# Smart Parking Ltd (ASX:SPZ)

A global company focused on delivering industry leading technology innovations and solutions within the parking industry

## Parking management services

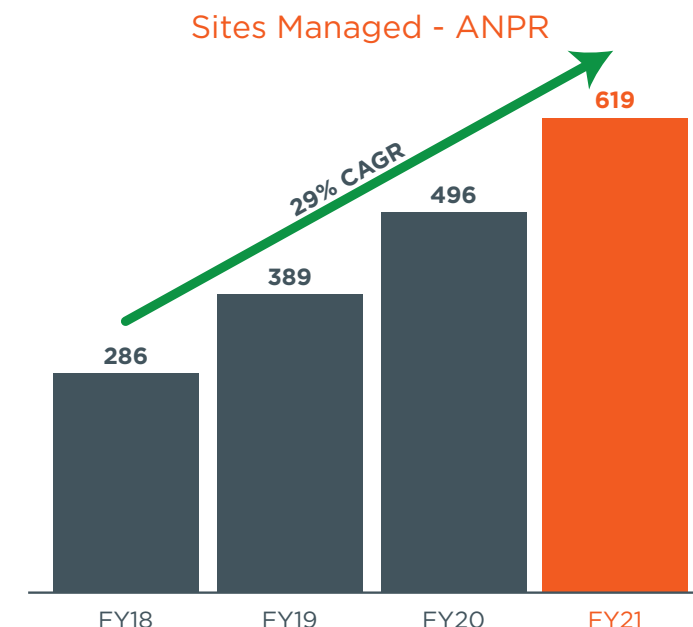

Provision of parking management solutions, predominantly servicing the retail sector, managing agents and land owners in the UK. SPZ has recently launched in two new territories, with accreditation achieved in NZ and Queensland, Australia to run parking management services.

## Technology

The sale of Smart City and IoT (Internet of Things) technology, hardware and software predominantly for parking solutions around the world.

## Research & development

We develop proprietary solutions to enhance Smart City, IoT and ANPR software/hardware for both the Technology and Parking Management divisions.

# FY21 Business Update

# UK pandemic tracker

| Strong recovery in Q4 – vaccination progress continues, and PBNs now exceeding pre-pandemic levels.

