DIRECTORS' REPORT

Your directors present their report of the Company and its controlled entities for the financial year ended 30 June 2021.

Information on Directors

The names of directors in office at any time during or since the end of the year are:

Patrick Burke	—	Non-Executive Chairman (appointed 4 August 2019)
Qualifications	—	<i>LLB</i>
Experience	—	<p>Mr Burke holds a Bachelor of Laws from the University of Western Australia. He has extensive legal and corporate advisory experience and over the last 15 years has acted as a Director for a large number of ASX listed companies, as well as NASDAQ and AIM listed companies. His legal expertise is in corporate, commercial and securities law in particular capital raisings and mergers and acquisitions.</p> <p>Mr Burke's corporate advisory experience includes identification and assessment of acquisition targets, strategic advice, deal structuring and pricing, funding, due diligence and execution.</p>
Interest in Shares and Options	—	940,000 ordinary fully paid shares; 6,000,000 unlisted options @ \$0.03 expiring 28 November 2022; 2,500,000 Class A Performance Rights; 2,500,000 Class B Performance Rights
Directorships held in listed entities	—	<p>In the past 3 years, Patrick Burke has been a director of:</p> <p>Meteoric Resources NL (Executive Chairman appointed 1 December 2017)</p> <p>Province Resources Limited (Non-Executive Chairman appointed 9 November 2020)</p> <p>Western Gold Limited (Non-Executive Director appointed 22 March 2021)</p> <p>Torque Metals Limited (Non-Executive Director appointed 9 February 2021)</p> <p>Triton Minerals Limited (Non-Executive Director appointed 22 July 2016)</p> <p>Koppar Resources Limited (Non-Executive Director appointed 5 February 2018; resigned 31 December 2019)</p> <p>Vanadium Resources Limited (Non-Executive Director appointed 1 July 2017; resigned 29 November 2019)</p> <p>Transcendence Technologies Limited (Non-Executive Director appointed 28 September 2018; resigned 20 November 2019)</p> <p>WestWater Resources, Inc. (Non-Executive Director appointed 16 March 2016; resigned 4 April 2019)</p> <p>Bligh Resources Limited (Non-Executive Director appointed 5 December 2016; resigned 28 November 2018)</p>
James Allchurch	—	Managing Director (appointed 4 August 2019)
Qualifications	—	<i>BSc (Hons)</i>
Experience	—	<p>Mr Allchurch is a geologist with over 19 years' experience in mineral exploration, geotechnical assessment and mining operations. Mr Allchurch was the Managing Director of ASX-listed company Monto Minerals which controlled copper mining and tin exploration operations in Queensland and has held various Board positions over the previous 10 years including ASX-listed Bligh Resources and various private entities. More recently Mr Allchurch founded a Chilean cobalt mining exploration company, executing detailed exploration activities prior to a cash sale to a US-based fund.</p> <p>Mr Allchurch spent six years working at Ascent Capital and has considerable expertise in the identification and assessment of resource projects over a broad range of commodities in geographies including Europe, Australia, Africa and South America.</p>
Interest in Shares and Options	—	2,500,000 Ordinary fully paid shares; 12,000,000 unlisted options @ \$0.03 expiring 28 November 2022; 8,500,000 Class A Performance Rights; 8,500,000 Class B Performance Rights

Review of Operations

The year ended 30 June 2021 has been a significant growth period for the Company as it continues its exploration activities at the Jimperding Project located in the Jimperding Metamorphic Belt 70km north east of Perth, WA.

The Company has been primarily focussed on exploration of its 100%-owned Jimperding Project during the 2021 financial year, with particular emphasis on the advanced Newleyine Prospect.

Through its wholly owned subsidiary Focus Exploration Pty Ltd (Focus), the Company also owns 100% of the Berinka Pine Creek Project in the Northern Territory which is situated on exploration licence EL31710.

As at 15 September 2021 the Company had approximately \$16.5M in cash. In addition to the Berinka and Jimperding Projects, the Company is considering additional resource opportunities as and when they are presented.

Jimperding Project (Mandrake 100%)

The Jimperding Project lies approximately 30km east of Chalice Mining Limited's (Chalice) Julimar PGE-Ni-Cu discovery announced on 23 March 2020. The 142km² EL comprising the Jimperding Project was applied for on 4 March 2020, prior to the Julimar discovery hole announcement and prior to Chalice pegging over 2,000km² of ELAs contiguous to the Jimperding Project.

The Jimperding Metamorphic Belt is in the northern part of the southwestern Yilgarn Craton and comprises Archaean gneisses, arkosic paragneiss and banded-iron formation, interleaved with a variety of garnetiferous orthogneiss and ultramafic units¹.

Figure 1 - Regional Aeromagnetics – Jimperding Project

Regional work conducted by Harrison (1986) suggested that some of the mafic/ultramafic bodies in the terrane may be remnants of larger layered intrusives and thus targets for platinum group element (PGEs)². The recent Julimar discovery in the area appears to validate this assessment.

ANNUAL REPORT 30 JUNE 2021

Newleyine Prospect

Previous Work

Previous exploration was primarily undertaken in the late 1970s by Australian Anglo American (Australian Anglo) who conducted surface mapping and sampling at the Newleyine prospect. Surface sampling of the 1.5km long Newleyine ultramafic intrusive by way of 90 rock chip samples returned assay values up to 0.52% Ni and 805ppm Cu.

Three exploratory diamond drill holes completed by Australian Anglo established the presence of widespread Ni-Cu-Fe sulphide mineralisation of 0.25% Ni and 300ppm Cu over drill widths of up to 240m through a dunite body. Samples were evidently not assayed for PGEs or gold.

Work Undertaken by Mandrake Resources

Geochemistry

Concentrations of platinum and palladium in rock chip samples collected from two Mandrake field mapping events exceeded expectations with rock chip samples up to 0.36g/t Pd and 0.27g/t Pt confirming the ultramafic intrusive at Newleyine is highly fertile for PGEs.

Ground EM

In late 2020, Mandrake completed a Fixed Loop Electromagnetic (FLEM) survey at the Newleyine Prospect which successfully identified three confined late-time bedrock conductors located within a distinct bullseye magnetic complex that contains layered ultramafic intrusion units and banded iron formation.

