ASX ANNOUNCEMENT

11 November 2021

MITHRIL PRESENTATION AT NOOSA MINING CONFERENCE

Mithril Resources Limited (Mithril, the Company) (ASX:MTH) is pleased to announce Managing Director and CEO John Skeet will deliver an investor presentation virtually at the Noosa Mining Conference.

Presentation Time: 2:15pm Brisbane time Thursday 11 November 2021.

Attending Online: investors and interested parties can register online via the following link: www.noosaminingconference.com.au/

A copy of the presentation is attached below.

Investor Presentation 11 November 2021

Important Information

The release, publication or distribution of this presentation in certain jurisdictions may be restricted by law and therefore persons in such jurisdictions into which this presentation is released, published or distributed should inform themselves about and observe such restrictions.

DISCLAIMER

This presentation is for informational purposes only and does not constitute an offer to sell, or solicitation to purchase, any securities. Such Offer can be made only through proper subscription documentation and only to investors meeting strict suitability requirements. Any failure to comply with these restrictions may constitute a violation of applicable securities laws. In providing this presentation Mithril Resources Limited ACN 099 883 922 ("MTH") has not considered the financial position or needs of the recipient. Persons needing advice should consult their stockbroker, bank manager, solicitor, attorney, accountant or other independent financial and legal advisors.

FORWARD LOOKING STATEMENTS

Various statements in this presentation constitute statements relating to intentions, future acts and events. Such statements are generally classified as "forward looking statements" and involve known and unknown risks, uncertainties and other important factors that could cause those future acts, events and circumstances to differ materially from what is presented or implicitly portrayed herein. Words such as "anticipates", "expects", "intends", "plans", "believes", "seeks", "estimates" and similar expressions are intended to identify forward-looking statements. MTH caution shareholders and prospective shareholders not to place undue reliance on these forward-looking statements, which reflect the view of MTH only as of the date of this presentation. The forward-looking statements made in this presentation relate only to events as of the date on which the statements are made.

COMPETENT PERSON

The information in this report that relates to sampling techniques and data, exploration results and geological interpretation has been compiled by Mr Hall Stewart who is Mithril's Chief Geologist. Mr Stewart is a certified professional geologist of the American Institute of Professional Geologists. This is a Recognised Professional Organisation (RPO) under the Joint Ore Reserves Committee (JORC) Code.

Mr Stewart has sufficient experience of relevance to the styles of mineralisation and the types of deposits under consideration, and to the activities undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Stewart consents to the inclusion in this report of the matters based on information in the form and context in which it appears. The Australian Securities Exchange has not reviewed and does not accept responsibility for the accuracy or adequacy of this release.

11 Aug 2021	Mithril Extends High-Grade Gold Silver	
28 Jul 2021	Quarterly activities and cashflow report	
12 Jul 2021	MITHRIL DRILLS 80.3 G/T GOLD, 705 G/T SILVER OVER 8.26M	
15 Jun 2021	MITHRIL DRILLS 74 G/T GOLD, 841 G/T SILVER OVER 6.8 METRES	
24 May 2021	Drilling Plan Progress - Copalquin District Mexico	
19 May 2021	Extensive Gold-Silver Confirmed El Refugio West	
04 May 2021	High-Grades continue at El Refugio - Copalquin District	
22 Apr 2021	March 2021 Quarterly Activities and Cash Flow Report	

Company Statement

LONGER TERM GOAL

• To become a highly profitable producer of gold and silver from high-grade resources

IN PROGRESS

- Discovery of our first high-grade gold and silver deposit in the Copalquin Mining District concessions
- Located in prolific Sierra Madre Gold Silver Trend of Mexico – home to multiple tier 1 producers and explorers

NEXT 12 MONTHS

- Complete maiden JORC resource estimate for initial El Refugio drill target area (Q4 2021)
- Continue expansive drilling at El Refugio, engineering for underground access drift, metallurgy and engineering studies
- Progress district exploration

