CAPITAL MANAGEMENT UPDATE

Capital Return to Shareholders of \$39.2m (circa 16 cents per share); On-Market Buy Back of \$1.0m

CAPITAL MANAGEMENT FRAMEWORK

- Post divestment of Services Division, \$57.9m of cash available
- Following the completion of the divestment, Ava Risk Group is expected to hold \$40.2m in excess capital
- The Board's intention is to use the excess capital for a capital return to shareholders of \$39.2m (circa 16 cents per share) and an on-market buy back of \$1.0m
- *Subject to the Company obtaining a favorable Class Ruling from the Australian Taxation Office, a formal proposal could be put before shareholders for approval at the AGM scheduled to be held on 28 October 2021. Depending on the results of the on-market buy back, and the surplus cash available to the Company, the amount allocated to the buy back may increase over time.*

STRATEGY & OUTLOOK

AVA RISK GROUP POST DIVESTMENT

- 'Pure play' technology company
- Global Sales and Support Operations
- Growth driven by increasing global security concerns and rise in connectivity
- Expanding solutions and new applications

STRONG TRACK RECORD AND GLOBAL OPPORTUNITY

TRACK RECORD OF GROWTH AND RESULTS

- Technology division FY21 revenue of \$24.7m, up 17% vs pcg despite COVID-19 challenges
- High margins and ongoing cost discipline, strong cash generation, and surplus cash for investment and return to investors
- Global footprint with thousands of products installed in more than 70 countries

HIGHLY SCALABLE MODEL

- Blue chip customer base, with significant long term recurring revenue potential
- Expanding application markets beyond security into condition monitoring through low CAPEX partner programs, OEM¹, and technology licencing and extended support services
- Efficient, scalable go-to-market strategies which include key distributor partners in Europe and the US (dormakaba and Assa Abloy)

STRONG COMPETITIVE ADVANTAGES

- Highly defensible competitive position, breadth of product range, TCO and performance advantages, investments in innovation including AI and Machine Learning, Australian made
- Experienced leadership team with broad global industry knowledge and deep market domain expertise
- Customer-centric focus on product and services development provides high performance, customised, flexible, and scalable solutions

