Directors' Report

The directors present their report together with the financial report of the consolidated entity consisting of MyDeal.com.au Limited ("the Company") and the entities it controlled ("the Group"), for the financial year ended 30 June 2021 and auditor's report thereon.

DIRECTORS

The names of directors in office at any time during or since the end of the year are:

Paul Greenberg – Chairman (appointed 10 August 2020)
Sean Senvirtne – Chief Executive Officer and Executive Director
James Joughin – (appointed 10 August 2020)
Christopher Tait – (appointed 10 August 2020)

The directors have been in office since the start of the year to the date of this report unless otherwise stated.

PRINCIPAL ACTIVITIES

The principal activities of the Group during the financial year were the operation of an online retail marketplace.

There has been no significant change in the nature of these activities during the financial year.

RESULTS

The consolidated loss after income tax attributable to the members of the Group was \$5,855,329 (2020: profit after tax \$849,232).

REVIEW OF OPERATIONS

MyDeal.com.au Limited ("MyDeal.com.au") has delivered record Gross Sales of \$218.1 million (FY20: \$103.3 million), Net transaction value ("NTV") of \$204.6 million (FY20: \$94.0 million) and Gross Profit of \$33.3 million (FY20: \$15.3 million) for the year ended 30 June 2021 representing growth over the prior corresponding period of 111%, 118% and 119% respectively.

The Group recorded an EBITDA loss of \$4.4 million in FY21 (FY20: \$0.7 million profit) primarily due to a planned increase in advertising and promotional activity to support the Group's focus on customer acquisition and investment in the private label business.

Adjusted EBITDA which excludes the impact of transaction costs of \$0.4 million related to the Group's initial public offering was negative \$4.0 million.

MyDeal.com.au recorded a statutory loss before tax attributable to members of the Group of \$5.3 million (FY20: profit before tax \$0.3 million) and statutory loss after tax attributable to shareholders of \$5.9 million (FY20: profit after tax \$0.85 million).

The key drivers of performance in the year to 30 June 2021 were:

- Gross sales: the increase in Gross Sales was driven by continued growth in the Groups' active customer base which reached 894,225 at 30 June 2021, representing growth in excess of 83% year on year. Additionally, orders from repeat customers increased to 59.4% in Q4 FY21 up from 44.8% for the same time last year.
- Gross profit: Gross profit as a percentage of net transaction value (NTV) was stable at 16.3% (FY20: 16.2%) after including the recognition of cost of sales relating to the private label range.

Directors' Report

continued

- Private Label: The Group is executing on its strategy to increase private label as a percentage of Gross Sales (Q4 FY21 5.2% of Gross Sales¹) supported by investment in inventory during the year of \$4.9 million and expansion of the range to over 400 SKUs. The Group remains very excited about the growth and margin expansion opportunities this product range presents.
- Operating Costs: Operating costs increased during the period driven by an increase in advertising from 9.13% to 11.26% of NTV to support its customer acquisition strategy. Fixed costs² as a percentage of NTV decreased from 5.6% to 4.5%.
- From a balance sheet perspective, the Group remains well capitalised with a cash balance of \$42.7 million at June 2021. The Group recognised a tax expense during the period of \$0.6 million resulting from the derecognition of prior year deferred tax assets during the period.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

MyDeal.com.au became the holding Company of the Group replacing E-Com (Aus) Pty Ltd ("E-Com") following a corporate restructure which was implemented on 18 September 2020 ("the Restructure"). Under the Restructure, the shareholders in E-Com exchanged their shares in E-Com for a proportionate number of shares in MyDeal.com.au Limited. The Restructure has been accounted for as a capital re-organisation. The financial statements of the Group present a continuation of the historical financial statements of E-Com and its controlled entities.

The Group raised \$40.0 million in an IPO of its shares in October 2020. Of this amount approximately \$5.0 million related to sell down shares. The residual proceeds provide the Group with funding to execute its growth strategy as outlined in the Group's prospectus including investment in personnel, advertising, inventory, working capital and the payment of the associated costs of the offer.

The Group also converted an outstanding convertible note of \$3.5 million to 4.3 million shares at the same time as the IPO.

On 22 October 2020, MyDeal.com.au Limited was admitted to the Official List of ASX Limited with the ASX code MYD.

There were no significant changes in the Group's state of affairs that occurred during the financial period, other than those referred to elsewhere in this report.

