This Interim Financial Report does not include all the notes of the type normally included in an Annual Financial Report. Accordingly, this report is to be read in conjunction with the Annual Report for the year ended 31 December 2020 and any public announcements made by Fluence Corporation Limited during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*. This report remains subject to finalisation of the audit review. Refer to ASX Appendix 4D footnote for details of the extension of time for lodgement of the audit reviewed Interim Financial Report.

Directors' Report

The Directors present their report, together with the financial statements for the six months ended 30 June 2021 (H1 2021) of Fluence Corporation Limited ("Fluence", the "Company" or the "Group") subject to finalisation of the auditor's review. Please note that unless otherwise stated, all figures are in US Dollars.

Directors

The following persons held office as Directors of Fluence Corporation Limited during or since the end of the financial year and for the whole of the period unless otherwise stated:

Mr Richard Irving, Chairman and Chief Executive Officer (CEO)
Mr Paul Donnelly, Non-Executive Director
Ms Samantha Tough, Non-Executive Director
Mr Ross Haghighat, Non-Executive Director
Dr Rengarajan Ramesh, Non-Executive Director
Mr Arnon Goldfarb, Non-Executive Director (retired on 7 January 2021)

Review of operations

Fluence's strategy is to focus on the following:

- MABR Smart Products Solutions ("SPS") for wastewater treatment and reuse in China and Southeast Asia;
- NIROBOX™ SPS for desalination in the Middle East and Southeast Asia;
- Recurring revenue opportunities implemented with SPS in the US and Caribbean targeting water as a service to commercial customers; and
- Executing the Ivory Coast Water Treatment Project.

Fluence has continued its strategy of shifting from Custom Engineered Solutions ("CES") to become a global leader in decentralised SPS and recurring revenue offering, each of which offer higher margins. This shift is reflected in the revenue mix in H1 2021 where SPS revenue comprises 57% of total revenue excluding the Ivory Coast project.

As a result of the new strategy, the Company is exiting businesses that no longer fit within this focus, including the anaerobic digestion business in Italy and the Group's operations in Peru (which both have been classified as assets held for sale).

For more information on the effect of this classification on the financial results, please refer to note 5 to the interim Financial Statements. The numbers for H1 2020 were adjusted to reflect the classification of those activities as Held for Sale and Discontinued Operations.

H1 2021 saw Fluence continue its strategy of growing SPS sales and increasing the recurring revenue base. Despite challenging trading business conditions due to the global COVID-19 pandemic and an overall slowing of momentum in its markets, Fluence achieved several key milestones, including:

Review of operations (continued)

- Total operating revenue from continuing operations of \$39.7 million (H1 2020: \$53.7 million), overall H1 2021 revenue were lower than H1 2020 due to the delivery of the engineering package to the client in Ivory Coast in Q1 2020;
- Grew SPS sales 12% in H1 2021 from H1 2020 despite continued COVID-19 headwinds, including selling and commissioning a NIROBOX™ plant in Taiwan, commissioning a large MABR plant in Cambodia, and selling further MABS plants in the US and Israel;
- Service revenue from continuing operations of \$3.5 million (H1 2020: \$2.4 million);
- Overhead costs down 9% to \$9.9 million (H1 2020 \$10.9 million);
- Generated positive operating cashflow of \$13 million in Q2 2021 and operating cash flow positive for the twelve months ended 30 June 2021 by \$19.6 million;
- 34 MABR plants sold in H1 2021, for a total of 281 MABR plants sold to date in 11 countries, with the capacity to treat wastewater to very high quality for 750,000 people;
- Delivered a total of 30 MABR plants in China, with 25 plants bought by existing volume partners with one each sold to five new partners; and
- Ivory Coast project continues on budget and meeting quality targets.

