DIFFERENCE**

IGO Limited FY21 Results Presentation

31 August 2021

Cautionary Statements & Disclaimer

- This presentation has been prepared by IGO Limited ("IGO") (ABN 46 092 786 304). It should not be considered as an offer or invitation to subscribe for or purchase any securities in IGO or as an inducement to make an offer or invitation with respect to those securities in any jurisdiction.
- This presentation contains general summary information about IGO. The information, opinions or conclusions expressed in the course of this presentation should be read in conjunction with IGO's other periodic and continuous disclosure announcements lodged with the ASX, which are available on the IGO website. No representation or warranty, express or implied, is made in relation to the fairness, accuracy or completeness of the information, opinions and conclusions expressed in this presentation.
- This presentation includes forward looking information regarding future events, conditions, circumstances and the future financial performance of IGO. Often, but not always, forward looking statements can be identified by the use of forward-looking words such as "may", "will", "expect", "intend", "plan", "estimate", "anticipate", "continue" and "guidance", or other similar words and may include statements regarding plans, strategies and objectives of management, anticipated production or construction commencement dates and expected costs or production outputs. Such forecasts, projections and information are not a guarantee of future performance and involve unknown risks and uncertainties, many of which are beyond IGO's control, which may cause actual results and developments to differ materially from those expressed or implied. Further details of these risks are set out below. All references to future production and production guidance made in relation to IGO are subject to the completion of all necessary feasibility studies, permit applications and approvals, construction, financing arrangements and access to the necessary infrastructure. Where such a reference is made, it should be read subject to this paragraph and in conjunction with further information about the Mineral Resources and Ore Reserves, as well as any Competent Persons' Statements included in periodic and continuous disclosure announcements lodged with the ASX. Forward looking statements in this presentation only apply at the date of issue. Subject to any continuing obligations under applicable law or any relevant stock exchange listing rules, in providing this information IGO does not undertake any obligation to publicly update or revise any of the forward-looking statements or to advise of any change in events, conditions or circumstances on which any such statement is based.
- There are a number of risks specific to IGO and of a general nature which may affect the future operating and financial performance of IGO and the value of an investment in IGO including and not limited to economic conditions, stock market fluctuations, commodity demand and price movements, access to infrastructure, timing of environmental approvals, regulatory risks, operational risks, reliance on key personnel, reserve and resource estimations, native title and title risks, foreign currency fluctuations and mining development, construction and commissioning risk. The production guidance in this presentation is subject to risks specific to IGO and of a general nature which may affect the future operating and financial performance of IGO.
- All currency amounts in Australian Dollars unless otherwise noted.
- Net Debt is outstanding debt less cash balances and Net Cash is cash balance less outstanding debt.
- Cash Costs are reported inclusive of Royalties and after by-product credits on per unit of payable metal basis, unless otherwise stated.
- IGO reports All-in Sustaining Costs (AISC) per ounce of gold for its 30% interest in the Tropicana Gold Mine using the World Gold Council guidelines for AISC. The World Gold Council guidelines publication was released via press release on 27 June 2013 and is available from the World Gold Council's website.
- Underlying EBITDA is a non-IFRS measure and comprises net profit or loss after tax, adjusted to exclude tax expense, finance costs, interest income, asset impairments, gain/loss on sale of subsidiary and Tropicana, redundancy and restructuring costs, depreciation and amortisation, once-off transaction costs, and foreign exchange and hedging gains/losses attributable to the acquisition of Tianqi.
- Free Cash Flow comprises Net Cash Flow from Operating Activities and Net Cash Flow from Investing Activities. Underlying adjustments exclude acquisition costs, proceeds from investment sales including the Tropicana Operation, and payments for investments and mineral interests.