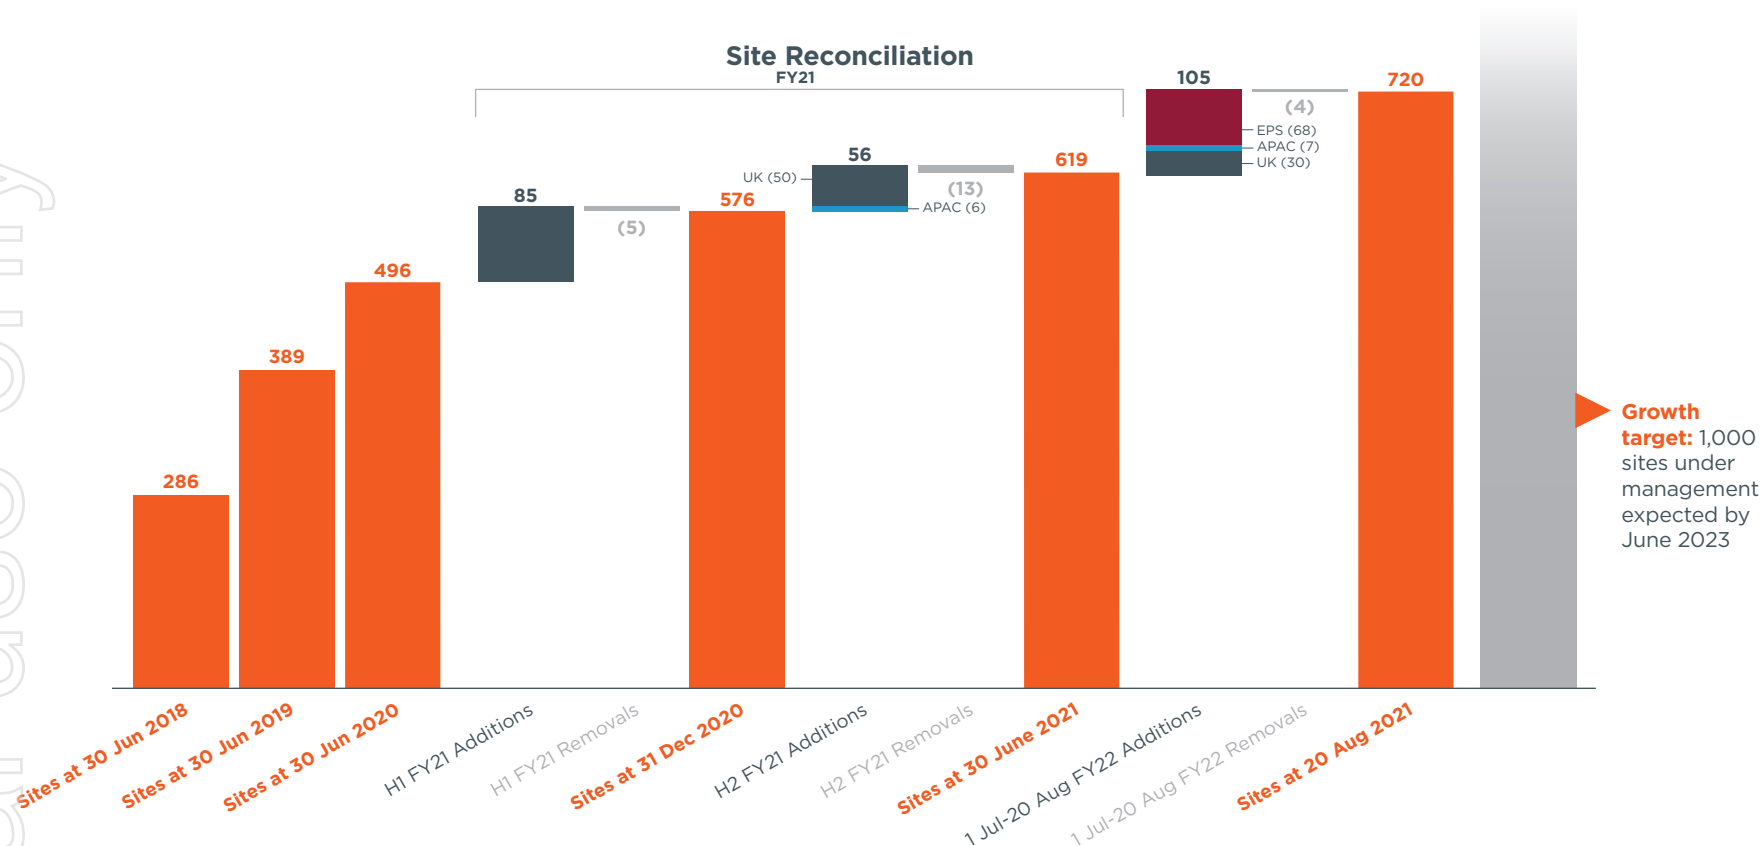

PBNs Issued vs Car Count

■ PBNs Issued    — Car Count

Reduction in PBNs in September & October is in line with normal seasonal variations.

# Management services – growing the estate

## UK ANPR roll out continues

- **141** new sites installed in FY21 with 18 removed.
- **619** total sites under management using ANPR technology at 30 June.
- Installations heavily impacted by UK lockdowns from December 2020 to April 2021.
- **68** new sites from acquisition of Enterprise Parking Solutions.

## Growing APAC managed services

- **10** sites in New Zealand installed since March launch.
- Services business currently being established in Australia with **3** sites installed.
- Focusing on growing New Zealand & Australia pipeline to capitalise on new market opportunity.

