TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from ______to ____

Commission File Number: 001-15317

ResMed Inc.

(Exact name of registrant as specified in its charter)

Delaware (State or other jurisdiction of incorporation or organization) 98-0152841 (I.R.S. Employer Identification No.)

> 9001 Spectrum Center Blvd. San Diego, CA 92123 United States of America

(Address of principal executive offices, including zip code)

(858) 836-5000 (Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Exchange Act:

		-	Trading	,	-
\sum	Title of each class		Symbol(s)	Name	of each exchange on which registered
Ľ	Common Stock, par value \$0.004 per share		RMD		New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes \boxtimes No \square

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).

Yes 🗵 No 🗆

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.:

Large Accelerated Filer	X	Accelerated Filer	
Non-Accelerated Filer		Smaller Reporting Company	
Emerging Growth Company			

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. \Box

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes 🗆 No 🗵

At October 25, 2021, there were 145,723,142 shares of Common Stock (\$0.004 par value) outstanding. This number excludes 41,836,234 shares held by the registrant as treasury shares.

RESMED INC. AND SUBSIDIARIES Notes to the Condensed Consolidated Financial Statements (Unaudited)

(1) Summary of Significant Accounting Policies

Organization and Basis of Presentation

ResMed Inc. (referred to herein as "we", "us", "our" or the "Company") is a Delaware corporation formed in March 1994 as a holding company for the ResMed Group. Through our subsidiaries, we design, manufacture and market equipment for the diagnosis and treatment of sleep-disordered breathing and other respiratory disorders, including obstructive sleep apnea. Our manufacturing operations are located in Australia, Singapore, Malaysia, France, China and the United States. Major distribution and sales sites are located in the United States, Germany, France, the United Kingdom, Switzerland, Australia, Japan, China, Finland, Norway and Sweden. We also operate a Software as a Service ("SaaS") business in the United States that includes out-of-hospital software platforms designed to support the professionals and caregivers who help people stay healthy in the home or care setting of their choice.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") for interim financial information and with the instructions to Form 10-Q and the rules of the U.S. Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all necessary adjustments, which consisted only of normal recurring items, have been included in the accompanying financial statements to present fairly the results of the interim periods. The results of operations for the interim periods presented are not necessarily indicative of the results that may be expected for the year ending June 30, 2022.

The condensed consolidated financial statements for the three months ended September 30, 2021 and September 30, 2020 are unaudited and should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K (our "Form 10-K") for the year ended June 30, 2021.

Revenue Recognition

In accordance with Accounting Standard Codification ("ASC") Topic 606, "Revenue from Contracts with Customers", we account for a contract with a customer when there is a legally enforceable contract, the rights of the parties are identified, the contract has commercial substance, and collectability of the contract consideration is probable. We have determined that we have two operating segments, which are the sleep and respiratory disorders sector of the medical device industry ("Sleep and Respiratory Care") and the supply of business management software as a service to out-of-hospital health providers ("SaaS"). Our Sleep and Respiratory Care revenue relates primarily to the sale of our products that are therapy-based equipment. Some contracts include additional performance obligations such as the provision of extended warranties and provision of data for patient monitoring. Our SaaS revenue relates to the provision of software access with ongoing support and maintenance services as well as professional services such as training and consulting.

Disaggregation of revenue

The following table summarizes our net revenue disaggregated by segment, product and region (in thousands):

		Three Months End September 30,			
	2021		2020

PART I - FINANCIAL INFORMATION

RESMED INC. AND SUBSIDIARIES Notes to the Condensed Consolidated Financial Statements (Unaudited)

Performance obligations and contract balances

Revenue is recognized when performance obligations under the terms of a contract with a customer are satisfied; generally, this occurs with the transfer of risk and/or control of our products are provided at a point in time. For products in our Sleep and Respiratory Care business, we transfer control and recognize a sale when products are shipped to the customer in accordance with the contractual shipping terms. For our SaaS business, revenue associated with professional services are recognized as they are provided. We defer the recognition of a portion of the consideration received when performance obligations are not yet satisfied. Consideration received from customers in advance of revenue recognition is classified as deferred revenue. Performance obligations resulting in deferred revenue in our Sleep and Respiratory Care business relate primarily to extended warranties on our devices and the provision of data for patient monitoring. Performance obligations resulting in deferred revenue in our SaaS business relate primarily to the provision of software access with maintenance and support over an agreed term and material rights associated with future discounts upon renewal of some SaaS contracts. Generally, deferred revenue will be recognized over a period of one year to five years. Our contracts do not contain significant financing components.

The following table summarizes our contract balances (in thousands):

Contract assets	Sej	ptember 30, 2021	 June 30, 2021	Balance sheet caption
Accounts receivable, net	\$	575,554	\$ 614,292	Accounts receivable, net
Unbilled revenue, current		25,799	10,893	Prepaid expenses and other current assets
Unbilled revenue, non-current		7,267	6,214	Prepaid taxes and other non-current assets
Contract liabilities				
Deferred revenue, current		(112,528)	(109,611)	Deferred revenue (current liabilities)
Deferred revenue, non-current		(93,255)	(91,496)	Deferred revenue (non-current liabilities)

Transaction price determination

Revenue is measured as the amount of consideration we expect to receive in exchange for transferring goods or providing services. In our Sleep and Respiratory Care segment, the amount of consideration received and revenue recognized varies with changes in marketing incentives (e.g., rebates, discounts, free goods) and returns offered to customers and their customers. When we give customers the right to return eligible products and receive credit, returns are estimated based on an analysis of historical experience. However, returns of products, excluding warranty-related returns, are infrequent and insignificant. We adjust the estimate of revenue at the earlier of when the most likely amount of consideration can be estimated, the amount expected to be received changes, or when the consideration becomes fixed.

We offer our Sleep and Respiratory Care customers cash or product rebates based on volume or sales targets measured over quarterly or annual periods. We estimate rebates based on each customer's expected achievement of its targets. In accounting for these rebate programs, we reduce revenue ratably as sales occur over the rebate period by the expected value of the rebates to be returned to the customer. Rebates measured over a quarterly period are updated based on actual sales results and, therefore, no estimation is required to determine the reduction to revenue. For rebates measured over annual periods, we update our estimates on a quarterly basis based on actual sales results and updated forecasts for the remaining rebate periods. We also offer discounts to both our Sleep and Respiratory Care as well as our SaaS customers as part of normal business practice and these are deducted from revenue when the sale occurs.

When Sleep and Respiratory Care or SaaS contracts have multiple performance obligations, we generally use an observable price to determine the stand-alone selling price by reference to pricing and discounting practices for the specific product or service when sold separately to similar customers. Revenue is then allocated proportionately, based on the determined stand-alone selling price, to each performance obligation. An allocation is not required for many of our Sleep and Respiratory Care contracts that have a single performance obligation, which is the shipment of our therapy-based equipment.

Accounting and practical expedient elections

We have elected to account for shipping and handling activities associated with our Sleep and Respiratory Care segment as a fulfillment cost within cost of sales, and record shipping and handling costs collected from customers in net revenue. We have also elected for all taxes assessed by government authorities that are imposed on and concurrent with revenue-producing transactions, such as sales and value added taxes, to be excluded from revenue and presented on a net basis. We have elected two practical expedients including the "right to invoice" practical expedient, which is relevant for some of our SaaS contracts as it allows us to recognize revenue in the amount of the invoice when it corresponds directly with the value of performance completed to date. The second practical expedient adopted permits relief from considering a significant financing component when the payment for the good or service is expected to be one year or less.

RESMED INC. AND SUBSIDIARIES Notes to the Condensed Consolidated Financial Statements (Unaudited)

Lease Revenue

We lease Sleep and Respiratory Care medical devices to customers primarily as a means to comply with local health insurer requirements in certain foreign geographies. Device rental contracts include sales-type and operating leases, and contract terms vary by customer and include options to terminate or extend the contract. When lease contracts also include the sale of masks and accessories, we allocate contract consideration to those items on a relative standalone price basis and recognize revenue when control transfers to the customer.