Smart Products Solutions (SPS)

Fluence sold 34 MABR plants bringing the global total sold to 281 MABR plants. Of the MABR sales this year, 25 were bought by existing China volume partners Three Gorges Group for the Great Protection of Yangtze River ("Three Gorges"), Aerospace Kaitian Environmental Protection Technology Co., Ltd. ("Kaitian"), Beijing China Railway Science New Technology Co. Ltd. ("China Rail"), Hubei ITEST and Liaoning Huahong. Both Three Gorges and China Rail are state owned enterprises ("SOE's") with national scope. Fluence continues to progress partnerships with a total of five (5) MABR plants sold in China to five (5) new partners. Existing and prospective China partners, particularly those with national scope, are key to our future growth.

SPS revenue grew 12% to \$10.4 million (H1 2020: \$9.3 million). SPS backlog at the end of H1 2021 was \$18.7 million excluding anticipated additional bookings from volume framework agreements with Kaitian, Hubei ITEST and Liaoning Huahong.

The first MABR plant in Sihanoukville, Cambodia has been commissioned and is expected to start operations in September. The plant is the first biological treatment plant of any kind in the country with capacity to treat wastewater for 60,000 people. This reference will facilitate discussions for new projects in Cambodia.

In the 2nd quarter, three (3) MABR plants were sold in the US, bringing the US total to 10. A SUBRE plant was sold in Israel to be installed at an important Christian pilgrimage site.

A total of 281 MABR plants have now been sold in 11 countries with collective capacity to treat wastewater for 750,000 people. Fluence believes it is the clear market leader with its MABR technology as the Company estimates that the two other MABR suppliers only have a combined 15 plants in commercial operation.

Fluence sold 3 NIROBOX™ units to drought-stricken Taiwan and commissioned the plant within 8 weeks of the order being placed for a total price of \$2.4 million. The units are now operating at their intended capacity in Taichung, converting sea water into enough fresh water to meet the needs of up to 30,000 people. Fluence's partner, ADE Corporation, facilitated the order from the Water Resources Agency, which is part of the Ministry of Economic Affairs of Taiwan. The Company also sold its first Niroflex product in Nicaragua.

The NIROBOX™ SPS and related desalination products are well established in the international market with 120 units sold to date.

Recurring Revenue and aftermarket

Recurring revenue from continued operations in H1 2021 amounted to \$3.5 million, of which \$0.6 million was generated by the Bimini plant, with the balance related to the aftermarket activities.

Review of operations (continued)

The Peru BOOT project is no longer in line with the Company's strategy to target the US and Caribbean for sales of water. As such, the Peruvian entity and project is now classified as an Asset Held for Sale.

Custom Engineered Solutions (CES)

Fluence continued to progress the Ivory Coast Project, recognising \$21.5 million in revenue in H1 2021, and a total of \$58.0 million in revenue since inception to date. Overall H1 2020 revenues were higher due to the delivery of the engineering package to the client in Ivory Coast in Q1 2020. In H1 2021 Ivory Coast executed on budget providing key revenue, profit and cash to Fluence as we transition to revenues dominated by SPS. Ivory Coast revenue is now being recognized as project costs are incurred (over time). These were modest in H1 2021 as the construction started and are anticipated to be higher in H2 2021 and for the remainder of the project until completion in Q1 2023.

Other CES revenue in H1 2021 included \$2.2 million in South America and \$2.0 million in Middle East related to New Mansoura.

In regard to the San Quintin, Mexico project, Fluence and the State Water Commission of Baja California ("CEA") reached an agreement to mutually terminate the contract. Negotiations continue towards finalising the mutual termination.

Review of financial results

The Group has used United States Dollars (US\$), as its presentation currency in the attached financial report, which conforms to IFRS accounting standards.

The revenue from ordinary activities from continued operations for the six months ended 30 June 2021 was \$39,694,000 (2020: \$53,654,000) and the loss from ordinary activities from continued operations before tax was \$7,996,000 (2020: profit of \$3,319,000).

Cost of sales from continued operations for the six months ended 30 June 2021 decreased to \$32,104,000 (2020: \$35,288,000).

Research and development expenses for the six months ended 30 June 2021 increased to \$1,921,000 (2020: \$1,603,000). This is in line with budget and product development costs for the China MABR, SUBRE and other wastewater treatment technologies.

The Group's net assets decreased by \$12,092,000 to \$18,380,000 on 30 June 2021 from \$30,472,000 in the corresponding period.