# 123

Net new sites added in FY21

# 1,000

Sites growth target by June 2023

# 180

Net new UK sites expected in FY22 & FY23, with additional APAC site installations

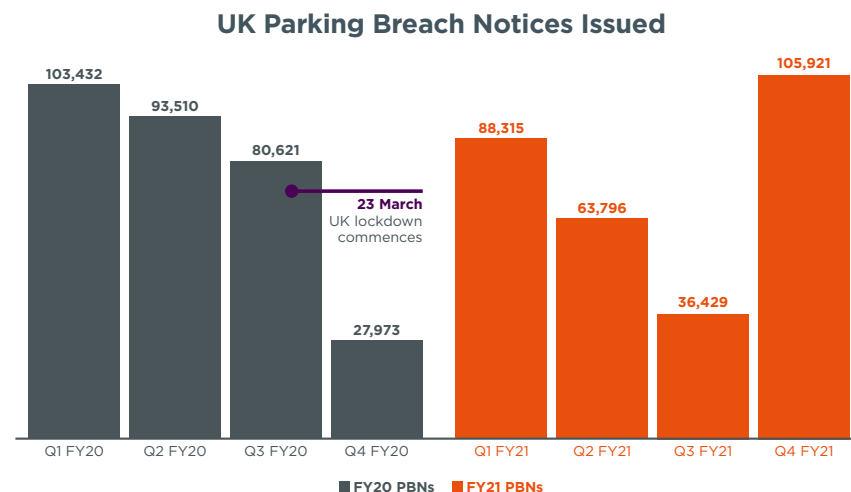

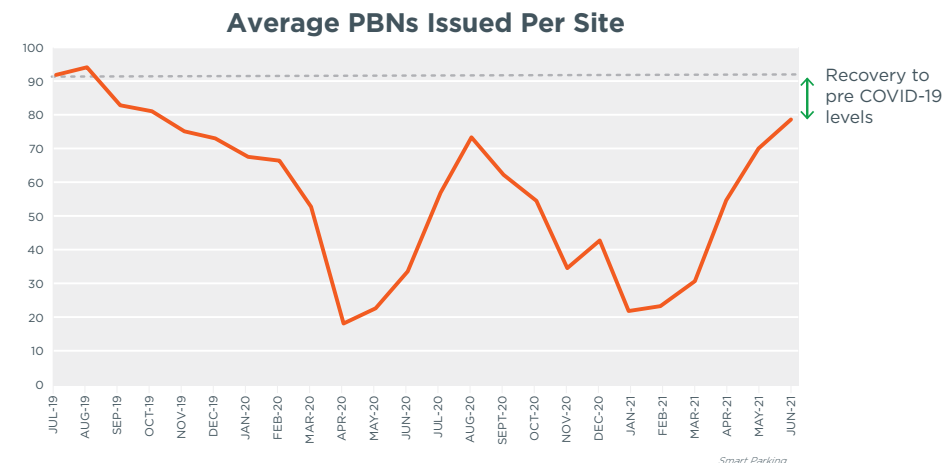

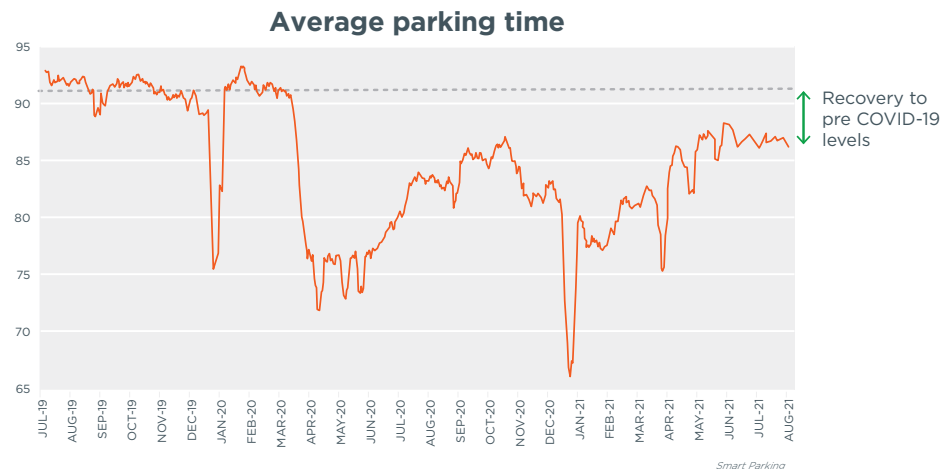

Growth expected from a diversified client mix with a TAM of

# 45,000

sites across the UK

# Multiple growth drivers

| Continued recovery to pre COVID-19 levels with increased sites under management will significantly enhance SPZ's earning potential

