

## **30 September 2021**

### **Quarterly Activities Report**

#### **QUARTERLY HIGHLIGHTS**

- The focus for the quarter was on advancing Lindian's world class bauxite portfolio in Guinea working to define the optimal export solution and progress due diligence with interested parties.
- The political situation in Guinea has not impacted the bauxite industry with mining, processing and export operations continuing as usual.
- Lindian was notified that the Malawi Supreme Court of Appeal will hear the appeal on 8 December 2021 in relation to the exclusive Option Agreement for the Kangankunde Rare Earth Project in Malawi.
- Lindian secured a short term loan facility for \$300,000 on an arm's-length basis from Kabunga Holdings Pty Ltd. The unsecured loan is for a period of two months maturing on 21 December 2021 at a rate of 7% per annum (non-compounding) with interest payable at maturity.

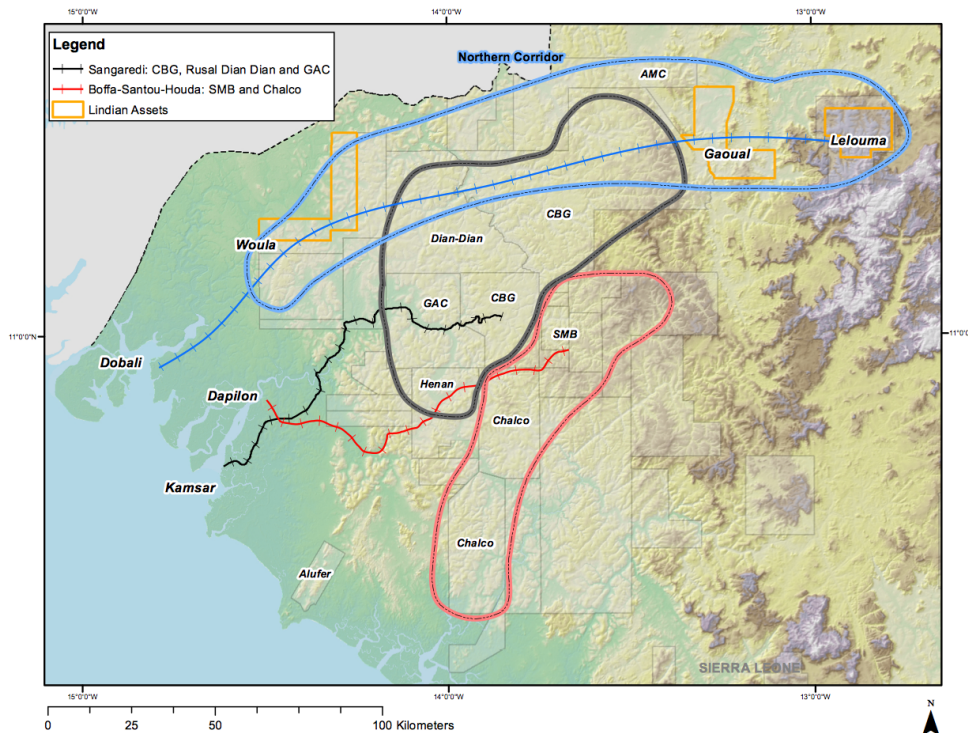

Lindian Resources Limited (ASX:LIN) ("Lindian" or "the Company") is pleased to report on its activities during the September 2021 quarter.

The Company has made solid progress in the quarter with the primary focus being the advancement of the portfolio of world-class bauxite projects in Guinea. Specifically, the focus has been on:

- Continuation of discussions with respect to infrastructure sharing agreements for rail, road and port allocations outside of its 'Northern Corridor' development strategy.
- Advancing negotiations and responding to due diligence requests with interested parties on development of the Northern Corridor rail and port infrastructure.

## DISCUSSIONS WITH GOVERNMENT OF GUINEA

Lindian's 75%-owned infrastructure subsidiary Terminal Logistics & Holdings Pte Ltd ("TLH") continues to advance the Memorandum of Understanding ("MOU-G") regarding the potential exploration and joint development of the Port of Dobali and the associated logistics corridor (the "Northern Corridor") in Guinea.