Significant changes in the state of affairs

During H1 2021, there was no significant change in the state of affairs of the Company.

Significant events after balance date

No matter or circumstance has occurred subsequent to period end that has significantly affected, or may significantly affect, the operations of the Group, the results of those operations or the state of affairs of the Group or economic entity in subsequent financial periods.

Rounding of amounts

The amounts contained in the Directors' Report and in the Financial Report have been rounded to the nearest \$1,000 (where rounding is applicable) under the option available to the Company under ASIC Corporations (Rounding in Financial/Directors' Report) Legislative Instrument 2016/191. The Company is an entity to which the Legislative Instrument applies.

Fluence Corporation Limited

11

1 General information and basis of preparation

These Interim Financial Statements (the Interim Financial Statements) of the Group are for the six months ended 30 June 2021 and are presented in United States Dollars, which is the Group's presentation currency. These general purpose Interim Financial Statements have been prepared in accordance with the requirements of AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*. They do not include all of the information required in Annual Financial Statements in accordance with Australian Accounting Standards, and should be read in conjunction with the financial statements of the Group for the year ended 31 December 2020 and any public announcements made by the Group during the half-year in accordance with continuous disclosure requirements arising under the Australian Securities Exchange Listing Rules and the *Corporations Act 2001*.

The Interim Financial Statements have been approved and authorised for issue by the board of directors on 31 August 2021.

2 Going concern

The financial statements have been prepared on the going concern basis which assumes the consolidated entity will have sufficient cash to pay its debts, as and when they become payable, for a period of at least 12 months from the date the financial report was authorised for issue.

As at 30 June 2021 the Group had cash and cash equivalents of \$23,663,000. In addition to that the Company had \$35,013,000 in short-term and long-term liquid investments.

The consolidated entity has prepared a cash flow forecast supported by detailed assumptions and scenario planning directed to sustaining business growth. These forecasts indicate that the consolidated entity expects to have sufficient funds to support its ongoing operations for a period of 12 months from the date the financial report was authorised for issue.

As at 30 June 2021, the Group had a substantial contracted sales backlog of US\$175 million predominantly due to the Ivory Coast project. Accordingly, the Group expects to earn significant revenue over the next 12 months and beyond. The resulting net cash flows associated with this revenue will provide further working capital to the consolidated entity.

The spread of the COVID-19 pandemic ("COVID-19") presented Fluence, and most businesses around the world, with extraordinary challenges. COVID-19 continues to cause disruption in some of the geographies in which Fluence operates, slowing down new orders as sales conversion has become more difficult with limited face-to-face meetings.

Fluence activities in other geographies continue to secure profitable orders while exploring partnerships to grow sales.

3 Significant accounting policies

The Interim Financial Statements have been prepared in accordance with the same accounting policies adopted in the Group's last Annual Financial Statements for the year ended 31 December 2020.

The accounting policies have been applied consistently throughout the Group for the purposes of preparation of these Interim Financial Statements. The principal accounting policies adopted are consistent with those of the previous accounting period and corresponding interim reporting period, unless stated otherwise.

Revision to Consolidated Statement of Financial Position as at 31 December 2020

Current and Non-current lease liabilities previously included in "Trade and other payables and other liabilities" were reclassified to "Borrowings". As a result of this reclassification, for the period ended 31 December 2020, Current borrowings increased by \$1,409,000 to \$3,287,000 and Non-current borrowings increased by \$5,335,000 to \$25,160,000.

3 Significant accounting policies (continued)

Rounding of amounts

The amounts contained in the Directors' Report and in the Financial Report have been rounded to the nearest \$1,000 (where rounding is applicable) under the option available to the Company under ASIC Corporations (Rounding in Financial/Directors' Report) Legislative Instrument 2016/191. The Company is an entity to which the Legislative Instrument applies.

4 Segment information

The Group identified two primary reporting segments based on the internal reports that are reviewed by the Managing Director and Chief Executive Officer (who is identified as the Chief Operating Decision Maker (CODM)). The internal reports reviewed by the CODM assess performance and determine the allocation of resources.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.