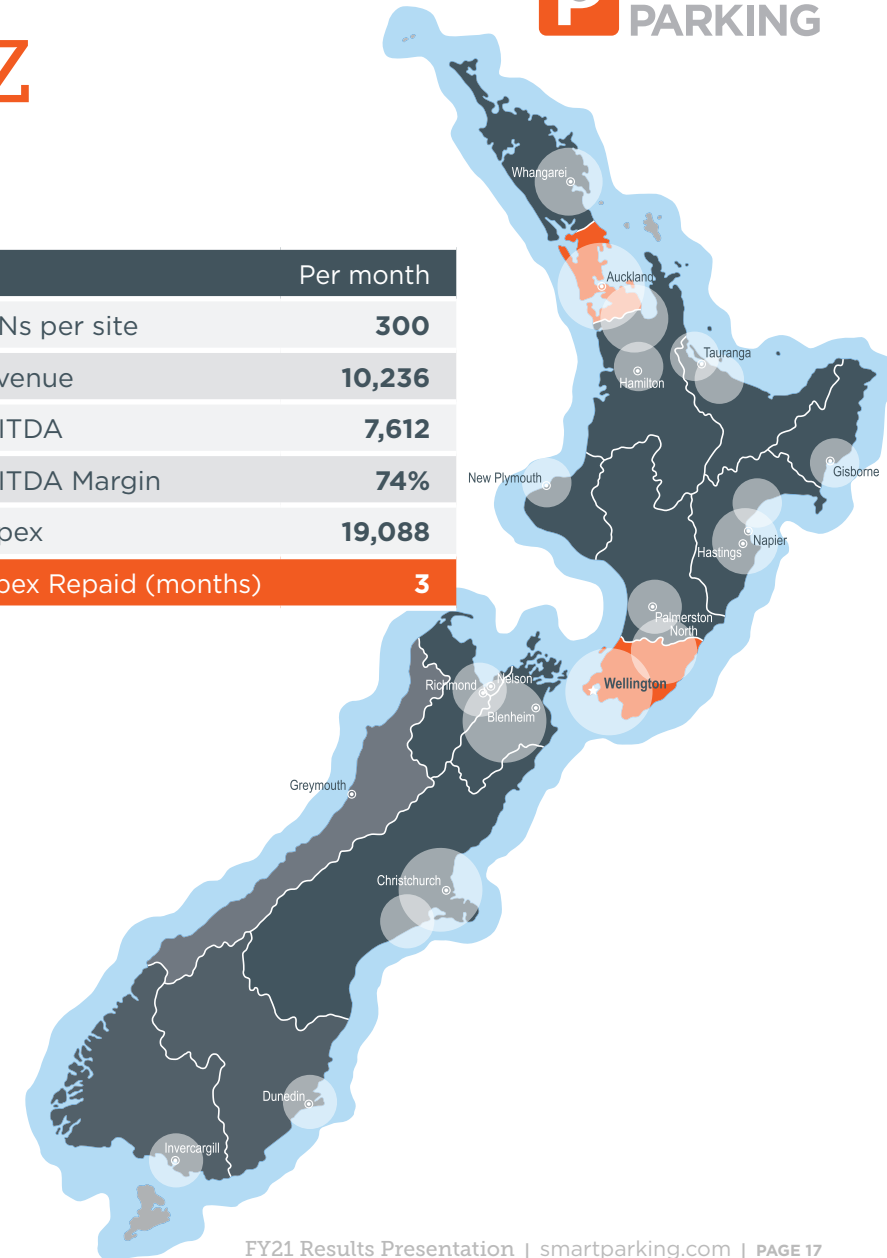

## FY22 growth tail winds

- Further easing of restrictions in the UK
- Growing vaccination rates across the UK adding to consumer confidence
- Increased sales capacity with higher conversion levels
- Enhanced competitive position post pandemic
- Staycations in the UK driving motorist behaviour
- Improved contract renewal rates

# APAC growth strategy – NZ

- Opportunity to deploy SPZ's market leading ANPR technology and specialist expertise to provide more value for car park site owners, and disrupt a legacy, fragmented and inefficient industry
- SPZ has access to national car owner numberplate database, enables deployment of remote camera technology and PBN issuance
- Attractive market with large number of site opportunities
- Capex free solution resonates well with site owners. 10 sites already contracted
- Sites under management performing above group averages. Payback of 3 months, returns ahead of expectations
- Executing go to market plan; Auckland first focus, followed by additional metropolitan centres. Established an initial presence in Wellington

