

ASX ANNOUNCEMENT

2021 Full Year Results Announcement

Enero Group Limited delivers FY21 underlying NPAT growth of 77%

18 August 2021: Enero Group Limited (ASX: EGG) today announced its results for the year ended 30 June 2021.

Enero reported net revenue of \$160.6 million, up 18.3% on the prior year and an underlying Operating EBITDA of \$45.6 million, up 87.1% on the prior year. Underlying net profit after tax was \$22.8 million up 76.7% on prior year. Statutory (reported 4E) net loss after tax to equity holders of \$0.4 million included a significant non-cash accounting charge of \$23.2 million relating to the transfer of Foreign Currency Translation Reserves (FCTR) to the income statement on disposal of dormant foreign subsidiaries and the disposal of Frank PR.

Enero's underlying results (excluding significant times) ²

(\$M)	FY21	FY20	% Change
Net Revenue	160.6	135.8	18.3%
Operating EBITDA ¹	45.6	24.4	87.1%
Operating EBITDA margin	28.0%	18.0%	10.0bps
Net profit after tax attributable to equity holders	22.8	12.9	76.7%
Earnings per share (EPS)	26.4 cents	15.0 cents	76.0%

Notes:

- Operating EBITDA is net profit before interest, taxes, depreciation of plant and equipment, amortisation, impairment of intangibles, contingent consideration fair value gains/losses and gains/losses on disposal of controlled entities. Operating EBITDA includes depreciation of Right of Use Assets recognised in accordance with AASB16. Operating EBITDA is the primary measure used by management and the directors in assessing the performance of the Group. It provides information on the Group's cash flow generation excluding significant transactions and non-cash items, which are not representative of the Group's ongoing operations.
- The results announcement and attached presentation includes the following measures used by the Directors and management in assessing the ongoing performance and position of the Group: Operating EBITDA, NPAT before significant items and EPS before significant items. These measures are non-IFRS and have not been audited nor reviewed. Refer to attached results presentation for detailed analysis on significant items and a reconciliation to statutory results.

Enero Group Chair, Ann Sherry said: "FY21 has been an exciting year of change and progress for Enero. Under the new leadership of CEO Brent Scrimshaw, the company has begun a transition into a forward looking, progressive global business, with a refined operating model that responds to the enormous changes underway in the worldwide environment.

"Despite the ongoing challenges of the COVID-19 pandemic, Enero delivered underlying organic net revenue growth of 14%, and significant profit growth for the year. The group benefited from its unique positioning within high growth global verticals – technology, healthcare and consumer – and the hard work and commitment of our talented global teams. The client-focus and creativity of our people have delivered world-class work, new client wins, and recognition through numerous global awards for creativity, effectiveness and culture".

Enero Group CEO, Brent Scrimshaw said: "It is pleasing to see Enero Group's progress in the last twelve months as we have accelerated the sustainable growth opportunities available to us around the globe. It has been our utmost priority to establish a new operating framework, supported by our new executive leadership team, strong culture and diverse talent pool, to deliver on that growth vision. Client expectations are changing in today's world, and Enero is delivering new solutions that drive smarter and more effective outcomes.

"We have also implemented a new framework for investment that has already resulted in the acquisition of McDonald Butler Associates in the UK. We now have a structure and dedicated leadership that will support our future M&A.

"It is particularly encouraging to see these efforts translating into Enero's strong performance for the year. Our diversified client portfolio has delivered EBITDA growth in every region and business, and is well positioned for the future."

Business Operating Performance:

Net Revenue increased 18.3% and Operating EBITDA was up 87.1% on the prior reporting period. International markets represented 55% of the Group's Net Revenue and 67% of the Group's Operating EBITDA on an economic interest basis.

Despite the backdrop of COVID conditions across our global network at different points of the year, we delivered strong results across all three geographic regions. The stronger Australian dollar negatively impacted reported net revenue by \$5.4 million with constant currency growth of 23% year-on-year, compared with reported revenue growth of 18%. Currency had a negative impact of \$1.4 million on operating EBITDA, with constant currency growth of 78% (before corporate costs), compared with 75% on a reported basis.

USA

The global acceleration in technology adoption and industry transformation provided a strong benefit to the US business which delivered a 52% increase in net revenue and 146% growth in operating EBITDA on a reported basis. Adjusting for negative translation impact of a higher Australian dollar, constant currency growth was even higher.