The Group's operating segments are:

- Operating Units (OUs) - These are defined as the operating entities of the Group that earn revenues and incur expenses that are reviewed by the CODM and where discrete financial information is available. OUs include the Group's entities in Argentina, Italy, Israel, USA, China and Middle East. The OUs are aggregated into a single operating segment on the basis that the OUs are similar in each of the following respects:

- nature of the products and services;
- nature of the production processes;
- type or class of customer for their products and services;
- methods used to distribute their products or provide their services; and
- nature of the regulatory environment

- Product and Innovation Group (P&I) - Defined as the Research and Development vehicle of the Group.

Intersegment transactions

Intersegment transactions are made at market rates. Intersegment transactions are eliminated on consolidation.

5 Assets and liabilities classified as held for sale and discontinued operations

(a) Discontinued operations and assets classified as held for sale

(i) Description

During the six months ended 30 June 2021, the Company classified its operations in Italy and Peru as Held for Sale and operations in Mexico as discontinued operations. Those operations have met the conditions of AASB 5, management is committed to a plan to sell, the asset is available for immediate sale, an active program to locate a buyer is initiated, the sale is highly probable within 12 months, the asset is being actively marketed for sale, and actions required to complete the plan indicate that it is unlikely that plan will be significantly changed or withdrawn.

(ii) Financial performance and cash flow information

The financial performance and cash flow information presented are for the six months ended 30 June 2021.

As of 30 June 2021, 8,814,450 of the options under the Company's employee share option plan have vested.

(i) Fair value of options granted

For the options granted during the current financial period, the valuation model inputs used to determine the fair value at the grant date are outlined below:

8 People cost (continued)

2021

Grant date	Expiry Date	Share price at grant date (AU\$)	Exercise Price (AU\$)	Dividend yield	Risk-free interest rate	Fair value at grant date (US\$)
6 April 2021	30 August 2024	0.245	0.23	Nil	0.22%	0.0814
6 April 2021	31 May 2025	0.245	0.23	Nil	0.44%	0.0875
25 June 2021	25 June 2025	0.190	0.23	Nil	0.67%	0.0540
25 June 2021	25 August 2025	0.190	0.23	Nil	0.71%	0.0608
25 June 2021	30 June 2022	0.190	0.29	Nil	0.00%	0.0173

The weighted average remaining contractual life of options outstanding at year-end was 2.21 years.

The fair value of the options granted to employees is considered to represent the value of the employee services received over the vesting period.

The weighted average fair value of options granted during the year was \$0.0867. These values were calculated using the binomial lattice, based on the Cox, Ross Rubinstein (1979) method applying the following inputs:

Weighted average exercise price: \$0.59
Expected share price volatility: 65%

Expenses arising from share-based payment transactions

	Consolidated entity	
	30 June 2021 \$'000	30 June 2020 \$'000
Share based payment expense		
Consultant share based payments	26	23
Employee share based payments	111	(479)
Director share based payments	478	383
	615	(73)

9 Earnings/(loss) per share

(a) (Loss) / profit per share from continuing operations

	Consolidated entity	
	30 June 2021 \$'000	30 June 2020 \$'000
(Loss) / profit per share from continuing operations		
(Loss) / profit after income tax	(8,412)	2,654
Non-controlling interest	34	33
(Loss) / profit after income tax from continuing operations attributable to the ordinary equity holders of the Group	(8,378)	2,687

9 Earnings/(Loss) per share (continued)

(a) Basic earnings/(loss) per share (continued)

Basic loss per share	(0.013)	0.004
Diluted loss per share	(0.013)	0.004

(b) Loss per share from discontinued operations

	Consolidated entity	
	30 June 2021	30 June 2020
	\$	\$
Loss per share from discontinued operations		
Loss after income tax	(3,909)	(918)
Non-controlling interest	104	272
Total diluted earnings per share attributable to the ordinary equity holders of the Group	(3,805)	(646)

Basic loss per share	(0.006)	(0.001)
Diluted loss per share	(0.006)	(0.001)