Our Transformation

We have transformed our business and the way we work

Transformed Outlook

Historic and Projected EBITDA (A\$M)¹

Transformed Culture

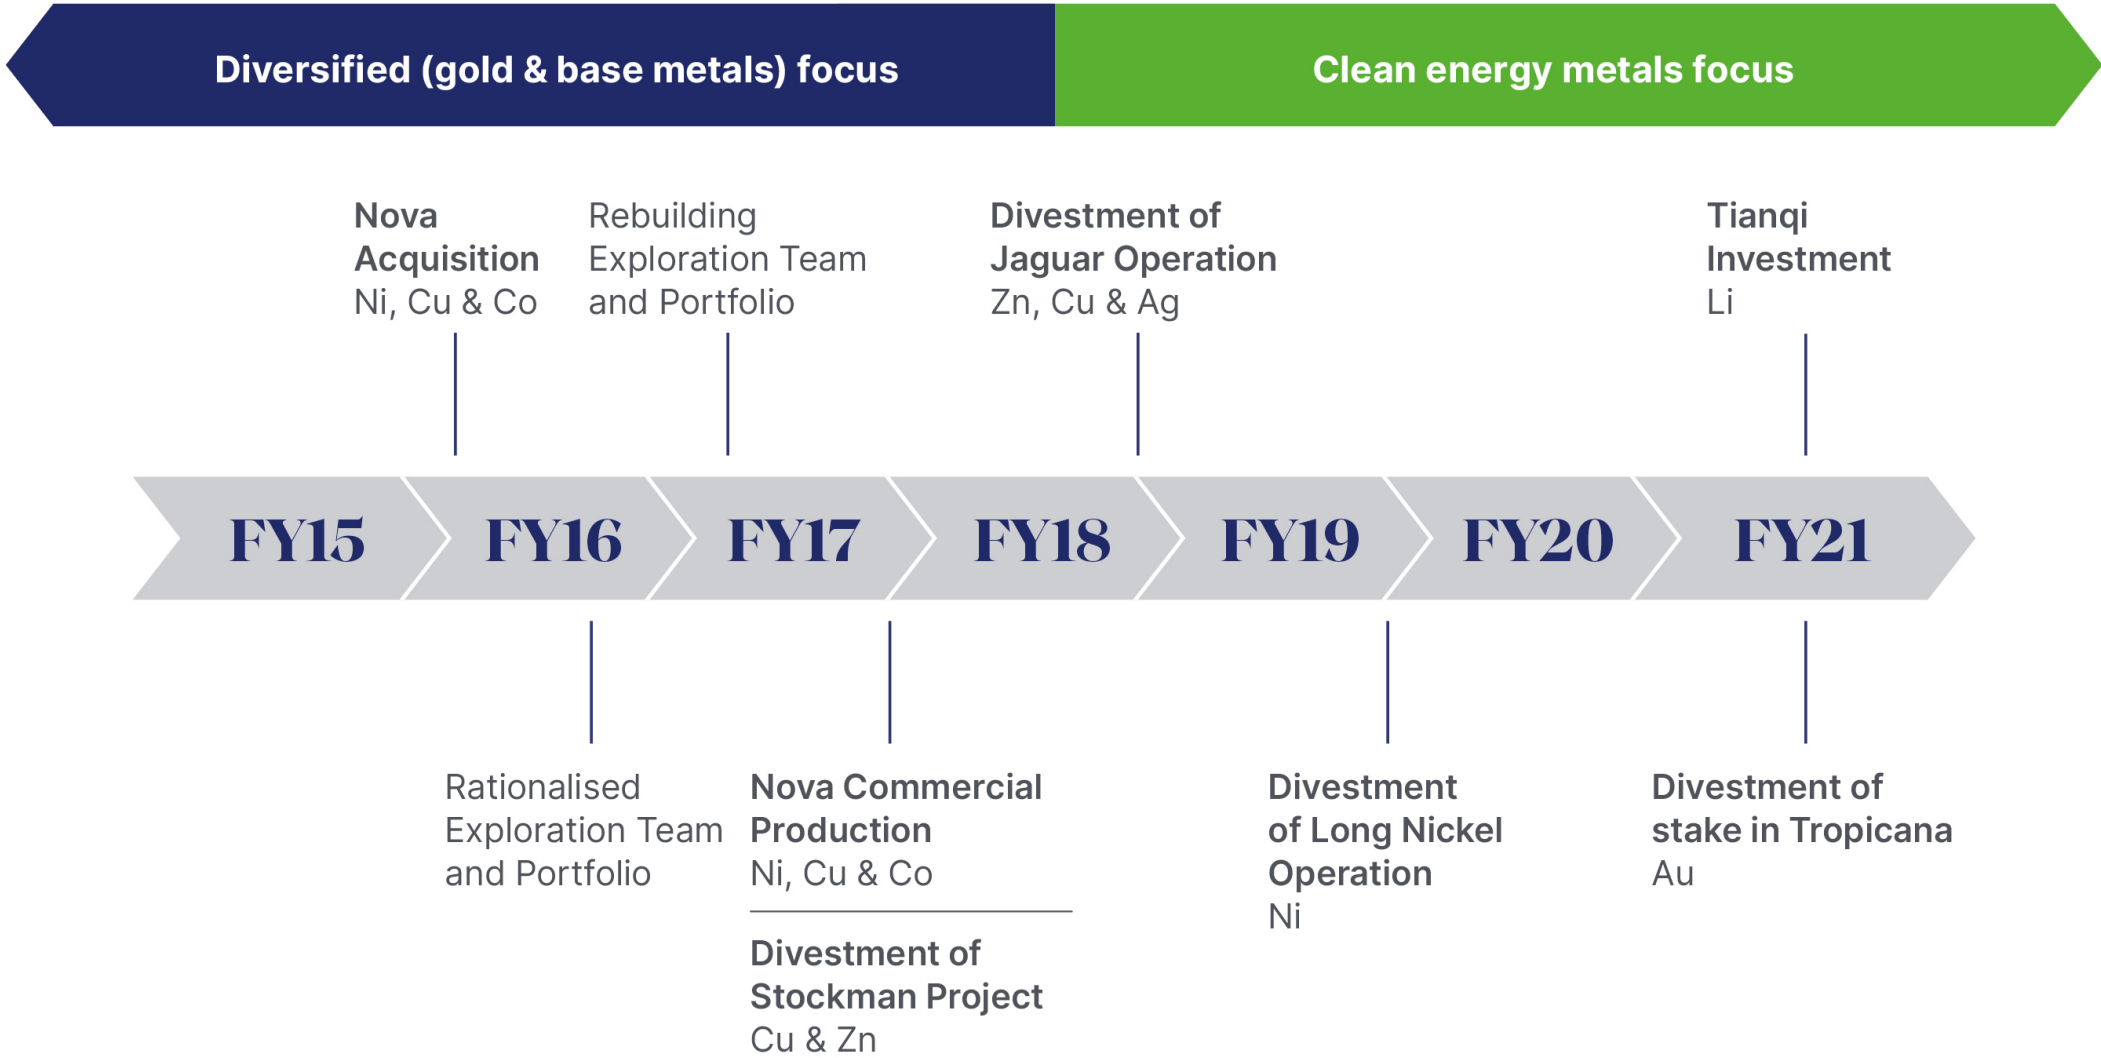

Transformed ESG

1. Source: Macquarie Research

Our Journey

Deliberate transformation of our business to focus on clean energy metals

Our Strategy

Our Purpose, Making a Difference, has underpinned our strategy

Our winning aspiration is to be a globally relevant supplier of products that are critical to clean energy, to create a better planet.