Adjusting for Enero's 51% ownership of OBMedia, revenue was up 28% and Operating EBITDA increased 103%, with an even stronger performance on a constant currency basis. OBMedia's contribution to group profitability benefited from an accelerating structural shift in consumer behaviour to digital channels and e-commerce. OBMedia's strong performance underpinned operating margin expansion from 29% to 46% for the year.

Hotwire's solid performance was supported by its strong technology client base, and COVID-related operational savings. The business invested in its strategy and digital skillsets to enhance its integrated solutions for clients, finishing the year with pleasing momentum in new client wins including Pinterest, Klarna and Cloudera.

Australia

In Australia the business delivered a strong FY21 performance, with net revenue increasing 11% and EBITDA up 13.9%. BMF traded strongly with new business wins including Transport for NSW, mastheads *The Sydney Morning Herald*, *The Age* and *Financial Review* and Petbarn. Orchard also traded strongly, with client wins including Boston Scientific, GSK and Palmerbet. Profitability was impacted by a one-time vendor incentive and the foreign exchange impact on US clients.

UK/Europe

In a very challenging economic environment, the UK and Europe reported a net revenue decline of 5.8% and Operating EBITDA growth of 33%. The reported revenue decline was impacted by currency headwinds and the sale of 75% owned Frank PR which was divested to focus on Eneo's areas of specialist expertise. Adjusting for the sale of Frank, and the contribution from McDonald Butler Associates from the date of acquisition, continuing business net revenue growth on a constant currency basis of 7.5% was a solid outcome in the circumstances. The operating EBITDA increase reflected stable expenses due to COVID-related discretionary cost savings. Hotwire was recognised as PRovoke's EMEA Technology Agency of the Year, and the business also won three silver Cannes Lions awards in conjunction with UK partner, Elvis.

Balance Sheet and Cash Flow:

Operating cash flow for the year was \$53.2m and the Group is in a Net Cash position (allowing for contingent consideration payable) of \$30.6m as at 30 June 2021.

Dividend:

The Directors declared a final dividend of 4.4 cents per share, fully franked. The final dividend will have a record date of 23 September 2021 and a payment date of 6 October 2021.

Trading Update:

- Eneo continues its 5-year track record of sustainable revenue and EBITDA growth.
- The first six weeks of FY22 continue to deliver strong year-on-year revenue momentum.
- We remain focused on maintaining Eneo's high margins across our strong and diversified portfolio.
- Organic and inorganic opportunities will remain a strong focus in FY22 to continue the growth and transformation of Eneo's portfolio.
- There remains ongoing uncertainty around COVID conditions globally which may lead to wage cost pressure.

Investor Conference Call details

An investor webcast conference call with Brent Scrimshaw (CEO) and Carla Webb-Sear (CFO) will be held today at 10.30am AEST.

Participants may register here: <https://s1.c-conf.com/DiamondPass/10015023-js85r9.html>. Registered participants will be able to participate in the Q&A.

Unregistered participants may join here: <https://www.openbriefing.com/OB/4318.aspx>. Unregistered participants will not be able to participate in the Q&A.

This announcement was authorised for release by the Board of Directors.

1. Operating EBITDA is net profit before interest, taxes, depreciation of plant & equipment, amortisation, contingent consideration fair value losses and losses on disposal of controlled entities. Operating EBITDA includes depreciation of Right of Use Assets recognition in accordance with AASB16.

2. Operating EBITDA Margin is Operating EBITDA / Net Revenue.

3. Refer to Slide 23 for a reconciliation to statutory results. .

A strong track record of sustainable growth

GROWING NET REVENUE (A\$M)*

GROWING OPERATING EBITDA (A\$M) AND MARGIN (%)*

*Revenue and Operating EBITDA reflect 51% economic interest in OB Media

HIGHLIGHTS

- Net revenue has grown both organically and through acquisitions over the past 5 years. Acquisitions include MBA in FY21, Orchard in FY18 and Eastwick in FY17.
- Underlying organic revenue grew 14% in FY21.
- Operating EBITDA growth has generated capital for growth allocated to the larger brands and future M&A.
- Operating EBITDA margin expansion from 11% to 22.0%* driven through growth in higher margin businesses such as OB Media, efficient operating cost base and continued leverage of corporate centres of excellence.