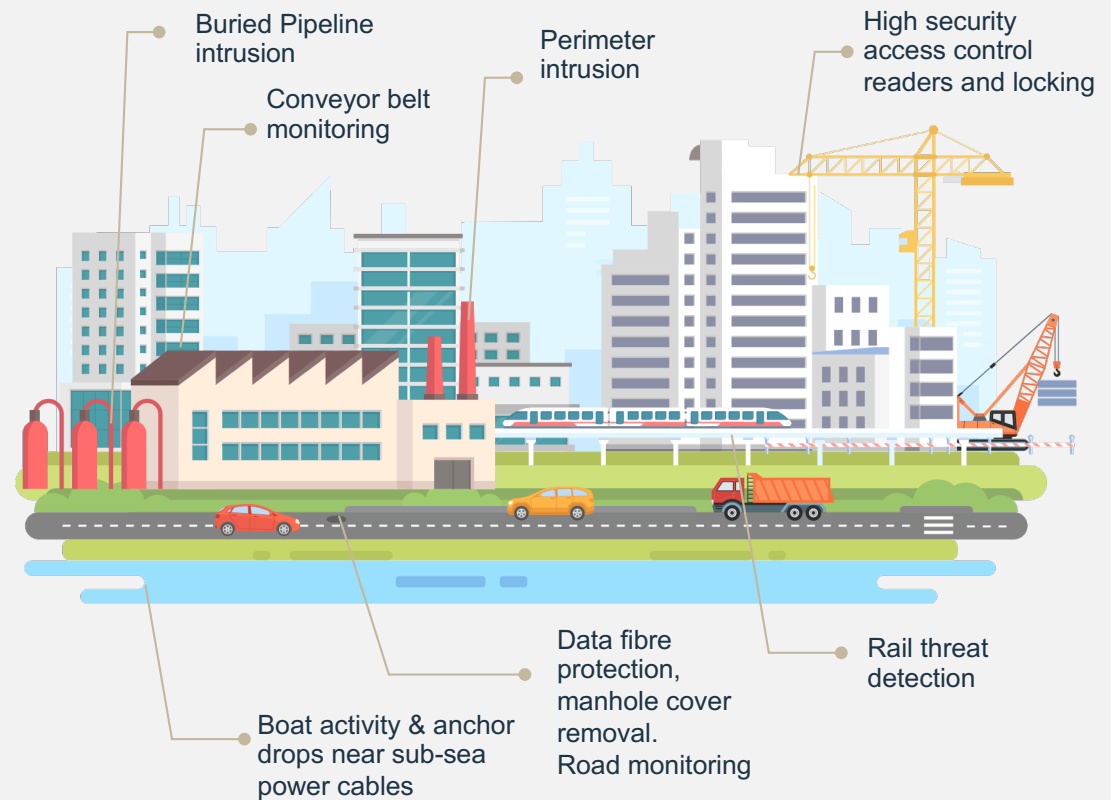

GLOBAL OPPORTUNITY

- Well-placed to become a global leader in smart digitisation for security and asset protection
- Global smart cities market spend on technology expected to reach US\$327bn by 2025, growing at a CAGR of 22.7% from \$96bn in 2019².

1. Original Equipment manufacturer
2. Source: Frost & Sullivan

AURA AI: NEW APPLICATION FOR TECHNOLOGY

- Using real-time data to enhance asset management, improve reliability and introduce new predictive capabilities to an expanding set of large market opportunities, including **Smart Cities of the future**
- Built on FFT's latest advanced optical designs and signal processing algorithms to detect, classify and report 'real' threats
- Extending into adjacent markets including monitoring of conveyor belt, roads, rail lines and sub-sea power cables

GROWTH INITIATIVES

To be a global leader in actionable, intelligent data streams that protect and optimise critical assets

LEVERAGE PARTNERSHIPS

- Leverage **BQT distribution partnerships** with dormakaba and Assa Abloy
- Extend **FFT partnerships** into the global power cable sensing market
- Leverage **Aura AI technology** and **partnerships** into new applications and verticals

GROW RECURRING REVENUE

- Convert **Aura IQ** conveyor health monitoring POVs into sales (\$50M+ opportunity)
- Leverage **existing install base** of 2,500 customers for **support contracts**.
- Expand comprehensive **maintenance products** with remote monitoring, and AI upgrade solutions

LEVERAGE SCALABLE MODEL

- **Licence technology** for low cost and high margin access into new markets (similar to IMoD)
- Leverage existing install base of 2,500 customers for **upgrades and extensions**
- **Extend solutions capability** and fit to address adjacent market segments
- **Operating leverage** from both cost discipline and economy of scale