The components of lease revenue were as follows (in thousands):

		Three Months Ended September 30,		
	2021	2021 2020		
Sales-type lease revenue	\$ 4,087	'\$	1,960	
Operating lease revenue	25,15	7	24,779	
Total lease revenue	\$ 29,244	\$	26,739	

Provision for Warranty

We provide for the estimated cost of product warranties on our Sleep and Respiratory Care products at the time the related revenue is recognized. We determine the amount of this provision by using a financial model, which takes into consideration actual historical expenses and potential risks associated with our different products. We use this financial model to calculate the future probable expenses related to warranty and the required level of the warranty provision. Although we engage in product improvement programs and processes, our warranty obligation is affected by product failure rates and costs incurred to correct those product failures. Should actual product failure rates or estimated costs to repair those product failures differ from our estimates, we would be required to revise our estimated warranty provision.

Recently issued accounting standards not yet adopted

ASU No. 2020-04 "Reference Rate Reform: Facilitation of the Effects of Reference Rate Reform on Financial Reporting"

In March 2020, the FASB issued ASU No. 2020-04, "Facilitation of the Effects of Reference Rate Reform on Financial Reporting" (Topic 848), which provides optional expedients and exceptions for applying U.S. GAAP to contracts, hedging relationships, and other transactions that reference LIBOR or another reference rate expected to be discontinued because of reference rate reform. The guidance is effective for us as of March 12, 2020 through December 31, 2022. We will evaluate transactions or contract modifications occurring as a result of reference rate reform and determine whether to apply the optional guidance on an ongoing basis. The ASU is currently not expected to have a material impact on our consolidated financial statements.

(2) Segment Information

We have quantitatively and qualitatively determined that we operate in two operating segments, which are the Sleep and Respiratory Care segment and the SaaS segment.

We evaluate the performance of our segments based on net revenues and income from operations. The accounting policies of the segments are the same as those described in note 2 of our consolidated financial statements included in our Form 10-K for the year ended June 30, 2021. Segment net revenues and segment income from operations do not include inter-segment profits and revenue is allocated to a geographic area based on where the products are shipped to or where the services are performed.

Certain items are maintained at the corporate level and are not allocated to the segments. The non-allocated items include corporate headquarters costs, stock-based compensation, amortization expense from acquired intangibles, net interest expense (income), loss attributable to equity method investments, gains and losses on equity investments, and other, net. We neither discretely allocate assets to our operating segments, nor does our Chief Operating Decision Maker evaluate the operating segments using discrete asset information.

(3) Supplemental Balance Sheet Information

Components of selected captions in the condensed consolidated balance sheets consisted of the following (in thousands):

Inventories	September 30, 2021		June 30, 2021		
Raw materials	\$ 220,784	\$	155,419		
Work in progress	3,494		4,647		
Finished goods	282,366		296,967		
Total inventories	\$ 506,644	\$	457,033		
Property, Plant and Equipment	September 30, 2021		June 30, 2021		
Property, plant and equipment, at cost	\$ 1,084,064	\$	1,085,629		
Accumulated depreciation and amortization	(616,720	<u> </u>	(622,139)		
Property, plant and equipment, net	\$ 467,344	\$	463,490		

Other Intangible Assets	September 30, 2021	June 30, 2021
Developed/core product technology	\$ 353,530	\$ 383,319
Accumulated amortization	(220,319)	(239,049)
Developed/core product technology, net	133,211	144,270
Customer relationships	261,736	272,703
Accumulated amortization	(85,861)	(90,976)
Customer relationships, net	175,875	181,727
Other intangibles	194,472	197,662
Accumulated amortization	(128,158)	(131,077)
Other intangibles, net	66,314	66,585
Total other intangibles, net	\$ 375,400	\$ 392,582

Intangible assets consist of developed/core product technology, trade names, non-compete agreements, customer relationships, and patents, which we amortize over the estimated useful life of the assets, generally between two years to fifteen years. There are no expected residual values related to these intangible assets.

(4) Goodwill

A reconciliation of changes in our goodwill by reportable segment is as follows (in thousands):

	Three Months Ended September 30, 2021				
Re	Sleep and espiratory Care	SaaS		Total	
Balance at the beginning of the period \$	633,183	\$ 1,294	,718 \$	1,927,901	
Foreign currency translation adjustments	(5,864)		-	(5,864)	
Balance at the end of the period \$	627,319	\$ 1,294	,718 \$	1,922,037	

(5) Investments

We have equity investments in privately and publicly held companies that are unconsolidated entities. The following discusses our investments in marketable equity securities, non-marketable equity securities, and investments accounted for under the equity method.

Our marketable equity securities are publicly traded stocks measured at fair value and classified within Level 1 in the fair value hierarchy because we use quoted prices for identical assets in active markets. Marketable equity securities are recorded in prepaid expenses and other current assets on the condensed consolidated balance sheets.

Non-marketable equity securities consist of investments in privately held companies without readily determinable fair values and are recorded in prepaid taxes and other non-current assets on the condensed consolidated balance sheets. Non-marketable equity securities are reported at cost, minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or similar investment of the same issuer. We assess non-marketable equity securities at least quarterly for impairment and consider qualitative and quantitative factors including the investee's financial metrics, product and commercial outlook and cash usage. All gains and losses on marketable and non-marketable equity securities, realized and unrealized, are recognized in gain (loss) on equity investments as a component of other income (loss), net on the condensed consolidated statements of operations.

Equity investments whereby we have significant influence, but not control over the investee and are not the primary beneficiary of the investee's activities, are accounted for under the equity method. Under this method, we record our share of gains or losses attributable to equity method investments as a component of other income (loss), net on the condensed consolidated statements of operations.

Equity investments by measurement category were as follows (in thousands):

Measurement category	September 30, 2021	June 30, 2021
Fair value	\$ 33,138	\$ 29,084
Measurement alternative	31,160	23,002
Equity method	15,768	17,154
Total	\$ 80,066	\$ 69,240

The following tables show a reconciliation of the changes in our equity investments (in thousands):

	Three Months Ended September 30, 2021							
		marketable curities				Equity method investments		Total

Carrying value at the end of the period	\$	21,410	\$	19,045	\$	18,071	\$	58,526

(1) During the three months ended September 30, 2020, one of our investments, which was previously accounted for under the measurement alternative, completed its initial public offering which resulted in a change of accounting methodology to fair value.

Item 1

RESMED INC. AND SUBSIDIARIES Notes to the Condensed Consolidated Financial Statements (Unaudited)

Net unrealized gains recognized for the three months ended September 30, 2021 and 2020 for equity investments in non-marketable and marketable securities still held as of those respective dates were a gain of \$5.6 million and \$8.5 million, respectively.

(6) Income Taxes

In accordance with ASC 740 *Income Taxes*, each interim reporting period is considered integral to the annual period, and tax expense is measured using an estimated annual effective tax rate. An entity is required to record income tax expense each quarter based on its annual effective tax rate estimated for the full fiscal year and use that rate to provide for income taxes on a current year-to-date basis, adjusted for discrete taxable events that occur during the interim period.

On September 19, 2021, we concluded the settlement agreement with the Australian Taxation Office ("ATO") in relation to the previously disclosed transfer pricing dispute for the tax years 2009 through 2018 ("ATO settlement"). The ATO settlement fully resolved the dispute for all prior years, with no admission of liability and provides clarity in relation to certain future taxation principles.

The final net impact of the ATO settlement was \$238.7 million, which represents a gross amount of \$381.7 million, including interest and penalties of \$48.1 million, and adjustments for credits and deductions of \$143.0 million. As a result of the ATO settlement and due to movements in foreign currencies, we recorded a benefit of \$14.1 million within other comprehensive income, and a \$4.1 million reduction of tax credits, which was recorded to income tax expense. As a result of the ATO settlement, we reversed our previously recorded uncertain tax position.

