RESUMPTION OF PRODUCTION ACTIVITIES AT DAISY COMPLEX

Silver Lake Resources Limited (“**Silver Lake**” or the “**Company**”) provides an update following the passing of a contractor at the Daisy Complex last week.

Production activities have recommenced, with mine development suspended whilst DMIRS continues its investigation. Silver Lake is seeking to return the mine to full operations and is working with the regulators and other authorities in this regard.

The Mount Belches and Aldiss Mining Centres and the Randalls processing facility at Mount Monger have continued to operate.

Silver Lake again expresses its deepest sympathy to the worker’s family, friends and colleagues. Silver Lake and its mining contractor, Macmahon Holdings Limited, will continue to provide support to the worker’s family and colleagues.

This announcement was authorised for release to ASX by Luke Tonkin, Managing Director. For more information about Silver Lake Resources Limited and its projects please visit our web site at www.silverlakeresources.com.au.