The conductors are of moderate to high conductance, moderately dip north (consistent with mapped outcrop) and are located between 125 – 210m below surface. Conductors A, B and C are summarised below.

Conductor Plate Dimensions

	Conductor A	Conductor B	Conductor C
Depth below surface (m)	125	210	130
Dip (°)	50	55	55
Dip direction (°)	20	337.5	22.5
Strike length (m)	160	200	90
Depth extent (m)	140	150	98.3

Drilling

Drilling commenced at the Newleyine Prospect in June 2021 and was designed to test the three discrete, late-time EM bedrock conductors.

MNEWDD001

MNEWDD001, targeting eastern-most FLEM conductor plate B, encountered almost exclusively ultramafic rock (serpentinite) with regular zones of disseminated and vein-filled sulphides (primarily pyrite and pyrrhotite) up to 4% by volume sulphides.

The down-hole electromagnetic (DHEM) survey at MNEWDD001 identified a very strong, late-time off-hole conductor plate with ~7,000 Siemens conductance. This conductor was subsequently tested by MNEWDD003.

MNEWDD002

MNEWDD002, which targeted FLEM conductor plate A, recorded several zones of disseminated and semi-massive sulphides in mafic-ultramafic rocks.

MNEWDD002 included a broad serpentinite zone with consistent disseminated sulphides (primarily pyrite) up to 2% by volume from 43m to 119m followed by another serpentinite intersection from 121 – 130.5m containing 1-3% sulphides.

At 130.5m a 4.5m zone comprising amphibolite with 5-10% disseminated sulphides (primarily pyrrhotite) was followed by a further 2.9m wide zone from 138.4m containing 15% sulphides by volume (including minor chalcopyrite) as well as several semi-massive sulphide bands (60% sulphides) up to 10cm in thickness.

A banded magnetite iron formation, containing bands of near massive sulphide was intersected immediately below the sulphide ultramafic unit at 143.6m.

MANDRAKE RESOURCES LIMITED
ABN 60 006 569 124
ANNUAL REPORT 30 JUNE 2021

A DHEM was then conducted on MNEWDD002 which identified a very strong, late-time off-hole conductor plate with ~5,000 Siemens conductance. The conductor is strongly confined and measures approximately of 40 x 30m and is yet to be drill tested.

MNEWDD003

MNEWDD003 tested the very strong, late-time off-hole conductor plate (~7,000 Siemens conductance) identified in the DHEM survey at MNEWDD001.

Figure 2 – Newleyne prospect showing FLEM EM conductors (A, B and C) and drill holes

MNEWDD003 primarily comprised mafic-ultramafic rocks serpentinite and amphibolite with zones of disseminated and vein-filled sulphides (primarily pyrite and pyrrhotite) up to 2% sulphides by volume.

Semi massive and massive sulphide zones were observed from 286.2m downhole depth associated primarily with banded iron formation with minor ultramafic rocks and mafic metasediments. The sulphide zones appear proximal to the overlying ultramafic contact (with some ultramafic zones within the sulphidic zone) and are composed primarily of pyrrhotite and minor chalcopyrite.

As at the time of writing, Mandrake is preparing to drill MNEWDD004 (testing conductor plate C).

Assaying of ultramafic and sulphide zones of all holes drilled to date for base metals as well as PGEs is now underway. Assay results will inform interpretation and modelling of the Newleyne intrusive where initial drilling has proven the presence of ultramafic host rocks and a relative abundance of sulphide material.

AEM Survey

During December 2020 Mandrake completed a whole-of-permit (~142km²) airborne electromagnetic (AEM) survey at the Jimperding Project.

The heliborne AEM survey utilised Geotech Limited's Versatile Time-Domain Electromagnetic (VTEM™ Max) geophysical system surveying at 200m spacing (with some 100m-spaced infill lines flown over anomalous areas). Cultural sources (sheds, power lines etc.) were avoided by flight lines where possible.

The objective of the survey was to generate targets prospective for "Julimar-style" mineralisation.

The AEM survey successfully identified a large number of late-time EM conductors that were assessed by field reconnaissance work and mapping.

Two stand-out prospects, Tolarno North and Tolarno South, were identified with both prospects having received no previous exploration.

Tolarno North Prospect

Field inspection of a VTEM anomaly located in a paddock revealed the existence of a roughly 900m-long by 200m-wide soil-covered zone with intermittent outcropping, subcropping and float ultramafic rock. Strongly ferruginised weathered schist adjacent to the EM anomaly was submitted for assay and recorded 0.31% Ni, 503ppm Cu and 20ppb Pt.

The serpentinised peridotites comprising the majority of the ultramafic rock typically returned values of 0.1% - 0.3% Ni. Ultramafic rock chip sample X4409 was submitted to the laboratory for analysis and returned 0.13% Ni, 396ppm Cu and 30 ppb Pt.