DIVERSE SUITE OF PRODUCTS

Made safely, ethically, sustainably and reliably

CUSTOMER FOCUSED

Connecting with end users through vertical integration

CARBON NEUTRAL

Committing to carbon neutrality across our business

PEOPLE

People who are bold, passionate, fearless and fun
– a smarter, kinder, more innovative team

FY21 Highlights

Strong operational & financial performance | Clean energy metals transition complete

Nova production better than guidance and cash costs well below guidance

Completion of transformational lithium transaction with Tianqi

Divestment of Tropicana to Regis Resources for A\$889M¹

FY21 Financial Results Summary

| | |
|----------------------|---------------------------------|
| Revenue ² | A\$919M (▲ 3% vs FY20) |
| Underlying EBITDA | A\$475M (▲ 3% vs FY20) |
| NPAT ³ | A\$549M (▲ 254% vs FY20) |
| Underlying FCF | A\$363M (▲ 17% vs FY20) |
| Net Cash | A\$529M |

1. Net proceeds after completion adjustments, offset by selling costs and close out of gold hedge book, was A\$862M
2. Includes Other Income
3. NPAT includes gain on sale of the Tropicana Operation of A\$385M after tax

FY21 Results

Record results across all key financial metrics

1. Includes Other Income
2. Statutory NPAT of A\$549M includes gain on sale of the Tropicana Operation of A\$385M after tax. Profit after Tax excluding this gain was A\$164M.

FY21 Cash Flow

Balance sheet strength maintained post transformational transactions

FY21 Cash Flow Waterfall

FY21 Dividend & Capital Management

Final fully franked dividend in line with revised Shareholder Returns Policy

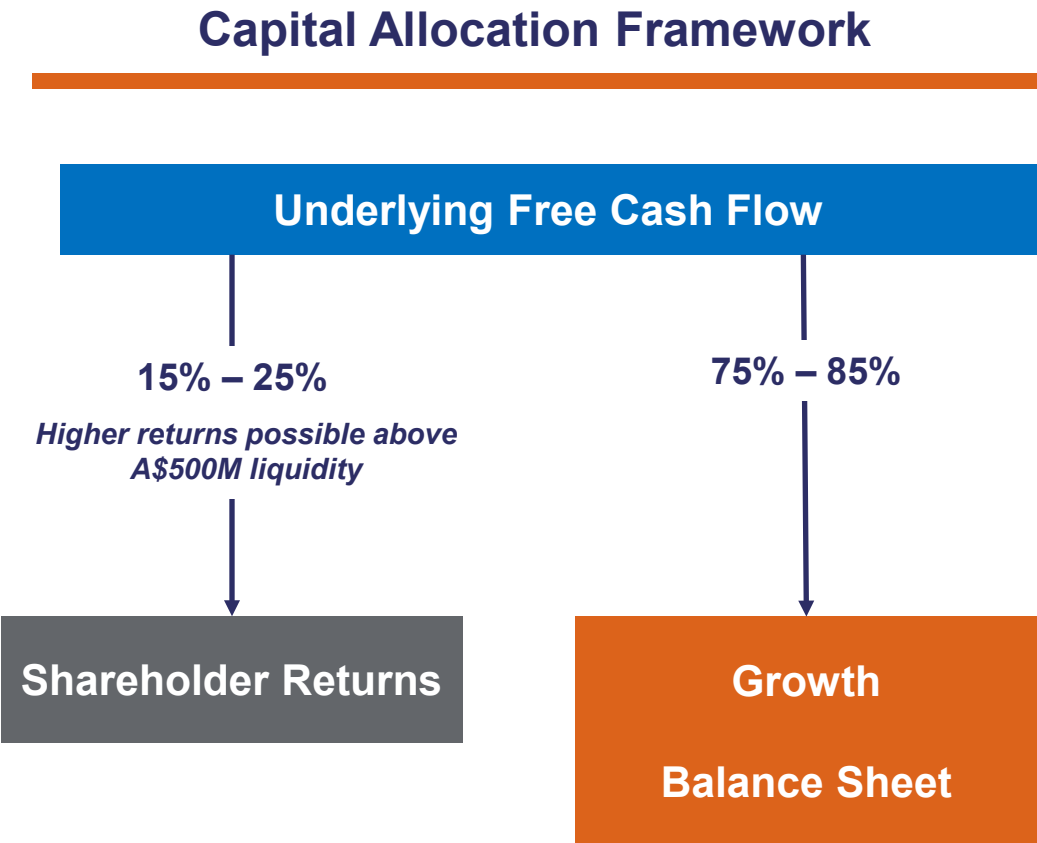

personal use only

Revised Shareholder Returns Policy

Final Dividend declared
10c per share fully franked

IGO building its franking account in FY22
enabling current and future frankable
dividends to shareholders

