship with Cisco.

The update includes:

- Investor presentation: <https://www.dubber.net/cisco-announcement-investor-deck>
- Investor video: <https://www.dubber.net/cisco-announcement-video>
- ASX announcement on Cisco relationship, released to ASX separately.

Further information can also be found at: <https://www.dubber.net/investors>

This announcement has been approved for release by Steve McGovern, CEO, Dubber.

About Dubber:

Dubber is unlocking the potential of voice data from any call or conversation. Dubber is the world's most scalable Unified Call Recording service and Voice Intelligence Cloud adopted as core network infrastructure by multiple global leading telecommunications carriers in North America, Europe and Asia Pacific. Dubber allows service providers to offer call recording for compliance, business intelligence, sentiment analysis, AI and more on any phone. Dubber is a disruptive innovator in the multi-billion dollar call recording industry, its Software as a Service offering removes the need for on-premise hardware, applications or costly and limited storage.