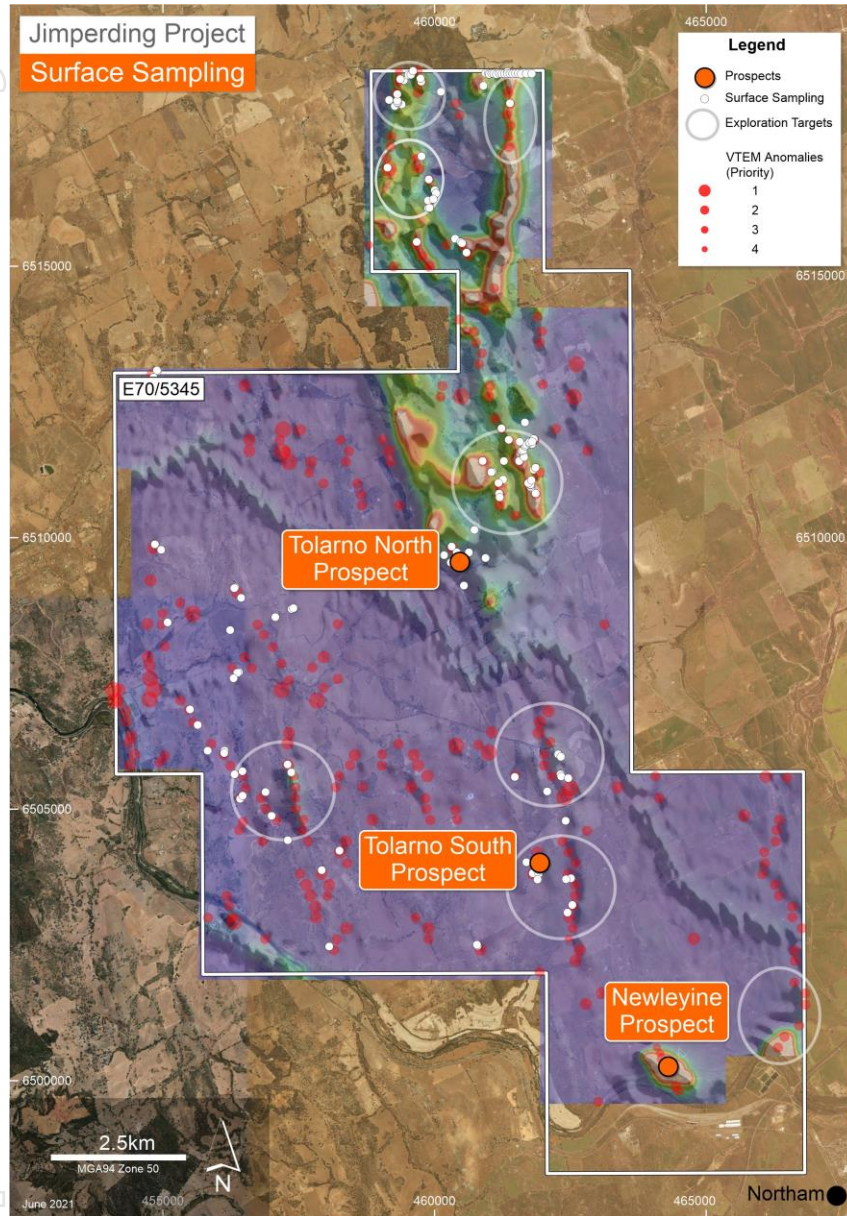

Figure 3 - Jimperding Project Surface pXRF Sampling Locations

Whilst the true extent of the ultramafic intrusive is unclear, the initial geochemical signature and coincident EM anomalism indicates the potential prospectivity of Tolarno North for PGE-Ni-Cu mineralisation.

Tolarno South Prospect

In the course of investigating three distinct VTEM anomalies and a historic mine shaft believed to have been worked for gold, Mandrake identified an area of approximately 700m x 200m where ultramafic and amphibolite float were found.

No source of the EM anomalies were found and no outcrop located. It is noted that colluvium across the area is derived from a quartzite ridge hosting the historic shaft which will likely obscure any outcrop or meaningful soil geochemistry.

One sample of ultramafic float was sent to the lab for assay and returned 0.12% Ni and 10ppb Pt.

Berinka Pine Creek Gold-Silver-Copper Project (Mandrake 100%)

In August 2020 Mandrake completed a reverse circulation (RC) drilling programme targeting gold mineralisation at its 100%-owned 289km² Berinka Pine Creek gold project in the Northern Territory.

Mandrake investigated two greenfield prospects, Vegetation Anomaly and Terry's Gap, identified from aeromagnetics and historic gold results derived from costeans.

RC hole FBRC005 at Vegetation Anomaly returned the following high grade gold-silver-copper intercept:

- 3m @ 1.8g/t Au, 32 g/t Ag and 2.1% Cu from 124m including;
 - 1m @ 3.7 g/t Au, 69 g/t Ag and 3.1% Cu from 124m

Gold appears to be hosted in a series of veins in close proximity to a faulted contact between a gabbro and granite and is associated with sulphides, particularly pyrite and chalcopyrite (copper). The presence of high concentrations of silver and copper is particularly noteworthy in that previous drilling work at Berinka, primarily at Terry's Prospect in the mid-80s, identified gold with significantly lower copper and silver concentrations. This suggests that the mineralisation at the Vegetation Anomaly may represent a different mineralised system/event.

To assist in understanding the structural controls on mineralisation Mandrake engaged specialist downhole logging consultants to run an optical probe in two holes. This information has greatly assisted in determining the orientation of structures/veins of interest and has been invaluable in assisting with the generation of a follow-up drilling programme.

