

9 July 2021

Potential historic exposure to Forum Finance via decommissioned flexigroup Managed Services business

Between 2016 and 2018, flexigroup's decommissioned Managed Services business provided equipment finance to a number of vendor programs in the Australian market.

Following recent reported investigations into Forum Finance Pty Ltd ("Forum Finance"), humm group limited ("hummgroup") has undertaken a thorough review of historical records within the flexigroup Managed Services division, which was decommissioned in 2018.

Records indicate that flexigroup Managed Services generated business linked to Forum Finance between 2016 and 2018. However, following the shutdown of flexigroup Managed Services, the majority of these assets were sold to a third party and transferred off the hummgroup balance sheet in 2018.

At this stage, we have not confirmed if the assets are fraudulent, but simply that they are associated with Forum Finance. Investigations are continuing in this regard, and we await information from third parties.

Impact to hummgroup

On initial review, hummgroup estimates the maximum historical exposure to Forum Finance including receivables on-sold to be \$12m post tax.

There is no exposure in hummgroup's current lines of business.

Authorised for release by the hummgroup Board.
