

ASX RELEASE

19 October 2021

Loyalty Options Entitlement Offer

KEY POINTS:

- As announced on 1 April 2021, Aura Energy will offer a non-renounceable pro-rata offer to eligible shareholders of one (1) listed option for every three (3) ordinary shares held following the recent reinstatement of its securities to the Official List of the ASX.
- This offer will only be available to Australian and New Zealand registered shareholders.
- Stage 2 exploration continues at Tiris, with the results from the opportunity review, vanadium assaying, water drilling and net zero emission study to be announced during this quarter.

Aura Energy Limited (AEE:ASX, AIM:AURA) ("Aura", the "Company") is pleased to announce a non-renounceable pro-rata offer to Eligible Shareholders of one (1) Listed Option (exercisable at \$0.052 each and with an expiry of 30 June 2024) ("Listed Option") for every three (3) Shares held on the Record Date of 22 October 2021, at an issue price of \$0.015 to raise up to \$2,030,399 before costs ("Entitlement Offer").

This Entitlement Offer was foreshadowed in conjunction with the successful rights issue announced on 1 April 2021, and is fully underwritten by KTM Capital. The funds raised through the Entitlement Offer will be used for exploration, mining working capital and production commencement.

As previously advised, this offer is only available to Australian and New Zealand registered shareholders. Full details of the Entitlement Offer are contained in the Prospectus to be released today.

Aura Energy Managing Director & CEO, Peter Reeve, commented: "The funds raised through the Entitlement Offer will also assist in financing Stage 2 exploration which is continuing at Tiris. Water drilling is ongoing with excellent flow rates being achieved¹, and we are also awaiting the outcomes from the opportunity review and vanadium assaying, which has the potential to further lower the cash cost of the project. We also look forward to announcing the results from the net zero emission study in due course."

1 Tiris Field Activities Update, 20 September 2021
