

# Quarterly Report

For the quarter ended 30 September 2021

ASX:LKE | FRA:LK1 | OTC:LLKKF

[lakeresources.com.au](http://lakeresources.com.au)

## Highlights

- Long duration, low-cost project debt finance for the Kachi Lithium Project is indicatively available from the United Kingdom's Export Credit Agency UKEF and Canada's EDC.
- UKEF provided a strong Expression of Interest to support approx. 70% of the total finance required for Kachi's development, subject to standard project finance terms.
- Canada's Export Credit Agency, EDC, provided a Letter of Interest to potentially work alongside UKEF to provide direct lending to the project up to US\$100 million
- Definitive Feasibility Study (DFS) and Environmental and Social Impact Assessment (ESIA) continue for Kachi with completion anticipated in Q2 2022, together with an expansion case to double production to 51,000 tpa LCE.
- Discussions continue with potential off-takers and electric vehicle makers with few projects globally with uncommitted lithium offtake.
- Lake formally partnered with Lilac for the technology and funding to develop the Kachi Project. Lilac will contribute technology, engineering teams, and an on-site demonstration plant, earning in to a maximum 25% stake in Kachi based on performance-based milestones.
- Lilac, after earning its interest, will be expected to fund approximately US\$50 million, equivalent to its pro rata share of future development costs.
- Lake announced a pro-rata issue of 1 Bonus Option for every 10 Shares held on 24 August 2021 and 1 Additional Option for every Bonus Option exercised prior to 15 October 2021. Take up was ~75%.
- Lithium prices continue to increase due to a growing lithium supply shortfall from early 2022.
- Lake is well-funded through to final investment decision (FID) on construction finance, anticipated in mid-2022. Cash of A\$46.5 million (US\$35m) as at end September and approximately A\$63 million (US\$47.4 m) at end October.

ASX:LKE FRA:LK1 OTC:LLKKF

# Executive Summary

Lake Resources NL (ASX:LKE OTC:LLKKF) is a lithium developer utilising clean, direct extraction technology for the development of high purity lithium products with significant ESG benefits from its flagship Kachi Project (4.4mt LCE resource), and three other lithium brine projects in Argentina. No mining is involved in the brine processing.

Most financing in place to develop the project into production in 2024 at a rate of 25,500 tpa lithium carbonate. Project finance of approximately 70% of the total finance required for Kachi's development, subject to standard project finance terms, has been indicated from Export Credit Agencies of the UK and Canada

Lake owns over 220,000 hectares (0.5 million acres) of leases in a prime location within the Lithium Triangle, alongside all 5 major lithium producers.

A key difference in Lake's development plan to lithium production is to use an efficient direct lithium extraction method (DLE) from our technology partner, Lilac Solutions Inc, who is earning into the Kachi Project. This enables Lake Resources to be a cost competitive supplier of high-purity lithium carbonate with a low carbon (CO<sub>2</sub>) footprint, low water use and low land use – strong Environmental, Social, Governance (ESG) benefits.

High purity battery quality lithium carbonate (99.97% purity) with very low impurities has been produced (refer ASX announcement 20 October 2020) from product from pilot plant modules. This product performed successfully in NMC622-based lithium-ion battery test cells based on initial testing by Novonix (refer ASX announcement 2 March 2020).

# Operations

## Kachi Lithium Brine Project Catamarca Province, Argentina

Lake Resources' 100%-owned Kachi Lithium Brine Project in Catamarca province, NW Argentina, covers an entire large lithium brine-bearing basin with 39 mining leases (74,000 hectares). Lake aims to develop the project into production of 25,500 tpa battery quality lithium carbonate in H1, 2024 by using the efficient DLE method from Lilac Solutions, as established in the Kachi Pre-Feasibility Study (PFS).

Kachi has a large indicated and inferred resource of 4.4 Mt LCE (Indicated 1.0Mt, Inferred 3.4Mt) (refer ASX announcement 27 November 2018). Only 20% of the current resource is used over 25 years of production.

