# Land and expand strategy

Network effect within customers growing revenue and utilisation over time

### **Chemist Warehouse**

### A land and expand customer

Chemist Warehouse are the largest pharmacy retailer in Australia, servicing both Australia and New Zealand. They implemented Whispir with one use case, which has now grown to six use cases including ePrescriptions and COVID-19 vaccination communications.

Using Whispir, Chemist Warehouse has enhanced the customer experience through frictionless online sales, contactless click and collect services and automating operational processes.

> Whispir engaged to facilitate 'Click and Collect' notifications across Australia and New Zealand

IT incident notification use case created to streamline and enhance IT maintenance across all retail stores

> In-Store pick-up notification use case to align with COVID safety protocols

ePrescription service goes live with COVID vaccination booking, confirmation and reminders rolled out in June

# The Product Intelligence team

Whispir has a dedicated **product intelligence and strategy** function, tasked with enabling various departments at Whispir to make better decisions using data science and statistical methods. This means we can rely more on intellect instead of sheer volumes of people to get ahead of the competition. To date, it's found us more profitable customers, better markets to pursue, and helped teams prioritise features that deliver more value with less effort.

"It's clear that online communication is changing drastically. My team play a part in ensuring the changes will benefit humanity, rather than degrade it, by applying scientific methods to problem solving and strategy at Whispir."

**Dr Brian Oakely** Product Analyst

# Embedding prediction, detection and automation to increase engagement and message value

### Glossary

### Profit or loss

- **Software revenue:** revenue generated from collecting contracted monthly licence and transaction fees from customers based on a contracted fee per user and cost per transaction;
- **Professional services revenue:** professional fees in respect of implementation, configuration, training and integration fees;
- **Cost of service:** the costs relating to the delivery of the software including the costs of running the data centre, wages and salaries of data centre based Whispir staff and the carrier cost in delivering transactions;
- Gross profit: total revenue less cost of services;
- EBITDA: earnings (or losses) before interest, income tax, depreciation and amortisation. Amortisation of contract acquisition costs are included within EBITDA. Management uses EBITDA to evaluate the operating performance of the business. EBITDA can be useful to help understand the cash generation potential of the business. EBITDA should not be considered as an alternative to measures of cash flow under IFRS and investors should not consider EBITDA in isolation from, or as a substitute for, an analysis of the results of Whispir's operations; and
- EBIT: earnings (or losses) before interest and income tax.

### Definitions

- MRR: Monthly Recurring Revenue
- CAGR: Compound Annual Growth Rate
- S&M: Sales & Marketing;
- G&A: General & Administration;
- TAM: Total Addressable Market;
- SME: Small to Medium Enterprise;
- SMB: Small to Medium Business.

### Cash flow

- **Capitalised development:** proportion of the wages and salaries of employees whose activities relate to the development of software;
- **Capital expenditure:** investment in property, plant and equipment including leasehold improvements and IT equipment;
- Working capital: trade and other receivables, contract acquisition costs, other current assets, less trade and other payables and income received in advance;
- **Operating cash flow:** EBITDA after the removal of non-cash items in EBITDA (such as share-based payments, amortisation of contract acquisition costs and net foreign exchange difference) less net interest paid and changes in working capital; and
- Free cash flow: operating cash flow less capital expenditure and IPO offer costs.

### **Financial metrics**

- Annualised recurring revenue (ARR): recurring revenue (licence and transaction revenue) from the final month in a period (MRR) multiplied by 12 months;
- Gross margin: gross profit divided by revenue expressed as a percentage;
- Contract acquisition cost: commission costs incurred in winning new customers;
- Customer acquisition cost (CAC): expenses directly incurred in winning new customers, which includes the contract acquisition costs, divided by the total number of new customers won in the period;
- Install base: tolling customers existed before the reporting period
- Customer revenue retention %: revenue earned from customers in the referenced period divided by the revenue from the same customer cohort in the corresponding prior period. The calculation has been updated in June 2021 to exclude customers who were not with Whispir for the full 12 months in the corresponding prior period.
- Customer churn %: number of customers lost in the last twelve months (LTM) divided by number of opening customers in the period;
- Revenue churn %: Opening MRR of customers churned in LTM compared to opening MRR of customer cohort;
- Lifetime value of customer (LTV): ARR per customer multiplied by the gross margin for the period, divided by the customer churn in the period. The LTV of the customer cohort represents the LTV multiplied by the number of customers at the period end;
- LTV/CAC: The ratio of the Lifetime value (LTV) of new customers to the CAC;
- Recurring Revenue %: recurring revenue as a % of total revenue; and
- Research and development % spend of revenue: The total of the research and development expenditure recorded in the statement of profit or loss (excluding amortisation) and the capitalised spend in the period divided by revenue.