On September 28, 2021, we remitted final payment to the ATO of \$284.8 million, consisting of the agreed settlement amount of \$381.7 million less prior remittances made to the ATO of \$96.9 million.

(7) Product Warranties

Changes in the liability for warranty costs, which is included in accrued expenses in our condensed consolidated balance sheets, are as follows (in thousands):

		Three Mon Septem		ed
		2021 2		
Balance at the beginning of the period	\$	22,032	\$	21,132
Warranty accruals for the period		5,413		5,347
Warranty costs incurred for the period		(3,972)		(3,428)
Foreign currency translation adjustments		(513)		640
Balance at the end of the period	\$	22,960	\$	23,691
Durance at the cha of the period	Ψ	22,700	ψ	23

(8) Debt

Debt consisted of the following (in thousands):

	September 30, 2021	 June 30, 2021
Short-term debt	\$ 12,000	\$ 12,000
Long-term debt	\$ 796,000	\$ 646,000
Deferred borrowing costs	(2,332)	(2,649)
Long-term debt, net	\$ 793,668	\$ 643,351
Total debt	\$ 805,668	\$ 655,351

Credit Facility

On April 17, 2018, we entered into an amended and restated credit agreement (the "Revolving Credit Agreement"), as borrower, with lenders MUFG Union Bank, N.A., as administrative agent, joint lead arranger, joint book runner, swing line lender and letter of credit issuer, and Westpac Banking Corporation, as syndication agent, joint lead arranger and joint book runner. The Revolving Credit Agreement, among other things, provided a senior unsecured revolving credit facility of \$800.0 million, with an uncommitted option to increase the revolving credit facility by an additional \$300.0 million.

Additionally, on April 17, 2018, ResMed Limited entered into a Syndicated Facility Agreement (the "Term Credit Agreement"), as borrower, with lenders MUFG Union Bank, N.A., as administrative agent, joint lead arranger and joint book runner, and Westpac Banking Corporation, as syndication agent, joint lead arranger and joint book runner. The Term Credit Agreement, among other things, provides ResMed Limited a senior unsecured term credit facility of \$200.0 million.

PART I - FINANCIAL INFORMATION

RESMED INC. AND SUBSIDIARIES Notes to the Condensed Consolidated Financial Statements (Unaudited)

On November 5, 2018, we entered into a first amendment to the Revolving Credit Agreement to, among other things, increase the size of our senior unsecured revolving credit facility from \$800.0 million to \$1.6 billion, with an uncommitted option to increase the revolving credit facility by an additional \$300.0 million.

Our obligations under the Revolving Credit Agreement are guaranteed by certain of our direct and indirect U.S. subsidiaries, and ResMed Limited's obligations under the Term Credit Agreement are guaranteed by us and certain of our direct and indirect U.S. subsidiaries. The Revolving Credit Agreement and Term Credit Agreement contain customary covenants, including, in each case, a financial covenant that requires that we maintain a maximum leverage ratio of funded debt to EBITDA (as defined in the Revolving Credit Agreement and Term Credit Agreement, as applicable). The entire principal amounts of the revolving credit facility and term credit facility, and, in each case, any accrued but unpaid interest may be declared immediately due and payable if an event of default occurs, as defined in the Revolving Credit Agreement, as applicable. Events of default under the Revolving Credit Agreement and the Term Credit Agreement, as applicable. Events of default under the Revolving Credit Agreement and the Term Credit Agreement, or certain changes of control of us, or the respective guarantee of any covenants in the respective agreements or related documents, or certain changes of control of us, or the respective guarantees of the obligations borrowed under the Revolving Credit Agreement and Term Credit Agreement.

The Revolving Credit Agreement and Term Credit Agreement each terminate on April 17, 2023, when all unpaid principal and interest under the loans must be repaid. Amounts borrowed under the Term Credit Agreement also amortize on a semi-annual basis, with a \$6.0 million principal payment required on each such semi-annual amortization date. The outstanding principal amounts bear interest at a rate equal to LIBOR plus 0.75% to 1.50% (depending on the then-applicable leverage ratio) or the Base Rate (as defined in the Revolving Credit Agreement and the Term Credit Agreement, as applicable) plus 0.0% to 0.50% (depending on the then-applicable leverage ratio). At September 30, 2021, the interest rate that was being charged on the outstanding principal amounts was 0.9%. An applicable commitment fee of 0.100% to 0.175% (depending on the then-applicable leverage ratio) applies on the unused portion of the revolving credit facility. As of September 30, 2021, we had \$1.5 billion available for draw down under the revolving credit facility.

We are required to disclose the fair value of financial instruments for which it is practicable to estimate the value, even though these instruments are not recognized at fair value in the consolidated balance sheets. As the Revolving Credit and Term Credit Agreements' interest rate is calculated as LIBOR plus the spreads described above, its carrying amount is equivalent to its fair value as at September 30, 2021 and June 30, 2021, which was \$308.0 million and \$158.0 million, respectively. Quoted market prices in active markets for identical liabilities based inputs (Level 1) were used to estimate fair value.

Senior Notes

On July 10, 2019, we entered into a Note Purchase Agreement with the purchasers to that agreement, in connection with the issuance and sale of \$250.0 million principal amount of our 3.24% senior notes due July 10, 2026, and \$250.0 million principal amount of our 3.45% senior notes due July 10, 2029 (collectively referred to as the "Senior Notes"). Our obligations under the Note Purchase Agreement and the Senior Notes are unconditionally and irrevocably guaranteed by certain of our direct and indirect U.S. subsidiaries. The net proceeds from this transaction were used to pay down borrowings on our Revolving Credit Agreement.

Under the terms of the Note Purchase Agreement, we agreed to customary covenants including with respect to our corporate existence, transactions with affiliates, and mergers and other extraordinary transactions. We also agreed that, subject to limited exceptions, we will maintain a ratio of consolidated funded debt to consolidated EBITDA (as defined in the Note Purchase Agreement) of no more than 3.50 to 1.00 as of the last day of any fiscal quarter, and will not at any time permit the amount of all priority secured and unsecured debt of us and our subsidiaries to exceed 10% of our consolidated tangible assets, determined as of the end of our most recently ended fiscal quarter. This ratio is calculated at the end of each reporting period for which the Note Purchase Agreement requires us to deliver financial statements, using the results of the 12 consecutive month period ending with such reporting period.

We are required to disclose the fair value of financial instruments for which it is practicable to estimate the value, even though these instruments are not recognized at fair value in the consolidated balance sheets. As of September 30, 2021 and June 30, 2021 the Senior Notes had a carrying amount of \$500.0 million, excluding deferred borrowing costs, and an estimated fair value of \$527.2 million and \$530.4 million, respectively. Quoted market prices in active markets for identical liabilities based inputs (Level 1) were used to estimate fair value.

At September 30, 2021, we were in compliance with our debt covenants and there was \$808.0 million outstanding under the Revolving Credit Agreement, Term Credit Agreement and Senior Notes.

RESMED INC. AND SUBSIDIARIES Notes to the Condensed Consolidated Financial Statements (Unaudited)

(9) Earnings Per Share

Basic earnings per share is computed by dividing the net income available to common stockholders by the weighted average number of shares of common stock outstanding. For purposes of calculating diluted earnings per share, the denominator includes both the weighted average number of shares of common stock outstanding and the number of dilutive common stock equivalents such as stock options and restricted stock units.

The weighted average number of outstanding stock options and restricted stock units not included in the computation of diluted earnings per share were 1,322 and 109,475 for the three months ended September 30, 2021 and 2020, respectively, as the effect would have been anti-dilutive.

