## TALi FY21 Results

### Global partnership strategy delivering foundations for growth

#### HIGHLIGHTS

- Total revenue and income \$548,905
- Net loss \$4,858,273
- Net cash at bank \$2.73 million as at 30 June 2021 (vs \$3.95 million as at 30 June 2020)
- Strategic Licensing Agreement with global leader Akili Interactive for US market
- Validation of TALi's technology provides foundation for additional global partnerships

TALi Digital Ltd (ASX: TD1, "TALi" or "the Company"), a leading digital health business is pleased to announce its results for the 12-months ended 30 June 2021 (FY21).

#### OPERATIONAL REVIEW

##### Strategic Licencing Agreement with Akili

During FY21 TALi made significant progress toward the progression of its global partnership strategy, delivering on several key milestones and subsequent to the reporting period announcing a Strategic Licensing Agreement (Agreement) for paediatric cognition products in the US market with Akili Interactive Labs, Inc. (Akili). Post the period an agreement was entered into by the parties (see announcement 18 August 2021) under which TALi will receive AUD\$51 million (US\$37.5 million) in total future contingent milestone payments plus royalties on potential revenues.

This Agreement is transformational and highly strategic for TALi given the paediatric cognitive treatment market in the US is the largest in the world. In addition, the Agreement provides significant validation for TALi's technology platform and is expected to provide the foundation for partnerships in other regions.

##### Indian market partnership & rollout

In December 2020, TALi executed an investment and advertising agreement with Brand Capital International (BCI), the strategic arm of Bennett, Coleman and Company Ltd. (The Times Group), to facilitate TALi's entry and growth into the strategically important Indian market.

As part of the agreement, The Times Group invested US\$2 million in TALi to provide funds for the Company to accelerate the roll out of products in India. These funds have been deployed towards TALi's marketing and advertising program in the Indian market through the Times Group's media assets, to allow TALi to grow its direct-to-consumer reach.

Soft-launch activities commenced in the Indian market in April and since this time initial consumer engagement with TALi products has been strong, with over 25,000 downloads from the Google Play store. The full 'live-launch' of the TALi apps and the full roll-out of the print and radio campaigns has been delayed and is scheduled for later in 2021, given the surge in COVID-19 cases throughout India earlier this year.

### Australian market update

Over FY21, TALi initiated a shift towards seeking reimbursement for the TALi solution, which initially focuses on market data collection as opposed to direct revenue generation in order to build a more sustainable and longer-term revenue stream.

Compiling a strong set of data is expected to help progress plans such as the undertaking of a reimbursement submission (Medicare Benefits Scheme [MBS] and/or Pharmaceutical Benefits Scheme [PBS]) for TALi to be potentially listed on the MBS and/or PBS in Australia. The Company expects real world data collected from its initial Australia roll-out combined with clinical development data from trials undertaken by Duke Clinical Research Institute in the US, under its Agreement with Akili, to support the Australian market process.

### Financial review

TALi reported a loss for the year ended 30 June 2021 of \$4,858,273 (30 June 2020: \$3,397,938) attributable to the following:

- Revenue from continuing operations \$34,238 in FY21 (FY20: \$47,229). This was a result of a decline in revenue from the sale of licences in the Australian market in-line with TALi's revised strategic focus to seek reimbursement (rather than drive immediate sales);
- Advertising and promotion expenses of \$885,247 (FY20: \$342,132) largely associated with TALi's soft-launch entry into the Indian market via its advertising agreement with The Times Group. As at 30 June 2021 the Company has \$1,973,180 in prepaid advertising credits with The Times Group, which will be utilised as the Company executes its Indian advertising and marketing plan;
- Personnel expenses excluding share-based payment expense of \$2,191,833 (FY20: \$1,841,093) impacted by staff restructuring costs as the Company looks to streamline its operations; and
- Contract research and development expense of \$233,632 (FY20: \$36,427 benefit) largely associated with a one-off payment to Duke Clinic Research Institute to support negotiation of the Akili Agreement.