SUBSEQUENT EVENTS

No matters or circumstances have arisen since the end of the financial year that have significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

LIKELY DEVELOPMENTS

The Group will not be providing earnings guidance for the FY22 year. However, the Group will provide regular business updates during the period. July 2021 unaudited management accounts show positive year on year Gross Sales growth and the Group will remain focussed on customer acquisition and expanding its private label business during FY22.

ENVIRONMENTAL REGULATION

The Group's operations are not subject to any significant environmental Commonwealth or State regulations or laws.

DIVIDEND PAID, RECOMMENDED AND DECLARED

No dividends were paid, declared or recommended since the start of the financial year.

1 Q4 Private label revenue as a percentage of Q4 group gross sales.

2 Fixed costs include all costs excluding distribution, marketing, merchant fees, finance costs, tax and IPO transaction costs.

INDEMNIFICATION AND INSURANCE OF DIRECTORS, OFFICERS AND AUDITORS

The Group has entered into deeds of indemnity, access and insurance with each Director. Under these deeds, the Group has agreed to indemnify, to the extent permitted by the *Corporations Act 2001*, each Director in respect of certain liabilities which the Director may incur as a result of or by reason of (whether solely or in part), being or acting as an officer of the Group. These liabilities include losses or liabilities incurred by the Director to any other person as an officer of the Group, including legal expenses. The Group has also agreed to maintain in favour of each officer a directors' and officers' policy of insurance for the period that they are officers and for seven years after they cease to act as officers.

Further disclosure required under section 300(9) of the *Corporations Act 2001* is prohibited under the terms of the contract.

PROCEEDINGS ON BEHALF OF THE GROUP

No person has applied for leave of Court to bring proceedings on behalf of MyDeal.com.au Limited or any of its subsidiaries.

AUDITOR'S INDEPENDENCE DECLARATION

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* in relation to the audit for the financial year is provided with this report.

NON-AUDIT SERVICES

Non-audit services are approved by resolution of the audit committee and approval is provided in writing to the board of directors. Non-audit services were provided by the auditors of entities in the consolidated group during the year, namely Pitcher Partners Melbourne, network firms of Pitcher Partners, and other non-related audit firms, as detailed below.

The directors are satisfied that the provision of the non-audit services during the year by the auditor is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001* for the following reasons:

- all non-audit services were subject to the corporate governance procedures adopted by MyDeal.com.au Limited and have been reviewed and approved to ensure they do not impact on the integrity and objectivity of the auditor; and
- the non-audit services provided do not undermine the general principles relating to auditor independence as set out in APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)*, as they did not involve reviewing or auditing the auditor's own work, acting in a management or decision making capacity for MyDeal.com.au Limited or any of its related entities, acting as an advocate for MyDeal.com.au Limited or any of its related entities, or jointly sharing risks and rewards in relation to the operations or activities of MyDeal.com.au Limited or any of its related entities.

B. Remuneration policy and link to performance

Our Remuneration and Nomination committee is made up of non-executive directors. The committee reviews and determines our remuneration policy and structure annually to ensure it remains aligned to business needs, and meets our remuneration principles. In particular, the board aims to ensure that remuneration practices are:

- competitive and reasonable, enabling the Group to attract and retain key talent,
- aligned to the Group's strategic and business objectives and the creation of shareholder value,
- transparent and easily understood, and
- acceptable to shareholders.

Remuneration Framework

Element	Purpose	Performance Metrics
Fixed Remuneration ('FR')	Provide competitive market salary including superannuation and non-monetary benefits	N/A.

³ Sean Senvirtne was previously employed by E-Com (AUS) Pty Ltd (appointed 5 April 2011), now a subsidiary of MyDeal.com.au Limited.

⁴ Joshua Mangan was previously employed by E-Com (AUS) Pty Ltd (appointed 2 November 2017), now a subsidiary of MyDeal.com.au Limited.