Basic and diluted earnings per share are calculated as follows (in thousands except per share data):

		nths Ended 1ber 30,
Number	2021	2020
Numerator: Net income	\$ 203,613	\$ 178,372

(10) Legal Actions and Contingencies

Litigation

In the normal course of business, we are subject to routine litigation incidental to our business. While the results of this litigation cannot be predicted with certainty, we believe that their final outcome will not, individually or in aggregate, have a material adverse effect on our consolidated financial statements taken as a whole.

On June 2, 2021, New York University filed a complaint for patent infringement in the United States District Court, District of Delaware against ResMed Inc., case no. 1:21-cv-00813 (CFC). The complaint alleges that the AutoSet and AutoRamp features of ResMed's AirSense 10 AutoSet flow generators infringe one or more claims of various patents. According to the complaint, the patents are directed to systems and methods for diagnosing and treating patient sleeping disorders during different sleep states. The complaint seeks money damages and attorneys' fees. ResMed answered the complaint on September 30, 2021 and filed a motion to dismiss the complaint on the basis that the patents are invalid because the subject matter of the patents is not patentable under the Supreme Court and Federal Circuit precedent. The motion to dismiss is pending.

On January 27, 2021, the International Trade Commission instituted In Re Certain UMTS and LTE Cellular Communications Modules and Products Containing the Same, Investigation No. 337-TA-1240, by complainants Philips RS North America, LLC and Koninklijke Philips N.V. (collectively "Philips") against Quectel Wireless Solutions Co., Ltd; Thales DIS AIS USA, LLC, Thales DIS AIS Deutschland GmbH; Telit Wireless Solutions, Inc., Telit Communications PLC, CalAmp. Corp., Xirgo Technologies, LLC, and Laird Connectivity, Inc. (collectively "respondents"). In the ITC investigation, Philips seeks an order excluding communications modules, and products that contain them, from importation into the United States based on alleged infringement of 3G and 4G standard essential patents held by Philips. On October 6-14, 2021, the administrative law judge held a hearing on the merits and is expected to issue an initial determination on or about January 27, 2022. On December 17, 2020, Philips filed companion cases for patent infringement against the same defendants in the United States District Court for the District of Delaware, case nos. 1:20-cv-01707, 01708, 01709, 01710, 01711, and 01713 (CFC) seeking damages, an injunction, and a declaration from the court on the amount of a fair reasonable and non-discriminatory license rate for the standard essential patents it is asserting against the defendants. The district court cases have been stayed pending the ITC proceedings. ResMed is not a party to the ITC investigation or the district court cases but sells products that incorporate some of the communications modules at issue in the cases.

Based on currently available information, we are unable to make a reasonable estimate of loss or range of losses, if any, arising from these matters.

Item 1

RESMED INC. AND SUBSIDIARIES Notes to the Condensed Consolidated Financial Statements (Unaudited)

Contingent Obligations Under Recourse Provisions

We use independent financing institutions to offer some of our customers financing for the purchase of some of our products. Under these arrangements, if the customer qualifies under the financing institutions' credit criteria and finances the transaction, the customers repay the financing institution on a fixed payment plan. For some of these arrangements, the customer's receivable balance is with limited recourse whereby we are responsible for repaying the financing company should the customer default. We record a contingent provision, which is estimated based on historical default rates. This is applied to receivables sold with recourse and is recorded in accrued expenses.

During the three months ended September 30, 2021 and September 30, 2020, receivables sold with limited recourse were \$49.5 million and \$30.6 million, respectively. As of September 30, 2021, the maximum exposure on outstanding receivables sold with recourse and contingent provision were \$36.0 million and \$8.1 million, respectively. As of June 30, 2021, the maximum exposure on outstanding receivables sold with recourse and contingent with recourse and contingent provision were \$30.2 million and \$8.2 million, respectively.

Special Note Regarding Forward-Looking Statements

This report contains or may contain certain forward-looking statements and information that are based on the beliefs of our management as well as estimates and assumptions made by, and information currently available to, our management. All statements other than statements regarding historical facts are forward-looking statements. The words "believe," "expect," "intend," "anticipate," "will continue," "will," "estimate," "plan," "future" and other similar expressions, and negative statements of such expressions, generally identify forward-looking statements, including, in particular, statements regarding expectations of future revenue or earnings, expenses, new product development, new product launches, new markets for our products, litigation, tax outlook and the effects of competition and public health crises (including the COVID-19 pandemic) on our business. These forward-looking statements are made in accordance with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. You are cautioned not to place undue reliance on these forward-looking statements, uncertainties, estimates and assumptions, including, without limitation, and in addition to those identified in the text surrounding such statements, those identified in our annual report on Form 10-K for the fiscal year ended June 30, 2021 and elsewhere in this report. Information that is based on estimates, forecasts, projections, market research or similar methodologies is inherently subject to uncertainties and actual events or circumstances may differ materially from events and circumstances reflected in this information. Unless otherwise expressly stated, we obtained this industry, business, market, and other data from reports, research surveys, studies, and similar data prepared by market research firms and other third parties, industry, medical and general publications, government data, and similar sources.

In addition, important factors to consider in evaluating such forward-looking statements include changes or developments in healthcare reform, social, economic, market, legal or regulatory circumstances, including the impact of public health crises such as the novel strain of coronavirus (COVID-19) that has spread globally; changes in our business or growth strategy or an inability to execute our strategy due to changes in our industry or the economy generally, the emergence of new or growing competitors, the actions or omissions of third parties, including suppliers, customers, competitors and governmental authorities and various other factors. If any one or more of these risks or uncertainties materialize, or underlying estimates or assumptions prove incorrect, actual results may vary significantly from those expressed in our forward-looking statements, and there can be no assurance that the forward-looking statements contained in this report will in fact occur.

Before deciding to purchase, hold or sell our common stock, you should carefully consider the risks described in our annual report on Form 10-K for the fiscal year ended June 30, 2021, in addition to the other cautionary statements and risks described elsewhere in this report and in our other filings with the Securities and Exchange Commission ("SEC"), including our subsequent reports on Forms 10-Q and 8-K. These risks and uncertainties are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business. If any of these known or unknown risks or uncertainties actually occurs with material adverse effects on us, our business, financial condition and results of operations could be seriously harmed. In that event, the market price for our common stock will likely decline and you may lose all or part of your investment.

RESMED INC. AND SUBSIDIARIES Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The following is an overview of our results of operations for the three months ended September 30, 2021. Management's discussion and analysis of financial condition and results of operations ("MD&A") is intended to help the reader understand our results of operations and financial condition. Management's discussion and analysis is provided as a supplement to, and should be read in conjunction with, the condensed consolidated financial statements and notes included in this report.

We are a global leader in the development, manufacturing, distribution and marketing of medical devices and cloud-based software applications that diagnose, treat and manage respiratory disorders, including sleep disordered breathing ("SDB"), chronic obstructive pulmonary disease, neuromuscular disease and other chronic diseases. SDB includes obstructive sleep apnea and other respiratory disorders that occur during sleep. Our products and solutions are designed to improve patient quality of life, reduce the impact of chronic disease and lower healthcare costs as global healthcare systems continue to drive a shift in care from hospitals to the home and lower cost settings. Our cloud-based software digital health applications, along with our devices, are designed to provide connected care to improve patient outcomes and efficiencies for our customers.

Since the development of continuous positive airway pressure therapy, we have expanded our business by developing or acquiring a number of products and solutions for a broader range of respiratory disorders including technologies to be applied in medical and consumer products, ventilation devices, diagnostic products, mask systems for use in the hospital and home, headgear and other accessories, dental devices, portable oxygen concentrators and cloud-based software informatics solutions to manage patient outcomes and customer and provider business processes. Our growth has been fueled by geographic expansion, our research and product development efforts, acquisitions and an increasing awareness of SDB and respiratory conditions like chronic obstructive pulmonary disease as significant health concerns.