Metal production and cash costs all better than guidance

| Production & Costs | FY21 Result | FY21 Guidance |
|--------------------------------|-------------|--------------------------------|
| Nickel in concentrate (t) | 29,002 | 27,000 – 29,000 |
| Copper in concentrate (t) | 13,022 | 11,000 – 12,500 |
| Cobalt in concentrate (t) | 1,084 | 850 – 950 |
| Cash Costs (A\$/lb Ni payable) | A\$1.85 | A\$2.40 – A\$2.80 ¹ |

1. Revised to A\$1.80 – A\$2.10 in 3Q21 Quarterly Activities Report on 28 April 2021

| Segment Financials | FY21 Result |
|----------------------------------|-------------|
| Underlying EBITDA | A\$436M |
| Underlying EBITDA Margin | 65% |
| Underlying Free Cash Flow | A\$393M |
| Underlying Free Cash Flow Margin | 59% |

Nova Production & Cash Costs

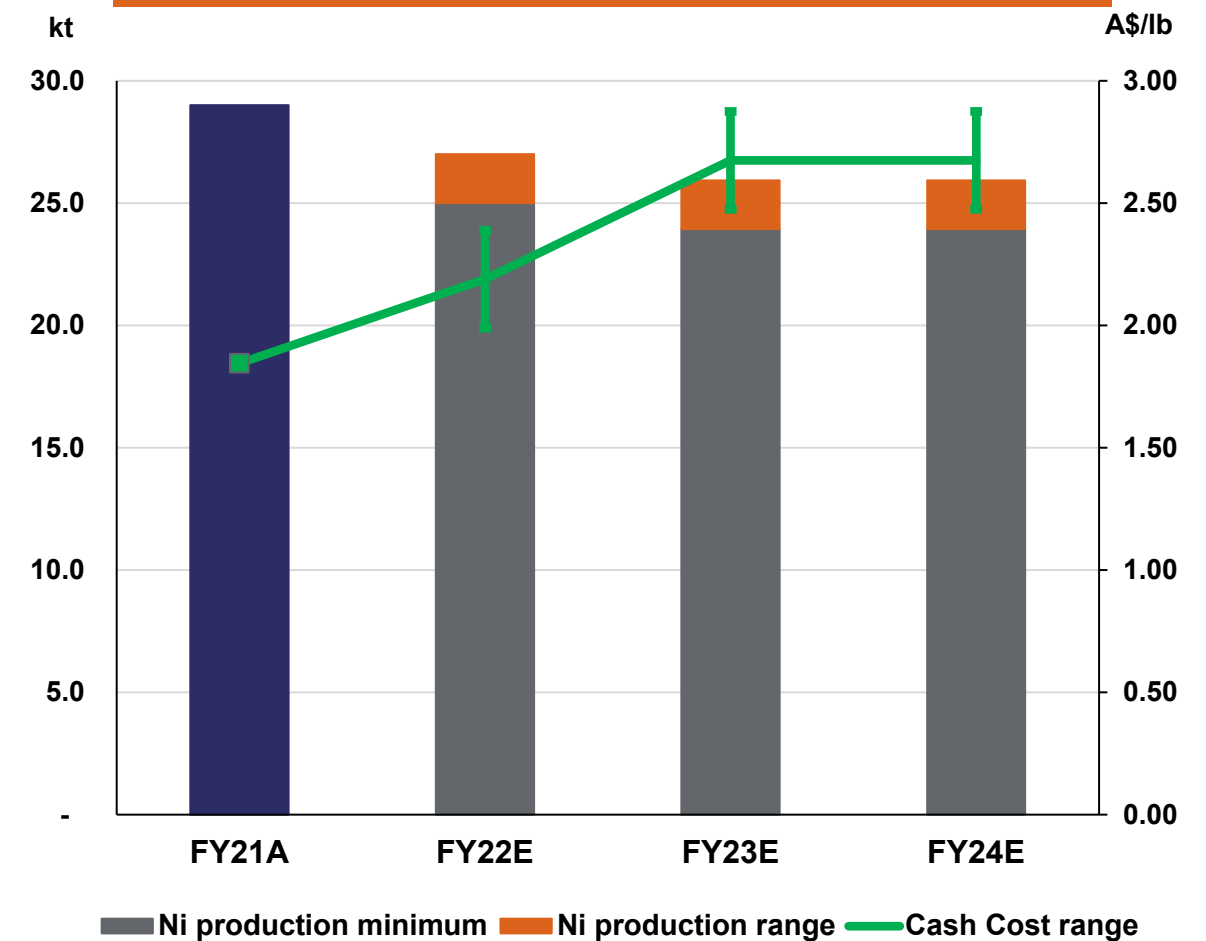

Nova Financial Performance

FY22 Nova Guidance

| Metric | Units | FY22 Guidance |
|------------------------------|-----------|------------------|
| Nickel in concentrate | t | 25,000 to 27,000 |
| Copper in concentrate | t | 11,500 to 12,500 |
| Cobalt in concentrate | t | 900 to 1,000 |
| Cash cost (payable) | A\$/lb Ni | 2.00 to 2.40 |
| Sustaining/improvement capex | A\$M | 19 to 22 |
| Development capex | A\$M | 5 to 7 |

FY22-24 Nova Guidance¹

1. Directional guidance based on consensus commodity price forecasts

**Divestment to Regis Resources
for A\$889M**

**Successful partnership with
AngloGold Ashanti over ~20 years**

**Completes transformation to be
100% clean energy metals focused**

FY21 Production and Cost Results¹

| Metric | Units | Result |
|----------------------|--------|---------|
| Gold produced (100%) | oz | 364,751 |
| Gold Sold (IGO 30%) | oz | 110,402 |
| Cash cost | A\$/oz | 1,081 |
| AISC | A\$/oz | 1,720 |

¹ Results reflect the year-to-date until 31 May 2021.