## INFRASTRUCTURE SHARING NEGOTIATIONS

Preliminary negotiations have commenced regarding the utilisation of existing road, rail and port infrastructure. Lindian's longer term strategy is to develop the "Northern Corridor" to unlock the full potential of the portfolio but as an interim step Lindian is exploring the opportunity to take advantage of the significant infrastructure developed in Guinea over the past 10 years to facilitate low capital, near term production.

## POLITICAL SITUATION IN GUINEA

The political situation has remained stable and there has been no impact to the bauxite industry with respect to mining, processing

The National Committee for Reorientation and Development ('CNRD') stated: "*The CNRD intends to reassure the economic and financial partners of the normal pursuit of activities in the country. Mining companies are asked to continue their activities. To this end, maritime borders remain open for export activities of mining products. The curfew in mining areas has been lifted to ensure the continuity of production. The Committee reassures the partners that it will respect all its obligations related to mining agreements and reiterates its commitment to promote foreign investment in our country.*"

The Company is encouraged by public statements and is working proactively on a number of material developments to unlock the value of its assets in Guinea. As the current situation evolves, Lindian will continue to update shareholders and its other stakeholders on any material developments.

The Company's contractors and in-country employees are safe and continue to go about their daily business.

#### **EXPLORATION EXPENSE**

The \$0.028m of exploration and evaluation outflows during the quarter (refer item 2.1 (d) of the Appendix 5B for the September quarter), was predominantly comprised of expenses relating to the Gaoual, Lelouma, and Woula Bauxite projects in Guinea. No expenditure was incurred on development or production activities during the quarter.

#### **CORPORATE - CASH AT END OF QUARTER**

The Company confirmed on 22 October 2021 that it has secured a short term loan facility for \$300,000 on an arm's-length basis from Kabunga Holdings Pty Ltd, a company associated with Chairman Asimwe Kabunga.

The unsecured loan is for a period of two months maturing on 21 December 2021 at a rate of 7% per annum (non-compounding) with interest payable at maturity.

Given Lindian's low monthly cash burn rate, the Facility gives the Company the necessary financial flexibility in the coming months to continue advancing its three bauxite projects in Guinea. Interest from third parties including in-country bauxite mining and aluminium companies as well as traders and other off-takers remains encouraging and a range of project development strategies are being pursued.

At the end of the quarter, the Company held \$0.128m in cash.

#### **UPDATE ON LITIGATION - KANGANKUNDE RARE EARTHS PROJECT, MALAWI**

During the quarter, the Company was notified that the Malawi Supreme Court of Appeal will hear the appeal on 8 December 2021 in relation to the exclusive Option Agreement for the Kangankunde Rare Earth Project in Malawi ("Kangankunde Project") and an ongoing dispute against Michael Saner ("Saner") (since deceased) and Rift Valley Resource Developments Limited ("RVR") regarding the ("Kangankunde Project").

Lindian maintains a willingness to work towards an out-of-court settlement based on sensible commercial terms.

## **LUSHOTO AND PARE BAUXITE PROJECTS, TANZANIA**

The Lushoto and Pare bauxite projects are subject to a Farm-In and Joint Venture Agreement pursuant to which Lindian has earned a 51% Stage 1 interest in East Africa Bauxite Limited.

No meaningful work has been undertaken on the Tanzanian projects during the June Quarter.

## **RELATED PARTY TRANSACTIONS**

During the quarter, Lindian paid \$0.026m in relation to Non-Executive Directors fees.