We are committed to ongoing investment in research and development and product enhancements. During the three months ended September 30, 2021, we invested \$60.0 million on research and development activities, which represents 6.6% of net revenues, with a continued focus on the development and commercialization of new, innovative products and solutions that improve patient outcomes, create efficiencies for our customers and help physicians and providers better manage chronic disease and lower healthcare costs. During the three months ended September 30, 2021 we continued the launch of AirSense 11, which introduces new features such as a touch screen, algorithms for patients new to therapy and digital enhancements and over-the-air update capabilities. Due to multiple acquisitions, including Brightree in April 2016, HEALTHCAREfirst in July 2018 and MatrixCare in November 2018, our operations now include out-of-hospital software platforms designed to support the professionals and caregivers who help people stay healthy in the home or care setting of their choice. These platforms comprise our SaaS business. These products, our cloud-based remote monitoring and therapy management system, and a robust product pipeline, should continue to provide us with a strong platform for future growth.

We have determined that we have two operating segments, which are the sleep and respiratory disorders sector of the medical device industry ("Sleep and Respiratory Care") and the supply of business management software as a service to out-of-hospital health providers ("SaaS").

Net revenue for the three months ended September 30, 2021 was \$904.0 million, an increase of 20% compared to the three months ended September 30, 2020. Gross margin was 56.0% for the three months ended September 30, 2021 compared to 58.3% for the three months ended September 30, 2020. Diluted earnings per share was \$1.39 for the three months ended September 30, 2021, compared to diluted earnings per share of \$1.22 for the three months ended September 30, 2020.

At September 30, 2021, our cash and cash equivalents totaled \$276.1 million, our total assets were \$4.7 billion and our stockholders' equity was \$3.0 billion.

In order to provide a framework for assessing how our underlying businesses performed excluding the effect of foreign currency fluctuations, we provide certain financial information on a "constant currency" basis, which is in addition to the actual financial information presented. In order to calculate our constant currency information, we translate the current period financial information using the foreign currency exchange rates that were in effect during the previous comparable period. However, constant currency measures should not be considered in isolation or as an alternative to U.S. dollar measures that reflect current period exchange rates, or to other financial measures calculated and presented in accordance with accounting principles generally accepted in the United States ("GAAP").

Management's Discussion and Analysis of Financial Condition and Results of Operations

Impact of COVID-19

In March 2020, the World Health Organization declared the outbreak of a novel strain of coronavirus ("COVID-19") as a pandemic. Our primary goal during the COVID-19 pandemic is the preservation of life. We have prioritized protecting the health and safety of our employees and continuing to use our employees' talents and our resources to help society meet and overcome the challenges the pandemic poses.

During the three months ended September 30, 2021, we did not observe material incremental demand for our ventilator devices and masks associated with the COVID-19 pandemic. Although there is still substantial uncertainty, we believe the global demand for ventilators and other respiratory support devices used to treat COVID-19 patients has largely been met. As such, we do not expect material COVID-19-generated demand for our ventilator products for the remainder of the fiscal year ending June 30, 2022.

Diagnostic pathways for sleep apnea treatment, including physician practices, home medical equipment, or HME, suppliers and sleep clinics, have been impacted and, in some instances, been required, to temporarily close due to governments' "shelter-in-place" orders, quarantines or similar orders or restrictions enacted to control the spread of COVID-19. In some countries, new patients are prescribed sleep apnea treatment through hospitals that are directing their resources to critical care, including COVID-19 treatment. The impact on these diagnostic and prescription pathways has resulted in a decrease in demand from new patients for our products designed to treat sleep apnea. Although certain governments have begun to reduce or remove COVID-19 restrictions and implement vaccination programs to varying degrees, we are uncertain as to the duration and extent of the impact on demand for our sleep devices. However, due to the nature of the installed base of existing patients using our devices, we have not seen any significant adverse impact on demand for re-supply of our masks.

Our SaaS business has also been affected by COVID-19 and measures taken to control the spread of COVID-19. Some of our existing and potential SaaS customers are HME distributors and have been impacted by the same temporary business closures noted above. We also have existing and potential SaaS customers that operate care facilities and are either receiving and treating patients infected with COVID-19 or have implemented significant measures to safeguard their facilities against a potential COVID-19 outbreak. Given these challenging business conditions, businesses may be deterred from adopting new or changing SaaS platforms, which may adversely impact our ability to engage new customers for our SaaS businesses, or expand the services used by existing customers.

Our ability to continue to operate without any significant negative impacts will in part depend on our ability to protect our employees. We have endeavored and continue to follow recommended actions of government and health authorities to protect our employees worldwide, but since COVID-19 was declared a pandemic in March 2020, we were able to broadly maintain our operations, and we are beginning the slow and careful process of progressively returning to work in some of our offices around the world. The pandemic has not negatively impacted our liquidity position.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Three Months Ended September 30, 2021 Compared to the Three Months Ended September 30, 2020

Net Revenue

Net revenue for the three months ended September 30, 2021 increased to \$904.0 million from \$751.9 million for the three months ended September 30, 2020, an increase of \$152.1 million or 20% (a 19% increase on a constant currency basis). The following table summarizes our net revenue disaggregated by segment, product and region (in thousands):

	 Three Mor Septen				
	 2021		2020	% Change	Constant Currency*
U.S., Canada and Latin America					
Devices	\$ 275,932	\$	197,393	40 %	
Masks and other	215,106		205,760	5	
Total Sleep and Respiratory Care	\$ 491,038	\$	403,153	22	
Software as a Service	97,516		92,143	6	
Total	\$ 588,554	\$	495,296	19	
Combined Europe, Asia and other markets					
Devices	\$ 218,226	\$	176,026	24 %	22 %

Constant currency numbers exclude the impact of movements in international currencies.

Sleep and Respiratory Care

Net revenue from our Sleep and Respiratory Care business for the three months ended September 30, 2021 was \$806.5 million, an increase of 22% compared to net revenue for the three months ended September 30, 2020. Movements in international currencies against the U.S. dollar positively impacted net revenue by approximately \$6.2 million for the three months ended September 30, 2021. Excluding the impact of currency movements, total Sleep and Respiratory Care net revenue for the three months ended September 30, 2021 increased by 21% compared to the three months ended September 30, 2020. The increase in net revenue was primarily attributable to an increase in unit sales of our devices and masks, including recovery of core sleep patient flow that was previously impacted by the pandemic and increased demand following a recent product recall by one of our competitors, partially offset by decreased COVID-19 related demand for our ventilators.

Net revenue from our Sleep and Respiratory Care business in the U.S., Canada and Latin America for the three months ended September 30, 2021 increased to \$491.0 million from \$403.2 million for the three months ended September 30, 2020, an increase of \$87.9 million or 22%. The increase was primarily due to an increase in unit sales of our devices and masks, including recovery of core sleep patient flow that was previously impacted by the pandemic and increased demand following a recent product recall by one of our competitors, partially offset by decreased COVID-19 related demand for our ventilators.

Net revenue in combined Europe, Asia and other markets increased for the three months ended September 30, 2021 to \$315.5 million from \$256.6 million for the three months ended September 30, 2020, an increase of \$58.8 million or 23% (a 21% increase on a constant currency basis). The constant currency increase in sales in combined Europe, Asia and other markets predominantly reflects an increase in unit sales of our devices and masks, including recovery of core sleep patient flow that was previously impacted by the pandemic and increased demand following a recent product recall by one of our competitors, partially offset by decreased COVID-19-related demand for our ventilators.

Net revenue from devices for the three months ended September 30, 2021 increased to \$494.2 million from \$373.4 million for the three months ended September 30, 2020, an increase of \$120.7 million or 32%, including an increase of 40% in the U.S., Canada and Latin America and an increase of 24% in combined Europe, Asia and other markets (a 22% increase on a constant currency basis). Excluding the impact of foreign currency movements, device sales for the three months ended September 30, 2021 increased by 31%.

