

ASX Release

Issued 14 October 2021

Amendment to Sustainability Report

Sigma Healthcare (Sigma) has today made an amendment to the Sustainability Report that was lodged with the ASX on 9 April 2021.

In that report, Sigma inadvertently reported Scope 1 & 2 emissions in units of tonnes of CO₂ equivalent (tCO₂e). However, this should have been reported as kilograms of CO₂ equivalent (kgCO₂e) and not tCO₂e. The correct Scope 1 & 2 emissions are:

- CY2020 - 9,158,882 kgCO₂e, or 9,159 tCO₂e
- CY2019 - 8,457,765.7 kgCO₂e, or 8,458 tCO₂e

The change to CY2020 Scope 1 & 2 emissions also rectified a minor calculation error with an update to the corresponding energy consumption from 10,010,730 kWh to 10,479,751 kWh. This correction has been reflected in an update on page 18 of the Sustainability Report that is available at www.sigmahealthcare.com.au

This announcement is authorised by order of the Company Secretary.