(c) Loss per share

	Consolidated entity	
	30 June 2021	30 June 2020
	\$	\$
Loss per share from discontinued operations		
Loss after income tax	(12,321)	1,736
Non-controlling interest	138	305
Total diluted earnings per share attributable to the ordinary equity holders of the Group	(12,183)	2,041

Basic loss per share	(0.019)	0.003
Diluted loss per share	(0.019)	0.003

9 Earnings/(Loss) per share (continued)

(d) Weighted average number of shares used as denominator

	Consolidated entity	
	30 June 2021 Number	30 June 2020 Number
Weighted average number of ordinary shares used as the denominator in calculating basic and diluted earnings/(loss) per share	624,854,034	624,854,034
Adjustments for calculation of diluted earnings per share:		
Options	39,654,407	38,603,692
Weighted average number of ordinary and potential ordinary shares used as the denominator in calculating diluted earnings per share	664,508,441	663,457,726

Options granted to employees under the Employee Option Plan are considered to be potential ordinary shares and have been included in the determination of diluted earnings per share to the extent to which they are dilutive. The options have not been included in the determination of basic earnings per share.

10 Cash and cash equivalents

	Consolidated entity	
	30 June 2021 \$'000	31 December 2020 \$'000
Current assets		
Cash at bank and in hand	22,159	31,038
Cash and cash equivalents classified as held for sale	1,504	-
	23,663	31,038

11 Trade and other receivables

	Consolidated entity	
	30 June 2021 \$'000	31 December 2020 \$'000
Current receivables - Trade receivables		
Contract receivables	20,805	23,013
Contract unbilled receivables	6,986	15,478
Provision for impairment - contract receivables	(2,239)	(2,079)
	25,552	36,412
Current receivables - Other receivables		
GST and other taxes receivable	898	1,207
Income tax receivable	909	816
Other receivables	44	51
	1,851	2,074

11 Trade and other receivables (continued)

	Consolidated entity	
	30 June 2021 \$'000	31 December 2020 \$'000
Total current trade and other receivables	27,403	38,486
Non-current receivables		
Long-term receivables	1,258	1,300
Provision for impairment - long-term receivables	(1,258)	(1,300)
Total non-current receivables	-	-

12 Long-term deposits

	Consolidated entity	
	30 June 2021 \$'000	31 December 2020 \$'000
Long-term deposits		
Collections from customers deposited for a period of more than twelve months	18,242	23,368
	18,242	23,368

Long term deposits are collections from the Ivory Coast project deposited for a period of more than twelve months.

13 Intangible assets

Consolidated entity	Capitalised development costs \$'000	Capitalised concession asset \$'000	Total \$'000

14 Concession arrangements asset

The Group has three service arrangements on hand as of 30 June 2021:

(i) Service concession arrangement in Mexico to build and operate the San Quintin desalination plant:

In January 2016 the Group entered into a service concession arrangement in Mexico to build and operate a desalination plant. In December 2020, following challenges with project execution, the Board decided it no longer wished to move forward with this project. A mutual termination is the most likely potential outcome. An impairment of assets associated with this project was recorded in 2020 and amounted to \$11.9 million.

(ii) Service concession arrangement in the Bahamas to build the Bimini seawater desalination portable treatment plant:

Construction was completed in January 2020. For the 6 months ended 30 June 2021, the Group recognised revenue of \$626 thousand from the sale of water to the grantor. Under AASB Interpretation 12 *Service Concession Arrangements*, once the plant is operating, the recognised asset needs to be depreciated over the life of the concession. For the 6 months ended 30 June 2021, the Group recognised depreciation expenses of \$97 thousand. On 30 June 2021, the financial asset associated with this project was \$3,224 thousand.

(iii) Service concession arrangement in Peru to build the Paracas desalination plant:

During the period, the Group decided to pursue a potential buyer for the project. As a result the project was classified as held for Sale. See note 5 for more details.