Net revenue from masks and other for the three months ended September 30, 2021 increased to \$312.3 million from \$286.4 million for the three months ended September 30, 2020, an increase of \$26.0 million or 9%, including an increase of 5% in the U.S., Canada and Latin America and an increase of 21% in combined Europe, Asia and other markets (an 18% increase on a constant currency basis). Excluding the impact of foreign currency movements, masks and other sales increased by 8%, compared to the three months ended September 30, 2020.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Software as a Service

Net revenue from our SaaS business for the three months ended September 30, 2021 was \$97.5 million, an increase of 6% compared to the three months ended September 30, 2020. The increase was predominantly due to continued growth in resupply service offerings and stabilizing patient flow in out-of-hospital care settings.

Gross Profit and Gross Margin

Gross profit increased for the three months ended September 30, 2021 to \$506.3 million from \$438.7 million for the three months ended September 30, 2020, an increase of \$67.6 million or 15%. Gross margin, which is gross profit as a percentage of net revenue, for the three months ended September 30, 2021 was 56.0% compared to 58.3% for the three months ended September 30, 2020.

The decrease in gross margin for the three months ended September 30, 2021 compared to three months ended September 30, 2020 was due primarily to higher manufacturing and logistics costs and declines in average selling prices.

Operating Expenses

The following table summarizes our operating expenses (in thousands):

	Three Mor Septen					
	 2021	 2020	-	Change	% Change	Constant Currency
Selling, general, and administrative	\$ 176,719	\$ 158,989	\$	17,730	11 %	10 %
as a % of net revenue	19.5 %	21.1 %				
Research and development	59,950	54,533		5,417	10 %	9 %
as a % of net revenue	6.6 %	7.3 %				
Amortization of acquired intangible assets	7,707	8,243		(536)	(7) %	(7) %

Selling, General, and Administrative Expenses

Selling, general, and administrative expenses increased for the three months ended September 30, 2021 to \$176.7 million from \$159.0 million for the three months ended September 30, 2020, an increase of \$17.7 million or 11%. Selling, general, and administrative expenses were unfavorably impacted by the movement of international currencies against the U.S. dollar, which increased our expenses by approximately \$1.6 million, as reported in U.S. dollars. Excluding the impact of foreign currency movements, selling, general, and administrative expenses for the three months ended September 30, 2021 increased by 10% compared to the three months ended September 30, 2020. As a percentage of net revenue, selling, general, and administrative expenses were 19.5% for the three months ended September 30, 2020.

The constant currency increase in selling, general, and administrative expenses was primarily due to increases in employee-related costs during the three months ended September 30, 2021 compared to three months ended September 30, 2020.

Research and Development Expenses

Research and development expenses increased for the three months ended September 30, 2021 to \$60.0 million from \$54.5 million for the three months ended September 30, 2020, an increase of \$5.4 million, or 10%. Research and development expenses were unfavorably impacted by the movement of international currencies against the U.S. dollar, which increased our expenses by approximately \$0.7 million for the three months ended September 30, 2021, as reported in U.S. dollars. Excluding the impact of foreign currency movements, research and development expenses increased by 9% compared to the three months ended September 30, 2020. As a percentage of net revenue, research and development expenses were 6.6% for the three months ended September 30, 2021, compared to 7.3% for the three months ended September 30, 2020.

The increase in research and development expenses in constant currency terms was primarily due to increased investment in our digital health technologies and SaaS solutions.

Amortization of Acquired Intangible Assets

Amortization of acquired intangible assets for the three months ended September 30, 2021 totaled \$7.7 million compared to \$8.2 million for the three months ended September 30, 2020.

Total Other Income (Loss), Net

The following table summarizes our other income (loss) (in thousands):

		Months tember	s Ended r 30,	
	2021		2020	Change
Interest (expense) income, net	\$ (5,30	50) \$	(6,725)	\$ 1,365
Loss attributable to equity method investments	(1,38	36)	(2,288)	902
Gain (loss) on equity investments	5,6	12	8,476	(2,864)
Other, net	(1,99	91)	(505)	(1,486)
Total other income (loss), net	\$ (3,12	25) \$	(1,042)	\$ (2,083)

Total other income (loss), net for the three months ended September 30, 2021 was a loss of \$3.1 million compared to a loss of \$1.0 million for the three months ended September 30, 2020. The increase in loss was primarily due to lower net unrealized gains associated with our investments in marketable and non-marketable equity securities, which were a gain of \$5.6 million for the three months ended September 30, 2021 compared to a gain of \$8.5 million for the three months ended September 30, 2020. This was offset by a decrease in interest expense, net, to \$5.4 million for the three months ended September 30, 2021 compared to \$6.7 million for the three months ended September 30, 2020. We also recorded lower losses attributable to equity method investments for the three months ended September 30, 2021 of \$1.4 million compared to \$2.3 million for the three months ended September 30, 2020.

Income Taxes

Our effective income tax rate for the three months ended September 30, 2021 was 21.3% as compared to 17.4% for the three months ended September 31, 2020. The increase to our effective tax rate was primarily related to changes in the geographic mix of our earnings. Our Singapore operations operate under certain tax holidays and tax incentive programs that will expire in whole or in part at various dates through June 30, 2030. As a result of the U.S. Tax Act, we treated all non-U.S. historical earnings as taxable during the year ended June 30, 2018. Therefore, future repatriation of cash held by our non-U.S. subsidiaries will generally not be subject to U.S. federal tax, if repatriated.

On September 19, 2021, we concluded the settlement agreement with the Australian Taxation Office ("ATO") in relation to the previously disclosed transfer pricing dispute for the tax years 2009 through 2018 ("ATO settlement"). The ATO settlement fully resolved the dispute for all prior years, with no admission of liability and provides clarity in relation to certain future taxation principles.

The final net impact of the ATO settlement was \$238.7 million, which represents a gross amount of \$381.7 million, including interest and penalties of \$48.1 million, and adjustments for credits and deductions of \$143.0 million. As a result of the ATO settlement and due to movements in foreign currencies, we recorded a benefit of \$14.1 million within other comprehensive income, and a \$4.1 million reduction of tax credits, which was recorded to income tax expense. As a result of the ATO settlement, we reversed our previously recorded uncertain tax position.

On September 28, 2021, we remitted final payment to the ATO of \$284.8 million, consisting of the agreed settlement amount of \$381.7 million less prior remittances made to the ATO of \$96.9 million.

Net Income and Earnings per Share

As a result of the factors above, our net income for the three months ended September 30, 2021 was \$203.6 million compared to net income of \$178.4 million for the three months ended September 30, 2020, an increase of 14%. Our diluted earnings per share for the three months ended September 30, 2021 was \$1.39 per diluted share compared to diluted earnings per share of \$1.22 for the three months ended September 30, 2020, an increase of 14%.

Summary of Non-GAAP Financial Measures

In addition to financial information prepared in accordance with GAAP, our management uses certain non-GAAP financial measures, such as non-GAAP revenue, non-GAAP cost of sales, non-GAAP gross profit, non-GAAP gross margin, non-GAAP income from operations, non-GAAP net income, and non-GAAP diluted earnings per share, in evaluating the performance of our business. We believe that these non-GAAP financial measures, when reviewed in conjunction with GAAP financial measures, can provide investors better insight when evaluating our performance from core operations and can provide more consistent financial reporting across periods. For these reasons, we use non-GAAP information internally in planning, forecasting, and evaluating the results of operations in the current period and in comparing it to past periods. These non-GAAP financial measures should be considered in addition to, and not superior to or as a substitute for, GAAP financial measures. We strongly encourage investors and shareholders to review our financial statements and publicly-filed reports in their entirety and not to rely on any single financial measure. Non-GAAP financial measures as presented herein may not be comparable to similarly titled measures used by other companies.

Item 2

Management's Discussion and Analysis of Financial Condition and Results of Operations

The measure "non-GAAP cost of sales" is equal to GAAP cost of sales less amortization of acquired intangible assets relating to cost of sales. The measure "non-GAAP gross profit" is the difference between GAAP net revenue and non-GAAP cost of sales, and "non-GAAP gross margin" is the ratio of non-GAAP gross profit to GAAP net revenue.