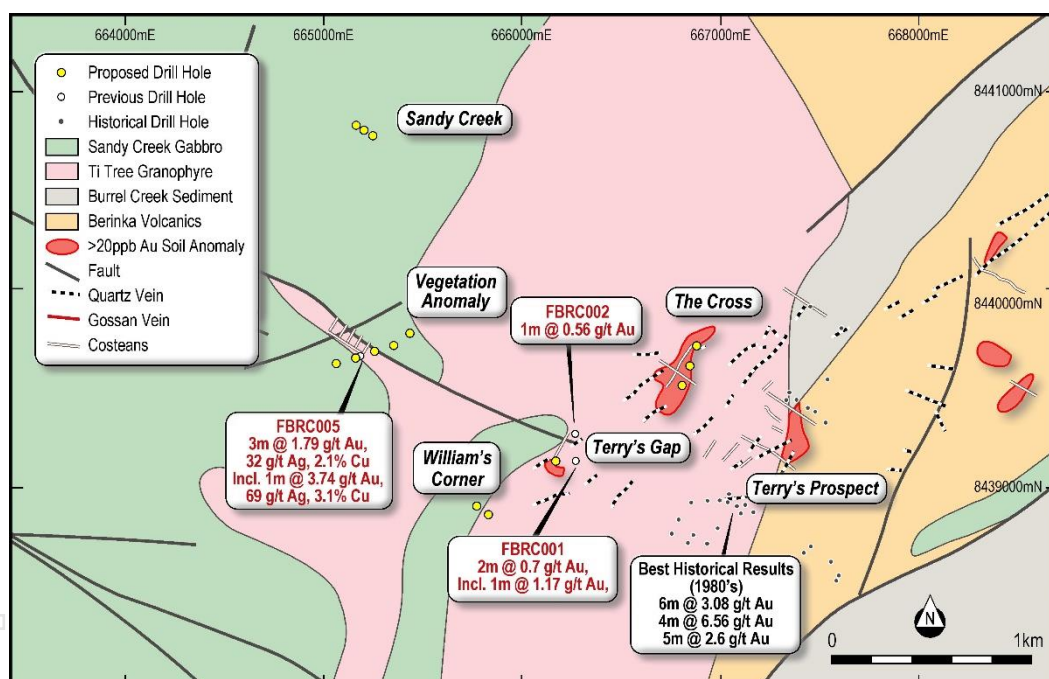

Figure 4 – Proposed Drilling Programme - Berinka Pine Creek Project

Brief Exploration History - Berinka Pine Creek Gold-Silver-Copper Project

The Berinka gold exploration project is located within the Pine Creek Orogen of the Northern Territory, located 220km south southwest of Darwin.

Gold mineralisation at the project is associated with >10km strike of poorly tested structurally controlled Berinka Volcanics of the Proterozoic Pine Creek Orogen.

Carpentaria Exploration (CEC) first explored the area in 1975 when a reconnaissance visit found quartz veining assaying 5.5g/t Au at what is now known as the Terry's Prospect.

Over the next six years CEC conducted soil sampling, mapping, gridding, rock chip sampling and ground magnetics. Most of these activities were focused on the Terry's Prospect area which is situated approximately 2km south-east of Vegetation Anomaly. Importantly, Vegetation Anomaly and Terry's Prospect appear 'connected' by a distinct NW-SE lineament as interpreted from magnetic imagery.

ANNUAL REPORT 30 JUNE 2021

In the mid-1980s CEC drilled 36 RC drill holes totalling 3,014m at Terry's prospect. Best intersections include*:

- 4m @ 6.6g/t from 32m
- 6m @ 3.1g/t from 18m
- 5m @ 2.6g/t from 30m

*A complete list of all historic drill intercepts is contained in the Mandrake Resources prospectus lodged with the ASX on 24 May 2019.

COMPETENT PERSONS STATEMENT

The technical information in this announcement complies with the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code) and has been compiled and assessed under the supervision of Mr James Allchurch, Managing Director of Mandrake Resources. Mr Allchurch is a Member of the Australian Institute of Geoscientists. He has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the JORC Code. Mr Allchurch consents to the inclusion in this announcement of the matters based on his information in the form and context in which it appears

Financial Position

The net assets of the Company at 30 June 2021 was \$18,883,629 (2020: \$3,853,267).

Significant Changes in State of Affairs

During the reporting year the company issued the following securities:

Shares

3,483,333 ordinary fully paid shares were issued to creditors in lieu of cash payments for services;
102,975,000 shares were issued on receipt of notice to exercise options raising \$3,089,250 for the Company before costs;
9,000,000 shares were issued to Andean Energy Resources Pty Ltd for the purchase of the Jimperding project;
2,000,000 shares were issued on the exercise of Performance Rights that vested during the year; and
60,000,000 shares were issued at \$0.20 each under a placement announce in early June. The placement raised \$12.0m before costs for the Company.

Options

5,000,000 options expiring 18 June 2024 exercisable at 30c each were issued as part of the fee for arranging the placement announced 11 June 2021;
6,000,000 options expiring 18 June 2024 exercisable at 30c each were issued as part payment of geological and drilling services being undertaken at Newleyne.

MANDRAKE RESOURCES LIMITED
ABN 60 006 569 124
ANNUAL REPORT 30 JUNE 2021

Performance rights

26,000,000 Performance Rights were issued to Directors pursuant to approval at the annual general meeting. The rights vested during the year on performance hurdles being achieved. 2,000,000 of the rights were exercised and the respective shares issued. 2,000,000 of the rights lapsed without exercising/vesting on the resignation of Ben Phillips in early March.

Environmental Regulations

To the best of the Directors' knowledge, all activities have been undertaken in compliance with the requirements of environmental regulations.

Proceedings on Behalf of Company

No person has applied for leave of Court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

The Company was not a party to any such proceedings during the year.

Subsequent Events

3,000,001 options exercisable at 40c each expired on 14 July 2021.

Notices to exercise 33,525,727 options exercisable at \$0.03 per option were received and 33,525,727 shares were issued accordingly raising \$1,005,771.81 before costs for the Company.

No securities have escrow restrictions on them following the removal of ASX imposed restrictions on 14 August 2021.

The impact of the Coronavirus (COVID-19) pandemic is ongoing and while it has not significantly impacted the entity up to 30 June 2021, it is not practicable to estimate the potential impact, positive or negative, after the reporting date. The situation is rapidly developing and is dependent on measures imposed by the Australian Government and other countries, such as maintaining social distancing requirements, quarantine, travel restrictions and any economic stimulus that may be provided.

Option holders do not have any right, by virtue of the option, to participate in any share issue of the Company or any related body corporate.

Indemnification and Insurance of Directors and Officers

The Company indemnifies each of its Directors, Officers and Company Secretary. The Company indemnifies each Director or Officer to the maximum extent permitted by the Corporations Act 2001 from liability to third parties, except where the liability arises out of conduct involving lack of good faith, and in defending legal and administrative proceedings and applications for such proceedings.

The Company must use its best endeavours to insure a Director or Officer against any liability, which does not arise out of conduct constituting a wilful breach of duty or a contravention of the Corporations Act 2001. The Company must also use its best endeavours to insure a Director or Officer against liability for costs and expenses incurred in defending proceedings whether civil or criminal.

The Company has not entered into any agreement with its current auditors indemnifying them against any claims by third parties arising from their report on the financial report.

On the 29 June 2021, Director and Officers Insurance was taken out with Liberty Mutual Insurance Company.

Non-Audit Services

The Company may decide to employ the auditor on assignments additional to their statutory duties where the auditor's expertise and experience with the Company and/or group are important.