**This ASX announcement was authorised for release by the Lindian Board.**

## **FORWARD LOOKING STATEMENTS**

All statement other than statements of historical fact included in this announcement including, without limitation, statements regarding future plans and objectives of Lindian Resources Limited (Lindian) are forward looking statements. When used in this presentation, forward looking statements can be identified by words such as “may”, “could”, “believes”, “estimates”, “targets”, “expects” or “intends” and other similar words that involve risks and uncertainties. These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as of the date of this announcement, are expected to take place. Such forward looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are outside the control of the company, its directors and management that could cause Lindian’s actual results to differ materially from the results expressed or anticipated in these statements. Lindian cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward looking statements contained in this announcement will actually occur and investors are cautioned not to place undue reliance on these forward looking statements. Lindian does not undertake to update or revise forward looking statements, or to publish prospective financial information in the future regardless of whether new information, future events or any other factors affect the information contained in this announcement, except where required by applicable law and stock exchange requirements.

Table 1: Lindian Bauxite Projects – Mineral Resource Estimate (JORC 2012) Summary<sup>1</sup>

The location of the different assets within Lindian's bauxite portfolio is shown in Figure 1 below. The Company is focussed on short term and long-term options to achieve maximum, value for stakeholders from the Woula, Gaoual and Lelouma Projects. Lindian has identified the "Northern Corridor" as the last high quality bauxite province in Guinea to be mined and developing this corridor would link the high quality Lindian assets together with the proposed deep-water port located at Dobali. This infrastructure development is a key aspect of the Company's longer-term strategy.

## **COMPETENT PERSONS' STATEMENTS – GAOUAL**

The information in this announcement that relates to exploration results is based on information compiled or reviewed by Mr Mark Gifford, an independent Geological expert consulting to Lindian Resources Limited. Mr Mark Gifford is a Fellow of the Australian Institute of Mining and Metallurgy and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the December 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" (JORC Code). Mr Gifford consents to the inclusion in the announcement of the matters based on his information in the form and context in which it appears.

## **COMPETENT PERSONS' STATEMENTS – WOULA AND LELOUMA**

The information in this announcement that relates to Mineral Resources is based on information reviewed and compiled by Mr Mark Campodonic or Mr Ben Lepley. They take responsibility for any contained information presented in relation to the Mineral Resource estimates.

Mr Campodonic is a Member with Chartered Professional Status (Geology) of the Australian Institute of Mining and Metallurgy ("MAusIMM(CP)"). Mr Campodonic is a full-time employee of SRK and is the Competent Person for the Woula Bauxite Project Mineral Resource estimate. He has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he has undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for the Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Campodonic consents to the inclusion in this announcement of the matters based on his information in the form and context in which it appears.

Mr Ben Lepley is a Chartered Geologist ("CGeol") of the Geological Society of London. Mr Lepley is a full-time employee of SRK and is the Competent Person for the Lelouma Project Mineral Resource estimate. He has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he has undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for the Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Lepley consents to the inclusion in this announcement of the matters based on his information in the form and context in which it appears.

## **COMPETENT PERSON'S STATEMENT – TANZANIA**

The information in this report that relates to exploration results for the Lushoto, Pare and Uyowa Projects is based on information compiled or reviewed by Mr Matt Bull, who is a director of Lindian Resources Limited. Mr Bull is a member of the Australian Institute of Geoscientists and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the December 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" (JORC Code). Mr Bull consents to the inclusion in the announcement of the matters based on his information in the form and context in which it appears.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements referred to in this report and, in the case of estimates of Mineral Resources, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcements continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: The Company anticipates the net operating cashflows to remain at the current level for the next quarter.		

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: On the 22 October 2021 the Company announced it had secured a short term facility ("the Facility") for \$300,000 on an arm's-length basis from Kabunga Holdings Pty Ltd, a company associated with Chairman Asimwe Kabunga.

The unsecured loan is for a period of two months maturing on 21 December 2021 at a rate of 7% per annum (non-compounding) with interest payable at maturity.

Given Lindian's low monthly cash burn rate, the Facility gives the Company the necessary financial flexibility in the coming months to continue advancing its three bauxite projects in Guinea. Interest from third parties including in-country bauxite mining and aluminium companies as well as traders and other off-takers remains encouraging and a range of project development strategies are being pursued.

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: The Company considers that it will have sufficient capital to continue its operations and meet its objectives.

*Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.*
