

# Q2 2021 RESULTS

July 2021

CONSISTENTLY DELIVERING ON COMMITMENTS  
INNOVATION | PERFORMANCE | GROWTH

# CAUTIONARY STATEMENT

## *Cautionary Notes - Information Purposes Only*

The information contained in this presentation is provided by OceanaGold Corporation ("OGC") for informational purposes only and does not constitute an offer to issue or arrange to issue, or the solicitation of an offer to issue, securities of OGC or other financial products. The information contained herein is not investment or financial product advice and has been prepared without taking into account the investment objectives, financial situation or particular needs of any particular person. No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusion contained in this presentation, except as otherwise required by law. To the maximum extent permitted by law, none of OGC or any of its directors, officers, employees or agents accepts any liability, including, without limitation, any liability arising out of fault or negligence, for any loss arising from the use of the information contained in this presentation. Furthermore, this presentation does not constitute an offer of shares for sale in the United States or to any person that is, or is acting for the account or benefit of, any U.S. person (as defined in Regulation S under the United States Securities Act of 1933, as amended (the "Securities Act")) ("U.S. Person"), or in any other jurisdiction in which such an offer would be illegal. OGC's shares have not been and will not be registered under the Securities Act.

## *Cautionary Statement Concerning Forward Looking Information*

This presentation contains information or statements that constitute "forward-looking" information or statements within the meaning of applicable securities laws. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, forecasts, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as "expects" or "does not expect", "is expected", "anticipates" or "does not anticipate", "plans", "estimates" or "intends", or stating that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved) are not statements of historical fact and may be forward-looking statements. Forward-looking statements are subject to a variety of risks and uncertainties which could cause actual events or results to differ materially from those expressed in the forward-looking statements and information. They include, among others, the accuracy of mineral reserve and resource estimates and related assumptions, inherent operating risks, and those risk factors identified in OGC's most recent annual information forms prepared and filed with securities regulators which are available on SEDAR at [www.sedar.com](http://www.sedar.com) under OGC's profile.

Specific forward-looking statements and information in this presentation relates to, among other things, future performance and reflects OGC's current expectations only at the date of this presentation regarding the generation of free cash flow, execution of business strategy, future growth, future production, estimated costs, results of operations, capital investment, business prospects and opportunities of OGC and its related subsidiaries.

With respect to forward-looking statements or information in this presentation, in making such statements or providing such information OGC has made assumptions regarding, among other things: (i) the accuracy of the estimation of mineral resources and mineral reserves; (ii) that exploration activities and studies will provide results that support anticipated development and extraction activities; (iii) that studies of estimated mine life and production rates at its mineral projects will provide results that support anticipated development and extraction activities; (iv) that OGC will be able to obtain additional financing on satisfactory terms, including financing necessary to advance the development of its projects; (v) that infrastructure anticipated to be developed or operated by third parties, will be developed and/or operated as currently anticipated; (vi) that laws, rules and regulations are fairly and impartially observed and enforced; (vii) that the market prices for gold remain at levels that justify development and/or operation of any mineral project; (viii) that OGC will be able to obtain, maintain, renew or extend required permits and licenses; (ix) that various environmental and social regulations and requirements do not impact OGC's exploration activities or development plans; (x) that key personnel will continue their employment with OGC; (xi) that the COVID-19 outbreak will not materially impact or delay operations at OGC's mineral projects; and (xii) that OGC will be able to remove the blockade restraining operations at Didipio.

All references to Mineral Reserves and Mineral Resources in this presentation are calculated in accordance with the standards set by the Canadian Institute of Mining, Metallurgy and Petroleum. Actual recoveries of mineral products may differ from Mineral Reserves and Mineral Resources as reported due to inherent uncertainties in acceptable estimating techniques. In particular, "Indicated" and "Inferred" Mineral Resources have a great amount of uncertainty as to their existence and economic and legal feasibility. It cannot be assumed that all or any part of an "Indicated" or "Inferred" Mineral Resource will ever be upgraded to a higher category of resource. Readers are cautioned not to assume that all or any part of the mineral deposits in these categories will ever be converted into Proven or Probable Reserves. Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability. The accuracy of any such estimates is a function of the quantity and quality of available data, and of the assumptions made and judgments used in engineering and geological interpretation, the anticipated tonnages and grades that will be mined and the estimated level of recovery that will be realized, which may prove to be unreliable and depend, to a certain extent, upon the analysis of drilling results and statistical inferences that may ultimately prove to be inaccurate. Mineral Resource estimates may have to be re-estimated based on: (i) fluctuations in the price of gold or other mineral prices; (ii) results of drilling; (iii) metallurgical testing and other studies; (iv) proposed mining operations, including dilution; (v) the evaluation of mine plans subsequent to the date of any estimates; and (vi) the possible failure to receive required permits, approvals and licences.