The board of directors has considered the position and, in accordance with advice received from the audit committee, is satisfied that the provision of non-audit services is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. The directors are satisfied that the provision of non-audit services by the auditor, as set out below, did not compromise the auditor independence requirements of the Corporations Act 2001 for the following reasons:

- All non-audit services have been reviewed by the audit committee to ensure they do not impact the impartiality and objectivity of the auditor
- None of the services undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants.

Details of the amounts paid or payable to the auditor (BDO Audit (WA) Pty Ltd) for audit and non-audit services provided during the year are set out in note 17.

REMUNERATION REPORT (AUDITED)

The remuneration report is presented under the following sections:

1. Introduction
2. Remuneration governance
3. Executive remuneration arrangements
4. Non-executive director fee arrangements
5. Details of remuneration
6. Additional disclosures relating to options and shares
7. Loans to key management personnel (KMP) and their related parties
8. Consultancy Agreements, and other transactions and balances with KMP and their related parties

The names of the directors in office at any time during or since the end of the financial year are:

Pat Burke – Non-Executive Chairman (appointed 4 August 2019)

Ben Phillips – Non-Executive Director (appointed 18 April 2018 – resigned 7 March 2021)

James Allchurch – Managing Director (appointed 4 August 2019)

Lloyd Flint – Non-Executive Director (appointed 7 March 2021)

1. Introduction

The remuneration policy of the Company has been designed to ensure reward for performance is competitive and appropriate to the result delivered. The framework aligns executive reward with the creation of value for shareholders and conforms to market best practice. The Board ensures that Director and executive reward satisfies the following key criteria for good reward government practices:

- Competitiveness and reasonableness;
- Acceptability to the shareholder;
- Performance;
- Transparency; and

Capital management.

2. Remuneration governance

Throughout the financial year, the Company did not have a remuneration committee as the directors believed the size of the consolidated entity and the size of the Board did not warrant its existence.

3. Executive remuneration arrangements

The Board's policy for determining the nature and amount of remuneration for KMP of the consolidated group is based on the following:

- All KMP receive a base salary (which is based on factors such as length of service and experience), superannuation and options.
- Incentives paid in the form of options and performance rights are intended to align the interests of the directors and Company with those of the shareholders. During the year a total of 26,000,000 Performance Rights were issued to directors in this regard:

A total of 13,000,000 Class A Performance Rights and 13,000,000 Class B Performance Rights were issued to the directors of the Company. The terms of the Performance Rights are as follows:

Class	Vesting Condition	Entitlement
Class A Performance Rights	The 20 Day volume weighted average price of Shares traded on ASX is greater than \$0.10 per Share.	50% of total granted Performance Rights
Class B Performance Rights	The 20 Day volume weighted average price of Shares traded on ASX is greater than \$0.15 per Share.	50% of total granted Performance Rights

4. Non-executive director fee arrangements

The Board policy is to remunerate Non-Executive Directors at a level to comparable Companies for time, commitment, and responsibilities. Non-executive Directors do not receive performance related compensation. Directors' fees cover all main Board activities and membership of any committee. The Board has no established retirement or redundancy schemes in relation to Non-Executive Directors.

The Non-Executive Directors have or may be provided with options that are meant to incentivise the Non-Executive Directors. The board determines payments to the Non-Executive Directors and reviews their remuneration annually based on market practice, duties, and accountability. Independent external advice will be sought when required.

The maximum aggregate amount of fees that can be paid to Non-Executive Directors is \$300,000 per annum and any change is subject to approval by shareholders at a General Meeting. Fees for Non-Executive Directors are not linked to the performance of the Company. However, to align Directors' interests with shareholder interests, the Directors are encouraged to hold shares in the Company.

NOTES TO FINANCIAL REPORT FOR THE YEAR ENDED 30 June 2021

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

This financial report includes the consolidated financial statements and notes of Mandrake Resources Limited and controlled entities ('Consolidated Group' or 'Group').

The separate financial statements of the parent entity, Mandrake Resources Limited, have not been presented within this financial report as permitted by the Corporations Act 2001.

The financial report was authorised for issue on 30 September 2021 by the Board of Directors.

Basis of Preparation

These general purpose financial statements have been prepared in accordance with the Corporations Act 2001, Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board and International Financial Reporting Standards as issued by the International Accounting Standards Board. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise.

Except for cash flow information, the financial statements have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

Accounting Policies**a. Going Concern**

The financial statements have been prepared on the going concern basis, which assumes the continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

The net loss after income tax for the consolidated entity for the financial year ended 30 June 2021 was \$3,108,541, and as at 30 June 2021, total assets exceeded total liabilities by \$18,883,629. Cash and cash equivalents was \$16,062,419.

Forecast Cash Flows demonstrates the Group can operate on a Going Concern basis.

b. Principles of Consolidation

The consolidated financial statements incorporate the assets, liabilities and results of entities controlled by Mandrake Resources Limited at the end of the reporting period. A controlled entity is any entity over which Mandrake Resources Limited has the ability and right to govern the financial and operating policies so as to obtain benefits from the entity's activities.

Where controlled entities have entered or left the Group during the year, the financial performance of those entities is included only for the period of the year that they were controlled. A list of controlled entities is contained in Note 20 to the financial statements.

In preparing the consolidated financial statements, all inter-group balances and transactions between entities in the consolidated group have been eliminated in full on consolidation.

Non-controlling interests, being the equity in a subsidiary not attributable, directly or indirectly, to a parent, are reported separately within the equity section of the consolidated statement of financial position and statement of comprehensive income. The non-controlling interests in the net assets comprise their interests at the date of the original business combination and their share of changes in equity since that date.

c. Income Tax

The income tax expense (revenue) for the year comprises current income tax expense (income) and deferred tax expense (income).

Current income tax expense charged to profit or loss is the tax payable on taxable income. Current tax liabilities (assets) are measured at the amounts expected to be paid to (recovered from) the relevant taxation authority. Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses. Current and deferred income tax expense (income) is charged or credited outside profit or loss when the tax relates to items that are recognised outside profit or loss. Except for business combinations, no deferred income tax is recognised from the initial recognition of an asset or liability, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled and their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

MANDRAKE RESOURCES LIMITED
ABN 60 006 569 124
ANNUAL REPORT 30 June 2021

Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur.