The Company continues to pursue non-dilutive funding including government funded incentive programs such as the R&D Tax Incentive (RDTI) and the Export Market Development Grant (EMDG). At 30 June 2021 the Company has a receivable for the estimated RDTI refund for the year ended 30 June 2021 of \$795,874 (2020: \$682,348) and during the year the Company received an EMDG of \$100,000 (2020: Nil).

The Company's cash at bank as at 30 June 2021 was \$2,726,518 providing the Company with sufficient funding to continue to pursue growth via its international partnership model. In February, TALi received strong support from new and existing shareholders raising \$3.85 million, with funds raised partly used to support TALi's recent entry into the US market via its Agreement with Akili.

The Company highlights that the impact of the COVID-19 pandemic and associated measures (e.g., travel restrictions, lockdowns, remote work and social distancing) has been of a significant nature to the operations of TALi. This has been reflected in the delayed timing of execution of the agreement between TALi and Akili to progress the medical use of the TALi technology. Similarly, the re-scheduling of launch activities for the non-medical use (consumer and education channels) of the TALi technology in India has been necessary.

## Outlook

In FY22, TALi is focussed on progressing the Company's partnership growth strategy. Commercial discussions are ongoing with potential partners in a range of international markets including Japan and South Korea.

This ongoing work, as well as the commencement of Akili partnership activities such as the clinical development program in the current calendar year, ensures the Company is well positioned to progress its growth strategy.

## About TALi Digital

TALi [TALi Digital Limited (ASX: TD1)] is a digital health company delivering diagnostic and therapeutic solutions for cognitive function and behaviour. The Company has built a platform technology, the first iteration of which targets cognitive attention skills during early childhood through its evidence and video-gamed-based TALi screening (DETECT®) and training (TRAIN®). This first to market and user experience focused technology is complementary to existing diagnosis and therapy placing TALi at the forefront of patient experience and early intervention thus positioning the business as an ideal partner in the global digital health sector.

Innovations that target cognitive skills to deliver non-invasive early interventions underpin the TALi platform technology. This innovation focus is allowing the Company to deliver a series of product developments in ADHD (Attention Deficit Hyperactivity Disorder) and ASD (Autism Spectrum Disorder) for predictive diagnosis and treatment for all age groups along with a core research program exploring applications for populations afflicted with Mild Cognitive Decline (MCI has been found to often been a precursor to recognizing Alzheimer's disease and other forms of dementia). TALi solutions aim to deliver foundational advances in human cognitive function and behaviour only dreamt of a few short years ago.

At TALi, our vision is to create personalised **game** changing experiences to enhance cognitive function and behaviour from any digital device. Learn more at [talihealth.com.au](https://talihealth.com.au).

## Part 10 – Commentary on Results

The Company reported a loss for the year ended 30 June 2021, after accounting for income tax benefit, of \$4,858,273 (2020: \$3,397,938). The year ended 30 June 2021 operating results are attributed to the following:

- Total revenues and income of \$548,905 (2020: \$621,944)
- Personnel expenses excluding share-based payment expense of \$2,191,833 (2020: \$1,841,093)
- Depreciation of plant property and equipment of \$224,550 (2020: 218,618); and
- Amortisation of intangible assets \$316,951 (2020: \$330,295)

The Company has cash reserves as at 30 June 2021 of \$2,726,518 (2020: \$3,945,408). The decrease in cash reserves was driven largely by net operating outflows of \$5,798,046 including \$2.6million (US\$2million) to the Times Group for prepaid advertising credits (2020: \$2,717,938). This was partially offset by net cashflows from financing activities of \$6,167,291 (2020: \$7,036,217) which includes funds received from capital raised during the financial year.

The Company has no bank debt at 30 June 2021 (2020: \$ nil).