There are no assurances OGC can fulfil forward-looking statements and information or that results implied by such forward-looking statements or information will be achieved. Such forward-looking statements and information are only estimates or forecasts based on current information available to management of OGC as of the date that such predictions are made; actual events or results may differ materially as a result of risks facing OGC, some of which are beyond OGC's control. Although OGC believes that any forward-looking statements and information contained in this presentation are based on reasonable assumptions, readers cannot be assured that actual outcomes or results will be consistent with such statements. Accordingly, readers should not place undue reliance on forward-looking statements and information. OGC expressly disclaims any intention or obligation to update or revise any forward-looking statements and information, whether as a result of new information, events or otherwise, except as required by applicable securities laws.

## *General Presentation Notes*

All AISC and cash costs are net of by-product credits unless otherwise stated

All financials are denominated in US Dollars unless otherwise stated

SEE APPENDIX FOR CONTINUED CAUTIONARY STATEMENT RELATED TO TECHNICAL REPORTS

# Q2 HIGHLIGHTS

## Delivering on Our Commitments

### Improved Profitability

Delivered adjusted net earnings of **\$36.9 million** or **\$0.05** per share

### Delivered on Our Commitments

**Didipio** renewed and expected to contribute to full year results with staged restart

### Maintained Optimal Balance Sheet

Total immediately available liquidity of **\$142.3 million**, including **\$92.3 million** in cash during high investment period

### Advanced Organic Growth Opportunities

Waihi recommenced milling; GPUG **on-schedule** for Q4 start; HUG progressing pending receipt of SEIS

# DIDIPIO FTAA COMPLETED

Endorsed and Renewed by the Philippine Government

## TERMS

- FTAA renewed for 25 years
- 60/40 net revenue split unchanged
- Additional community benefits

## CURRENT PRIORITIES

- Processing and production to commence in Q4 2021
- Sale of concentrate to commence in Q3 2021
- Recruiting and rehiring of workforce underway

## SUSTAINABLE PRODUCTION OVER LIFE OF MINE

- Full underground production of 1.6mtpa within 12 months
- Estimate ~10koz gold and ~1kt copper production per month
- First quartile AISC

# SUSTAINABILITY

Fundamental to the Way We Do Business

## Q2 RESULTS

### Health & Safety

- TRIFR 3.7 → focus on principal hazards (ground stability, energy management, mobile equipment)
- Maintaining strict health and safety protocols related to COVID-19

### Carbon Neutral

- 2030 Interim Targets: Planning for physical risk assessments and fleet transition

### Human Rights

- Released our first Modern Slavery Statement; reporting on how we protect and respect Human Rights in report at year-end

### Environment: Water, Biodiversity & TSFs

- Implementing a biodiversity standard across the portfolio

Carbon Neutral  
by 2050

Human  
Rights

Environment: Water,  
Biodiversity & TSFs

# FINANCIAL RESULTS OVERVIEW

## Third Consecutive Quarter of Improved Profitability

		Q2 2021	Q1 2021	H1 2021	H1 2020
Revenue	million	182.6	148.9	331.5	234.0
EBITDA	million	89.9	62.0	151.9	54.8
NPAT	million	31.4	16.0	47.4	(57.4)
Adjusted Net Profit / Loss <sup>(1)</sup>	million	36.9	21.8	58.7	(42.3)
Adjusted EPS <sup>(1)</sup>	\$/share	\$0.05	\$0.03	\$0.08	\$(0.07)
Avg Gold Price	US\$/oz	\$1,893	\$1,786	\$1,843	\$1,515 <sup>(3)</sup>
Gold Sales	koz	95.9	82.8	178.8	153.3
<b>Cash Flow Overview</b>					
Operating Cash Flow	million	35.8	47.6	83.4	137.3
Investing Cash Flow	million	(80.9)	(71.9)	(152.8)	(84.7)
Financing Cash Flow	million	(5.4)	(6.7)	(12.1)	48.3
Adjusted CFPS <sup>(2)</sup>	\$/share	\$0.13	\$0.09	\$0.22	\$0.09

