### **UBI signs major French distribution deal for Sentia.**

Universal Biosensors, Inc. (ASX:UBI) is pleased to announce that it has entered into a non-exclusive Distribution Agreement with Vivelys SAS (France) which is part of the Oeneo Group of companies, for the distribution of its wine testing platform device, Sentia.

The Distribution Agreement is for a three-year term and contains standard renewal and termination options available to both parties.

John Sharman, CEO of UBI said: “The partnership with Vivelys for the French market is a significant step in the commercialisation of Sentia globally. Vivelys is part of the Oeneo Group which has more than 10,000 customers worldwide and has a reputation for developing and selling high end products. Vivelys completed several months of diligence on Sentia before committing to this deal. Importantly this partnership extends beyond the simple distribution of Sentia as Vivelys has expressed a strong desire to participate in the development of other wine testing capabilities to be used on UBI’s Sentia platform.”

Laurent Fargeton, Director of Development for Vivelys commented: “Vivelys is a leader in the wine industry in France and more broadly around the world. We are pleased to partner with Universal Biosensors to offer Sentia to French wine companies. We were seduced by Universal Biosensors' expertise and the practicality of their measurement solution, and so we felt it was logical to sign a partnership agreement. With its ability to measure free SO<sub>2</sub> simply and immediately, and soon sugars and malic acid, Sentia strengthens Vivelys' solutions, enabling winemakers to make the right decisions at the right time.”

For further enquiries please refer to the Sentia website ([www.mysentia.com](http://www.mysentia.com)).

### **About Oeneo**

Oeneo SA (SBT:FP) was established in 1838 and has more than 10,000 clients all over the world. Oeneo is a major wine industry player with high-end and innovative brands. Oeneo prides itself in offering solutions in the production, maturing, preservation and enhancement of wines or spirits that faithfully convey all of the emotion and passion of each winegrower and improve their performance. The Group covers each stage in the winemaking process through two core and complementary divisions: closures, involving the manufacture and sale of cork closures, including high value-added technological closures through its Diam and Pietec ranges. Oeneo's leading brands include Seguin Moreau, Boisé, Millet, Fine Northern Oak and Galileo.

### **About Vivelys**

Vivelys SAS focuses on the analysis of the vine to the ageing of wines in oak barrels through every stage of the winemaking process, from vineyard management to vinification. It is a subsidiary of Oeneo SA, a French based holding company that is primarily engaged in the manufacture of barrels (through subsidiary Seguin Moreau) and wine corking products (through subsidiary Diam). The Company sells its products primarily in France, as well as other European countries, North and South America and Australia.