Strong financial results from the PFS show a project value NPV8 of US\$1.6 billion, a 35% IRR and high operating margins with an annual EBITDA of US\$260 million (refer ASX announcement 17 March 2021 and 28 April 2020). The capital cost (capex) estimate is US\$544 million, with an operating cost (opex) of US\$4178/tonne Li<sub>2</sub>CO<sub>3</sub>.

### Definitive Feasibility Study (DFS)

The Definitive Feasibility Study (DFS) is progressing for the Kachi Lithium Brine Project, with Hatch as the lead consultant. Completion is anticipated in Q2, 2022. A change from the PFS is using solar hybrid power for the project which delivers a low carbon footprint and is expected to lower the operating costs. The Environmental and Social Impact Study (ESIA) progresses with Knight Piesold.

# Operations

## Kachi Lithium Brine Project

### Lilac Partnership to earn into Kachi Project

Lake formally partnered with Lilac for the technology and funding to develop the Kachi Project (refer ASX announcement 22 September 2021). Under the agreement, Lilac will contribute technology, engineering teams, and an on-site demonstration plant, earning in to a maximum 25% stake in Lake's Kachi project based on performance-based milestones.

Lilac, after earning its interest in Kachi, will be expected to fund approximately US\$50 million, equivalent to its pro rata share of future development costs - aligning innovation, funding, development, and production. Lilac can earn in to Kachi in the following stages:

*Stage 1:* Lilac will earn 10% project equity on committing to fund at its cost the completion of testing of its technology for the Kachi project in accordance with an agreed timeline.

*Stage 2:* Lilac will earn a further 10% on satisfying all agreed testing criteria using the demonstration plant at the Kachi Project in accordance with an agreed timeline.

*Stage 3:* Lilac may earn a further 5% on refined lithium chemical product from Kachi achieving the highest agreed qualification standards with certain potential offtake partners.

### Other Key Terms:

Lilac will provide technology services and its proprietary ion-exchange materials for the life of the project, subject to meeting the testing criteria and certain agreements being finalized and entered into. Both Lake and Lilac will have pre-emptive rights in respect of each other's interests. Lake has certain buy back rights if Lilac does not meet agreed testing criteria or if an acceptable services agreement cannot be agreed with Lilac within an agreed timeline.

Lilac is well-funded and recently completed a US\$150million Series B funding round from successful tech investors and battery/EV makers, including Breakthrough Energy Ventures, MIT's The Engine fund, Lowercarbon Capital, Sumitomo, SK Materials and BMW.

### Project Finance available for 70% of total, indicatively

The UK Export Finance (UKEF), the Export Credit Agency (ECA) of the United Kingdom, provided a strong Expression of Interest to support approximately 70% of the total finance required for Lake's Kachi Project, subject to standard project finance terms, including, among others, suitable structured offtake contracts, the successful completion of Kachi's Definitive Feasibility Study (DFS), and an Environmental and Social Impact Assessment (ESIA) to Equator Principles (refer ASX announcement 11 August 2021).

The ECA led project finance will deliver a significantly lower cost of capital than traditional financing structures, with the principal repaid over an 8.5-year period post-construction.

UKEF indicated that debt finance is available to support expanded production to 51,000 tpa of high purity lithium carbonate equivalent. UKEF's Expression of Interest will encourage a UK-led sourcing strategy while allowing flexibility for other leading ECAs to participate.

Canada's Export Credit Agency, EDC, provided a Letter of Interest to potentially work alongside UKEF to support approximately 70% of the total finance required for Lake's Kachi Project, subject to similar standard project finance terms as UKEF (refer ASX announcement 28 September 2021). EDC indicated the ability to provide direct lending to the project up to US\$100 million, subject to sourcing requirements.

Such direct lending would be at the attractive OECD Fixed Commercial Interest Reference Rate ("CIRR") applicable at the date of signing, which is currently 1.77% fixed for the life of the loan. Approximately two-thirds of the debt finance could be provided at the OECD CIRR interest rate.

