

NSW Department of Education Expands its 'Check-In' Assessment Initiative

Janison Education Group Limited (ASX:JAN) ("Janison" or the "Company"), is pleased to announce it will be supporting NSW public schools this year by providing its digital assessment platform to power 'Check-In' assessments to a larger cohort of NSW students than last year.

In October 2020 the assessment was initially available for school years 3, 5 and 9 but after such a successful event and positive feedback from teachers and the teachers' union, it was expanded to years 4, 6 and 8 in April 2021. **Now the test has been made available to all year groups 3 to 9.**

Education

Janison.

The NSW DoE Check-in assessment is central to producing data in the areas of literacy and numeracy to pinpoint learning gaps that provide teachers the evidence for much-needed educational interventions during an extraordinary period of disruption. The online assessment is multiple-choice, which means marking is fully automated, and results can be delivered within 48 hours.

The assessment was co-developed in partnership with the NSW Department of Education in September 2020 and delivered on Janison's standardised assessment platform for the first time last year.

Janison is expected to receive minimum revenue of approximately \$500k for the October to December 2021 sitting window (1H22) but based on the high take-up rates experienced last year it is likely revenues could be in the range of 2-3 times this amount, with a repeat sitting window likely between April and July 2022 (2H22).

NSW Minister for Education Sarah Mitchell said: "The response from schools to the Check-in package has been fantastic. Feedback from the assessment tool will contribute to the NSW Government's curriculum overhaul, which will see a renewed focus on literacy and numeracy."

The NSW Teachers Federation union hailed the project as an "enlightened approach" to assessment, adding: "The Federation congratulates the Minister on the literacy and numeracy Check-in assessment package."