Payments	(14.9)	(11.9)
Contingent consideration balance at 30 June	20.1	25.6
Cash	50.7	47.6
Net cash adjusted for contingent consideration	30.6	22.0

HIGHLIGHTS

- Recognised contingent consideration relating to the McDonald Butler (MBA) acquisition.
- Actual payments are subject to performance subsequent to the reporting date and capped on the total purchase price with minimum thresholds. Actual future payments may therefore differ from the estimated liability at reporting date.
- The differential between present value and gross value is the future present value interest unwind over the remaining term of the agreements.
- Maturity profile is over the FY22 to FY25 periods.
- Net Cash of \$30.6m (30 June 2020 - \$22.0m) at balance date.

Cash Flow & Working Capital

(\$M)	FY21	FY20
Operating EBITDA	45.6	24.4
Right-of-use asset depreciation charge	4.3	4.8
Movement in working capital	9.5	4.1
Equity incentive expense	0.9	0.6
Gross Cash Flow	60.3	33.9
Net interest received	-	0.2
Tax paid	(7.1)	(3.2)
Operating cash flow	53.2	30.9
Cash funded capex	(1.0)	(1.4)
Lease liability payments	(6.1)	(7.0)
Free cash flow	46.1	22.5

HIGHLIGHTS

- Working capital reduction linked with strong cash conversion. Expect some unwind in FY22 as working capital position excluding cash is negative.
- Cash conversion at 121% of EBITDA (excludes right-of-use asset depreciation charge). Strong cash conversion demonstrated in FY21 from 116% in FY20.
- Tax payments made primarily in relation to overseas tax jurisdictions with the increase predominantly in the USA. Australian operations commencing to pay tax in H2 FY21.
- Capex lower than prior period as capex projects continued to be put on hold in due to Covid-19. Investment in systems are expected to commence in FY22 and be cloud based which will not allow capitalisation under AASB 138.

Q&A

Disclaimer

This document has been prepared by Enero Group Limited (Enero) and comprises written materials/slides for a presentation concerning Enero. This is not a prospectus, disclosure document or offering document.

This document is for information purposes only and does not constitute or form part of any offer or invitation to acquire, sell or otherwise dispose of, or issue, or any solicitation of any offer to sell or otherwise dispose of, purchase or subscribe for, any securities, nor does it constitute investment advice, nor shall it or any part of it nor the fact of its distribution form the basis of, or be relied on in connection with, any contract or investment decision.

Certain statements in this presentation are forward looking statements. You can identify these statements by the fact that they use words such as “anticipate”, “estimate”, “expect”, “project”, “intend”, “plan”, “believe”, “target”, “may”, “assume” and words of similar import. These forward looking statements speak only as at the date of this presentation. These statements are based on current expectations and beliefs and, by their nature, are subject to a number of known and unknown risks and uncertainties that could cause the actual results, performances and achievements to differ materially from any expected future results, performance or achievements expressed or implied by such forward looking statements.

No representation, warranty or assurance (express or implied) is given or made by Enero that the forward looking statements contained in this presentation are accurate, complete, reliable or adequate or that they will be achieved or prove to be correct.

Except for any statutory liability which cannot be excluded, each of Enero, its related companies and their respective officers, employees and advisers expressly disclaim any responsibility for the accuracy or completeness of the forward looking statements and exclude all liability whatsoever (including negligence) for any direct or indirect loss or damage which may be suffered by any person as a consequence of any information in this presentation or any error or omission therefrom.

Subject to any continuing obligation under applicable law or any relevant listing rules of the ASX, Enero disclaims any obligation or undertaking to disseminate any updates or revisions to any forward looking statements in these materials to reflect any change in expectations in relation to any forward looking statements or any change in events, conditions or circumstances on which any statement is based. Nothing in these materials shall under any circumstances create an implication that there has been no change in the affairs of Enero since the date of this presentation.

NON-IFRS PERFORMANCE MEASURES

This results presentation uses non-IFRS performance measures which have not been audited or reviewed. The Company believes that, in addition to the conventional measures reported under IFRS, the Company and investors use this information to evaluate the Company's performance. Non-IFRS performance measures include Operating EBITDA which is defined in the presentation.