	Per month
PBNs per site	<b>300</b>
Revenue	<b>10,236</b>
EBITDA	<b>7,612</b>
EBITDA Margin	<b>74%</b>
Capex	<b>19,088</b>
Capex Repaid (months)	<b>3</b>

**Smart  
Compliance  
Management**

# APAC growth strategy – Australia

- Opportunity to deploy SPZ's market leading ANPR technology and specialist expertise to provide more value for car park site owners on a selected state basis
- Legacy industry with inefficient solutions for site owners. Opportunity to provide more value with consistent best of breed compliance standards
- Leveraging new ANPR managed services brand - Smart Compliance Management
- Supplementing high level of expertise from the UK with experienced local talent
- Queensland first focus with first sites underway in Brisbane & Gold Coast
- Strategy to expand operations into WA, South Australia and Northern Territory, due to regulatory environment in those states

# Global technology update

## Contract and margin expansion:

- Delivery of new smart city compliance platform, Tessera to new customers in Australia and strong pipeline development across APAC
- Contract extensions delivered with key customers in Wellington, Melbourne and Hamilton
- With contract extension we have also been able to expand the products and services into the existing customer base delivering long term profitable contracts
- Number plate recognition technology being deployed to existing Technology customers, bridging the gap from Smart Parking Services to Technology
- The Company has \$3.3m of work in progress and new orders to deliver which includes a delayed order from Gatwick Airport for \$1.3m

# Global technology update

## Product development delivering value to new and existing customers:

- Through our growing Services relationship with KFC we are leveraging our technology expertise to transform the Click & Collect customer experience
- Utilising ANPR, digital signage and our sensing devices the customer journey is seamless
- The system ensures the consumer can order remotely and collect quickly after arriving on site when their number is recognised at the car park entry and signalled to the restaurant
- Deployment in H1 FY22

### KFC Click & Collect process

# Smart Parking outlook

| Strong recovery expected as the Pandemic restrictions ease

- June momentum continues into new financial year, strong start to FY22, 41,885 PBNs issued in July
- Robust pipeline of signed contracts and new sales opportunities - 55 UK, 10 APAC expected in Q1 FY22
- Current Covid lockdowns in APAC causing some short term operational challenges, long term growth strategy still intact
- UK market opportunity intact - growth target of 1,000 sites by June 2023.
- Technology order book intact with \$3.3m of booked orders.
- Continued focus on executing the strategy of leveraging technology and expertise to build scale in large addressable markets

*\* All forward-looking statements can be subject to change depending on evolving COVID-19 impacts on customer behaviours and government restrictions.*

# Management services: How it works

| Parking management improving customer satisfaction and revenue generation.

- **ANPR** | Automatic Number Plate Recognition
- **Pay & Display** | ANPR Linked Automated Payment System
- **Site Surveys** | Real-time information, analysis and trend data
- **Parking Attendants** | Trained and qualified staff
- **DPC (Disabled, Parent and Child)** | Protecting the vulnerable
- **Marshaling** | Trained, professional and customer-friendly marshals