	Consolidated entity	
	30 June 2021 \$'000	31 December 2020 \$'000
Current concession asset	231	353
Non-current concession asset	2,993	8,750
	3,224	9,103

15 Trade and other payables

	Consolidated entity	
	30 June 2021 \$'000	31 December 2020 \$'000
Trade and other current payables		
Trade payables	10,574	12,750
Accrued payroll liabilities	1,476	3,072
Accrued project expenses	22,668	17,779
Government grants	1,531	1,168

Government grants	2,281	2,518
Other liabilities	-	294
Total non-current payables	2,281	2,812

16 Borrowings

On 29 July 2020, the Company entered into a loan agreement with an affiliate of Upwell LLC to provide an initial US\$20 million finance facility. The facility can be increased up to US\$50 million at the Company's request and at Upwell's discretion. The facility is available to fund the Build, Own, Operate and Transfer ("BOOT") projects and the Company's working capital.

18 Recognised fair value measurements

Fair value hierarchy

All assets and liabilities for which fair value is measured or disclosed are categorised according to the fair value hierarchy as follows:

18 Recognised fair value measurements (continued)

Fair value hierarchy (continued)

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3 - Inputs for the assets or liability that are not based on observable market data (unobservable inputs).

30 June 2021	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
<i>Financial liabilities</i>				
Government grant liability	-	-	3,812	3,812
	-	-	3,812	3,812

31 December 2020	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
<i>Financial liabilities</i>				
Government grant liability	-	-	3,686	3,686
	-	-	3,686	3,686

Valuation techniques and assumptions used to derive Level 3 fair values recognised in the financial statements

The fair value of the government grant liability is determined as the present value over the expected time that the grant liability is to be repaid from the royalty stream from future revenue discounted at an annual rate of 13.9% (2020: 18.2%).

Reconciliation of Level 3 fair value movements

The following table sets out the movements in Level 3 fair values for recurring measurements.

	Government grant \$'000
Opening balance at 1 January 2020	4,562
Payment	
Adjustment to fair value of liability, included in "Other gains/(losses) - net" in the Consolidated Statement of Profit or Loss and Other Comprehensive Income	(1,164)
Currency translation differences, included in "Exchange differences on translation of foreign operations, net of tax" in the Consolidated Statement of Profit or Loss and Other Comprehensive Income	288
Closing balance at 31 December 2020	3,686
Payment	-
Adjustment to fair value of liability, included in "Other gains/(losses) - net" in the Consolidated Statement of Profit or Loss and Other Comprehensive Income	180
Currency translation differences, included in "Exchange differences on translation of foreign operations, net of tax" in the Consolidated Statement of Profit or Loss and Other Comprehensive Income	(54)
Closing balance at 30 June 2021	3,812

19 Commitments and contingencies

As at 30 June 2021 and 31 December 2020, the Group provided bank guarantees for fulfilment of a lease commitment, for bid bonds and for performance guarantees for its projects in the amount of \$997 thousand and \$1,029 thousand respectively.

The Group was party to several claims during the half year. With respect to claims brought against the Company, Fluence will vigorously defend itself and is confident they will be successfully defended. There is significant uncertainty as to whether a future liability will arise in respect of these claims. The amount of liability, if any, that may arise, cannot be measured reliably at this time. The Directors are of the opinion that all known liabilities have been brought to account and that adequate provision has been made for any anticipated losses.

20 Events occurring after the reporting period

No matter or circumstance has occurred subsequent to period end that has significantly affected, or may significantly affect, the operations of the Group, the results of those operations or the state of affairs of the Group or economic entity in subsequent financial periods.

Fluence Corporation Limited
Directors' Declaration
30 June 2021

In accordance with a resolution of the Directors of Fluence Corporation Limited, the Directors of the Group declare that:

- (a) the Interim Financial Statements and notes, as set out on pages 6 to 31 are in accordance with the *Corporations Act 2001*, including:
 - (i) complying with Accounting Standard AASB 134: *Interim Financial Reporting*, and
 - (ii) giving a true and fair view of the Consolidated entity's financial position as at 30 June 2021 and of its performance for the half-year ended on that date.
- (b) In the Directors' opinion there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Directors.

Richard Irving
Chairman and CEO
