#### 1. Corporate information

These condensed consolidated interim financial statements represent those of Tempus Resources Limited (the "Company") and its controlled entities (the "consolidated entity" or "Group") at the end of, or during the quarter to 30 September 2021. The financial statements are presented in Australian dollars, which is Tempus Resources Limited's functional and presentation currency. Foreign operations are translated into Australian dollars using the exchange rates at the reporting date.

Tempus Resources Limited is a listed public company limited by shares, listed on the Australian Stock Exchange (ASX:TMR) and the TSX-Venture Exchange (TSXV: TMRR), incorporated in Australia and with a registered office at Level 2, 22 Mount Street, Perth, Western Australia, 6000, Australia.

## Management's Responsibility for Condensed Consolidated Interim Financial Statements

The accompanying condensed consolidated interim financial statements of Tempus Resources Limited (the "consolidated entity" or "Group") are the responsibility of the Management and Board of Directors of the Group. The condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards and reflect management's best estimate and judgements based on currently available information. Management is also responsible for a system of internal controls, which is designed to provide reasonable assurance that assets are safeguarded, liabilities are recognised, and that financial information is relevant and reliable. The Board of Directors are responsible for ensuring that management fulfils its responsibilities in respect of financial reporting and internal control. The Audit Committee of the Board of Directors, comprised of independent Directors, meets periodically with management and the Company's independent auditors to discuss auditing matters and financial reporting issues. In addition, the Audit Committee reviews the annual financial statements and provides a recommendation to the Board of Directors on their approval.

These condensed consolidated interim financial statements were authorised by the Board of Directors of the Company on November 15, 2021.

## 2. Principal activities

The principal activity of the consolidated entity during the period was mineral exploration, with gold projects located within Canada and Ecuador.

## 3. Basis of preparation

#### Statement of compliance

The condensed consolidated interim financial statements is a general purpose financial report that has been prepared in accordance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*.

The condensed consolidated interim financial statements does not include full disclosures of the type normally included in an annual financial report and should be read in conjunction with the audited annual financial report for the period ended 30 June 2021.

The accounting policies and methods of computation adopted in the preparation of these condensed consolidated interim financial statements are consistent with those adopted and disclosed in the Group's 2021 audited annual financial report for the year ended 30 June 2021 and are consistent with International Financial Reporting Standards (IFRS) adopted by the International Accounting Standards Board (IASB) using accounting policies consistent with International Financial Reporting Standards ("IFRS") issued by the Accounting Standards Board ("IASB") and interpretations of the International Reporting Interpretations Committee ("IFRC").

## Critical accounting judgments, estimates and assumptions

The Management evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the consolidated entity.

There have been no judgements, apart from those involving estimation, in applying accounting policies that have a significant effect on the amounts recognised in these financial statements.

Following is a summary of the key assumptions concerning the future and other key sources of estimation at reporting date that have not been disclosed elsewhere in these financial statements.

## Exploration and evaluation expenditure

Exploration and evaluation costs have been capitalised on the basis that activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves. Key judgements are applied in considering costs to be capitalised which includes determining expenditures directly related to these activities and allocating overheads between those that are expensed and capitalised.

### Share based payment transactions

The consolidated entity measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using either the Binomial or Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

#### COVID-19 pandemic

Judgement has been exercised in considering the impacts that the COVID-19 pandemic has had, or may have, on the Group based on known information. This consideration extends to the nature of the products and services offered, customers, supply chain, staffing and geographical regions in which the Group operates. Other than as addressed in specific notes, there does not currently appear to be either any significant impact upon the financial statements or any significant uncertainties with respect to events or conditions which may impact the Group unfavourably as at the reporting date or subsequently as a result of the COVID-19 pandemic.

### Rehabilitation provision

A provision has been made for the present value of anticipated costs for future rehabilitation of land explored or mined. The Group's mining and exploration activities are subject to various laws and regulations governing the protection of the environment. The Group recognises management's best estimate for assets requirement obligations and site rehabilitations in the period in which they are incurred. Actual costs incurred in the future periods could differ materially from the estimates. Additionally, future changes to environmental laws and regulations, life of mine estimates and discount rates could affect the carrying amount of the provision.

### Tax claim provision

A provision has been made for the present value of anticipated costs associated with amounts payable on an open tax claim. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation. Due to the uncertainty associated with such tax claims, there is a possibility that the final outcome may differ significantly at a future date.