OUTLOOK

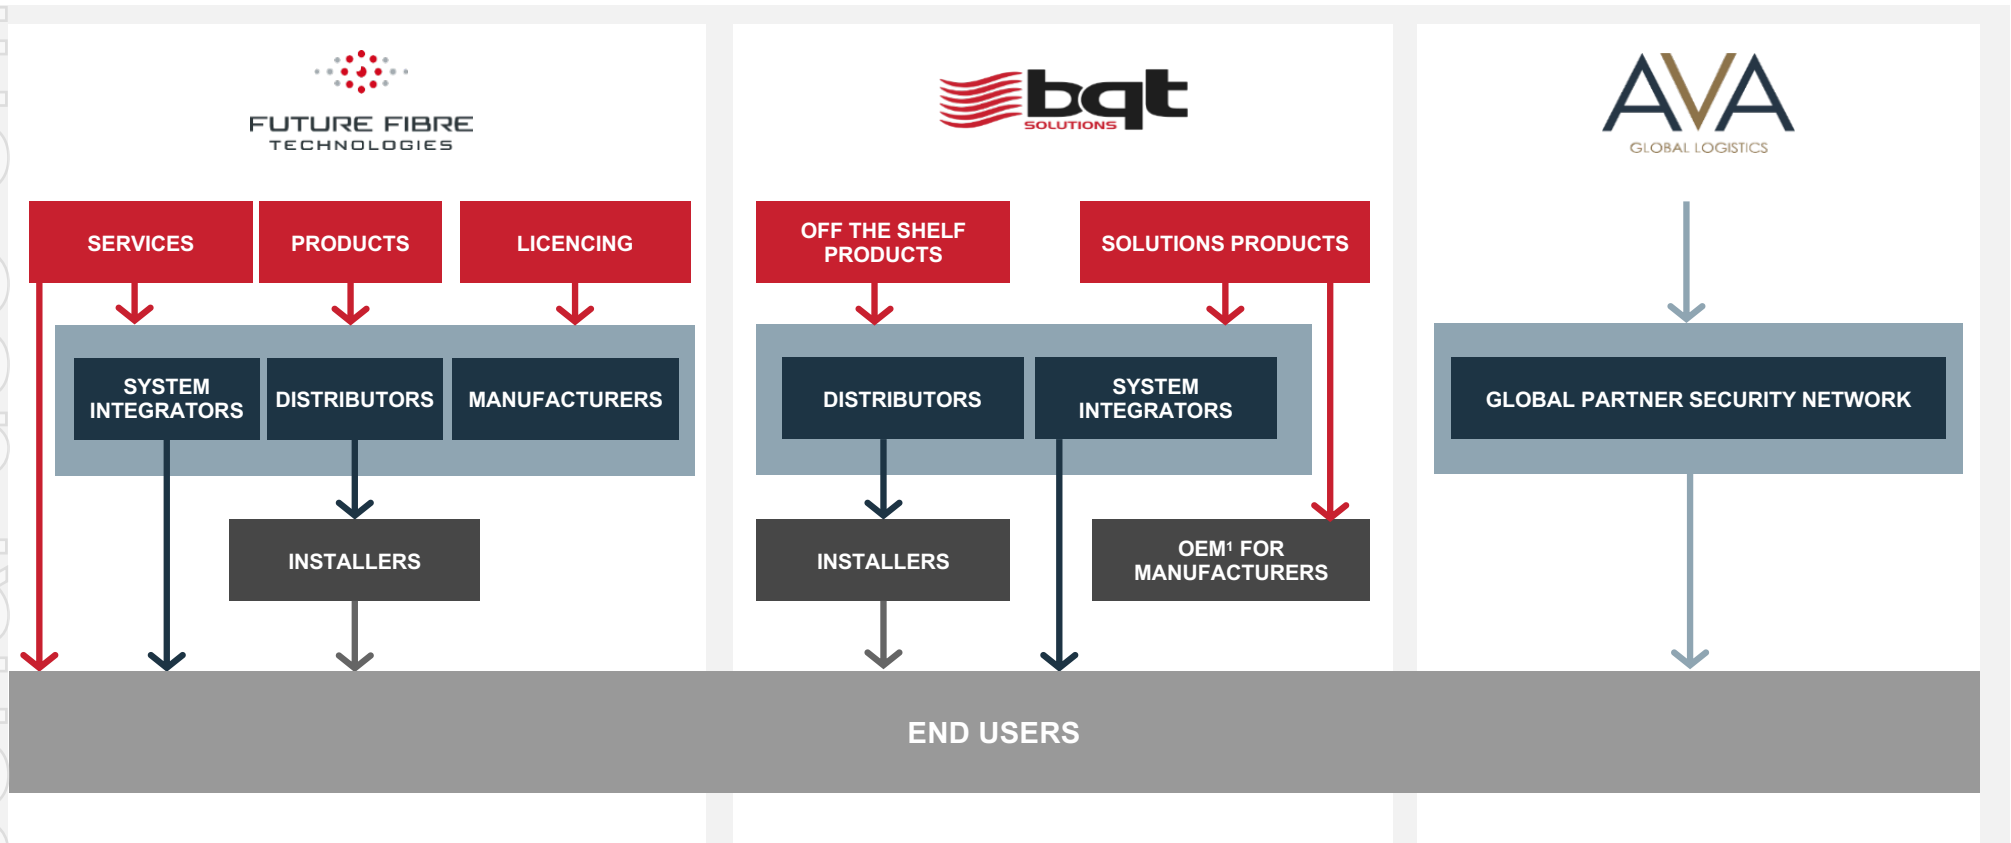

- ▶ Strong uplift in Q1 FY2022 orders, **continuing the momentum** of Q4 FY2021 and building on the \$4.3m FY2021 backlog
- ▶ **Leverage strong base** to grow and close the existing projects sales opportunity pipeline
- ▶ Drive **BQT sales** through key distributor partners in the US and Europe
- ▶ Convert Aura-IQ POV trials to **generate SaaS revenue**, and expand the solution with additional sensing capabilities