Element	Purpose	Performance Metrics
STI	Reward for in-year performance	<p>In FY21 STIs were in the form of cash.</p> <p>STI's were measured on the achievement of both financial and non-financial KPIs.</p> <p>In FY22 the Remuneration and Nomination Committee will formulate appropriate measures against which performance is measured in relation business level strategic priorities.</p>
LTI	Alignment to long-term shareholder value	<p>In FY21 LTIs were in the form of options in the Group.</p> <p>The LTI is designed to assist in the motivation and retention of selected employees and to align the interest of eligible participants with those of the Company and its shareholders. Options were issued with vesting criteria including either share price hurdles, service conditions or a combination of both.</p> <p>In FY22 the Remuneration and Nomination Committee will formulate appropriate measures in relation to shareholder returns and company performance.</p>

Assessing performance and claw-back of remuneration

The Remuneration and Nomination committee is responsible for assessing performance against KPIs and determining the STI and LTI to be paid.

In the event of serious misconduct or a material misstatement in the Group's financial statements, the remuneration committee can claw back performance-based remuneration paid in previous financial years.

Reliance on external remuneration consultants

Given the early stage of the Group's listing, the Group has not officially engaged external remuneration consultants. The Board has taken legal advice on remuneration practices.

E. Non-executive Director arrangements

Non-executive director fees are established relative to the size of the Group and the responsibilities skills and experience of the directors.

In accordance with the Constitution of MyDeal.com.au Limited, the total amount provided to all non-executive directors must not exceed in aggregate in any financial year \$750,000. Additional fees may be payable for consulting services provided by non-executive directors. The Nomination and Remuneration Committee reviews the performance skills and experience of the Board, and the directors' fees on an annual basis.

The current non-executive directors' fee structure is set out below:

	Cash fee paid to chair	Cash fee paid to member(s)
Board	\$100,000	\$60,000

In addition to the above, as outlined in the Group's prospectus, the Group established a non-executive directors equity plan to assist in motivation, retention and reward of non-executive directors in the Group. Pursuant to the plan, non-executive directors were entitled to receive options.

Refer below for details.

Notes to the Financial Statements

Year ended 30 June 2020

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICES

The following are the significant accounting policies adopted by the Group in the preparation and presentation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

(a) Basis of preparation of the financial report

This financial report is a general purpose financial report that has been prepared in accordance with the *Corporations Act 2001* and Australian Accounting Standards, Interpretations and other applicable authoritative pronouncements of the Australian Accounting Standards Board (AASB).

The financial report covers MyDeal.com.au Limited and its controlled entities as a group. MyDeal.com.au Limited is a Company limited by shares, incorporated and domiciled in Australia. The address of MyDeal.com.au Limited's registered office and principal place of business is Level 1, 446 Collins Street, Melbourne 3000. MyDeal.com.au Limited is a for-profit entity for the purpose of preparing the financial report.

The financial report was approved by the Directors as at the date of the Directors' report.

Compliance with IFRS

The financial report also complies with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB).

Historical cost convention

The financial report has been prepared under the historical cost convention, as modified by revaluations to fair value for certain classes of assets and liabilities as described in the accounting policies.

Significant accounting estimates and judgements

The preparation of the financial report requires the use of certain estimates and judgements in applying the entity's accounting policies. Those estimates and judgements significant to the financial report are disclosed in Note 2 to the consolidated financial statements.

(b) Going concern

The financial report has been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

The Group recorded a loss before income tax of \$5,305,209 during the year ended 30 June 2021 (2020: profit before income tax \$331,632).

At 30 June 2021 the Group has net assets of \$30,828,558 (2020: \$1,057,725).

At 30 June 2021 the Group has cash and cash equivalents of \$42,674,560 (2020: \$16,808,955).

The Directors have concluded that the going concern basis is appropriate based on analysis of the Group's recent performance and financial forecasts for the next 12 months from the signing of the Director's report. Forecasts indicate the group will have sufficient cash to pay its debts as and when they fall due.

(c) Principles of consolidation

The consolidated financial statements are those of the consolidated entity ("the group"), comprising the financial statements of the parent entity and all of the entities the parent controls. The group controls an entity where it has the power, for which the parent has exposure or rights to variable returns from its involvement with the entity, and for which the parent has the ability to use its power over the entity to affect the amount of its returns.

The financial statements of subsidiaries are prepared for the same reporting period as the parent entity, using consistent accounting policies. Adjustments are made to bring into line any dissimilar accounting policies which may exist.

All inter-group balances and transactions, including any unrealised profits or losses have been eliminated on consolidation. Subsidiaries are consolidated from the date on which control is obtained by the group and are de-recognised from the date that control ceases.