Deferred tax assets and liabilities are offset where: (a) a legally enforceable right of set-off exists; and (b) the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

Tax Consolidation

Mandrake Resources Limited and its wholly-owned Australian subsidiaries have formed an income tax consolidated group under tax consolidation legislation. Each entity in the group recognises its own current and deferred tax assets and liabilities. Such taxes are measured using the 'stand-alone taxpayer' approach to allocation. Current tax liabilities (assets) and deferred tax assets arising from unused tax losses and tax credits in the subsidiaries are immediately transferred to the head entity. The group notified the Australian Tax Office that it had formed an income tax consolidated group under the tax consolidation regime. The tax consolidated group has entered a tax funding arrangement whereby each company in the group contributes to the income tax payable by the group in proportion to their contribution to the group's taxable income. Differences between the amounts of net tax assets and liabilities derecognised and the net amounts recognised pursuant to the funding arrangement are recognised as either a contribution by, or distribution to the head entity

d. Impairment of Assets

At each reporting date, the group reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the statement of comprehensive income.

Impairment testing is performed annually for goodwill and intangible assets with indefinite lives.

Where it is not possible to estimate the recoverable amount of an individual asset, the group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

e. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the balance sheet.

f. Revenue

Interest revenue is recognised as the interest accrues (using the effective interest rate method, which is the rate that exactly discounts estimated future cash receipts through the expected life of the instrument) to the net carrying amount of the financial asset.

g. Trade and Other Receivables

Trade and other receivables include amounts due from customers for goods sold and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Trade and other receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for expected credit losses.

h. Trade and Other Payables

Liabilities for trade creditors and other payables are initially measured at fair value and subsequently carried at amortised cost which is the amount of the consideration to be paid in the future for goods and services received, whether or not billed to the Group. The amounts are unsecured and are usually paid within 30 days. Payables to related parties are carried at the principal amount.

i. Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

Cash flows are presented in the cash flow statement on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

j. Segment Information

An operating segment is a component of an entity that engages in business activities for which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity) ,

MANDRAKE RESOURCES LIMITED

ABN 60 006 569 124

ANNUAL REPORT 30 June 2021

whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available. Management will also consider other factors in determining operating segments such as the existence of a line manager and the level of segment information presented to the board of Directors.

Operating segments have been identified based on the information provided to the chief operating decision makers – being the executive management team.

The Group aggregates two or more operating segments when they have similar economic characteristics, and the segments are similar in each of the following respects:

- Nature of the products and services,
- Type or class of customer for the products and services,
- Methods used to distribute the products or provide the services, and if applicable, and
- Nature of the regulatory environment

Operating segments that meet the quantitative criteria as prescribed by AASB 8 are reported separately. However, an operating segment that does not meet the quantitative criteria is still reported separately where information about the segment would be useful to users of the Financial Statements.

Management has determined the operating segments based on the reports reviewed by the board of directors that are used to make strategic decisions. The Group does not have any material operating segments with discrete financial information. The Group does not have any customers and all its' assets and liabilities are primarily related to the corporate office and are located within Australia. The Board of Directors review internal management reports on a regular basis that is consistent with the information provided in the statement of profit or loss and other comprehensive income, statement of financial position and statement of cash flows. As a result, no reconciliation is required because the information as presented is what is used by the Board to make strategic decisions.

k. Borrowings

In May 2019 Convertible Notes to the value of \$220,000 were issued. As these Convertible Notes were issued with the expectation of converting to equity, it was treated as equity within the accounts, with the full amount being taken to an equity reserve "Convertible Loan Note Reserve". The terms of the notes were such that, assuming approval of Shareholders to convert at a General Meeting, under no circumstance would the group be liable to settle the instruments in cash, and for this reason were treated as equity rather than as a liability in the financial statements. The Notes were subsequently converted in the prior year ending 30 June 2020 pursuant to attaching terms and conditions.

l. Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

Where the group has retrospectively applied an accounting policy, made a retrospective restatement of items in the financial statements or reclassified items in its financial statements, an additional statement of financial position as at the beginning of the earliest comparative period will be disclosed.

m. Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the Group, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the reporting period, adjusted for bonus elements in ordinary shares issued during the year.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financial costs associated with dilutive potential ordinary shares and the weighted average number of shares outstanding plus the weighted average number of ordinary shares that would be issued on the conversion of all potential ordinary shares into ordinary shares.

n. Contributed Equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

o. Exploration and evaluation expenditure

Exploration and evaluation expenditure in relation to separate areas of interest for which rights of tenure are current is carried forward as an asset in the statement of financial position where it is expected that the expenditure will be recovered through the successful development and exploitation of an area of interest, or by its sale; or exploration activities are continuing in an area and activities have not reached a stage which permits a reasonable estimate of the existence or otherwise of economically recoverable reserves. Where a project or an area of interest has been abandoned, the expenditure incurred thereon is written off in the year in which the decision is made.

p. Share-based payments

The Group provides benefits to employees (including Directors) and consultants of the Group in the form of share-based payment transactions, whereby employees and consultants render services in exchange for shares, performance rights or options over shares ("equity-settled transactions").

The fair value of options and performance rights are recognised as an expense with a corresponding increase in equity (share-based payments reserve). The fair value is measured at grant date and recognised over the period during which the holder becomes unconditionally entitled to the options. Fair value for options is determined using a Black-Scholes option pricing model and fair value for performing rights is determined using Barrier up-and-in trinomial hybrid method. In determining fair value, no account is taken of any performance conditions other than those related to the share price of Mandrake Resources ("market conditions").

q. Financial Instruments

Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through OCI, or through profit or loss), and
- those to be measured at amortised cost.

The classification depends on how the Group manages the financial assets and the contractual terms of the cash flows. At year end, all of the Group's financial assets have been classified as those to be measured at amortised cost.

Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Impairment

The Group assesses expected credit losses associated on a forward looking basis. For trade receivables, the Group applies the simplified approach permitted by AASB 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

r. Critical Accounting Estimates and Judgments

The directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the group.