These non-GAAP measures are reconciled to their most directly comparable GAAP financial measures below (in thousands, except percentages):

		Three Months Ended		
	1	September 30, 2021	September 30, 2020	
GAAP Net revenue	\$	904,015	\$	751,944
GAAP Cost of sales	\$	397,726	\$	313,283
Less: Amortization of acquired intangibles		(11,059)		(11,979)
Non-GAAP cost of sales	\$	386,667	\$	301,304
GAAP gross profit	\$	506,289	\$	438,661
GAAP gross margin		56.0 %		58.3 %
Non-GAAP gross profit	\$	517,348	\$	450,640
Non-GAAP gross margin		57.2 %		59.9 %

The measure "non-GAAP income from operations" is equal to GAAP income from operations once adjusted for amortization of acquired intangibles. Non-GAAP income from operations is reconciled with GAAP income from operations below (in thousands):

	Three Months Ended		
	September 30, 2021	September 30, 2020	
GAAP income from operations	\$ 261,913	\$ 216,896	
Amortization of acquired intangibles - cost of sales	11,059	11,979	
Amortization of acquired intangibles - operating expenses	7,707	8,243	
Non-GAAP income from operations	\$ 280,679	\$ 237,118	

The measure "non-GAAP net income" is equal to GAAP net income once adjusted for amortization of acquired intangibles (net of tax), reserve for disputed tax positions and (gain) loss on equity investments. The measure "non-GAAP diluted earnings per share" is the ratio of non-GAAP net income to diluted shares outstanding. These non-GAAP measures are reconciled to their most directly comparable GAAP financial measures below (in thousands, except for per share amounts):

	Three Months Ended		
	September 30,	September 30,	
	2021	2020	
GAAP net income	\$ 203,613	\$ 178,372	
Amortization of acquired intangibles - cost of sales, net of tax	8,435	9,169	
Amortization of acquired intangibles - operating expenses, net of tax	5,878	6,309	
Reserve for disputed tax positions	4,111	-	
(Gain) loss on equity investments		(8,476)	
Non-GAAP net income	\$ 222,037	\$ 185,374	
Diluted shares outstanding	146,860	146,100	
GAAP diluted earnings per share	\$ 1.39	\$ 1.22	
Non-GAAP diluted earnings per share	\$ 1.51	\$ 1.27	

Liquidity and Capital Resources

Our principal sources of liquidity are our existing cash and cash equivalents, cash generated from operations and access to our revolving credit facility. Our primary uses of cash have been for research and development activities, selling and marketing activities, capital expenditures, strategic acquisitions and investments, dividend payments and repayment of debt obligations. We expect that cash provided by operating activities may fluctuate in future periods as a result of several factors, including fluctuations in our operating results, which include impacts from the COVID-19 pandemic, working capital requirements and capital deployment decisions.

Our future capital requirements will depend on many factors including our growth rate in net revenue, third-party reimbursement of our products for our customers, the timing and extent of spending to support research development efforts, the expansion of selling, general and administrative activities, the timing of introductions of new products, the expenditures associated with possible future acquisitions, investments or other business combination transactions, and impacts from the COVID-19 pandemic. As we assess inorganic growth strategies, we may need to supplement our internally generated cash flow with outside sources. If we are required to access the debt market, we believe that we will be able to secure reasonable borrowing rates. As part of our liquidity strategy, we will continue to monitor our current level of earnings and cash flow generation as well as our ability to access the market considering those earning levels.

24

Management's Discussion and Analysis of Financial Condition and Results of Operations

As of September 30, 2021 and June 30, 2021, we had cash and cash equivalents of \$276.1 million and \$295.3 million, respectively. Our cash and cash equivalents held within the United States at September 30, 2021 and June 30, 2021 were \$94.5 million and \$106.7 million, respectively. Our remaining cash and cash equivalent balances at September 30, 2021 and June 30, 2021, were \$181.6 million and \$188.6 million, respectively. Our cash and cash equivalent balances are held at highly rated financial institutions.

As of September 30, 2021, we had \$1.5 billion available for draw down under the revolver credit facility and a combined total of \$1.7 billion in cash and available liquidity under the revolving credit facility.

As a result of the U.S. Tax Act, we treated all non-U.S. historical earnings as taxable, which resulted in additional tax expense of \$126.9 million which was payable over the proceeding eight years. Therefore, future repatriation of cash held by our non-U.S. subsidiaries will generally not be subject to U.S. federal tax if repatriated.

We believe that our current sources of liquidity will be sufficient to fund our operations, including expected capital expenditures, for the next 12 months and beyond.

Revolving Credit Agreement, Term Credit Agreement and Senior Notes

On April 17, 2018, we entered into an amended and restated credit agreement (as amended from time to time, the "Revolving Credit Agreement"). The Revolving Credit Agreement, among other things, provided a senior unsecured revolving credit facility of \$800.0 million, with an uncommitted option to increase the revolving credit facility by an additional \$300.0 million. Additionally, on April 17, 2018, ResMed Limited entered into a Syndicated Facility Agreement (the "Term Credit Agreement"). The Term Credit Agreement, among other things, provides ResMed Limited a senior unsecured term credit facility of \$200.0 million. On November 5, 2018, we entered into a first amendment to the Revolving Credit Agreement to, among other things, increase the size of our senior unsecured revolving credit facility from \$800.0 million to \$1.6 billion, with an uncommitted option to increase the revolving credit facility by an additional \$300.0 million. The Revolving Credit Agreement and Term Credit Agreement each terminate on April 17, 2023, when all unpaid principal and interest under the loans must be repaid. As of September 30, 2021, we had \$1.5 billion available for draw down under the revolving credit facility.

On July 10, 2019, we entered into a Note Purchase Agreement with the purchasers to that agreement, in connection with the issuance and sale of \$250.0 million principal amount of our 3.24% senior notes due July 10, 2026, and \$250.0 million principal amount of our 3.45% senior notes due July 10, 2029 ("Senior Notes").

On September 30, 2021, there was a total of \$808.0 million outstanding under the Revolving Credit Agreement, Term Credit Agreement and Senior Notes. We expect to satisfy all of our liquidity and long-term debt requirements through a combination of cash on hand, cash generated from operations and debt facilities.

Cash Flow Summary

The following table summarizes our cash flow activity (in thousands):

	Three Months Ended September 30,		
	2021		2020
Net cash (used in) / provided by operating activities	\$ (65,657)	\$	143,999
Net cash used in investing activities	(41,874)		(22, 110)
/Net cash (used in) / provided by financing activities	92,970		(175,258)
Effect of exchange rate changes on cash	(4,568)		11,627
Net decrease in cash and cash equivalents	\$ (19,129)	\$	(41,742)

Operating Activities

Cash used in operating activities was \$65.7 million for the three months ended September 30, 2021, compared to cash provided of \$144.0 million for the three months ended September 30, 2020. The \$209.7 million decrease in cash flow from operations was primarily due to the payment of our tax settlement with the ATO of \$284.8 million, offset by an increase in operating profit and net changes in working capital balances compared to the three months ended September 30, 2020.

Investing Activities

Cash used in investing activities was \$41.9 million for the three months ended September 30, 2021, compared to cash used of \$22.1 million for the three months ended September 30, 2020. The \$19.8 million decrease in cash flow from investing activities was primarily due to an increase in capital expenditures and a net decrease in proceeds on maturity of foreign currency contracts compared to three months ended September 30, 2020.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Financing Activities

Cash provided by financing activities was \$93.0 million for the three months ended September 30, 2021, compared cash used of \$175.3 million for the three months ended September 30, 2020. The \$268.2 million increase in cash flow from financing activities was primarily due to borrowing activity under our Revolving Credit Agreement. We borrowed \$150.0 million during the three months ended September 30, 2021, compared to a net repayment of \$120.0 million during the three months ended September 30, 2020.

