MONADELPHOUS CONTRACTS UPDATE

Engineering company Monadelphous Group Limited (ASX: MND) ("Monadelphous" or "the Company") today announced it has secured a number of new construction and maintenance contracts in the resources sector totalling approximately $215 million.

The Company has secured a contract with BHP Olympic Dam Corporation for the smelter campaign maintenance works at the Olympic Dam copper mine in Roxby Downs, South Australia. Work will commence immediately and is expected to be completed in December 2021.

Monadelphous has also been awarded a two-year extension to its existing maintenance services contract at Olympic Dam. The contract scope includes civil, structural, mechanical, building maintenance and electrical services, as well as the addition of underground rail maintenance services.

In the iron ore sector in the Pilbara region of Western Australia, Monadelphous has been awarded several contracts, including:

- Several sustaining capital contracts under its panel agreements with BHP and Rio Tinto; and
- A contract with Rio Tinto for the provision of construction and support services associated with the Gudai-Darri iron ore project, with work expected to be completed by the end of calendar 2021.

In Chile, the Company's maintenance and construction services business, Buildtek, has secured a number of new contracts, including:

- A three-year contract with Codelco for the operations and maintenance of water infrastructure at the Chuquicamata underground mine in Calama. Buildtek has been providing these services on this site since 2018;
- Two new contracts with Codelco for maintenance activities associated with the concentrator plant at El Teniente mine in Rancagua; and
- A contract with BHP Minera Escondida for the construction of modularised pump stations and associated infrastructure of the Escondida copper mine in Coloso.

Finally, Monadelphous, in collaboration with global heavy lifting services company Fagioli, has secured a contract with NMT International (Australia) to deliver specialist heavy lifting and haulage services at the Iron Bridge Magnetite Project, a joint venture between Fortescue Metals Group subsidiary FMG Magnetite Pty Ltd and Formosa Steel IB. The strategic collaboration with Fagioli enables Monadelphous' specialist Heavy Lift business to increase capacity and broaden capability for the Australian resources and energy markets.
