The gap between customer digital needs and advice digitisation

- 51% of Advisable Australians say a brand or firm's digital or online capabilities (e.g. their app, client portal, website and social media presence) play a critical or major role in delivering a positive customer experience
- Only 9.8% of advice firms claim that technology is pervasive in all client interactions
- Advisers face increasing challenges as their client bases shift to Generation Y clients and those younger clients who have grown up with the internet, and whose "tech" expectations are even greater

Significant opportunity to deliver digital first solutions

How would you describe the "technology experience" your business offers to clients?¹

How many rate a firm's digital or online capabilities (e.g. their app, client portal, website and social media presence) as a major or critical role in delivering a positive customer experience?²

Total operating expenses

Source: Netwealth

FY2021 commentary (comparisons FY2020)

- Total Operating Expenses of \$65.5 million (\$57.8 million), an increase of \$7.8 million (13.5% increase) for the year
- Employee benefits expense represented 77% of total operating expenses and includes inhouse IT development, product development and client service teams
- Employee costs increase of \$8.9M, up 21.5% reflects headcount increase of 63 for FY2021 and the full year impact of FY2020 hires (68 additions)
- Total other expenses decreased by \$1.1 million to \$15.0 million for FY2021. Reductions in expenses predominantly relate to discontinuation of volume bonus rebates (offset by client fee reductions), and COVID-19 related reductions in spending on occupancy, travel and marketing expenses

Investing in our people and Technology

Across technology, operations and distribution to support continued stability, scalability and innovation

Strategic increase in headcount, increase of 43 in Technology for FY2021 (27 Melbourne and 16 Vietnam)

Headcount by function 30 June 2021

Strong cost management and exceptional cash generation

High correlation between EBITDA and cash flow¹

- Strong cost management, demonstrated operating leverage & further invested in the platform to maintain scalability and efficiency
- Strategic investment in IT infrastructure, people and software
- 98.1% EBITDA cash conversion ratio¹ due to:
 - Low working capital requirements
 - Limited capital expenditure
 - Internal software and product maintenance and enhancement costs expensed
 - Better quality of earnings as software development costs are expensed
 - Debt free

1. Underlying Operating net cashflow excludes non-recurring expenses for FY2021. A reconciliation is provided in the Appendix.

Outlook

Outlook

- Fastest growing platform in the industry in both percentage and absolute terms in FY2021
- We expect continued market share growth in the years ahead
 - Incumbents are losing market share and face increasingly large service, technology and functionality gap and are either currently changing or are expected to change ownership or be part of a M&A transaction
 - Disruption = opportunity
 - Addressable market has increased rapidly and continues to increase
 - The pipeline is very strong across both independent and dealer aligned advice practises
- Market leader in the high-net-worth advice market and proven capability for executing on large scale client transitions
- Expanding existing non-custodial SaaS solution XWrap and launching new product to provide a non-custodial administration service tightly integrated into the custodial offering in the second half of FY2022
- New mobile app launched which will further underpin our Whole of Wealth strategy
- The new mobile app and the Netwealth client and adviser web portal, will be progressively enhanced to support a range of new data integrations including connectivity with Xeppo, additional bank feeds and property information

Outlook

- Continuing to invest heavily in technology to ensure our systems remain scalable and enable us to continue to operate efficiently, while maintaining our high standards of client service
- In FY2022 we are strategically stepping up our investment in people and technology to ensure we maintain our market leadership, drive new revenue streams and can scale our infrastructure to support our expected growth in the medium term
- We expect the growth in expenses to normalise in FY2023 and beyond
- Revenue margin
 - new pricing is in place from 1 Jan 2021
 - no legacy products or pricing
 - not expecting material change to admin fee margin in FY2022
- Based on Netwealth's current pipeline, current economic conditions, existing clients and the growth in new clients currently transitioning onto the platform
- Projected FUA net inflows for FY2022 is forecast at approximately \$10 billion