Covid-19

Judgement has been exercised in considering the impacts that the Coronavirus (COVID-19) pandemic has had, or may have, on the consolidated entity based on known information. This consideration extends to the nature of the supply chain, staffing and geographic regions in which the consolidated entity operates. Other than as addressed in specific notes, there does not currently appear to be either any significant impact upon the financial statements or any significant uncertainties with respect to events or conditions which may impact the consolidated entity unfavourably as at the reporting date or subsequently as a result of the Coronavirus (COVID-19) pandemic.

Share-based payments

The measurement of fair value requires the Group to make certain significant estimates and judgements as disclosed in the relevant note to the financial statements. The accounting estimates and judgements relating to equity-settled share based payments impact amounts recorded as assets and liabilities, and profit and loss. Please refer to Notes 10 and 11 for further information.

Exploration and evaluation expenditure

The consolidated group capitalises expenditure relating to exploration and evaluation costs where they are considered to be likely to be recoverable or where the activities have not reached a stage which permits a reasonable assessment of the existence of economically recoverable resources. Capitalisation of expenditure requires the consolidated group to make a judgement on the extent that expenditure on exploration and evaluation assets will likely be recovered in the future through mineral extraction or some other form of commercialisation of the exploration and evaluation stage assets.

MANDRAKE RESOURCES LIMITED
ABN 60 006 569 124
ANNUAL REPORT 30 June 2021

The future recoverability of capitalised exploration and evaluation costs are dependent on a number of factors, including whether the consolidated group decides to exploit the related lease itself or, if not, whether it successfully recovers the related exploration and evaluation asset through sale. Factors that could impact the future recoverability include the level of reserves and resources, future technological changes, which could impact the cost of mining, future legal changes (including changes to environmental restoration obligations) and changes to commodity prices.

Asset Acquisition not Constituting a Business

When an asset acquisition does not constitute a business combination, the assets and liabilities are assigned a carrying amount based on their relative fair values in an asset purchase transaction and no deferred tax will arise in relation to the acquired assets and assumed liabilities as the initial recognition exemption for deferred tax under AASB 112 applies. No goodwill will arise on the acquisition and transaction costs of the acquisition will be included in the capitalised cost of the asset.

Business Combinations

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at acquisition date fair value, and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

The Group determines that it has acquired a business when the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired process is considered substantive if it is critical to the ability to continue producing outputs and the inputs acquired include an organised workforce with the necessary skills, knowledge, or experience to perform that process or it significantly contributes to the ability to continue producing outputs and is considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

Changes in accounting policies and Accounting Policies issued not yet effective

There are no standards that are not yet effective and that would be expected to have a material impact on the consolidated entity in the current or future reporting periods and on foreseeable future transactions.

ANNUAL REPORT 30 June 2021

2021

The fair value of the options issued was calculated using Black-Scholes modelling as fair value of services received could not be measured reliably. A fair value of 9.79c and 7.67c respectively for lead manager and drilling and geology options were calculated. The options vested on grant. The following inputs were used in the calculation:

	Lead Manager Options	Driller/Geologist Options
Valuation date (equal to grant date under AASB 2)	18 June 2021	29 June 2021
Exercise price	30 cents	30 cents

Fair value	\$0.0979	\$0.0767
Quantity	5,000,000	6,000,000
Value	\$489,560	\$460,294

The Broker options were considered to be capital raising costs, the value recorded was deducted against share capital. The drilling and geology options were capitalised in exploration and evaluation costs.

2020

The fair value of the options issued was calculated using Black-Scholes modelling. A fair value of 1.166c and 0.879c respectively for re-compliance and director's options were calculated. The following inputs were used in the calculation:

	Options issued on re-compliance	Directors options
Valuation date (equal to grant date under AASB 2)	12 August 2019	28 November 2019
Exercise price	3 cents	3 cents
Expiration date	14 July 2020	28 November 2022

Company share price volatility	110% p.a.	110% p.a.
Fair value	\$0.01166	\$0.00879

The value recognised on issue of options is as follows:

Name	Quantity	AUD\$
Re-compliance options		
Broker options	45,278,400	527,946
Debts to equity options	13,200,727	153,920

Patrick Burke	6,000,000	52,740
Ben Phillips	6,000,000	52,740
Total	24,000,000	210,960

The Broker options were considered to be capital raising costs, the value recorded was deducted against share capital. The debt-to-equity options were (along with 13,200,727 ordinary shares) issued to creditors to extinguish certain liabilities, and the excess of the fair value of the shares and options issued to the book value of the liabilities extinguished was expensed to profit and loss. The options issued to Directors were expensed in accordance with AASB 2.

The options that attached to the shares issued as part of the capital raising, and the options that attached to the conversion of the convertible note, have been treated as freely attaching to the underlying issue of ordinary shares, and therefore have not been assigned any additional value.

All the options above vested on grant of the respective options.

No convertible notes were issued during the current year.

During the 2019 year, the Company entered into converting loan agreements with various lenders, for a total of \$220,000.

The loans were interest free and unsecured. The loan notes converted into 11,000,000 shares and 11,000,000 options prior to re-quotation on 14 August 2019.

e. Capital Management

Management controls the capital of the group in order to maintain a good debt to equity ratio, provide the shareholders with adequate returns and ensure that the group can fund its operations and continue as a going concern.

There are no externally imposed capital requirements.

Management effectively manages the group's capital by assessing the group's financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of debt levels, distributions to shareholders and share issues.

NOTE 11: ASSET ACQUISITION DURING THE PERIOD**Summary of acquisition****2021**

9,000,000 shares were issued to acquire the Jimperding Project license E70/05345 from Andean Energy Resources Pty Ltd. 4,500,000 shares were issued when the share price was 5.7c per share. A second tranche of 4,500,000 shares was issued when the share price had a one day volume weighted trade price of 9.4c per share. The resultant value for the issue of the 9.0m shares of \$679,500 was capitalised to exploration and evaluation expenditure.

There were no other acquisitions during the year.

2020

During the prior period, Mandrake Resources Ltd acquired 100% of the issued share capital of Focus Exploration Pty Ltd (Focus) by way of the issue of 12,500,000 Mandrake shares to the shareholders of Focus at a fair value of \$0.02 per share. Focus is a Proprietary limited company which holds the Berinka Project in the Northern Territory.