- ▶ **Expansion of sales capacity** and revenues in the US
- ▶ Grow **FFT long term contracts** and **recurring revenue** from technology licencing agreements and multi-year support contracts
- ▶ Expand **solution fit and partner programs** to enter and expand in new and growing markets: power cable, transport & Smart Cities

QUESTIONS

APPENDIX

PROVEN GO-TO-MARKET STRATEGIES

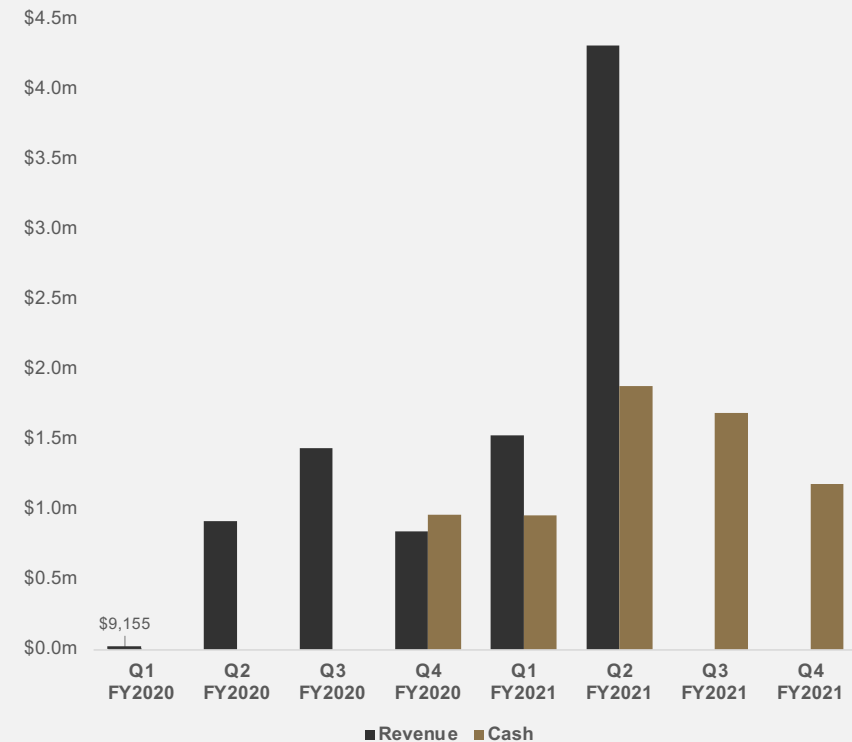

1. Original Equipment Manufacturer

IMoD CONTRACT FOR LICENCING TECHNOLOGY

- Licencing FFT's SecureLink technology to Indian Ministry of Defence (IMoD) via local manufacturing partner
- Licencing model provides low working capital, low risk and high margin go-to-market approach
- **US\$11.9m including tax credits over 3 years**
- Final delivery expected in FY22 following COVID-19 delay
- ~US\$3.4m in additional revenue from 7-year spares and maintenance contract¹
- +40,000km of data communications cables protected (equal to >10x the distance from Perth to Sydney)

Blueprint to win more licencing deals

1. After the initial 3-year warranty period

CONVEYOR HEALTH MONITORING SOLUTION

- World-leading fibre optic technology with advanced signal processing algorithms, reporting and alerts
- Developed in partnership with leading industry research organisation Mining3
- Access to sites for Proof of Value (POV) trials has been volatile as a result of ongoing COVID-19 conditions
- On-boarding customers and sales expected in 1H FY2022
- Cloud platform allows for future enhancements and SaaS opportunities for **recurring revenue stream**
- Partnership agreements with specialist mining technology service providers after POV trials to support sales expansion
- First premium partnership agreement with US Company Strata Worldwide to distribute to mining and tunneling operations

FIBRE OPTIC PRODUCTS FOR INTRUSION DETECTION

- Global leader in advanced fibre optic intrusion detection systems
- Protect critical sites and infrastructure across transport, government, military and utility sectors
- COVID-19 restrictions led to delays in number of major security-related contracts in FY2021
- Backlog and delayed orders of \$5.8m deferred to FY2022
- Strong pipeline of growth opportunities and well positioned to meet pent-up demand