Notes to the Financial Statements

continued

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICES (continued)

(d) Revenue from contracts with customers

Revenue from contracts with customers

The group derives revenue from the commission on sale of goods, sale of goods, advertising services and subscription fees.

Revenue is recognised as, or when, goods or services are transferred to the customer, and is measured at an amount that reflects the consideration to which the group expects to be entitled in exchange for the goods or services.

Sales Commission comprises commission and transaction fees charged to sellers for every product sold on the marketplace. Transaction fees are recognised at the point of sale and commission fees are recognised upon dispatch of the goods.

Private Label reflects revenue from the sale of goods controlled by the Group prior to transfer and are recognised upon delivery of the goods.

Advertising revenue are fees charged to sellers with respect to promotional activity and are recognised over time when the promotional activity and the Group's service obligations have been performed.

Subscription fees comprise fees charged to sellers to list products on the marketplace and are recognised over time with respect to the period that products are listed.

Receivables from contracts with customers

A receivable from a contract with a customer represents the group's unconditional right to consideration arising from the transfer of goods or services to the customer (i.e., only the passage of time is required before payment of the consideration is due). Subsequent to initial recognition, receivables from contracts with customers are measured at amortised cost and are tested for impairment.

(e) Other revenue and other income

Government grants

Government grants, including research and development incentives, are recognised when the grant income can be reliably measured and the conditions attached to them, if any, have been completed.

Interest

Interest revenue is measured in accordance with the effective interest method. All revenue is measured net of the amount of goods and services tax (GST).

(f) Income tax

Current income tax expense or revenue is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities.

Deferred tax assets and liabilities are recognised for temporary differences at the applicable tax rates when the assets are expected to be recovered or liabilities are settled. Deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not recognised if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

MyDeal.com.au Limited (the 'head entity') and its wholly-owned Australian subsidiaries formed an income tax consolidated group ('tax group') under the tax consolidation regime with effect from 1 July 2020. Each entity in the tax group continues to account for their own current and deferred tax amounts. The tax group has applied the 'group allocation' approach in determining the appropriate amount of taxes to allocate to group members. In addition to its own tax amounts, the head entity also recognises the tax arising from unused tax losses and tax credits from each subsidiary in the tax group.

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICES (continued)

(f) Income tax (continued)

Assets or liabilities arising under tax funding agreements are recognised as amounts receivable from or payable to other entities in the tax group. The tax funding arrangement ensures that the intercompany charge equals the current tax liability or benefit of each tax group member, resulting in neither a contribution by the head entity to the subsidiaries nor a distribution by the subsidiaries to the head entity.

(g) Cash and cash equivalents

Cash and cash equivalents include cash on hand and at banks, short-term deposits with an original maturity of three months or less held at call with financial institutions. Bank overdrafts are shown within payables in current liabilities in the consolidated statement of financial position.

(h) Inventories

Inventories are measured at the lower of cost and net realisable value. Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

(i) Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the group becomes a party to the contractual provisions of the instrument. For financial assets, this is equivalent to the date that the group commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value adjusted for transaction costs, except where the instrument is classified as fair value through profit or loss, in which case transaction costs are immediately recognised as expenses in profit or loss.

Classification of financial assets

Financial assets recognised by the group are subsequently measured in their entirety at either amortised cost or fair value, subject to their classification and whether the group irrevocably designates the financial asset on initial recognition at fair value through other comprehensive income (FVtOCI) in accordance with the relevant criteria in AASB 9.

Financial assets not irrevocably designated on initial recognition at FVtOCI are classified as subsequently measured at amortised cost, FVtOCI or fair value through profit or loss (FVtPL) on the basis of both:

- (a) the group's business model for managing the financial assets; and
- (b) the contractual cash flow characteristics of the financial asset.

Classification of financial liabilities

Financial liabilities classified as held-for-trading, contingent consideration payable by the group for the acquisition of a business, and financial liabilities designated at FVtPL, are subsequently measured at fair value.

All other financial liabilities recognised by the group are subsequently measured at amortised cost.

Trade and other receivables

Trade and other receivables arise from the group's transactions with its customers and are normally settled within 30 days. Consistent with both the group's business model for managing the financial assets and the contractual cash flow characteristics of the assets, trade and other receivables are subsequently measured at amortised cost.

Convertible notes

Convertible notes are debt instruments that can be converted into ordinary shares of the issuer, by the issuer, on maturity. The convertible notes are classified as financial liabilities in accordance with their contractual terms.