The assets and liabilities recognised as a result of the acquisition are as follows:

Fair value	\$
Cash	100
Exploration and evaluation expenditure	249,900
Trade and other payables	-
Fair Value of the Net Assets acquired	250,000

The Company gained control of Focus on 12 August 2019 with a shareholding of 100% pursuant to the completion of the re-compliance work articulated in the Prospectus dated 21 May 2019.

Total cash outflows relating to the acquisition of Focus was nil. The purchase of Focus shares was funded entirely by the issue of Mandrake shares. Cash received on the acquisition of Focus was \$100, resulting in a net cash inflow in investing activities in the statement of cash flows of \$100. The only liabilities originally sitting in that company were Director's loans, which had been forgiven in full prior to the acquisition.

NOTE 12: COMMITMENTS AND CONTINGENCIES

There are no material commitments or contingencies within the group at reporting date (2020: nil).

NOTE 13: EVENTS SUBSEQUENT TO BALANCE DATE

3,000,001 options exercisable at 40c each expired on 14 July 2021.

Notices to exercise 33,525,727 options exercisable at \$0.03 per option were received and 33,525,727 shares were issued accordingly raising \$1,005,771.81 before costs for the Company.

No securities have escrow restrictions on them following the removal of ASX imposed restrictions on 14 August 2021.

The impact of the Coronavirus (COVID-19) pandemic is ongoing and while it has not significantly impacted the entity up to 30 June 2021, it is not practicable to estimate the potential impact, positive or negative, after the reporting date. The situation is rapidly developing and is dependent on measures imposed by the Australian Government and other countries, such as maintaining social distancing requirements, quarantine, travel restrictions and any economic stimulus that may be provided.

Other than the above, there have been no significant events after the reporting date.

NOTE 18: FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

Interest Rate Risk

At reporting date, the Group's exposure to market risk for changes in interest rates relates primarily to the Group's cash. The Group constantly analyses its exposure to interest rates, with consideration given to potential renewal of existing positions, the mix of fixed and variable interest rates and the period to which deposits may be fixed.

At reporting date, the Group had the following financial assets exposed to variable interest rates that are not designated in cash flow hedges:

	2021	2020
	\$	\$
Financial Assets		
Cash and cash equivalents – interest bearing	16,062,419	3,305,851

MANDRAKE RESOURCES LIMITED
ABN 60 006 569 124
ANNUAL REPORT 30 June 2021

Sensitivity

At 30 June 2021, if interest rates had increased by 0.25% from the year end variable rates with all other variables held constant, post tax profit and equity for the group would have been \$40,156 higher (2020: changes of 0.25% \$8,265 higher). The 0.25% (2020: 0.25%) sensitivity is based on reasonably possible changes over a financial year, using an observed range of historical RBA movements over the last few years.

Liquidity Risk

The Group has no significant exposure to liquidity risk as there is effectively no debt. The Group manages liquidity risk by monitoring immediate and forecast cash requirements and ensuring adequate cash reserves are maintained.

Credit Risk

Credit risk refers to the risk that a counter party will default on its contractual obligations resulting in a financial loss to the Group. The Group has adopted the policy of dealing with creditworthy counterparties and obtaining sufficient collateral or other security where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group measures credit risk on a fair value basis.

Significant cash deposits are with institutions with a minimum credit rating of -AA (or equivalent) as determined by a reputable credit rating agency e.g. Standard & Poor.

The Group does not have any other significant credit risk exposure to a single counterparty or any group of counterparties having similar characteristics.

James Allchurch
Managing Director
Dated 30 September 2021

INDEPENDENT AUDITOR'S REPORT

To the members of Mandrake Resources Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Mandrake Resources Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2021, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial report, including a summary of significant accounting policies and the directors' declaration.

In our opinion the accompanying financial report of the Group, is in accordance with the Corporations Act 2001, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2021 and of its financial performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the Financial Report section of our report. We are independent of the Group in accordance with the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Accounting for Exploration and Evaluation Asset

Key audit matter	How the matter was addressed in our audit
<p>The carrying value of the capitalised exploration and evaluation asset as at 30 June 2021 is disclosed in Note 8 to the financial report.</p> <p>As the carrying value of the Exploration and Evaluation Asset represents a significant asset of the Group, we considered it necessary to assess whether any facts or circumstances exist to suggest that the carrying amount of this asset may exceed its recoverable amount.</p> <p>Judgement is applied in determining the treatment of exploration expenditure in accordance with Australian Accounting Standard AASB 6 Exploration for and Evaluation of Mineral Resources. In particular:</p> <ul style="list-style-type: none"> • Whether the conditions for capitalisation are satisfied; • Which elements of exploration and evaluation expenditures qualify for recognition; and • Whether facts and circumstances indicate that the exploration and expenditure assets should be tested for impairment. <p>As a result, this is considered a key audit matter.</p>	<p>Our procedures included, but were not limited to:</p> <ul style="list-style-type: none"> • Obtaining a schedule of the areas of interest held by the Group and assessing whether the rights to tenure of those areas of interest remained current at balance date; • Considering the status of the ongoing exploration programmes in the respective areas of interest by holding discussions with management, and reviewing the Group's exploration budgets, ASX announcements and director's minutes; • Considering whether any such areas of interest had reached a stage where a reasonable assessment of economically recoverable reserves existed; • Verifying, on a sample basis, exploration and evaluation expenditure capitalised during the year for compliance with the recognition and measurement criteria of AASB 6; • Considering whether there are any other facts or circumstances existing to suggest impairment testing was required; and • Assessing the adequacy of the related disclosures in Note 8 to the financial report.

Other information

The directors are responsible for the other information. The other information comprises the information in the Group's annual report for the year ended 30 June 2021, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (<http://www.auasb.gov.au/Home.aspx>) at:

https://www.auasb.gov.au/admin/file/content102/c3/ar1_2020.pdf

This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included on pages 14 to 18 of the directors' report for the year ended 30 June 2021.

In our opinion, the Remuneration Report of Mandrake Resources Limited, for the year ended 30 June 2021, complies with section 300A of the Corporations Act 2001.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