## New and revised accounting standards and interpretations

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the International Accounting Standards Board (IASB) that are mandatory for the current reporting period. Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

## NOTES TO THE INTERIM FINANCIAL STATEMENTS FOR THE THREE MONTHS ENDED 30 SEPTEMBER 2021 (CONTINUED)

(Prepared by Management - Unaudited)

## 8. Reserves (continued)

## Performance rights

During the period, the Company granted 400,000 performance rights, with a total value of \$102,000.

After taking into account the probabilities of vesting criteria being met and the expected vesting date, the value expensed in relation to these performance rights during the period was \$4,707 with the remaining amount to be expensed over the vesting period. The expense realised in respect to performance rights is intended to reflect the best available estimate of the number of performance rights expected to vest.

The following performance rights issued during the period were valued based on the share price at grant date as they did not have market-based vesting conditions.

<sup>\*</sup> The probability estimated by management is over the expiry date of the performance shares

## Vesting conditions:

- 1. Upon completion of a Mineral Resource estimate (conforming to the JORC Code 2012 Edition or any such subsequent JORC Code) equivalent to 500,000 Oz at a minimum grade of 1g/tonne Au on any mineral deposit in Canada that is validly owned by the Company or its Related Bodies Corporate.
- 2. Upon completion of an economic prefeasibility study or higher in relation to any project in Canada that is validly owned by the Company or its Related Bodies Corporate.

The remaining expense of \$2,548 is in relation to performance rights granted in previous periods that are expensed over the vesting period.

The vesting of all performance rights granted is also conditional upon the holder's continued employment with the consolidated entity.

## 9. Commitments for expenditure

## Capital

There are no capital commitments at 30 September 2021 (30 June 2021: nil).

## **Exploration and evaluation**

The consolidated entity is required to maintain current rights of tenure to tenements, which require outlays of expenditure in future financial periods. Under certain circumstances these commitments are subject to the possibility of adjustment to the amount and/or timing of such obligations, however they are expected to be fulfilled in the normal course of operations.

The company has tenement rental and expenditure commitments payable of:

- Not later than 12 months
  - Between 12 months and 5 years
  - More than 5 years

## 11. Contingent assets and liabilities

Contingent assets

The consolidated entity had no contingent assets as at 30 September 2021 and 30 June 2021.

Contingent liabilities

The Group acquired a 100% interest in No. 75 Corporate Ventures Ltd in the prior year. No. 75 Corporate Ventures Ltd holds 100% interest in the rights over the Blackdome project in Canada. There is significant uncertainty as to what future liabilities will arise in relation to potential closure and rehabilitation costs, contingent on determination of costs through completion of the closure and reclamation plans required by the Ministry of Energy, Mines and Petroleum Resources in Canada. All known costs that currently can be reliably measured have been recognised in provisions as disclosed in Note 6(b). The outcome and costs resulting from the approved rehabilitation plan as required by the Ministry of Energy, Mines and Petroleum Resources, cannot be measured sufficiently at this time.

The Group's subsidiary, Condor Gold S.A., recognised a claim for tax liabilities in regards to a portion of the Rio Zarza licence that was sold by Condor Gold pre acquisition. There is significant uncertainty as to what future liabilities will arise in relation to this claim as the matter is still preliminary and is contingent on the outcome determined by the tax authority, affecting the amount required to settle the claim which cannot be measured with sufficient reliability at this time. All known costs that currently can be reliably measured have been recognised as a liability, as disclosed in Note 6(a). As more information is obtained regarding the claim from the tax authority, judgements and estimates may increase or decrease the possible impact on the Group's financial statements.

The consolidated entity had no other contingent liabilities as at 30 September 2021 and 30 June 2021.

## 12. Events after the reporting date

It was announced on 26 October 2021 that 366,000 performance rights that were previously issued to Directors and Management expired on 25 October 2021. 2,400,000 performance rights which lapsed during the quarter, expired on 25 October 2021.

On 12 November 2021, 4,000,000 unlisted options were issued to Aesir Capital Pty Ltd as consideration for services provided for the two capital raisings that occurred in May and August 2021. This consists of 3,000,000 unlisted options exercisable at \$0.20 and 1,000,000 unlisted options exercisable at \$0.25 expiring on 12 November 2024.

Whilst exploration activities have been able to continue, the impact of the Coronavirus (COVID-19) pandemic is ongoing. It is not practical to estimate the potential impact, positive or negative, after the reporting date. The situation is continually developing and is dependent on measures imposed by Australian, Canadian and Ecuadorian Governments, and other countries, such as maintaining social distancing requirements, quarantine, travel restrictions and economic stimulus that may be provided.

Management are not aware of any matters or circumstances that have arisen since the end of the financial period which significantly affected or may significantly affect the operations of the consolidated entity the results of those operations, or the state of affairs of the consolidated entity in future financial years.