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICES (continued)

(i) Financial instruments (continued)

Impairment of financial assets

Receivables from contracts with customers are tested for impairment by applying the 'expected credit loss' impairment models.

The group applies the simplified approach under AASB 9 to measuring the allowance for credit losses for receivables from contracts with customers. Under the AASB 9 simplified approach, the group determines the allowance for credit losses for receivables from contracts with customers on the basis of the lifetime expected credit losses of the financial asset. Lifetime expected credit losses represent the expected credit losses that are expected to result from default events over the expected life of the financial asset.

(j) Leases

At the commencement date of a lease (other than leases of 12-months or less and leases of low value assets), the group recognises a lease asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments.

Lease assets

Lease assets are initially recognised at cost, comprising the amount of the initial measurement of the lease liability, any lease payments made at or before the commencement date of the lease, less any lease incentives received, any initial direct costs incurred by the group, and an estimate of costs to be incurred by the group in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories.

Subsequent to initial recognition, lease assets are measured at cost (adjusted for any remeasurement of the associated lease liability), less accumulated depreciation and any accumulated impairment loss.

Lease assets are depreciated over the shorter of the lease term and the estimated useful life of the underlying asset, consistent with the estimated consumption of the economic benefits embodied in the underlying asset.

Lease liabilities

Lease liabilities are initially recognised at the present value of the future lease payments (i.e., the lease payments that are unpaid at the commencement date of the lease). These lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined, or otherwise using the group's incremental borrowing rate.

Subsequent to initial recognition, lease liabilities are measured at the present value of the remaining lease payments (i.e., the lease payments that are unpaid at the reporting date). Interest expense on lease liabilities is recognised in profit or loss (presented as a component of finance costs). Lease liabilities are remeasured to reflect changes to lease terms, changes to lease payments and any lease modifications not accounted for as separate leases.

Variable lease payments not included in the measurement of lease liabilities are recognised as an expense when incurred.

Leases of 12-months or less and leases of low value assets

Lease payments made in relation to leases of 12-months or less and leases of low value assets (for which a lease asset and a lease liability has not been recognised) are recognised as an expense on a straight-line basis over the lease term.

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICES (continued)

(k) Plant and equipment

Each class of plant and equipment is measured at cost or fair value less, where applicable, any accumulated depreciation and any accumulated impairment losses.

Plant and equipment

Plant and equipment is measured at cost, less accumulated depreciation and any accumulated impairment losses.

Depreciation

The depreciable amount of all plant and equipment is depreciated over their estimated useful lives commencing from the time the asset is held available for use, consistent with the estimated consumption of the economic benefits embodied in the asset.

Class of fixed asset	Depreciation rates	Depreciation basis
Motor vehicles at cost	20%	Straight line
Office equipment at cost	25%	Straight line
Computer equipment at cost	33%	Straight line
Leasehold improvements	33%	Straight line

(l) Intangible assets

Separately acquired intangible assets

Except for indefinite useful life intangible assets, which are not amortised but are tested annually for impairment, separately acquired intangible assets are recognised at cost and amortised over their estimated useful lives commencing from the time the asset is available for use. The amortisation method applied to an intangible asset is consistent with the estimated consumption of economic benefits of the asset. Subsequent to initial recognition, separately acquired intangible assets are measured at cost, less accumulated amortisation (where applicable) and any accumulated impairment losses.

Internally generated intangible assets

Software development costs are measured at cost less any accumulated amortisation and accumulated impairment losses. Such development costs are only capitalised if they can be reliably measured, the process is technically and commercially feasible, future economic benefits are probable, and the Group has sufficient resources to complete development. Development costs are amortised over the useful life of the asset.

Software development costs are amortised on a straight-line basis over the period of their expected benefit being their finite life of 3-5 years.

(m) Employee benefits

(i) Short-term employee benefit obligations

Liabilities arising in respect of wages and salaries, annual leave and other employee benefits (other than termination benefits) expected to be settled wholly before twelve months after the end of the reporting period are measured at the (undiscounted) amounts based on remuneration rates which are expected to be paid when the liability is settled. The expected cost of short-term employee benefits in the form of compensated absences such as annual leave is recognised in the provision for employee benefits. All other short-term employee benefit obligations are presented as payables in the consolidated statement of financial position.