## Motorist

Enters the carpark at the defined entrance

## Validation & payment

Machines facilitate pay & walk or validate parking

## ANPR Recognition

Camera identifies the number plate of cars entering and leaving the premises

## SmartCloud

Automates information and provides detailed reporting

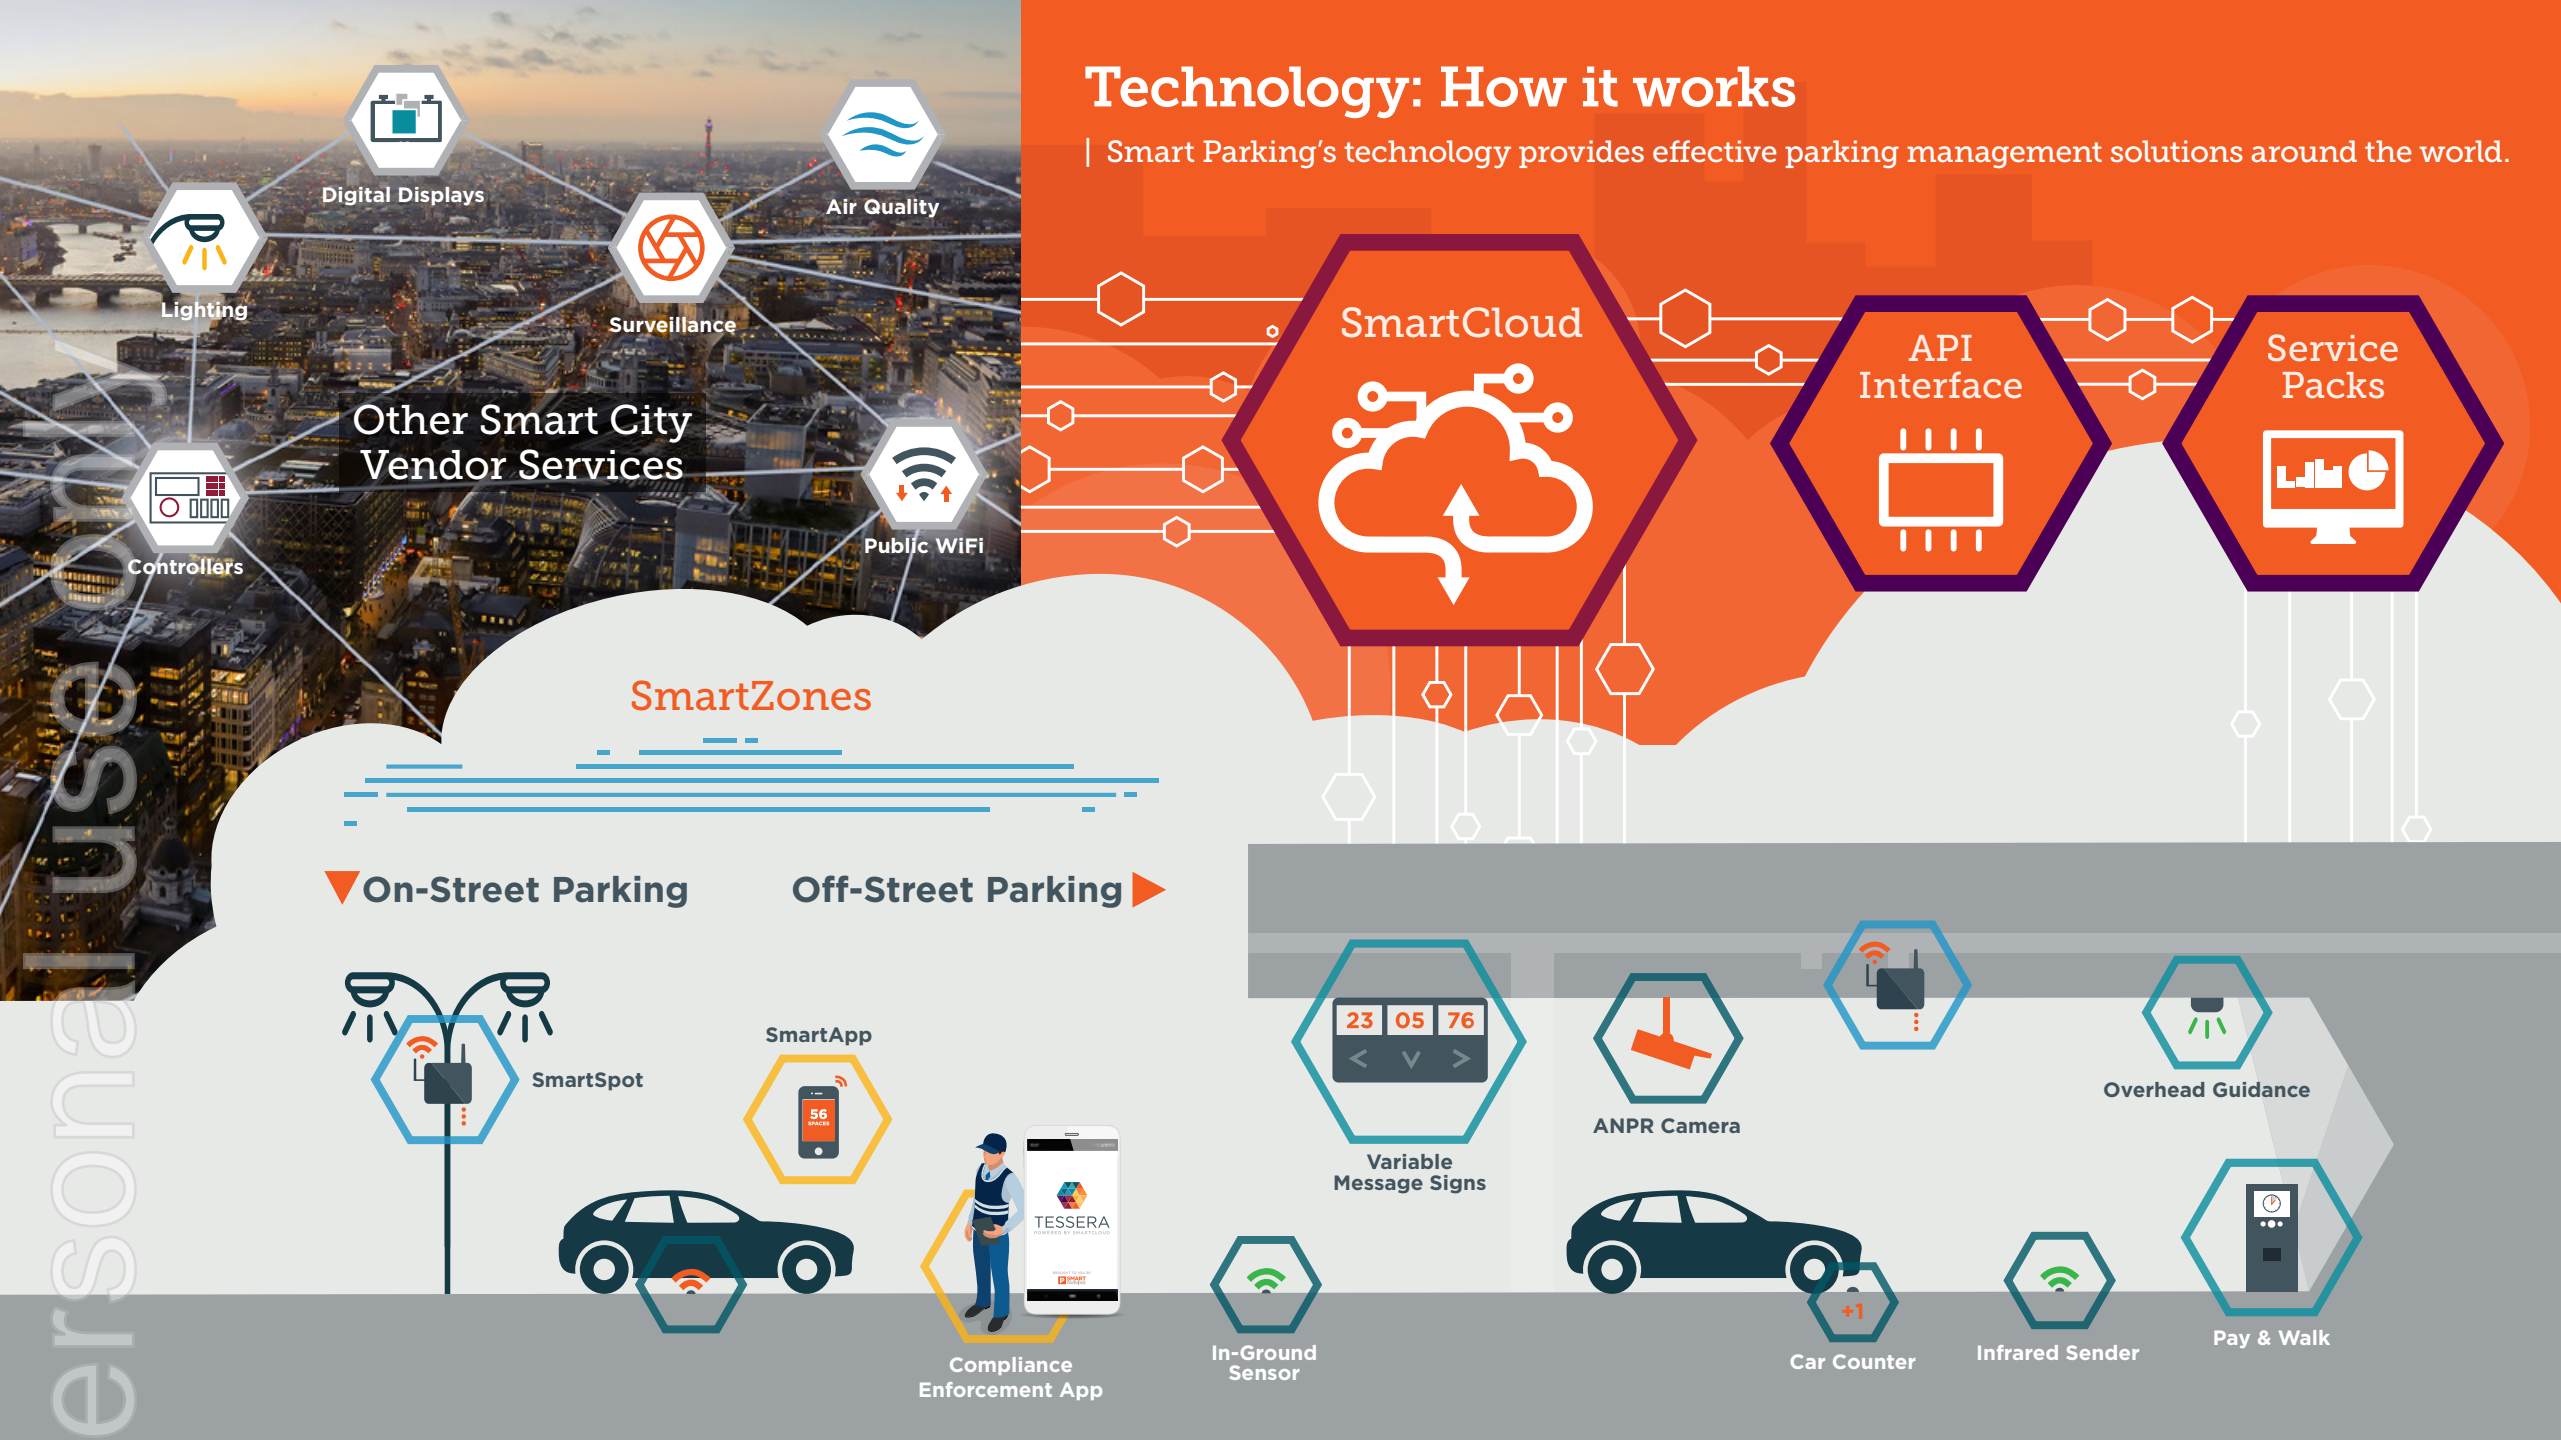

## ANPR: How it works

| Automatic number / license plate recognition (ANPR) is a reliable, cost effective off-street parking management solution.

**It is proven to serve a wide range of industries including supermarkets, retail, hotels, hospitals and leisure centres. Smart Parking's ANPR solution ensures greater compliance and increased parking revenue.**

- Ticketless, barrier-free system, parking areas that are managed 24/7
- Automatically generated and issued parking charge notices
- Increased security, comprehensive reporting and account management

## Smart Parking app

The Smart Parking app and its customised Miami, Cardiff, Adelaide, Moreton Bay, Moonee Valley, Livingstone Shire and Les Mills apps delivered.

### Features and benefits:

- Available for both Android and iOS.
- Provides detailed information around hours, tariffs and bay types.
- Shows real-time availability of car park bays.
- Harnesses the power of Google Maps to provide distance and directions to suitable bays.
- Payment function allows cashless payment and remote top-ups.

# Glossary

Adjusted EBITDA – The Board assesses the underlying performance of the Group based on a measure of Adjusted EBITDA which takes into account costs incurred in the current period but which are non-operating and/or are not expected to occur in the future.

EBITDA – represents Earnings before interest, taxation, depreciation and amortisation, and profit/loss on disposal of plant and equipment.
