1. Figures and statistics throughout this presentation are for the 12 months to 30 June 2021 unless otherwise stated

2. Attributable to stapled securityholders

3. Return on contributed equity is calculated as total operating earnings post-tax per security divided by the opening contributed equity per security for the 12 months to 30 June 2021

4. Total Property Investment (PI) return is calculated as distributions received from Funds plus growth in investment value divided by the opening investment value of the PI portfolio for the 12 months to 30 June 2021. This excludes investments in new vehicles held for less than a year and investments in Direct funds

5. Property Funds Management (PFM) yield is calculated as PFM operating earnings post tax per security (includes 50% allocation of net interest) divided by the opening NTA per security for the 12 months to 30 June 2021

6. Investment capacity calculated as cash plus undrawn debt facilities for CHC and the funds management platform. At 30 June 2021, platform cash was \$1.6bn. Excludes committed and unallotted equity.