Mithril's Mexico Focus - Gold and Silver in the Sierra Madre

Exposure to both gold and silver

Copalquin is a silver district with high gold grades

Low risk jurisdiction of Mexico

Sierra Madre Trend is home to multiple gold-silver producers and Explorers – mature minerals industry

Large gold-silver resource potential

Dozens of historic mines and workings throughout the 70km² concession area – an entire district

Within Excellent Infrastructure

Copalquin is close to towns, airstrips, highways, power infrastructure and water supply

Management and board with extensive multi-discipline experience, significant ownership and a history of shareholder wealth creation

Plus \$1Bn Mining Companies in Mexico*

Established Geologic Model - Successfully Guided Exploration

Copalquin District - Dozens of Au-Ag Historic Mines & Workings

Geologic Model

- Well established and understood epithermal model for gold and silver
- A major epithermal centre at El Refugio
- Geologic features observed at El Refugio are observed across the district

Copalquin District Drill Highlights - 15 Months of Drilling

High Grade 'Clavos' - El Refugio

- Longitudinal section at El Refugio showing drill hole pierce points
- Over 700m wide & 350m deep
- High-grade 'clavos' and multiple gold-silver veins intercepted
- High success rate at El Refugio over the 12 months of drilling this target
- Excellent grade thickness
- Underground mineable widths with high grade gold & silver

High Grade 'Clavo' - La Soledad

Further drilling required to test the gold-silver mineralisation at depth and along strike

Highlight Drill Results for La Soledad

- 3.0m @ 34.72 g/t gold & 3,129 g/t silver from 112m CDH-001
- 4.55m @ 5.64 g/t gold & 325 g/t silver from 91.95m CDH-002 plus 0.5m @ 9.27 g/t gold & 825.0 g/t silver from 141.2m
- 3.8m @ 2.58 g/t gold & 142.6 g/t silver from 111.7m CDH-008
- 0.5m @ 6.78 g/t gold & 9.6 g/t silver from 108m,
 open workings from 108.5 to 111m, and 1.5m @ 6.65 g/t gold
 & 18.1 g/t silver from 111m CDH-011
- 7.5m @ 6.74g/t gold & 158.1 g/t silver from 253.8m CDH-014
- 4.88m @ 10.36g/t gold & 80.9 g/t silver from 288.25m CDH-054
- Drilling planned for 2022 to explore this area 400m north of El Refugio

Large Upside for Gold and Silver in the Copalquin District

- Clusters of historic workings run for 8 km from east to west.
- Drilling has focused on
 La Soledad and El
 Refugio workings areas.
- Surface alteration as an indication of epithermal mineralisation, exists throughout the district
- lgnimbrite flareup provided heat source for mineralisation and has driven gold and silver mineralisation
- Intrusion of the granodiorite and faulting provided ground preparation sites for gold and silver mineralised fluids to enter

Exploration Areas 2022

The 7,005 Ha concession area looking east.

Drill Target Expansion - Soil Sampling Program

- Soil sampling is a successful drill target generation tool
- Drilling to extend west of El Refugio and La Soledad
- El Gallo with its historic workings to the west, is developing well as a future drill target area
- At El Indio and Zaragosa the is surface alteration, vein outcrop, historic workings and strong silver geochemical anomalies

Comparison With Other Regional Epithermal Gold-Silver Districts

- Multiple mineralisation events typical of large epithermal gold and silver deposits such as Palmarejo, San Dimas and Pinos Altos districts
- These systems typically extend from near surface to over 700m deep
- Rhyolite dykes/domes proximal to mineralisation and widespread surface alteration
- At Palmarejo, systematic drilling discovered several ore shoots (clavos) along the structures
- Palmarejo now consists of three producing mines. After 11 years there are still significant reserves and resources for gold and silver²

¹AuEq = gold equivalent. Calculated using 70 g/t Ag = 1 g/t Au, based on gold price of USD1,610/oz and silver price of USD23/oz
²From Coeur Mining's Website

MITHRIL

Concept Mine Development - El Refugio

Engineering study for an underground drift at El Refugio to take advantage of the topography and allow more efficient drilling of the deposit in all directions from the drift.