Dividends

During the three months ended September 30, 2021, we paid cash dividends of \$0.42 per common share totaling \$61.2 million. On October 28, 2021, our board of directors declared a cash dividend of \$0.42 per common share, to be paid on December 16, 2021, to shareholders of record as of the close of business on November 11, 2021. Future dividends are subject to approval by our board of directors.

Common Stock

Since the inception of our share repurchase programs and through September 30, 2021, we have repurchased a total of 41.8 million shares for an aggregate of \$1.6 billion. We have temporarily suspended our share repurchase program due to recent acquisitions, and more recently, as a response to the COVID-19 pandemic. Accordingly, we did not repurchase any shares during the three months ended September 30, 2021 and 2020. Shares that are repurchased are classified as treasury stock pending future use and reduce the number of shares of common stock outstanding used in calculating earnings (loss) per share. There is no expiration date for this program, and the program may be accelerated, suspended, delayed or discontinued at any time at the discretion of our board of directors. At September 30, 2021, 12.9 million additional shares can be repurchased under the approved share repurchase program.

Critical Accounting Principles and Estimates

The preparation of financial statements in conformity with U.S. GAAP requires us to make estimates and judgments that affect our reported amounts of assets and liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. On an ongoing basis we evaluate our estimates, including those related to allowance for doubtful accounts, inventory reserves, warranty obligations, goodwill, potentially impaired assets, intangible assets, income taxes and contingencies.

We state these accounting policies in the notes to the financial statements and at relevant sections in this discussion and analysis. The estimates are based on the information that is currently available to us and on various other assumptions that we believe to be reasonable under the circumstances. Actual results could vary from those estimates under different assumptions or conditions.

For a full discussion of our critical accounting policies, see our Annual Report on Form 10-K for the year ended June 30, 2021.

Recently Issued Accounting Pronouncements

See note 1 to the unaudited condensed consolidated financial statements for a description of recently issued accounting pronouncements, including the expected dates of adoption and estimated effects on our results of operations, financial positions and cash flows.

Contractual Obligations and Commitments

As of September 30, 2021, there were no material changes outside of the ordinary course of business in our outstanding contractual obligations from those disclosed within "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the fiscal year ended June 30, 2021.

Off-Balance Sheet Arrangements

As of September 30, 2021, we are not involved in any significant off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of Regulation S-K promulgated by the SEC.

RESMED INC. AND SUBSIDIARIES Quantitative and Qualitative Disclosures About Market Risk

Foreign Currency Market Risk

Our reporting currency is the U.S. dollar, although the financial statements of our non-U.S. subsidiaries are maintained in their respective local currencies. We transact business in various foreign currencies, including a number of major European currencies as well as the Australian and Singapore dollars. We have significant foreign currency exposure through our Australian and Singapore manufacturing activities and our international sales operations. We have established a foreign currency hedging program using purchased currency options and forward contracts to hedge foreign-currency-denominated financial assets, liabilities and manufacturing cash flows. The goal of this hedging program is to economically manage the financial impact of foreign currency exposures predominantly denominated in euros, Australian dollars and Singapore dollars. Under this program, increases or decreases in our foreign-currency-denominated financial assets, liabilities, and firm commitments are partially offset by gains and losses on the hedging instruments. We do not enter into financial instruments for trading or speculative purposes. The foreign currency derivatives portfolio is recorded in the condensed consolidated balance sheets at fair value and included in other assets or other liabilities. All movements in the fair value of the foreign currency derivatives are recorded within other income, net, on our condensed consolidated statements of operations.

The table below provides information (in U.S. dollars) on our foreign currency denominated operating assets and liabilities and after considering our foreign currency hedging activities as of September 30, 2021 (in thousands):

	U.S. Dollar (USD)	Euro (EUR)	Canadian Dollar (CAD)	Chinese Yuan (CNY)
AUD Functional:				
Net Assets/(Liabilities)	(56,908)	(38,035)	-	11,386

Net Total	(17,699)	10,300	-	916

RESMED INC. AND SUBSIDIARIES Quantitative and Qualitative Disclosures About Market Risk

The table below provides information about our material foreign currency derivative financial instruments and presents the information in U.S. dollar equivalents. The table summarizes information on instruments and transactions that are sensitive to foreign currency exchange rates, including foreign currency call options, collars and forward contracts held at September 30, 2021. The table presents the notional amounts and weighted average exchange rates by contractual maturity dates for our foreign currency derivative financial instruments, including the forward contracts used to hedge our foreign currency denominated assets and liabilities. These notional amounts generally are used to calculate payments to be exchanged under the contracts (in thousands, except exchange rates).

				Fair Value Assets September 30,	June 30,
Foreign Exchange Contracts USD/AUD	Year 1	Year 2	Total	2021	2021
Contract amount	80.000	_	80,000	783	(652)

USD/CAD					
Contract amount	19,727	-	19,727	384	(44)
Ave. contractual exchange rate	USD 1 = CAD 1.2431		USD 1 = CAD 1.2431		

Interest Rate Risk

We are exposed to risk associated with changes in interest rates affecting the return on our cash and cash equivalents and debt. At September 30, 2021, we held cash and cash equivalents of \$276.1 million principally comprised of bank term deposits and at-call accounts and are invested at both short-term fixed interest rates and variable interest rates. At September 30, 2021, there was \$308.0 million outstanding under the Revolving Credit Agreement and Term Credit Agreement, which are subject to variable interest rates. A hypothetical 10% change in interest rates during the three months ended September 30, 2021, would not have had a material impact on pretax income. We have no interest rate hedging agreements.

Controls and Procedures

We maintain disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in our reports made pursuant to the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and in reaching a reasonable level of assurance management necessarily was required to apply its judgment in evaluating the cost benefit relationship of possible controls and procedures.

As required by Rule 13a-15(b) of the Exchange Act, we carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of September 30, 2021.

There has been no change in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1 Legal Proceedings

We are involved in various legal proceedings, claims, investigations and litigation that arise in the ordinary course of our business. We investigate these matters as they arise, and accrue estimates for resolution of legal and other contingencies in accordance with Accounting Standard Codification Topic 450, "Contingencies". See note 10 to the unaudited condensed consolidated financial statements included in this Quarterly Report on Form 10-Q.

Litigation is inherently uncertain. Accordingly, we cannot predict with certainty the outcome of these matters. But we do not expect the outcome of these matters to have a material adverse effect on our consolidated financial statements when taken as a whole.

Item 1A Risk Factors

The discussion of our business and operations should be read together with the risk factors and contained in our annual report on Form 10-K for the fiscal year ended June 30, 2021, which was filed with the SEC and describe various material risks and uncertainties to which we are or may become subject. As of September 30, 2021, there have been no further material changes to such risk factors.

Item 2 Unregistered Sales of Equity Securities and Use of Proceeds

Purchases of equity securities. On February 21, 2014, our board of directors approved our current share repurchase program, authorizing us to acquire up to an aggregate of 20.0 million shares of our common stock. The program allows us to repurchase shares of our common stock from time to time for cash in the open market, or in negotiated or block transactions, as market and business conditions warrant and subject to applicable legal requirements. There is no expiration date for this program, and the program may be accelerated, suspended, delayed or discontinued at any time at the discretion of our board of directors. All share repurchases after February 21, 2014 have been executed under this program.

We temporarily suspended our share repurchase program due to recent acquisitions, and more recently, as a response to the COVID-19 pandemic. As a result, we did not repurchase any shares during the three months ended September 30, 2021. However, there is no expiration date for this program, and we may, at any time, elect to resume the share repurchase program as the circumstances allow. Since the inception of the share buyback programs, we have repurchased 41.8 million shares at a total cost of \$1.6 billion. At September 30, 2021, 12.9 million additional shares of common stock can be repurchased under the approved share repurchase program.