Notes to the Financial Statements

continued

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICES (continued)

(m) Employee benefits (continued)

(ii) Long-term employee benefit obligations

The provision for other long-term employee benefits, including obligations for long service leave and annual leave, which are not expected to be settled wholly before twelve months after the end of the reporting period, are measured at the present value of the estimated future cash outflow to be made in respect of the services provided by employees up to the reporting date. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee turnover, and are discounted at rates determined by reference to market yields at the end of the reporting period on high quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms approximating to the terms of the related obligation. For currencies in which there is no deep market in such high-quality corporate bonds, the market yields (at the end of the reporting period) on government bonds denominated in that currency are used. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the change occurs.

Other long-term employee benefit obligations are presented as current liabilities in the consolidated statement of financial position if the group does not have an unconditional right to defer settlement for at least twelve months after the reporting date, regardless of when the actual settlement is expected to occur. All other long-term employee benefit obligations are presented as non-current liabilities in the consolidated statement of financial position.

(iii) Retirement benefit obligations Defined contribution superannuation plan

The group makes superannuation contributions to the employee's defined contribution superannuation plan of choice in respect of employee services rendered during the year. These superannuation contributions are recognised as an expense in the same period when the related employee services are received. The group's obligation with respect to employee's defined contributions entitlements is limited to its obligation for any unpaid superannuation guarantee contributions at the end of the reporting period. All obligations for unpaid superannuation guarantee contributions are measured at the (undiscounted) amounts expected to be paid when the obligation is settled and are presented as current liabilities in the consolidated statement of financial position.

(iv) Share-based payments

The group operates share-based payment employee share and option schemes. The fair value of the equity to which employees become entitled is measured at grant date and recognised as an expense over the vesting period, with a corresponding increase to an equity account. In respect of share-based payments that are dependent on the satisfaction of performance conditions, the number of shares and options expected to vest is reviewed and adjusted at each reporting date. The amount recognised for services received as consideration for these equity instruments granted is adjusted to reflect the best estimate of the number of equity instruments that eventually vest.

(v) Bonus

The group recognises a provision when a bonus is payable in accordance with the discretion and determination of the Remuneration and Nomination Committee, and the amount can be reliably measured.

(n) Goods and services tax (GST)

Revenues, expenses and purchased assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the consolidated statement of financial position are shown inclusive of GST.

Cash flows are presented in the consolidated statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICES (continued)

(o) Comparatives

MyDeal.com.au Limited became the holding company of the Group replacing E-Com (Aus) Pty Ltd ("E-Com") following a corporate restructure which was implemented on 18 September 2020 ("the Restructure"). Under the Restructure, the shareholders in E-Com exchanged their shares in E-Com for a proportionate number of shares in MyDeal.com.au Limited. The Restructure has been accounted for as a capital re-organisation. The financial statements of the Group present a continuation of the historical financial statements of E-Com and its controlled entities.

Where necessary, comparative information has been reclassified and repositioned for consistency with current year disclosures.

(p) Foreign currency transactions and balances

Functional and presentation currency

The financial statements are presented in Australian dollars which is the Group's functional and presentation currency.

Transactions and Balances

Transactions undertaken in foreign currencies are recognised in the Group's functional currency, using the spot rate at the date of the transaction.

Foreign currency monetary items that are outstanding at the reporting date (other than monetary items arising under foreign currency contracts where the exchange rate for that monetary item is fixed in the contract) are restated to the spot rate at the reporting date.

All exchange gains or losses are recognised in profit or loss for the period in which they arise.

(q) Impairment of non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax assets) to determine whether there is any indication of impairment. If an such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Cash Generating Units (CGU).

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current marketing assessments of the time value of money and the risks specific to the asset or CGU.

(r) Cashflow

Cashflows are recognised on a gross basis reflecting total cash balances transacted by the Group in accordance with AASB 107. From a revenue recognition perspective, the Group determines whether it is a principal or agent for each transaction entered into with its customers in accordance with AASB 15. In general, the Group acts as an agent with respect to transactions where external third-party sellers control goods that are sold on the Group's marketplace and as principal where the Group controls goods before they are transferred to the customer.

(s) Rounding of amounts

In accordance with ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, the amounts in the Directors' Report and in the financial statements have been rounded to the nearest dollar.