Lithium Joint Venture

Transformational transaction to form global lithium joint venture with Tianqi¹

**First lithium hydroxide
successfully produced at Kwinana**

**Greenbushes expansion projects
continuing (CGP2 + TRP)**

**Developing disclosure framework
with joint venture partners**

1. Tianqi Lithium Corporation.

Building our clean energy metals business

Execute on Lithium JV growth opportunities

**Continue delivering
operational excellence at Nova**

**Maintain our commitment to unlocking value
through exploration and discovery**

Continue to invest in growth and people

Accelerate our response to climate change

MAKING A DIFFERENCE

We believe in a world where people power makes amazing things happen. Where technology opens up new horizons and clean energy makes the planet a better place for every generation to come.

We are bold, passionate, fearless and fun – a smarter, kinder, more innovative company. Our work is making fundamental changes to the way communities all over the world grow, prosper and stay sustainable.

Our teams are finding and producing the specialist metals that will make energy storage mobile, efficient and effective enough to make long-term improvements to the lifestyle of hundreds of millions of people across the globe.

How? New battery storage technology is finally unleashing the full potential of renewable energy by allowing power produced from sun, wind and other sources to be stored and used when and where it's needed.

This technology will impact future generations in ways we cannot yet imagine, improving people's quality of life and changing the way we live.

We believe in a green energy future and by delivering the metals needed for new age batteries, we are making it happen.

This is the IGO Difference.