Historic workings at San Manuel, Copalquin

Simple Mineralogy and Metallurgy

- Silver as Argentite/Acanthite sulphides
- Native gold 2mm to >10 microns
- Electrum gold-silver mineral
- Minor sulphides (no arsenic)
- Same mineralogy as Palmarejo
 - Low mass to a flotation concentrate
 - Cyanidation
- Core samples selected for test work

CDH-054 at 292.4m, La Soledad

CDH-050 at 234.8m, El Refugio

Simple processing for gold and silve recovery including:

- Milling
- Flotation
- Cyanidation
- Precipitation
- Electrowinning
- Doré

Work Program El Refugio Next 12 months

Board & Management- Experienced explorers and developers

JOHN SKEET

Managing Director & CEO

- Over 30 years' experience in goldsilver mine development - 16 years in Mexico
- Led the development of Ballarat East, Quartzite Gold in Georgia, and Palmarejo Silver Gold Mine in Mexico, prior Coeur 's takeover
- COO of Cerro Resources prior to its takeover by Primero Mining.
- Founded Sun Minerals in 2017 & acquired the option to purchase the Copalquin District Concessions in Mexico
- Honours degree in Applied Science (Met) and Fellow of AusIMM.

HALL STEWART
Chief Geologist

- Professional geologist with significant experience in the goldsilver trend of Mexico managing, developing, and exploring
- Located and recommended the multimillionounce Palmarejo to Bolnisi Gold and managed its regional exploration
- Managed exploration at Magistral, Ocampo, Tahuehueto
- Cofounded Puno Gold Corp. and Commonwealth Silver
 Gold, which were both acquired by Canadian listed companies

GARRY THOMAS

Non-Executive Director

- Civil engineer with over 35 years' experience in civil construction, mine development and operations
- Implementation of mining operations in Australia, Indonesia, Laos, Russia, Africa, and Mexico
- Managed the construction and commissioning of over 20 CIL/CIP, flotation and heap leach plants as well as many plant upgrades including construction at Palmarejo, Mexico
- Founded/owned Intermet Engineering which he sold to Sedgman Metals

STEPHEN LAYTON

Non-Executive Director

- Seasoned capital markets professional specialising in resources
- •Over 35 years' experience in Equity Capital Markets in the UK and Australia
- Worked with various stockbroking firms and/or AFSL regulated Corporate Advisory firms
- Master Practitioner Member of the Stockbrokers and Financial Advisors Association – MSAFAA
- •NED of EQ Resources Limited.

Key Take Away Points

High-Grade Gold and Silver

Copalquin is a silver district with high-grade gold

District Scale

- Dozens of gold and silver mines/workings throughout the district - multiple drill targets
- Compares favourably to other established districts in region –
 Palmarejo, Pinos Altos, San Dimas

Pathway to Gold and Silver Production

- El Refugio discovery maiden resource estimate Q4 2021
- Preliminary engineering study work and metallurgical work commencing Q4 2021

Appendix 1: Other Projects - Farmed Out

Billy Hills Zinc (Billy Hills) Mithril
100%

 CBH Resources Limited earning up to 80% interest by completing expenditure of A\$4M over 5 years

Kurnalpi Project (Kurnalpi) Mithril 100% Carnavale Resources earning an initial 80% interest by keeping the tenements in good standing over three years and paying Mithril A\$250,000 cash

Lignum Dam Project (Lignum) Mithril 100%

 Great Boulder Resources earning up to 80% by completing expenditure of A\$1M over four years

Limestone Well Project (Limestone) Mithril 100%

- Binding term sheet for Auteco Minerals to purchase 90% interest for \$0.5m
- Mithril to retain 10% free carried interest that Auteco may purchase at anytime for \$10m (ASX Release 12/10/2021)