Notes to the Financial Statements

NOTE 2: SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

Certain accounting estimates include assumptions concerning the future, which, by definition, will seldom represent actual results. Estimates and assumptions based on future events have a significant inherent risk, and where future events are not as anticipated there could be a material impact on the carrying amounts of the assets and liabilities discussed below:

(a) Share-based payment transactions

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date which they are granted. The fair value of LTI options is determined by using either the Trinomial, Monte Carlo or Black-Scholes models, as appropriate, taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

(b) Deferred tax

Deferred tax assets are recognised for deductible temporary differences and unused tax losses to the extent it is probable that future taxable profits will be available to utilise those temporary differences and losses. Significant judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits, together with future tax planning strategies.

(c) Impairment of non-financial assets

The Group tests annually, or more frequently if events or changes in circumstances indicate impairment, whether intangible and other non-financial assets have suffered any impairment, in accordance with the stated accounting policy. The recoverable amount of the cash generating unit has been determined based on a value in use calculation. The calculation requires the use of assumptions including estimated discount rates based on the current cost of capital and growth rates of the estimated future cash flows.

(d) Estimation of useful lives of assets

The Group determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or other events. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or impaired.

NOTE 3: FINANCIAL RISK MANAGEMENT

The Group is exposed to the following financial risks:

- ⇒ Currency risk
- ⇒ Interest rate risk
- ⇒ Credit risk
- ⇒ Liquidity risk

The board of directors has overall responsibility for identifying and managing operational and financial risks.

NOTE 3: FINANCIAL RISK MANAGEMENT (continued)

(a) Currency risk

The Group undertakes transactions denominated in foreign currencies and is exposed to foreign currency risk through foreign exchange rate fluctuations.

The carrying amounts of foreign currency denominated financial assets and financial liabilities at the reporting date were as follows:

	Assets		Liabilities	
	2021 AUD\$	2020 AUD\$	2021 AUD\$	2020 AUD\$
United States Dollar denominated	–	–	83,068	21,304
	–	–	83,068	21,304

If foreign exchange rates were to increase/decrease by 5% from the rates prevailing at the reporting date, assuming all other variables remain constant, then the impact on profit for the year and equity would be as follows:

	2021 \$	2020 \$
+/- 5%		
Impact on profit after tax	4,153	1,065
Impact on equity	–	–

Based on this position, the Group is not exposed to any significant foreign currency sensitivity from its existing liabilities.

(b) Interest rate risk

The Group has a credit card facility with an available balance of \$30,000. The Group is exposed to interest rate risk in relation to this facility. The Group is not materially exposed to any significant interest rate risk. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates.

(c) Credit risk

Credit risk is the risk that one counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group is not materially exposed to any significant credit risk. All cash and cash equivalents are held by well-established banks, hence the expected default rate for these institutions is highly unlikely based on both financial and non-financial data available. All receivables are neither past due nor impaired.

The maximum exposure to credit risk, excluding the value of any collateral or other security, at the reporting date of recognised financial assets is the carrying amount of those assets, net of any allowance for credit losses, as disclosed in consolidated statement of financial position and notes to the consolidated financial statements.

(d) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

The Group manages liquidity risk by maintaining adequate cash reserves by continuously monitoring actual and forecast cash flows.

The following table outlines the Group's remaining contractual maturities for non-derivative financial liabilities. The amounts presented in the table are the undiscounted contractual cash flows of the financial liabilities, allocated to time bands based on the earliest date on which the Group can be required to pay.

Independent Auditor's Report

MYDEAL.COM.AU LTD
60 640 108 130

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS MYDEAL.COM.AU LTD

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of MyDeal.com.au Ltd "the Company" and its controlled entities "the Group", which comprises the consolidated statement of financial position as at 30 June 2021, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Group's financial position as at 30 June 2021 and of its financial performance for the year then ended; and
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* "the Code" that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS MYDEAL.COM.AU LTD

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's directors report for the year ended 30 June 2021, but does not include the financial report and our auditor's report thereon, which we obtained prior to the date of this auditor's report, and the Chairman's report and CEO report, which is expected to be made available after that date.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

**INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS MYDEAL.COM.AU LTD**

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS MYDEAL.COM.AU LTD

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 9 to 17 of the directors' report for the year ended 30 June 2021. In our opinion, the Remuneration Report of MyDeal.com.au Ltd, for the year ended 30 June 2021, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
