The Financial Year (FY) 2021 saw the Group report a statutory after tax loss of 4.9M. Excluding noncash fair value adjustments in relation to the funding agreement entered into with PAG, the Group reported an underlying after tax loss of \$12.7M.

This deterioration from the Half Year FY21, where the Group reported after tax profits of \$9.9M, was attributable to reduced passenger revenue with the COVID-19 pandemic continuing to adversely impact aviation industry, and the majority of government support was received in the first half-year.

#### SEGMENT INFORMATION

AASB 8 requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker (CODM) in order to allocate resources to the segment and to assess its performance.

Information reported to the Group's Executive Chairman ('CODM') for the purposes of resource allocation and assessment of performance is more specifically focused on the category of customer for each type of service. During the period, the CODM has placed additional emphasis on the review of discrete financial information pertaining to the training centres and therefore, as of the current period, is considered a separate operating segment. This represents a change in segmentation compared to prior period, which only included regular public transport and charter as reportable segments.

The Group's reportable segments under AASB 8 are as follows:

- Regular public transport
- Charter and other
- Training

The accounting policies of the reportable segments are the same as the Group's accounting policies.

The following is an analysis of the Group's revenue and results by reportable operating segment for the period under review:

	Revenue		Segment res	ult
	2021 \$'000	2020 \$'000	2021 \$'000	2020 \$'000

Tax benefit			2,353	8,019
Consolidated segment revenue and loss	256,152	321,820	(4,864)	(19,397)

The revenue reported above represents revenue generated from external customers and government grants and subsidies. There were no intersegment sales.

Segment result represents the profit earned by each segment without allocation of central administration costs and directors' salaries. This is the measure reported to the chief operating decision maker for the purposes of resource allocation and assessment of segment performance.

The following is an analysis of the Group's assets and liabilities by reportable operating segment as at the end of the year:

#### DIVIDENDS

In respect of results for FY2021, the directors have recommended no dividends to be paid out given the uncertain and challenging conditions arising from the COVID-19 crisis.

#### **GOING CONCERN**

The preliminary final report has been prepared on a going concern basis. In preparing the preliminary final report the directors note that the Group is in a net current asset deficiency position due to the nature of the operations whereby customers make payment for booked flights prior to the flights being taken as well as the impact of COVID-19. The directors are of the opinion that the Group will have sufficient cash available to meet all commitments and working capital requirements for a period not less than 12 months from the date of this report. The directors are satisfied that the going concern basis of preparation is appropriate.

#### AUDIT STATUS

This report is based on financial statements which are in the process of being audited.