1. Earnings after tax and before gains/losses on undesignated hedges and impairment and excludes Didipio carrying costs.

2. CFPS = Cash flow per share and adjusted before working capital movements and excludes Didipio carrying costs.

3. Realised gains and losses on gold hedging are included in the consolidated average gold price.

### PROFIT & LOSS

Revenue increased QoQ on higher sale volumes and higher realised gold price

EBITDA benefitted from lower operating costs

Q2 adjusted net profit reflects improved margins on higher total sales

### CASH FLOW

Q2 operating cash flow impacted by delivery of 31,111 gold ounces from the Q3 2020 presale

Investing cash flows reflects increased investment at Haile and Martha UG development

Financing cash flow attributable to finance lease repayments

# CAPITAL ALLOCATION

## Investing in Robust Organic Growth Pipeline

### Invest in Value Accretive Growth Projects

ORGANIC GROWTH IN TOP-  
TIER JURISDICTIONS

### Prudent Balance Sheet Management

PRESERVES FINANCIAL FLEXIBILITY

### Return Capital to Shareholders

DIVIDENDS AND SPECIAL DIVIDENDS

### Total Liquidity<sup>(1)</sup>

CASH

**\$92m**

UNDRAWN  
FACILITY

**\$50m**

### Total Debt<sup>(1)</sup>

DRAWN FACILITY

**\$200m**

EQUIPMENT  
LEASES

**\$109m**

1. As at June 30, 2021

# CAPITAL INVESTMENT OVERVIEW

## 2021 Investment Advances Organic Growth Projects

<b>Consolidated</b> (USDM)	2021		2020	
	Q2	YTD	Q2	YTD
General Operating	6.7	14.9	4.2	13.5
Pre-strip & Capitalised Mining	30.6	46.9	12.3	30.6
Growth Capital	51.2	90.2	33.5	60.6
Exploration <sup>(1)</sup>	6.4	12.2	4.0	8.9
<b>Total<sup>(2)</sup></b>	<b>94.9</b>	<b>164.2</b>	<b>54.1</b>	<b>113.7</b>

1. Capital and exploration expenditure by location includes related regional greenfield exploration where applicable. Corporate capital projects and other greenfield exploration spend including costs associated with Joint Venture arrangements not related to a specific operating region are excluded. These totaled \$0.2 million in the second quarter and \$0.3 million YTD.

2. Capital expenditure presented on an accruals basis and excludes current period rehabilitation and closure costs at Reefion of \$1.7 million in the second quarter and \$3.8 million YTD.

# HAILE OPERATIONS OVERVIEW

## Record Quarter and First Half Performance

		Q2 2021	Q1 2021	H1 2021	H1 2020
TRIFR (12-mma)	<i>per million work hours</i>	2.6	3.0	2.6	6.1

<b>Operating Costs</b>					
Mining Costs	<i>per tonne mined</i>	\$64.97	\$64.41	\$64.74	\$45.04
Processing Costs	<i>per tonne milled</i>	\$37.98	\$24.19	\$30.65	\$33.26
Site G&A Costs	<i>per tonne milled</i>	\$24.55	\$18.09	\$21.11	\$34.92

### 2021 OUTLOOK

#### Gold production

35 – 45 koz

#### AISC

\$1,300 - \$1,350/oz

Sustained milling recommenced in late June

Advancing Waihi District opportunities

Waihi SAG Mill Blessing

# DIDIPIO RESTART

## Achieving Full Operations within 12 Months

# 2021 INITIATIVES

Focused on Delivering Value Over the Long-term

## BUILD ON OUR TOP RATED ESG PERFORMANCE

Demonstrate the Company's leadership through **continued investor engagement**, ESG execution

## DELIVER ON OUR COMMITMENTS

Acutely focused on driving **operational excellence** while effectively managing risks

## ADVANCE SIGNIFICANT ORGANIC GROWTH OPPORTUNITIES

On-track to deliver **sustained >500,000 ounces annual production** at increasing margins