### Expansion Study to Double Kachi Production

An expansion case to double production to 51,000 tpa LCE is underway due to increasing demand. Additional drilling continues to support the expansion of future production and upgrade Kachi's Resources to Reserves and for the conversion of Inferred Resources into the Measured and Indicated Mineral Resource category.

## Cauchari, Olaroz and Paso Lithium Brine Projects Jujuy Province, Argentina

Lake holds mining leases over 47,000 hectares over three projects in Jujuy Province in north-west Argentina, including the Cauchari, Olaroz and Paso Projects. At Olaroz, which is north of Cauchari, Lake's leases extend over 30 kilometres east and north of the adjoining Orocobre's Olaroz lithium production leases.

Direct lithium extraction methods will be tested from its Cauchari, Olaroz and Paso Brine Projects, with lithium brine samples to be sent from the Cauchari Project for testing. This will be followed by a scoping study to expand future production, including environmental impact studies and drilling for a resource statement.

Lake has previously confirmed multiple high-grade lithium brines zones in drilling in 2019 at the Cauchari Project (refer ASX announcement 23 August 2019). The higher-grade results averaged 493 mg/L lithium over 343m (from 117m to 460m), up to 540 mg/L. This drilling confirmed similar grades and lithium brines extending into Lake's properties from the adjoining Ganfeng/Lithium Americas JV production development at Cauchari.

# Corporate

## Capital Structure

Lake has 1,196,862,188 shares on issue as at 28 October 2021. Unlisted options include 87,904,236 options with an exercise price of \$0.75 (expiry June 2022), 35,000,000 unlisted options with an exercise price of A\$0.55 (31 Dec 2024 expiry), 2,000,000 unlisted options with an exercise price of A\$0.55 (12 July 2024), 26,951,875 unlisted options at an exercise price of A\$0.30 (9 Mar 2023 expiry), 1,500,000 unlisted options with an exercise price of A\$0.30 (24 May 2023 expiry) and 1,000,000 unlisted options with an exercise price of A\$0.165 (27 Jan 2023).

## Cash Position and Finance

Lake held cash of A\$46.5 million (US\$35m) as at 30 September 2021 and approximately A\$63 million (US\$47.4 m) at end October 2021 (in AUD, USD and Argentine Pesos) with no debt.

The Company is financed through to the Final Investment Decision (FID) and construction finance phase, including the Definitive Feasibility Study (DFS) for the Kachi project.

## Bonus Options

On the 28 July 2021 Lake announced a pro-rata non-renounceable issue to Eligible Shareholders of one free Bonus Option for every ten Shares held on the Record Date of 24 August 2021 at the Exercise Price of \$0.35 per Bonus Option (Bonus Option Offer), to be exercised before 5:00pm on the Bonus Option Expiry Date (15 October 2021). One further free Additional Option at the Exercise Price of \$0.75 per Additional Option was provided for every Bonus Option exercised prior to the Bonus Option Expiry Date of 15 October 2021 (Additional Option Offer) to be exercised by the Additional Option Expiry Date (15 June 2022).

On 30 August 2021, 110,416,119 Bonus Options were issued at the Exercise Price of \$0.35 per Bonus Option and an Expiry Date of 15 October 2021. As at 28 October, 83,904,236 options had been converted raising a further \$29,366,483 million.

A further \$13.5 million was raised through the conversion of other unlisted options with an exercise price of A\$0.30, and 14,000,000 Director options with an exercise price of \$0.09 (expiry July 2021).

### Payments to related parties of the entity and their associates:

Amounts paid and accrued to related parties of the entity and their associates during the quarter were \$436,000. These amounts related to normal Directors fees including the salary of the Managing Director, the fees for the executive technical director for the Definitive Feasibility Study and fees for the Chairman for ongoing marketing and fundraising activities.

### Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 28 October 2021

Authorised by: By the Board

### Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