## RESTART DIDIPIO OPERATIONS

Secured FTAA renewal; focused on **restart of operations** while working closely with stakeholders

# CAUTIONARY STATEMENT

## TECHNICAL DISCLOSURE

*Waihi.* Mineral Resources for Waihi have been verified, reviewed and approved by, or are based upon information prepared by or under the supervision of, P. Church. Information relating to Waihi exploration results in this presentation has been verified by, is based on and fairly represents information compiled by or prepared under the supervision of L. Torckler. Mine designs, schedules and economic analysis for Waihi have been verified, reviewed and approved by, or are based upon information prepared by or under the supervision of, T. Maton. Metallurgical and mineral processing information for Waihi has been verified, reviewed and approved by, or are based upon information prepared by or under the supervision of, D. Carr. D. Carr, P. Church, and T. Maton are Members and Chartered professionals with the Australasian Institute of Mining and Metallurgy while L. Torckler is a Fellow with the Australasian Institute of Mining and Metallurgy. Messrs Carr, Church, Maton and Torckler have sufficient experience, which is relevant to the style of mineralisation and type of deposits under consideration, and to the activities which they are undertaking, to qualify as Competent Persons as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" ("JORC Code") and all are Qualified Persons for the purposes of the NI 43-101. Messrs Carr, Church, Maton and Torckler are employees of OceanaGold. Accordingly, each is not independent for purposes of NI 43-101. Each consents to the inclusion in this public presentation of the matters based on their information in the form and context in which it appears.

*Macraes.* The Mineral Resource estimates for Macraes have been prepared under the supervision of S. Doyle. Any information regarding metallurgy or mineral processing at Macraes has been prepared, verified and approved by D. Carr. The open pit Mineral Reserves at Macraes have been prepared under the supervision of P. Doelman and the underground Mineral Reserves have been verified, reviewed and approved by T. Cooney. The cost estimation and economic evaluation has been prepared under the supervision of P. Doelman. Each of S. Doyle, D. Carr and P. Doelman are Qualified Persons under NI 43-101. All other scientific or technical information has been prepared, reviewed and approved by P. Doelman. Messrs Doelman and Doyle are full-time employees of the Company's subsidiary, OceanaGold (New Zealand) Limited while Messrs Carr and Cooney full-time employee of the Company's subsidiary, OceanaGold Management Pty Limited. Accordingly, each is not independent for purposes of NI 43-101. Messrs Carr, Cooney, Doelman and Doyle are each Members and Chartered Professionals with the Australasian Institute of Mining and Metallurgy. Messrs Carr, Cooney, Doelman and Doyle have reviewed and approved the scientific and technical information in this presentation related to Macraes in respect of which each is responsible and each consents to inclusion in this public presentation of the matters based on their information in the form and context in which it appears.

*Haile.* The Mineral Resource estimates for Haile have been prepared under the supervision of J. Moore. Any information regarding metallurgy or mineral processing has been prepared, verified and approved by D. Carr. The open pit Mineral Reserves have been prepared under the supervision of F. Rodrigues and the underground Mineral Reserves have been verified and approved by J. Poeck. The open pit and underground mining costs and economic evaluation have been prepared under the supervision of T. Cooney. Each of D. Carr, T. Cooney, J. Moore, J. Poeck, and F. Rodrigues are Qualified Persons under NI 43-101. Messrs Carr, Cooney and Moore are full-time employees of the Company's subsidiary, OceanaGold Management Pty Limited. Accordingly, each is not independent for purposes of NI 43-101. J. Poeck is a registered member of the SME and a QP member of the MMSA. F. Rodrigues is a member of AusIMM and a QP member of the MMSA. Both are full time employees of SRK. D. Carr, T. Cooney, J. Moore, J. Poeck and F. Rodrigues have reviewed and approved the scientific and technical information in this presentation in respect of which each is responsible and each consent to inclusion in this presentation of the matters based on their information in the form and context in which it appears.

## TECHNICAL REPORTS

For further scientific and technical information (including disclosure regarding mineral resources and mineral reserves) relating the Macraes Operation, the Didipio Operation, the Waihi Operation and the Haile Operation, please refer to the NI 43-101 compliant technical reports available at [sedar.com](https://www.sedar.com) under the Company's name.
